GRADUATE ADMINISTRATORS

Directors of Graduate Programs/Graduate Services Coordinators

Overview

Users with the role of Directors of Graduate Program and Graduate Services Coordinator access SIS through MYPACK portal.

Objectives

This section of the SIS Training and Operations Manual guides these users in the use of a number of critical components. These include graduate student Patent Agreements, Plans of Work & Advisory Committees, creating Plan of Work Templates, Registration Advising Service Indicators, processing and creating Student’s Applications for Graduation, assigning graduate student faculty advisors and inquiry on student admissions and academic records.

Reminder

Accessing MYPACK Portal requires the use of your Unity ID and password

Terminology

See http://www.fis.ncsu.edu/sis/training/SISTerm.pdf for a complete SIS glossary.

Graduate Plan of Work Search for Patent Agreement Information
Step 1
Enter the student ID in the Emplid field. You may search for students by academic program or plan. You may also search by name. Note: For students with more than one active academic plan, you may narrow your search results by entering the plan which you wish to create in the search criteria.

Step 2
Click Patent Agreement

Tab Name
On the Patent Agreement Tab, you will see if the student has “submitted” either the paper Patent Agreement or submitted the electronic Patent Agreement. If a paper form was submitted, it will be stated on the agreement line along with the date and time of acceptance.

The Graduate School - Patent Agreement

I have read and I understand the Patent Procedures of North Carolina State University. I also understand that compliance with the Patent Procedures is a condition of my being a graduate student at North Carolina State University.

I, therefore, agree to abide by the Patent Procedures, including any amendments which may be adopted from time to time.

I acknowledge my obligation to communicate promptly to the University Office of Technology Transfer a full and complete disclosure of all inventions. Further, I will assign, and hereby do assign, to the University my right title and interest in all inventions that I conceive or reduce to practice during the course of my employment or in connection with the use of University facilities or funds administered by the University.

In the event that the University determines, in its sole discretion, to pursue patent or other intellectual property protection, I agree to execute any assignments or other documents necessary to comply with the terms of the Patent Procedures, and to cooperate in the preparation of patent applications and other documents necessary in prosecution of the patent. I also understand that University's funding agreements with third parties, including the United State Government, impose certain obligations with respect to rights in inventions and, when requested to do so by University, I will execute assignment or other documents necessary to comply with the terms of the funding agreements.

I understand that, unless otherwise specifically agreed in writing, I am entitled to a percentage of royalties received by University from the commercialization of my inventions, as set forth in the Royalty Sharing Regulation of North Carolina State University, as may be amended from time to time.

I do not have any employment, consulting or other agreement with any third party which grants rights that are in conflict with this agreement, and I agree that I will not knowingly enter any such agreement.

Processing Graduate Student Advisory Committees and Plans of Work

This section describes the process of reviewing Plans of Work and advisory committees created by students through self-service and approved by the graduate advisory committee. Routine processing of Plans of Work and advisory committees is performed using the Worklist.

Objectives

Workflow routing of Plans of Work is controlled by major academic program. Plans of Work may also be accessed directly through Student Information Systems > Admin Services > Advising > Graduate Plan of Work. The Plan of Work does not route to the worklist of co-major directors of graduate programs.

Terminology

See [http://www.fis.ncsu.edu/sis/training/SISTerm.pdf](http://www.fis.ncsu.edu/sis/training/SISTerm.pdf) for a complete SIS glossary.

Navigation

Main Menu > Student Information Systems > Worklist > Worklist

Worklist

Step 1

DGP’s should access their Worklist. Plans of Work requiring your attention will be listed.

Step 2

Access a graduate student’s plan of work and committee from the Worklist by clicking the link with the student ID number and name. Work items in the list will be marked as having been routed from the last user to route the item. Worklist items may be reassigned by using the reassign button. Worklist items remain in the Worklist until action has been taken.

Tab Name

Plan of Work Tab
Step 1  Review the degree completion time limit.

Step 2  Review the Academic Program and Plan.

Step 3  Review messages.

Step 4  Review plan status. Status is displayed in two places. A pending status (a) indicates that there is work to be done to process the plan through final Graduate School approval. The status message (b) explains the location of plan in the process and the work to be performed.

Step 5  Review the plan course work. By default, courses are ordered by type and term. You may reorder them to suit your needs by clicking on any column heading.

a) Course Type may include Major, Co-Major, Minor, Co-Minor, and Other.

b) The Requirement/Course Description column provides information about requested course transfer credit or lump sum credit from a previous graduate degree, at NC State or external schools. The requirement may also list the course title, as it is listed on the course schedule.

c) The Class column comes from the course catalog or the student’s transcript. In the case of requested course transfer credit or lump sum credit from a previous graduate degree, at NC State or external schools, the subject will display TR and the catalog will display 999.
d) **Units** come from the course catalog, the student transcript or are entered when the plan of work is created in the case of variable credit courses from the catalog, requested course transfer credit or lump sum credit from a previous graduate degree, at NC State or external schools.

e) **Term** is pulled from the student’s transcript or is entered as a future term, when the plan of work is created.

f) **Enrolled** represents the term of enrollment.

g) **Grade** is pulled from the student transcript when the specified course is actually graded. *As students progress through the graduate career, their transcript updates the matched courses on their plan of work regardless of the term in which the course is taken.*

Note: Students may not submit Plans of Work that do not meet minimum hour requirements. DGP’s and Graduate Services Coordinators can override these requirements.

**Tab Name Committee**

**Step 1**
Review the student’s **Co-Major Program**, **Minor Plan** and/or **Co-Minor Plan** if applicable. These are entered by the user creating the committee. Students, Directors of Graduate Programs, Graduate Services Coordinators or Graduate Records Officers in the Graduate School can enter or update committees. Once the plan or work is approved through the Graduate School, **Co-Major Program**, **Minor Plan** and/or **Co-Minor Plan** must be entered on the **Student Program/Plan** by the Graduate Records Officer in order to make it part of the student’s office record.

**Step 2**
Review the members of the committee.

a) **Accept** – A check mark here indicates that the committee member has accepted the invitation to serve. Acceptance of the invitation can be marked by the committee member them self, the Directors of Graduate Program, Graduate Services Coordinators or Graduate Records Officers in the Graduate School.
b) **Approve GPoW** – A check mark here indicates that the committee member has approved the plan of work. Approval for a given committee member can be marked by the committee member them self, the Director of the Graduate Program, Graduate Services Coordinators or Graduate Records Officers in the Graduate School. A committee member may accept the invitation to serve but postpone approval of the plan of work.

**Step 3**

Select the action the committee member needs to take. “Accept Membership and Approve GPoW”, “Accept Membership Only (Approve GPoW Later)” or “Decline Membership (no GPoW Action).”

**Tab Name**

**Comments**

---

**Step 1**

Review existing comments. Comments are displayed in the order created. Each comment indicates the name of the user who created it, the comment type and the date it was created. Students can add comments when they create their plan or work or afterward. Comments may be added by students, committee members, Graduate Services Coordinators, Directors of Graduate Programs and Graduate Records Officers.

**Step 2**

Add comments as necessary. You may delete comments you have added. Comments may be marked to hide from students.

**Step 3**

Click **Save**

**Tab Name**

Return to the Plan of Work tab to complete your review.
Step 1

There are two review outcomes. Click the appropriate button at the bottom of the Plan of Work tab.

a) **Approve** – The plan is approved by the DGP. For students with certain minor plans, the plan of work will route to the Worklist of the DGP for the minor plan program. Otherwise the plan or work will route to the appropriate Graduate Records Officer (College Liaison). A message is displayed indicating that the plan of work and advisory committee are awaiting further approval. They are awaiting either Minor DGP or (GSA) Graduate School Administrator Approval in the approval process. After DGP approval, the plan remains in a pending status, awaiting further action until it is finally approved by the Graduate School.

b) **Return to Student for Update** – This marks the plan of work with a status of denied. A comment with the denial reason is required. A message is displayed indicating to the student that they should check the comments section or contact their academic department for details. In this status anyone may access the plan of work to make updates and process. The plan of work must now be returned through the approval process. The student may access and update the plan of work while it is in this status. Committee Acceptance and approval remains in place in this status. In this status the plan of work may be accessed by the DGP or Graduate Services Coordinator by navigating to Student Information Systems > Records and Enrollment > Admin Services > Advising > Graduate Plan of Work. When accessed by this means the plan of work may be updated and/or submitted for approval.

Note: Help link available – “This marks the PoW as DENIED”

Creating Graduate Plans of Work and Advisory Committees as an Administrator
Objectives

This section describes how users with the role of Directors of Graduate Programs or Graduate Services Coordinators can create graduate Plans of Work and advisory committees on behalf of graduate students.

Reminder

All graduate students can enter their Plan of Work and Advisory Committee online via Student Self Service in MYPACK Portal. For administrators, access to the GPoW Admin (update) page is controlled by Plan security.

Graduate Plan of Work Search

Step 1

Enter the student ID in the Emplid field. You may search for students by academic program or plan. You may also search by name. Note: For students with more than one active academic plan, you may narrow your search results by entering the plan which you wish to create in the search criteria.

Step 2

Click Search

Tab Name

Plan of Work
Choose a course type (CoMajor, CoMinor, Major, Minor, or Other)

Click “Select” to add the first course (See steps 1-2 below). Course Description, Class, and Unit values will default.

Use the drop down arrow to choose the term for future courses

Click the “Add Row” button to add additional courses

Click to delete the row

Click to save changes at any time.

“Start Over” permanently clears all values and rows

Step 1

You may add courses from the course catalog, NC State graduate career transcript, NC State non-degree transcript, or as transfer credit. In the search fields enter a subject. You may also enter a catalog number to filter the search results further.
Note: Transfer credit is used to manually enter specific courses from an external institution or lump-sum hours from a previous graduate degree at NC State or an external institution.

Click the radio-button beside transfer credit, click Search and click on the link “Transfer Credit”. Once you return to the plan of work, you will need to enter a description in the requirement field along with the appropriate units (credit hours) for the transfer credit.

**Step 2**

1. Search results may be sorted by clicking any column header.
2. Select a course by clicking the link in the Course column.
**Step 3**

You may want to update the maximum degree completion term to reflect special circumstances, if applicable. You will receive warnings when submitting the plan if courses are entered beyond the maximum time limit, however, you may override this warning.

---

**Tab name** Committee

**Step 1**

1. Enter appropriate Co-Major Program, Minor Plan, and/or Co-Minor Plan.

2. Use drop down menu to choose member Type: Chair, Co-Chair, Consultant, External, Inter-Institutional, Member, or Minor. The presence of a minor-plan does not enforce the addition of a minor representative. Add a minor representative if appropriate.

Note: External members, technical consultants, and Inter-institutional members can be added as members of the committee. These are member types. These member types may be added by any
user creating the committee. These types of members are never automatically notified by email when added to committees since they do not have access to MyPack. Approval of these member types is included as part of the Graduate Records Officer review. The College Liaison can approve on behalf of the External members, technical consultants, and Inter-institutional members only with written notice. An email from that committee member services as the written notice.

Note: Users may list either an outside committee member or minor rep as the GSR. The system allows the GPoW to be submitted with the same person listed twice, but in different roles. The GPoW does not count the person who was listed twice as counting as two of the required committee participants.

3. Click the “Search Criteria” icon to select the “Faculty Member Search” to appear.

When the Faculty Member Search prompt appears, type the committee member name and then select “Look Up”.

[Image of Faculty Member Search interface]
A record will be returned for each academic program the graduate faculty member may represent. Select the correct Academic Program that the committee member is representing. Committee chairs must be assigned to the committee in the program that matches the student’s academic program.

4. For Chair, Co-Chair, Member, and Minor: the Program Represented and Grad Faculty Status will auto populate will default when faculty member is selected.

5. Click **Add Row** to add additional members to committee.

You may accept membership and approve the plan of work for the committee members unless you intend for them to review the plan through their Worklist. To do so, simply click to check inside both boxes on the committee member row. Indicate acceptance and approval for the external member.

6. Click **Save** to save. Committee can be saved, revised, and saved again prior to submitting for approval.

**Step 2**

To remove an existing member, click the delete button on the right side of the member row.
There are two options when adding a Grad School Rep (GSR).

1. If the person is already on the student’s committee OR
2. If the GSR has no other role on the committee

If the GSR is a person that is already on a student’s committee and they represent a plan that is not the same as the students major. In this case the student can select the "outside rep" check box.

If the GSR has no other role on the committee, then you add a new row and select the GSR "type".
**Tab Name**

**Comments**

**Step 1**

Enter comments on the comment tab as deemed appropriate. Thesis and Dissertation titles should be entered as comments.

When finished creating the plan of work and committee, return to the Plan of Work tab.

**Step 1**

Submit the plan for approval. Once submitted, the plan will be in a Pending Status. A status message will display on the plan: *The plan of work and advisory committee have been submitted for approval. They are awaiting …… Approval in the approval process.* If you did not check the committee member approval/acceptance boxes, then the plan of work will route to their Worklists, otherwise, it will route to the DGP Worklist.

**Step 2**

*Submission warnings and messages:* The plan of work might issue certain warnings and messages upon submission.
Updating Existing Plans of Work and Advisory Committees Prior To Initial Graduate School Approval

Objectives

This section describes how users can modify existing graduate Plans of Work and advisory committees before they have been submitted for approval through workflow by the DGP and approved by the Graduate School. This includes changing courses and committee members.

Reminder

Students can change or correct their own Plans of Work through student self-service if the Return to Student for Update or the Reset buttons are used. Students do not receive automated workflow email notifications. If a plan is returned to the student and the student resubmits it, it is only routed again to the committee members, if the acceptance and/or approval checkboxes were removed. A plan of work returned to the Student for Update is assigned a denied status.

Navigation

Graduate Plan of Work

Step 1

Enter the EMPLID and search for the plan. Be sure to enter the academic plan if the student is active in more than one plan. Accessing the plan in this manner allows for updates. If necessary click the Reset button at the bottom of the plan of work screen.

Step 2

Adding courses: Add courses following the same procedure used when creating a plan of work by clicking the Add Row button.

Removing courses: Locate the course(s) you wish to remove and click the button.

Step 3

Adding Committee member(s): Navigate to the Committee tab. Click the Add Row button. Add the new committee member following the same procedure outlined for creating committees.

If you wish to accept membership and approve the plan of work on behalf of the committee member, be sure to check both check boxes. The committee member will not receive an email workflow notification to access the plan through their Worklist.

Removing Committee Members: Locate the member(s) you wish to remove and the click the button.
Step 4
When changes are complete, go back to the plan of work tab and click the “Submit for Approval” button. If committee members’ check boxes are blank, the plan of work will first route to their Worklist for acceptance/approval.

Step 5
The DGP will then access the plan of work through their Worklist. Plans of Work requiring minor DGP approval will be routed to those DGP’s once they are approved by the major DGP.

Changing Existing Plans of Work and Advisory Committees After Initial Graduate School Approval

Overview & Objectives
Once Plans of Work have been approved by the Graduate School they may be updated, by either students, Directors of Graduate Programs or Graduate Services Coordinators. Once initially approved by the Graduate School, plan of work Change Tracking is invoked. This feature allows users to see what types of course changes have been made, if any. This section describes how users can modify existing graduate Plans of Work after they have been approved by the Graduate School. This includes changing courses and committee members.

Navigation
Main Menu > Student Information System > Admin Services > Advising > Graduate Plan of Work

Reminder
After approval by the Graduate School the plan of work is assigned a status of Approved. The status messages displays: This plan of work and advisory committee have been approved (date). Contact your academic department if you need to modify the plan.

Step 1
To update a plan of work after initial approval by the Graduate School, it must be reset by clicking the Reset button at the bottom of the plan of work screen.

Step 2
1. Check the box to the left of the course that you wish to change and click the Change Selected Row button. 3. The selected course is highlighted as (Replacing “Name of Course”) and a new row inserts immediately below it. If you wish to replace the previous course, 4. click the Select button on the new row and choose a new course following the same procedure referenced for creating the initial plan of work.

Note: if you only want to delete the course on the (Replaced) row, then you should leave the new row blank.
Step 3

Once the new course has been selected it will be highlighted as well. Course changes for previously approved plans are tracked until the revised plan is reapproved by the Graduate School.

Step 4

Committee changes may be made following the same procedure outlined for making changes prior to Graduate School approval. Committee changes are not tracked.

Step 5

Be sure to Save your changes and when finished click the button to send it through workflow again. It will only go to committee members if you unchecked the boxes next to their name. The status for the PoW will be Pending.

Note: Changes are NOT required for students taking courses during a different term than originally scheduled on the plan, these will auto-populate with the correct term once the course is posted to the transcript.

Multiple Active Academic Plans and Multiple
Plans of Work and Advisory Committees

Overview
In SIS, students may be active in more than one academic plan at a time, for instance in the case of a masters en route. Students, Directors of Graduate Programs and Graduate Services Coordinators may create a plan of work for each active plan.

Reminder
Each plan of work is processed in the same manner through workflow.

Navigation
Main Menu > Student Information System > Admin Services > Advising > Graduate Plan of Work

Step 1
Access the second plan of work through the Graduate Plan of Work Administrative page. For students with multiple active academic plans you must choose the correct plan template.

Step 2
If the second plan contains courses also included on the first plan, a new column will appear with a red star next to courses included on both plans.
Move or Delete Plan Of Work

Overview

In SIS, administrators can move a plan of work from a discontinued or changed plan, to a newly active plan (such as MS to MR); administrators can also delete a plan of work from an inactive or discontinued plan.

Terminology

See [http://www.fis.ncsu.edu/sis/training/SISTerm.pdf](http://www.fis.ncsu.edu/sis/training/SISTerm.pdf) for a complete SIS glossary

Navigation

Main Menu > Student Information Systems > Admin Services > Advising > Move or Delete Plan of Work

Move or Delete Plan of Work

1. Enter the EmplID (student ID number) and click the Search button.
2. If the plan of work does not open, then this student did not previously complete a plan of work in the inactive/discontinued plan. Otherwise, the plan of work should appear as in the below picture.
3. If you will move the plan of work, use the drop down box beside Acad Plan, in order to select the plan to which you will move this plan of work. You will then need to use the drop down box beside Template, and select a template. Click the Move button. You will receive a confirmation pop-up after the move is complete.

Note: If the student has already created a plan of work for the newly active plan, then you will not be able to move the old plan of work.

If you do not want to move the plan of work, but will delete it, then simply click the Delete button. You will get a verification page, asking if you are sure that you want to delete this plan of work. Click Yes. You will receive a confirmation pop-up after the delete is complete.

Note: It is important to delete the old plan of work, if you will not move it to the new plan; so that the red stars, indicating multiple plans, do not cause confusion on a new plan of work.

4. Last you will need to go to the Graduate Plan of Work page to submit for approval to put it back into workflow.
Queries for GPOW and Committees

Reminder
Queries are run against the Reporting database which contains data from the previous day’s work. This means that results are as of the close of business on the previous day, as opposed to current.

Terminology

Main Menu > Student Information Systems > Monitoring Tools & Reports > Query Viewer – Reporting

See detailed instructions for running queries in Appendix, “Instructions for Running a Query”

List of Queries

SIS_GRAD_POW_WORKLIST_STAT
This query is intended for Graduate Services Coordinators to view a list of all pending or open items on a DGP’s Worklist. After the User ID (Unity) of the DGP is entered, the following information is provided: the Name of the Worklist Item, Student Name, Student ID (EMPLID), User ID of the Item Originator, Priority (if set), Date/Time of Last Update, and Status (pending or open).

Users must have the role NCS CAMPUS SR Query to run this and other queries.

SIS_GRAD_REP
View all previous committee assignments as grad rep for a faculty member.

SIS_GRAD_STU_CMTEE_PUB
The user can view a list of all students on which a particular faculty member serves as a committee member or Chair. Results also display whether or not the role has been accepted and whether or not the faculty member has approved the Plan of Work (POW). Fields displayed are Student Name, Student EMPLID, Academic Program, Academic Plan, Minor Plan, Committee Role, Accept Committee Role, Approve POW. The last two columns (Degree Status and Degr Status Dt) are populated if the person was awarded a degree in the same academic plan.

The role required to access this query is NCS CAMPUS SR Query.
SIS_GRAD_GPW_GS_APRVL_PUB

This query allows personnel to obtain a list of all students in a program whose graduate POW has been either approved or denied by the Graduate School after a prompted date.

Upon input of the Starting Date, Institution and Acad Program, the following information is provided for each student in the list: Academic Program, Academic Plan, Student Name, EMPLID, and Status.

The role required to access this query is NCS CAMPUS SR Query.

SIS_GRAD_POW_WORKFLOW_HISTORY

This query allows personnel to obtain a complete Plan of Work History for a student.

Upon input of the student ID (EMPLID), the following information is provided for each Worklist item for the student in status of pending, open, or closed: Worklist item, Worklist Owner Name and ID, Item Originator Name and ID, Status, Date/Time of Last Update, Student Name and ID, Student’s Academic Program, and Student’s Academic Plan. Items are sorted by Last Update date/time.

The role required to access this query is NCS CAMPUS SR Query.

SIS_GRAD_POW_ACAD_PROG

This query allows personnel, upon input of an academic program code, to obtain a list of all graduate Plans of Work with a status of open or pending for all students in that academic program.

The following information is provided for each plan of work: Student Name, Empl ID, POW Status, POW Status Message, Worklist Item, Worklist Owner Name and ID, Item Originator Name and ID, Item Status, and Date/Time of Last Update.

The roles required are those normally set for a Graduate Services Coordinator and DGP, as well as the NCS CAMPUS SR Query.

GRAD_ARCHIVE_COMM_SVC_BY_ID

This query allows personnel, upon input of a graduate faculty ID, to obtain a list of all graduate committee on which a faculty member has served. Some data goes back as far as December 2001.

GRAD_ARCHIVE_COMM_SVC_BY_PGM

This query allows personnel, upon input of a graduate academic program, to obtain a list of all graduate committees on which a faculty member within that academic program has served. It includes the faculty member’s name, the name of the student whose committee they served, the students academic program and degree, and the students graduation date. Some data goes back as far as December 2001.
Creating Plan Of Work Templates

Overview

In SIS, administrators may create plan of work templates. The template is beneficial for programs who have set course requirements; including core courses, concentrations, electives, etc.

Reminder

All academic plans have base templates. These base templates enforce only University level requirements.

1. Type in your Academic Program, click the **Search** button.

2. If your program has more than one Academic Plan, then you will need to select the plan template that you want to view from the search results (OR you can narrow your search by entering the Academic Plan, in the search field). Note: You can create a template for each plan and sub-plan. Also, you may create different template versions within each plan and sub-plan (for instance a non-thesis Master and a thesis Master template).
Example of a Base Template

**Graduate Plan of Work Template Definition**

If you wish to create your own template, you will need to create a Course List.

**Define Course List**

**Navigation**

Main Menu > Student Information Systems > Academic Advisement > Academic Requirements > Define Course Lists

**Step 1**

Click the “Add a New Value” tab at the top.

**Step 2**

Click the Add button, leaving the Course List field alone.
Step 3

1. Write a “Description”. The description can be the name of the course, or if you will create a group of courses, it can be the name of the grouping, such as Core Course Requirements. The Description field is what the student will see, as the requirement, on the plan of work.

2. Write a “Short Description” for the course list. This is only a shortened description and is not viewed by the student.

3. Include the “Academic Career” (always GRAD)

4. Include your “Academic Program”

5. Click the “Save” button

The latter two are not required, but it is important to enter this information to ensure that you are able to locate your course lists in the future. You should not change any other required fields, other than the description and short description. Required fields are denoted with an *.

Step 4

Next, click on the “Course List Detail” tab at the top. Leave the Course ID field blank and click on the look up button (looks like a magnifying glass).
Note: You may skip steps 4-6 and leave the course ID blank, if you want to allow the student to be able to search the entire catalog to fulfill this requirement. For example, if this requirement is to fulfill an elective, you may allow them to search the catalog.

**Step 5**

1. Enter the “Subject Area” of the course
2. When entering the “Catalog Nbr”, you will need to select “contains” from the drop-down list. Type in the course catalog number, and click the Look-Up button.
3. Find the course, and click on it.

**Step 6**

The Course ID field is now populated, as seen below. If there are any cross-referenced courses, they will be listed, as seen below. Click Save.
It is a good idea to write down the newly created Course List number, as seen in the circle below. This number will be used later on, to finish the template creation.

**Step 7**

If you will create a choice group, within this course list, you may add additional courses by clicking the ‘+’ symbol, and following steps 4-6 from above. Repeat as necessary, until you have added all courses within the choice group. Click Save, when finished. **You may skip this step and continue to step 8, if you are only creating one course requirement within this list.**

Note: Adding additional courses allows the student to choose from all courses included in the course list. For example, you could call the course list “Required Core Courses” and have five courses listed, requiring them to select three of the five to fill the core course requirement.

**Step 8**

If you have more requirements, then you will need to add additional Course Lists. Click on the “Add” button at the bottom of the screen, and follow steps 2-7 again. Repeat as necessary, until you have defined all course lists.
Now that you have created all of your course lists, you need to begin creating the template.

**Main Menu > Student Information Systems > Admin Services > Advising > GPoW Templates**

Follow the instructions from page one, on how to view your base template.

**Important Note:** You should never change the status of your base template to “Inactive”, or change the effective term, or delete your base template, UNLESS you have another template that will take its place.

You may either add directly to this base template; or you can click the “+” box at the top, in order to add a new row. This will save a blank base template, and allow you to add your course lists to a new effective dated template row. Follow the steps below to add your course lists:

**Step 1**

1. Enter the “Seq” number, under “Course Lists for Requirements”. Note: start with the number 10 and increase incrementally by 10 for each new row that you add. For example, the next row is 20, then 30, and so on.

2. Enter the “Type” from the drop-down list. Most likely, you will choose “Major”.

3. Now, you can either type in the course list number, if you wrote it down earlier, or you can use the look-up button.
If you use the look-up button, you will need to filter the list results, by selecting “Academic Program” from the Search by drop-down list. Type your Academic Program and click enter or the yellow Look Up button. This should bring up your entire group of course lists that you created for your program. Select the proper course list, by clicking on the academic program link next to it.
**Step 2**

Continue to add your course list numbers, by clicking the ‘+’ symbol next to your last added course list and repeat step 1. Repeat as necessary, until you have added all of your course lists. Click Save.

Note: you can add the same course list more than once. For instance, if you added more than one course to a course list; such as the “Required Core Courses” example from above, and you want the student to select three courses to fulfill this requirement, then you need to add this course list three times, by adding additional rows.

**Example of the template with all course list requirements**

![Graduate Plan of Work Template Definition](image)

**Providing a URL link for instructions**

You may enter a URL link on your template. This URL can be linked to your degree requirements or specific instructions (on your homepage) on how to complete the plan of work.

Enter the “URL Title” that you want displayed on the plan of work and the “URL” link, as shown below. Click Save. (Note: you will need to include “http://www.”... at the beginning of your URL).
Modifying the Course List

Once you have created course lists, you may return to them to make modifications.

**Reminder – If your degree requirements change, you will need to update your templates and make modifications.

Student Information Systems > Academic Advisement > Academic Requirements > Define Course Lists

**Step 1**

Enter your “Academic Program” and click the Student Information Systems > Academic Advisement > Academic Requirements > Define Course Lists button.

**Step 2**

The search results will return with all course lists associated with your academic program. Click on the one that you will modify.
Step 3

You will need to click the Correct History button at the bottom of the screen, if you plan to make changes. Make your necessary changes and click save.

Step 4

If you will make changes on the “Course List Detail” tab, you will need to click the “Fetch” button, to pull up your previous course lists. Make any necessary changes and click save.
Creating multiple templates within a plan

You may create multiple templates for each plan and sub-plan. For instance, you can create a thesis and a non-thesis template for a Master of Science plan.

**Navigation**

Main Menu > Student Information Systems > Admin Services > Advising > GPoW Templates

**Step 1**

If you will create more than one template for a plan, you will need to be on the Graduate Plan of Work Template page, then you need to click the “Add a New Value” button.

**Step 2**

1. Enter your “Academic Program”

2. Enter the “Academic Plan”, to which you wish to add an additional template.

   The “Academic Sub-Plan” can also be entered, if you are adding an additional sub-plan template

3. Next you need to give a “Description”. The description is visible to the student when they enter the plan of work.

4. Finally click the “Add” button.
Step 3

Your new template is now ready to create. You will need to enter the “Min Units” (30 for Master and 72 for PhD), “Maximum Years” (6 for Master and 10 for PhD) and if this is an Option B program, you will need to check the “Option B” box. Click Save.

Now, you may use existing course lists, or create new ones for this template.
Step 4

You are able to make your new template be “Active” or “Inactive”. For instance, if you are in the process of creating your template, but you are not ready for students to begin using it, then you will set the Status to “Inactive”, from the drop-down list. Also, if you want to retire a template, you can simply set the status to “Inactive”.

Note: You will always need at least one “Active” template that is accessible to all of your students.

**Requirement Groups for Validation**

You can define requirement groups in your template. Requirement groups on the template can be used to disallow use of a specific course, or particular levels of courses. It can be used to disallow courses from a certain program. You can use them to disallow thesis/dissertation preparation courses. It can be used to allow only a certain amount of hours of a particular course, etc.

**Define Requirement Groups**

If you wish to create requirement groups, you will need to define the requirement group list.

**Navigation**

Main Menu > Student Information Systems > Academic Advisement > Academic Requirements > Define Requirement Groups

**Step 1**

Click the “Add a New Value” tab
**Step 2**
Leave the Requirement Group field alone and click the “Add” Button

**Step 3**
1. **Academic Career**: Include the “Academic Career” (always GRAD)
2. **Academic Program**: Include your “Academic Program”.
3. **Search Description**: Write a “Description” of the requirement. Search Description appears on the search result page for requirements groups. Short Description doesn’t appear anywhere but on the page where you enter it.
4. **Short Search Description**: Write a “Short Description” of the requirement. *This is only a shortened description and is not viewed by the student.*
5. **Long Descriptions**: A “Long Description” is required. The detail that you write here is what the student will see on the plan of work, as warning error, if they fail to meet the requirement; so be specific.
6. **Report Description**: Report Description is displayed on the delivered advisement report that is generated using the Request Advisement Report or Generate Advisement Reports components.

7. **Report Long Description**: Report Long Description is displayed on the delivered advisement report that is generated using the Request Advisement Report or Generate Advisement Reports components.

*The academic career and academic program are not required, but entering this information will ensure that you are able to locate your course lists in the future. You should not change any other required fields, other than the description, short description, and long description. Required fields are denoted with an *. *

**Step 4**

1. Click on the “Detail” tab.

2. If you are defining a requirement that only requires using the subject area, or course number only, but not both together, then you will need to select “Wild Card Course” from the drop-down list.

   If you are defining a requirement to require a certain course, or disallow a course, you will need to select “Course” from the drop-down list. “Course” will be used when you know the exact course subject and number.
3. If you selected “Wild Card Course”, then you will need to include the Subject or Catalog Nbr. 
   Note: If you will allow all courses within a particular subject, then you can just leave the Catalog Nbr. blank. Click Save.

   Note: The “#” symbol is the wildcard key. If you wish to disallow all 400 level courses, you would enter the subject area, if relevant, and in the Catalog Nbr field, you would enter 4##.

   If you need to add additional lines to this group, you can click the ‘+’ symbol on the right.

   If you selected “Course”, then you will need to use the Course ID look-up (looks like a magnifying glass) to locate the course ID number.

   a. Enter the “Subject Area” of the course

   b. When entering the “Catalog Nbr”, you will need to select “contains” from the drop-down list. Type in the course catalog number, and click the Look-Up button.

   c. Find the course, and click on it. The course ID is now populated. Click Save.

   **Step 5**

   Click the “Add” button at the bottom of the screen, if you need to add more requirement groups and follow steps 2-4 from above.
Step 6

Now that you have defined all requirement groups, you need to return to the plan of work template.

Menu Navigation: Main Menu > Student Information Systems > Admin Services > Advising > GPoW Templates

Follow the instructions from page one on how to view a base template, to which you wish to add requirement groups for validation.

Now that you are at your template, use the look-up button beside the first line under Requirement Groups for Validation.
Step 7

You will need to filter the list results, by selecting “Academic Program” from the Search by drop-down list. Type your Academic Program and click enter or the yellow Look Up button. This should bring up your entire list of requirement groups that you created for your program. Be careful, because this screen is also used by other campus departments, so you only want to select the proper requirement group that you created.

Step 8

Now, you want to use the Min/Max drop-down list. If you are completely going to disallow the course(s) on your requirement group, you want to select “Max”. Also, if you are only allowing a certain number of hours from the course(s) on your requirement group, you want to select “Max”. You would enter “Min” if you are requiring at least _ number of hours in that requirement group.

Next, enter the number of Cr Units. If you are not allowing the course to be used, you will enter 0. If you are only allowing a maximum of 2 hours to be used, enter 2.

Click the ‘+’ symbol to finish adding all of your requirement groups. Click Save.

Assigning Independent Graduate Student Faculty Advisors
**Objectives**

This section provides guidance in maintaining graduate student advisors directly through the student advisor page. Students can be assigned advisors before they have created their advisory committee.

**Reminder**

All graduate committee members are automatically assigned an advisor role for the student who created the plan of work once they have accepted membership on the committee. They are added to the student advisor table. The faculty advisor can access the graduate student plan of work and advisory committee via the faculty center. Other administrative users in your academic unit may also have update access to the Student Advisor Page.

Mass assigning Student Faculty Advisors

Objectives
This section provides guidance in maintaining graduate student advisors directly through the student advisor assignment page. Students can be assigned advisors before they have created their advisory committee.

Reminder
All graduate committee members are automatically assigned an advisor role for the student who created the plan of work once they have accepted membership on the committee. They are added to the student advisor table. The faculty advisor can access the graduate student plan of work and advisory committee via the faculty center. Other administrative users in your academic unit may also have update access to the Student Advisor Page.

**Step 1**
Search on Academic Plan or Academic Sub-Plan and click the search button.
Step 2  Filter the list to the students to mass assign an advisor to using the “Filters” box. Filters options are No Advisor, All, or Specific Advisor.

Step 3  Insert the Advisor ID in the “Batch Advisor Assignment” box. If the Advisor ID number is not known, select the magnifying lens to select from a list. The new advisor will be listed for each of the students that were selected in the filter. OR

Step 4  Individually assign advisors.
Curriculum Change by Department

Departments have the ability to process curriculum changes within the same program. Students can be updated from MR to MS within the same program, MS to MR within the same program, and add/move/change subplans.

Navigation

Main Menu > Student Information Systems > Records and Enrollment > Career and Program Information > Student Curriculum Change. Or you can access this from the For Faculty & Staff Pagelet under Graduate Administrators > Additional Resources.

Step 1

Enter the student ID number in the Empl ID field and then click search.
Step 2  All of the active plans and subplans are displayed. Click Change Plan/Subplan and click GO!
**Step 3**

Select the current plan that will be changed. Either search by clicking the magnifying glass or type in the Academic Program, Plan, and Sub-Plan if applicable.

Then choose the new plan or Subplan.

Then select the appropriate Action Reason. The Action Reason will be either Grad Curr/Degree or Change – Intl Grad Curr/Degree Change – US.
Notifying the Graduate School of ‘en route’ Masters

Overview & Objectives

The Graduate School must be notified of intended ‘en route’ Masters. If a student does not have a previous masters in their major, an en-route master's can be added to the PhD plan with a curriculum change form then a second Plan of Work can be submitted for the en-route masters. (For Faculty and Staff > Graduate Records Officers > Additional Resources > Degree/Curriculum Change Form)
Reminder

Upon notification by the DGP of the ‘en route’ program, the Graduate Records Officer will add the Masters academic plan to the student’s program / plan record.

Registration Advising Service Indicators - Administrators

Overview & Objectives

For each academic term, all graduate students have a Registration Advising Services indicator placed on their record. These negative service indicators serve as holds, preventing the student from enrolling in classes until the service indicator is released. These service indicators may be released by Advisors, Directors of Graduate Programs and Graduate Services Coordinators.

Reminder

Multiple users in your academic group and organization have the ability to release Registration Advising Service indicators. Directors of Graduate Programs and Graduate Services Coordinators have the ability to release these indicators on a student-by-student basis or in bulk, for all students in each academic plan in their academic program. PIN numbers are not used in SIS.

To release the hold for ALL students active in the academic plan, click release all holds. You can scroll through all of your academic plans using the Previous in List and Next in List buttons at the bottom of the page.
Processing Applications For Graduation Created In Student Self-Service

Objectives

After a student has applied for graduation through Student Self Service, the Director of Graduate Programs or Graduate Services Coordinator should review and approve before the deadline.

Reminder

Students can only apply for graduation during selected time windows for a specific term. The self-service application for graduation will be used for all academic terms subsequent to spring 2009. Paper diploma order request cards were no longer used for graduations in terms subsequent to spring 2009.

Students cannot withdraw their graduation application once it is created. Only an administrator can do that.

Main Menu > Student Information Systems > Records and Enrollment > Graduation > Graduation Approval

Step 1

On basic search page; Graduation Approval

1. EmplID will return one specific student
2. Completion term alone will return all students who have applied to graduate in that specific term for the programs and plans you have row level security access to.

3. Academic Career will always be “Graduate”

4. Search can also be by Academic Plan Type, Academic Plan, and/or Academic Status.

5. You may also search using the application status. This is very useful to filter for applications that you have not yet reviewed.

Click Search

---

**Step 2**

On the Application Tab, choose:

1. “Department Review Complete”. This serves as the departmental approval to the Graduate School that this student has fulfilled all departmental requirements. Typically a student should have completed at least one of their non-course milestones before an application is marked as “Department Review Complete”.

2. You may also select Application Withdrawn. Always write comments in the comment tab if this option is selected.

3. You may also select Department Denied. Always write comments in the comment tab if this option is selected.
**Step 3**

Comments can be added on the “Application Comments” tab.

**Step 4**

All terms for which the student has applied for graduation can be viewed on the “All Applications” tab.
Applying to Graduate FOR a Student

Objectives
Directors of Graduate Programs or Graduate Services Coordinators can enter and process the application for graduation for their students.

Reminder
Students should create their own application through self-service. When using administrative pages to create graduation applications, one application must be created for each major, minor, co-major or co-minor. Students who create their own application through student self-service need only create one application.

**SIS_GRAD_MLSTN_CMPLT_NOGC**

List of students who have completed all of their milestones but who are not on the Graduation Approval List.

**SIS_GRAD_THESIS_IN_REVIEW_PUB**

Overview and Objectives: This query allows personnel, upon input of the academic term, to obtain a list of all masters and doctoral students who appear on the graduation approval list for that term, have an application status of College Cleared, College Hold, Complete - Accepted or Departmental Review Complete, and who have submitted a thesis or dissertation that is still in "REVIEW" status.

The following information, ordered by last name, is provided for each student in the list: last name, first name, emplid, degree, academic program, thesis/dissertation title and application status.

The roles required are those normally set for a Graduate Services Coordinator and DGP, as well as the NCS CAMPUS SR Query.

**Step 1**
Reports can easily be customized by filling in appropriate fields and check boxes.
1. Available reports are: Academic Difficulty, All Active (enrolled or not), Dean’s List, Enrolled Students, Graduation List, Minority Students, New Students In Career, Unenrolled Students

2. Term selections include all semesters from Fall 2009 through Summer 2, 2016.

3. Click GO

Step 2 Report displays on Results Tab
Admin Report for Students in Minors and Certificates

Objective
Running a typical report will not work if the user is attempting to identify students in a “graduate minor” or “graduate certificate” type academic program.

Step 1
To get a list of students enrolled in a particular career, program, plan, or sub-plan for a given term, you would simply use the appropriate search boxes on the right side of the selection tab at the top. You would then select the “Enrolled Students” report from the Report dropdown and the desired term from the Term dropdown.
Note – to search for certificate students, enter GRAD for the Academic Career and GCERT for the academic program.

**Step 2**

Choose the parameters for your search:
Step 3

You can also click “selection” to edit the search parameters. Make your selection and click “GO” for an updated report.

Graduate Certificates

Overview

SIS provides a mechanism for tracking students in graduate certificate programs. Non-degree seeking students (those who are only interested in obtaining a certificate) can apply to a graduate certificate program via the Apply Yourself admissions application. Students who are currently active in a graduate degree seeking program, and wish to additionally obtain a graduate certificate, should contact the director of the graduate certificate program (DGCP). The DGCP can request the Graduate School activate a degree-seeking student into a formal graduate certificate plan in the Graduate career and to clear them for completion when the time comes. This will be much like adding a minor plan or co-major plan to the official student program plan records. Upon completion of the certificate plan by the DGCP, the Graduate School will clear the student, the certificate will be awarded by the Registrar, and the award published on the transcript.

DGCPs should notify the Graduate School as soon as possible of a degree-seeking student’s intent and your agreement to have them activated into a graduate certificate plan in the graduate career. It is preferable that students not be activated in graduate certificate plans after the start of an academic term in which they are currently enrolled and taking classes toward the certificate. In such cases, set the admit term of the certificate plan effective with the beginning of the next academic term. Students will remain active in the plan as long as they are continuously enrolled in a regular academic term (fall, spring).

Having students who are pursuing graduate certificates coded as such in SIS has a number of direct benefits. One significant benefit is that it allows these students to enroll in the same manner and at the same time as other graduate students. Furthermore, it permits departments to track and generate reports on their certificate-seeking students.
Enrolling Degree Seeking Students in Graduate Certificate Academic Plans

Objectives

This section provides step to notify the Graduate School to activate a student in a Graduate certificate program.

Reminder

You should notify the Graduate School as soon as possible of a student’s intent and your agreement to have them activated into a graduate certificate program. In order to activate a degree-seeking student into a formal graduate certificate plan, the “Graduate Student Certificate Plan Data Entry” form found on the graduate school forms page must be completed and submitted to the Graduate School Certificate College Liaison.

Query for List of Students in a Minor or Certificate

Overview and Objectives

*SIS_GRAD_CERTIF_MINOR_PLANS*

The user can view a list of all graduate students enrolled in current or future terms who are also enrolled in a minor or certificate in a user-selected academic plan. Fields displayed are Term, EMPLID, Student Name, FERPA, Gender, Ethnicity, Academic Career, Units Taken for Progress, Total Cumulative Units, Unity ID, Advisor Name, Academic Program, Academic Plan, Academic Plan Type, Cumulative GPA, Current GPA, Academic standing, Tuition Residency, Residency Code, Email Address, Telephone, Mailing Address, and Local Address.

The role required to access this query is NCS CAMPUS SR Query.

Reminder

Queries are run in the Reporting environment which contains data from the previous day’s work. This means that the results are 24 hours old, as opposed to current.

## Expanded Graduate Career Terminology

- **Academic Career**
- **Academic Group**
- **Academic Organization**
- **Academic Plan**
- **Academic Program** - An academic program is the program to which a student applies and is admitted and from which the student graduates. At the undergraduate level and academic program is a college. At the graduate career level, there are distinct academic programs for every area of study, such as mathematics and a biomedical engineering.
- **Academic Structure**
- **Campus Community** - The single system of record for all person data (students, faculty, staff, alumni, external organizations). Data is shared across systems (Student Admin/HR).
- **Graduate Student Checklist** - A checklist is a collection of administrative items assigned to each student based on their academic plan. These checklists are assigned when students matriculate into an academic program and plan in the graduate career.
- **Matriculation** – a program action indicating that a person has completed all necessary steps to become an active student in an academic program.
- **Milestone** - Milestones are non-course related but vital academic requirements a student must complete toward degree progress to graduate.
**Graduate Plan of Work and Advisory Committee Workflow**

How to use the SIS Excel Download Feature:

1. Within the MyPack portal, you will see the following icon (highlighted in screenshot below)...

2. When you click on this icon you will have the choice to download your results to an MS Excel format. You should get a pop-up box that prompts you to either Open or Save the file.

3. If you do not get the pop-up box, please follow the steps outlined on the following Graduate School FAQ webpage...

4. The instructions within the link above cover multiple browsers. If you are still having problems, please contact Darren White (darren_white@ncsu.edu).

Reporting - Queries

INSTRUCTIONS FOR RUNNING A QUERY

Reminder
Queries are run against the Reporting database which contains data from the previous day’s work. This means that results are as of the close of business on the previous day, as opposed to current.

Terminology
See http://www.fis.ncsu.edu/sis/training/SISTerm.pdf for a complete SIS glossary.

Navigation
Main Menu > Student Information Systems > Monitoring Tools & Reports > Query Viewer – Reporting

Page Steps
Query Viewer

1. Query environment
2. You can search for queries by entering all or part of the query’s name.
3. Any queries that have been designated as “Favorites” will display when Query Viewer is opened.
4. Queries can be run to HTML or Excel

Step 1
Entering a string of letters will return a list of all queries that begin with those letters. If you know the name of the query, enter it exactly to return that specific query.
Enter the name of the query in the search box. The field is NOT case sensitive.

Click **Search**

**Step 2**

A list will generate based on the info entered in the search field. Entry of the exact name will return one query.

When the query is run, the user has the option of downloading the results into an HTML report or an EXCEL spreadsheet.

**Add to Favorites**

Clicking on the “Favorite” link will add query to your list of favorite queries.

**HTML**

If you choose “Run to HTML”, a new window will open displaying the results

1. HTML results can be downloaded into EXCEL or Text file

2. Click **View All** to see all results. If “View All” is grayed out, all results are displayed.

3. The report displays the first 100 rows of information. You can click the **arrow** keys to move around in the document.

**NOTE:** HTML file can not be saved unless downloaded into EXCEL or Text file.

**EXCEL**
If you choose “Run to EXCEL”, a new window will open displaying the results. Depending on how your computer is set up, you may get a message asking if you want to open or save the file. Choose

![File Download dialog box](image)

Results are displayed in an EXCEL spreadsheet and can be filtered, sorted, etc. The total number of records returned displays in the first row.

![EXCEL spreadsheet example](image)

NOTE: File can be saved when in EXCEL format.

**Using Enterprise Business Intelligence Reports**

**Step 1**
Login to MyPack. Navigate to the “For Faculty & Staff” tab and click the “Computing” link in the “Campus Resources” pagelet.

**Step 2**
Click on “BusinessObjects InfoView(Prod). This will open a new browser window.
Step 3
In the BusinessObjects window, click the plus sign next to Public Folders to expand the list. Next, click the plus sign next to the GSIS Reporting folder link. This will expand the list, showing four folders, one for each available reporting category (Admissions, Enrollment, GSSP, and Report Archives). When you click on the folder you want, this will display the available reports on the right. Select the report you want by clicking the name.

Step 4
Once the report is displayed, you can hide the navigation panel by clicking the Toggle Navigation toolbar button as shown below. This provides more screen space to view the report and its tabs. Click the button again to unhide navigation.
For reports with multiple tabs, use either tabs at the bottom of the report window or links in the navigation section to the left of the report window, as shown in the picture. If all report tabs are not visible across the bottom, left- and right-facing navigational arrows will be visible in the bottom left corner. Using them will make tabs visible as you scroll.

Step 5
Printing

To print an Excel or PDF version of the Business Objects Report, follow this procedure.

1. Choose the Document menu option

2. Pick the “Save to my computer as” option. Pick either the Excel or the PDF option. The file will then be downloaded to your PC and the Excel or Adobe applications will open. You can then print within either or those applications.

NOTE: If you are using the Internet Explorer browser, you will need to make one change in the browser settings in order to allow downloading and printing.
1. Go to the Tools menu selection and pick Internet Options.

2. In the Internet Options window, pick the security tab. The highlighted zone should be Internet. Press the “Custom level” button.

3. Go down to the option heading Downloads. Go to the option “Automatic prompting for file downloads” and set to Enable. Then press the “OK” button.

4. Press the “OK” button in the Internet Options window.

Adding a shortcut in MyPack MyLinks

If you do not already have a shortcut in MyLinks, this can be a navigations time saver. In the MyPack window, select “Edit MyLinks” and click the “Go” button.

Click “Add Link”

Provide any name you choose for your link and enter the URL shown below. We recommend selecting the “Open in a new window” box. Click save.
