

NEXTGEN Admissions: Online Application Review and Decision Submission for Faculty

Faculty members have two options for accessing the NextGen application review system. The direct URL is go.ncsu.edu/nextgen_faculty or it can be accessed within the MyPack portal; navigation: Main Menu>Student Information Systems>Faculty Services>Graduate Application Review>Application Review.

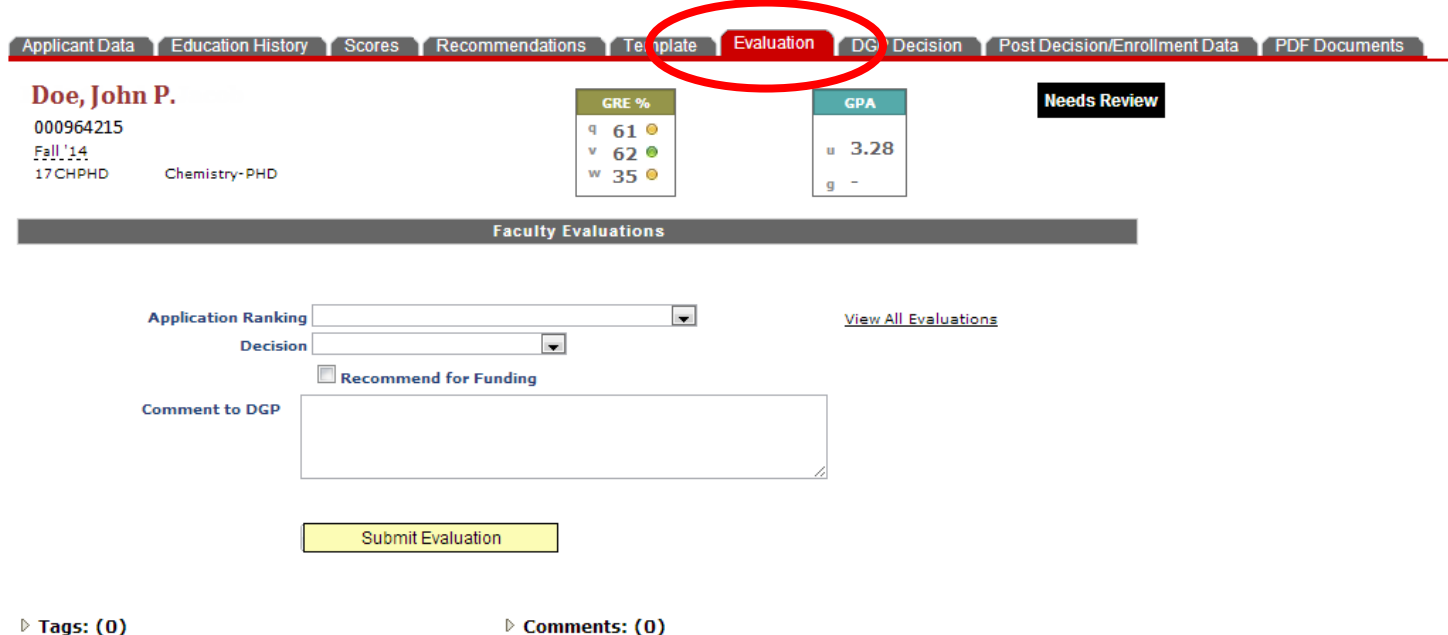

If applications have been assigned for your review, you will see application data under your “Current Applications” tab, see below. You are able to click on column headings to sort the columns and re-order the applicants by highest GPA, GRE, or TOEFL scores, for example.
