NC State Graduate Catalog

The Graduate Catalog contains Graduate School requirements and pertinent information for individual graduate programs, a current list of graduate faculty, and a selection of other resources for new students. The Catalog is informational only and is subject to change. Official policies and procedures are in the Graduate School Administrative Handbook and on the NC State Policies, Rules and Regulations website.

Date Published: August 2008
North Carolina State University

North Carolina State University (NC State) is a national center for research, teaching and extension, and its graduate education has stood for quality for more than a century. As a land-grant state university, it shares the distinctive characteristics of these institutions nationally -- broad academic offerings, extensive public service, national and international activities, and large-scale extension and research programs.

NC State is one of 16 constituent institutions of the multi-campus University of North Carolina system. The UNC Board of Governors is the policy-making body legally charged with "the general determination, control, supervision, management, and governance of all affairs, of the constituent institutions."

NC State is a member of the National Association of State Universities and Land-Grant Colleges. It is also a member of the American Council on Education, the College Entrance Examination Board, the Council of Graduate Schools, the National Commission on Accrediting and the Southern Association of Colleges and Schools.

NC State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate's, baccalaureate, Master's, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of NC State University.

The Graduate School

Graduate instruction was first offered at North Carolina State University in 1893, and the first doctoral degree was conferred in 1926. In the ensuing years, the Graduate School has grown steadily and now provides instruction and facilities for advanced study and research in the fields of agriculture and life sciences, design, education, engineering, natural resources, humanities and social sciences, management, physical and mathematical sciences, textiles and veterinary medicine.

The Graduate School is currently composed of more than 2,400 graduate faculty members. Educated at major universities throughout the world and established both in advanced teaching and research, these scholars guide the University's more than 7,000 Master's and doctoral students from all areas of the U.S. and many other countries. The faculty and students have available exceptional facilities, including libraries, laboratories, modern equipment and special research areas.

Additionally, a cooperative agreement exists among the Graduate Schools of the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, Duke University, and North Carolina State University which increases the educational and research possibilities associated with each institution.

Application and Admissions

The criteria used for admissions decisions vary according to programs and schools/colleges, reflect an evaluation of the applicant's potential for graduate work, and consider the ability of a program to accommodate additional students. Commonly, departmental admissions committees consider requests for admission and forward their recommendations to the Graduate School. However, Graduate School regulations govern the criteria for the classification of graduate student status.

Application

All applicants must submit the online NC State University Graduate School Application Form. Application is made for a specific degree program and date of enrollment (see Admissions).

Applications for admission require the following:
- Non-refundable application processing fee of $65.00 (US) for U.S. citizens and Permanent Residents or $75.00 (US) for Non-Resident Aliens (Internationals);
- One official transcript from all colleges and universities previously attended; (NOTE: Applicants currently attending, or who have previously attended NC State, are not required to provide an NC State transcript.)
- Three recommendations from people who know the prospective student's academic record and potential for graduate study;
- On-line North Carolina Residency Form if claiming NC residence for tuition purposes;
- A list of courses in progress if enrolled as a Post-Baccalaureate Studies (PBS) student at NC State;
- GRE or other standardized test scores, statements of purpose, portfolios or other work samples, depending on requirements of particular program; and
- TOEFL scores, where applicable.

**English Proficiency Requirements for International Students**

In order to be eligible for admission to the Graduate School all international applicants, regardless of citizenship, must demonstrate proficiency in English at a level necessary to be successful in a graduate program at NC State. This requirement can be met for most applicants in one of the following ways; however, some programs may require additional evidence of English proficiency:

1. Provide Test of English as a Foreign Language (TOEFL) with a total score of at least **80** on the Internet-based Test (iBT). Minimum test scores for each section:

<p>| | |</p>
<table>
<thead>
<tr>

<td>Writing</td>
<td>18 points</td>
</tr>
<tr>
<td>Speaking</td>
<td></td>
</tr>
<tr>
<td></td>
<td>18 points for admission to the Graduate School</td>
</tr>
<tr>
<td></td>
<td>23 points for TA appointment where TA has direct verbal interactions with students</td>
</tr>
<tr>
<td></td>
<td>26 points for TA appointment where TA presents lectures in the class or laboratory</td>
</tr>
</tbody>
</table>

2. The maximum total score for the iBT is 120 with each section worth 30 points.
3. Provide International English Language Testing System (IELTS) scores with an overall band score of at least **6.5**. Minimum test scores for each section are listed below:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>

</tr>
<tr>
<td></td>
<td>6.5 for admission to the Graduate School</td>
</tr>
<tr>
<td></td>
<td>7.0 for TA appointment</td>
</tr>
</tbody>
</table>

4. be a citizen of a country where English is an official language and the language of instruction in higher education; or
5. have successfully completed at least one year of full-time study in a degree program at a four-year US College or university.
6. TOEFL or IELTS test date must be no older than two years (24 months) prior to the beginning of the requested entry term.

**NOTE:** The current computer- and paper-based versions of the TOEFL test will be given until the iBT version is implemented in a particular location. Computer-based TOEFL scores must be 213 or higher (with at least 17 on three sections and no section score below 13). The paper-based test requires a score of 550 or higher (with scores of 50 on at least two of the three sections and no section score below 45).
Admission

The procedures followed in evaluating an applicant's potential for success in graduate work and the criteria used for admissions decisions vary according to programs and colleges and reflect an evaluation of the applicant's potential to engage in graduate work and the capability of the individual programs to accommodate additional students. Most programs consider applications as they arrive, while others accumulate applications and make recommendations on admission at certain times during the year. Generally, requests for admission are considered by program admissions committees that forward the program recommendations to the Dean of the Graduate School.

Students are admitted to full or provisional status in a specific degree program. Admission is granted for a specific semester or summer term. Any change in the admission date must be requested in writing and approved by the program and Graduate School. Once the requirements for that degree program have been completed, no further registration as a graduate student will be permitted unless admission to a new graduate classification has been formally approved. Students with special objectives may request admission in the "Graduate-Unclassified Status" or register in the "Post-Baccalaureate Studies" program through the Division of Lifelong Education.

Immunization and Medical History

All graduate students admitted to a degree program are required by State law to submit a report of medical history and immunization documentation prior to initial registration. This report must document immunization against tetanus/diphtheria, measles, German measles, polio, and for international students, show results of a tuberculin skin test. Graduate students who have recently completed their undergraduate work at NC State must update their medical history. Student Health Services must receive the required reports at least 30 days before registration. If the student does not meet this requirement, dismissal from school is mandatory under the law.

Transcript Requirements

The University requires that official copies of transcripts of all prior course work be on file in the student's permanent record at NC State. Students are required to provide the Graduate School with official copies of their latest transcript(s) from all universities attended (official translation required for non-English transcripts), including statements of all degrees awarded, no later than the last day of classes of the first semester they are enrolled.

Full Graduate Status

To be considered for admission in full graduate standing, an applicant must have a Bachelor's degree from an accredited college or university as determined by a regional or general accrediting agency and must have at least a "B" (3.00/4.00) average in the undergraduate major or in the latest graduate degree program.

Exceptions on standard accreditation may be granted for applications with international degrees, including applicants with three-year degrees from institutions in Europe participating in the Bologna Process.

Provisional Status

Students with Bachelor's degrees from accredited institutions whose scholastic records are below the standards for admission to full graduate standing may be admitted provisionally when unavoidable, extenuating circumstances affected their undergraduate averages or when progressive improvement in their undergraduate work warrants provisional admission. Students admitted provisionally under these circumstances can attain full graduate standing after completion of nine or more graduate credit hours with a minimum GPA of 3.00. Courses taken for S/U grade cannot be used as part of the minimum.

Provisional admission may be granted to applicants with Bachelor's degrees from accredited institutions who lack undergraduate work considered essential for graduate study in a major field. Applicants with Bachelor's degrees from non-accredited institutions may be granted provisional admission when their academic records warrant this status.

Full graduate standing is granted when the deficiencies responsible for the provisional status are corrected through additional course work (without graduate credit), provided the student has maintained a satisfactory academic record (3.00 GPA) on all course work taken in a graduate classification. A change from provisional status to full graduate standing is effected only
upon the recommendation of the department in which the student is seeking the degree.

A graduate student is not eligible for appointment to an assistantship or fellowship while on provisional status.

**Graduate-Unclassified Status**

The Graduate-Unclassified status is a temporary classification and students admitted to this status are not candidates for degrees. They may take courses for graduate credit but may not apply more than 12 credits earned while in this status to any program leading to an advanced degree at this institution. Unclassified graduate students are expected to meet the same admissions requirements that apply to graduate students in full standing. Any individual having an interest in applying for admission as a Graduate-Unclassified Student should correspond with the Graduate Dean describing his or her particular interests and objectives prior to making application.

**Admission for International Students**

International graduate students are admitted to either full-time study in a specific graduate program or into the Graduate-Unclassified category as an international visitor. In addition to admission requirements listed elsewhere for graduate admission, applicants who are not U.S. citizens must complete and submit a Visa Clearance Form and/or a Certificate of Financial Responsibility before a final admission decision can be made. Criteria for international visitors are as follows:

1. International student visitors must state their educational objectives at NC State and the time expected to accomplish those objectives (normally one semester or one academic year). The educational objective may not be to seek a graduate degree at NC State.
2. They are expected to meet the same minimum academic admission requirements that apply to graduate students in full standing.
3. They are expected to meet the same TOEFL requirements that apply to international students who are admitted to Master's and doctoral programs if they plan to take courses. If they plan to register for research only, they are not required to take the TOEFL.
4. They must be recommended by the DGP of the program in which they plan to take courses or do research. Special admission status may apply for a period not to exceed one year.
5. They may hold a research assistantship but may not hold a teaching assistantship (provided their nonimmigrant status allows on-campus employment).
6. They will not be eligible for the Graduate Student Support Plan.
7. Those in F-1 or J-1 status must maintain full-time enrollment and all other requirements based on their particular nonimmigrant status.

**Post-Baccalaureate Studies (PBS)**

The Post-Baccalaureate Studies (PBS) classification is designed for U.S. citizens or permanent residents who wish to undertake academic work beyond the Bachelor's degree but who are not currently admitted to a degree program. This classification is not open to international students with the exception of the spouse of a regularly enrolled NC State student. In special cases where students are sponsored by an agency of the U.S. government for specialized, non-degree study, approval may be given by the Graduate School for registration in the PBS classification. The following rules apply to students who wish to register for PBS.

Please note that the following are university minimum requirements. Some departments may have more restrictive requirements.

1. All must have Bachelor's degrees from accredited institutions of higher education. Registration is through the Division of Continuing Studies.
2. All classes taken for credit by PBS students will be graded in the usual manner that applies for the particular course (A+ through F or S/U). All courses taken at NC State will appear on the student's transcript.
3. If the student is admitted as a graduate student, a maximum of twelve (12) hours may apply toward the minimum university requirement of the Master's degree (i.e., 30 credit hours) for which the student is enrolled, including hours approved for graduate credit while classified as a senior or unclassified graduate. The first twelve (12) hours of course work taken at the graduate level in the PBS category will be accepted toward degree requirements unless a
request for some other combination of twelve (12) hours is made by the student's advisory committee and approved by the Graduate Dean. PBS credits cannot be transferred into a doctoral program.

4. If a student's graduate degree is terminated, he/she cannot use courses taken in PBS status after termination for credit toward the same graduate degree program.

5. The grade point average (GPA) of a graduate student who has credits in the PBS category will be based on all courses taken at the 400-800 level. However, no course taken six (6) years prior to graduation from a program can be used to meet the requirements for a later graduate degree at NC State.

6. Registration is limited to a maximum of two courses per semester. Individuals who are employed full-time should limit their PBS registrations to one course per semester.

7. The PBS classification carries with it no implication that the student will be admitted to the Graduate School in any degree classification.

8. All course work accepted for degree credit must be approved by the student's advisory committee as being germane to the program. Requests for degree credit for courses completed in the PBS classification are considered after admission to a graduate degree program when the student's Plan of Graduate Work is filed with the Graduate School.

9. PBS students are expected to familiarize themselves with Graduate School and departmental policies and to seek further advice or clarification as needed.

Distance Education

Distance learning offers you the opportunity to participate in a different learning environment by allowing students to have instruction off campus. Valuable learning time is gained by providing an educational environment that increases accessibility and flexibility for learners.

NC State’s distance learning includes some Internet-based courses, but also offers study through the use of videotape, cable TV, interactive TV, satellite, and independent study programs. In addition, Distance Education courses require more writing than in a traditional classroom setting via electronic participation. On-line discussions and e-mail communications allow regular involvement by all students, not just a few.

Distance Education Programs

NC State offers credit courses on a vast number of subjects, with more than 100 individual distance education courses to choose from in the humanities, engineering, social sciences, textiles, physical sciences, and more.

Degree programs require admission to the university. Since each program sets its own admission requirements, students should contact the program of their interest for details. A full listing of programs is available on the Distance Education website.

Professional development courses are also available through Distance Education; all are for-credit offerings designed to meet the professional development needs of specific audiences. No admission to the university is required.

Other options include non-credit and continuing education programs such as short courses, computer training, or customized programs for businesses and other groups. No admission to the university is required to enroll in these programs.

Evening Degree Programs

Some graduate degree programs offer late afternoon and evening courses for students who are unable to attend classes during the day. These students may also have the option of earning their degree through Distance Education. For further information about these programs, students should contact the specific department.

Alternative Teacher Education Programs

Alternative teacher education programs are for people with a desire to teach in elementary, middle, or high schools but do not have an undergraduate degree in education. Please note that all alternative licensure programs at NCSU require a minimum GPA of 2.50 and a four-year degree from an accredited college or university. There are two types of alternative licensure: licensure only and lateral entry.
Licensure only programs are for people who want to complete their teaching license ("A"-level) before entering the classroom. These programs include education coursework, content-specific coursework, and student teaching.

Lateral entry programs are for people who want to work on their coursework while teaching full-time. Lateral entry programs include education coursework, content-specific coursework, and a one-hour practicum in place of student teaching. Participants in lateral entry programs will receive a lateral entry license when they are hired in a teaching position and then will be recommended for a clear ("A"-level) license upon completion of the lateral entry program. There are two types of lateral entry programs offered at NCSU. The traditional lateral entry program can be completed over the course of three years. The NC TEACH program is an intensive one-year program in which participants enter as a cohort and are provided with an extensive support network to aid their transition into the classroom.

**Graduate Programs**

The Graduate School offers programs of study leading to both Master's and doctoral degrees. Graduate education is the final stage in the development of intellectual independence. It is different from undergraduate education in that the student is encouraged to establish premises, to hypothesize and to defend both the procedure and the conclusions of independent investigation. Emphasis is placed upon the student's scholarly development through formal course work, seminars, research and independent investigation.

Each student's program is planned with an advisory committee of graduate faculty members to provide the opportunity for gaining advanced knowledge in the particular field of study. It is the responsibility of ALL graduate students to know and understand their degree requirements. Students are responsible for the fulfillment of those requirements.

**Master’s Degree Programs**

**Master of Science and Master of Arts**

All Master of Science and Master of Arts degree programs are planned with the objective of making possible a reasonable, comprehensive mastery of the subject matter in a chosen field. In most cases, the Master of Science and Master of Arts programs provide training and experience in research in order to familiarize the student with the methods, ideals and goals of independent investigation. In these cases, representative of most Master of Science and Master of Arts degree programs, a thesis is required. A small number of Master of Science and Master of Arts programs do not require a thesis.

**Requirements**

1. A minimum of 30 semester hours of graduate work in the degree program, unless the specific program requires more hours.
2. A reading knowledge of a foreign language (in a few programs)
3. A comprehensive written examination (in some programs)
4. A thesis (in most programs)
5. A comprehensive oral examination (except Option B programs)

**Time Limit**

Requirements for ALL Master's degrees must be completed within six (6) calendar years. For further information about the time limit for degrees, please see Administrative Handbook Section 3.4.

**Master's Degree in a Designated Field**

A number of departments and programs offer Master's degrees in designated fields. These are professional degrees and do not require a thesis.
Requirements

1. A minimum of 30 semester hours of graduate work in the degree program (unless the specific program requires more hours).
2. A comprehensive written examination (in some programs)
3. A comprehensive oral examination (except Option B programs)

Option B Master's Degree

The Option B Master's degree requires that students adhere to the general guidelines for a Master of Arts or Master of Science degree with the following exceptions:

1. A comprehensive oral exam is not required
2. A thesis is not required
3. Departmental research credit hours will not be included as part of the course work
4. No more than six hours of independent study credits can be included in the 30-hour minimum
5. Individual departments define other requirements for their Option B program, such as additional course work or final projects
6. Option B Master's degree programs may not carry an officially designated minor
7. Students have a single assigned advisor rather than an advisory committee.

Credit Hour Requirements for Master's Degrees

A minimum of 30 semester credit hours is required for all Master's degrees; however, many programs require more than thirty. Also, many students, in order to gain the breadth desired in their programs or to make up deficits in their undergraduate degrees, will actually take more credit hours than the minimum required by their programs.

1. No more than two credit hours of departmental seminar (S/U graded) may be included in the minimum 30-credit program.
2. No more than three credit hours of Master's supervised teaching (685) may be included in the minimum 30-credit program.
3. Programs that require a thesis may include no more than six hours of Thesis Research credit (695) in the minimum 30-credit-hour program. Thesis Research credit is not appropriate in non-thesis programs.
4. Non-thesis programs may include no more than six hours of independent study credits in the minimum 30-credit program.
5. No more than ten hours of 400-level courses may be counted toward the minimal 30-hour requirement, and they may not come from the major field.
6. Non-Thesis Master's Continuous Registration - Half-Time Registration (688) credits may not be used to satisfy the 30-credit hour requirement.
7. Non-Thesis Master's Continuous Registration - Full-Time Registration (689) credits may not be used to satisfy the 30-credit hour requirement.
8. Non-thesis Master's Examination (690) credits may not be used to satisfy the 30-credit hour requirement.
9. Master's Thesis Preparation (699) credits may not be used to satisfy the 30-credit hour requirement.
10. At least 18 hours of the minimum 30 hours required for the Master's degree must be graduate credits earned while the student is enrolled in a graduate classification at NC State.
11. At least 18 hours of the 30 hour requirement may not have been, and may not be, used to satisfy degree requirements for another Master's degree at NC State.
12. Also, at least 18 of the 30 hour requirement may not have been taken while the student was enrolled in another Master's degree program, unless the student did not complete the other program. In addition, students pursuing a Master's degree after having completed a doctoral degree at NC State must complete at least 18 graduate credit hours at NC State after enrollment in the Master's program.
13. The remaining 12 credit hours, or more depending on the requirements of the specific program, may be transferred from any of the following sources or any combination thereof.
Transfer Credits

Transfer of graduate credits earned at other universities

A course that was completed at another college or university may be considered for transfer to a Master's program provided that the course is classified as a graduate course; it was completed while the student was in a graduate or post-baccalaureate classification; the grade in the course is "B" (3.00 on a 4.00 scale) or better; the college or university is accredited by one of the following six U.S. regional accrediting agencies: the Southern Association of Colleges and Schools, the Middle States Association of Colleges and Schools, the New England Association of Colleges and Schools, the North Central Association of Colleges and Schools, the Northwest Association of Colleges and Schools, or the Western Association of Colleges and Schools.

Transfer of graduate credits earned while enrolled in an undergraduate program at NC State University

A course that was completed while the student was enrolled as an undergraduate at NC State University may be considered for transfer to a Master's program, provided that it is at the 400-level or higher, that the grade is "B" (3.00 on a 4.00 scale) or better, that it was not counted to fulfill undergraduate requirements, and that it is recommended by the Director of Graduate Programs at the time of the student's enrollment in the Graduate School. Students admitted to the Accelerated Bachelor's/Master's program may use up to 12 hours of graduate credit to satisfy requirements for both the bachelor's and the Master's degrees. No graduate credit will be allowed for a course completed in an undergraduate classification at another institution.

Transfer of graduate credits earned while enrolled in a previous graduate degree program at NC State University

A graduate course that was completed while the student was enrolled in a previous graduate program at NC State University may be considered for transfer to a Master's program, provided that it is at the 500-level or higher and that the grade is "B" (3.00 on a 4.00 scale) or better.

Transfer of Post-Baccalaureate Studies (PBS) graduate credits earned at NC State University

A graduate course that was completed while the student was enrolled in PBS status at NC State University may be considered for transfer to a Master's program provided that it is at the 500-level or higher and that the grade is "B" (3.00 on a 4.00 scale) or better. All PBS credits that are used to satisfy requirements of a specific Master's degree must be earned before the student is admitted to that degree program.

Master's Advisor and Advisory Committee

All students in graduate programs must have a graduate advisor who is a member of the Graduate Faculty in the student's major program and is appointed by the Dean of the Graduate School upon recommendation of the DGP. In the case of Master's programs requiring theses and/or final oral examinations, the graduate advisor serves as chair or co-chair of the committee.

The primary function of the committee is to advise the student in all aspects of the educational program and to monitor and evaluate that student's progress toward the degree. The committee should provide an intellectually stimulating foundation for the student's professional and scholarly development and should be sensitive to any difficulties in the student's progress, research performance or methodology requiring attention. The committee certifies whether the student has met NC State's standards for a graduate degree. Advising and guiding the student on how best to qualify for the requirements of a degree is a key part of this responsibility.

In all Master's programs except those designated "Option B," the committee will consist of at least three NC State Graduate Faculty members, one of whom is designated as chair and one of whom represents the minor if one has been declared. Those Master's programs designated "Option B" require that the student choose only a major advisor or co-advisors but no committee.
Plan of Work

The Graduate School does not require that all Master's students submit a Plan of Work (POW). However, Master's students are encouraged to complete a POW in consultation with their advisor as soon as possible after the completion of one half of their course work. The Graduate School reserves the right to request a POW under some circumstances. In this capacity, the POW serves as a contract between the student and his or her graduate program, reducing the possibility of any later misunderstanding as to fulfilling degree requirements.

Whether submitted optionally or as part of the degree requirement, the POW should include both a list of the course work to be undertaken (in all programs) and the thesis or dissertation topic (except in non-thesis programs); be developed by the student and his/her advisory committee; be approved by the committee and the DGP or Department Head prior to submission to the Graduate School for final approval; be submitted (optional) prior to completion of one-half the total Master's program, or (mandatory) upon completion of 12 hours of a doctoral program.

Language Requirement

Requirements for Master of Arts and Master of Science Students

A reading knowledge of one modern foreign language (Germanic, Romance or Slavic) is required by some programs for the Master of Science and Master of Arts degrees. Other programs may designate that the language requirement be filled from among those languages in which the Department of Foreign Languages and Literatures conducts testing. Students should contact the major program for specific language requirements.

Master's Degrees in Designated Fields

There is no language requirement in the professional Master's degree programs (Master's degrees in designated fields) with the exception of the Master's of International Studies, which requires knowledge of one foreign language at a level of conversational proficiency.

Minor

The Graduate School does not require a minor, though individual programs may require one. If a program does not require a minor, the graduate student has the option of choosing one, except in an Option B Master's program. The minor work will usually be from a single discipline or field that in the judgment of the advisory committee provides relevant support to the major field. However, the committee has the alternative of developing an interdisciplinary minor if it best serves the needs of the student. When a student does select a minor, the advisory committee must include a representative of the minor field. The minor credits on the Plan of Graduate Work must be approved by the graduate advisory committee member representing the minor, and, in some cases, the DGP from the minor program.

Co-Major

Students may co-major at the Master's level in programs with identical degrees, although the degrees do not necessarily have to have identical requirements, e.g., two master of science programs, one with a thesis requirement and one without. Students must obtain the approval of both graduate programs as well as appropriate representation on the advisory committee, and must meet all requirements of both programs. Students who co-major are not required to declare a minor. Co-majors must meet all requirements for majors in both programs. One degree is awarded and the co-major is noted on the transcript.

Master's Comprehensive Examination

Written Examination

Written examinations covering the subject matter of the major and the minor may be required. Information concerning written examination schedules should be obtained from the student's program.
Oral Examination

Candidates for Master's degrees, except those in Option B programs, must pass a comprehensive oral examination to demonstrate to the advisory committee that he/she possesses a reasonable mastery of the subject matter of the major and minor fields and that this knowledge can be used with promptness and accuracy. This exam takes the form of a traditional defense of the thesis in those programs requiring theses. In programs that require a thesis, the thesis must be submitted in complete form, except for such revisions which may be necessary as a result of the final oral exam, to all members of the advisory committee at least two (2) weeks prior to the exam.

Failure of a student to pass the oral examination terminates the student's graduate work at NC State unless the graduate advisory committee unanimously requests that the Graduate School permit a re-examination. Only one re-examination will be given.

Thesis

Candidates for the Master of Arts or Master of Science degrees in programs requiring a thesis must undertake an original investigation into a subject, which has been approved by the student's advisory committee and DGP, and prepare a thesis. Information on form and organization of the thesis, in addition to other regulations, is presented in the University's on-line Thesis and Dissertation Guide.

Time Limit

All requirements for the Master's degree must be completed within six calendar years, beginning with the date the student commences courses carrying graduate credit applicable to the degree program, unless a more restrictive time limit has been established by the academic college/school or program. The term limit remains at six (6) years even if a student was on approved leave of absence during the six-year period. For further information about the time limit for degrees, please see Administrative Handbook Section 3.4.

Summary of Master's Procedures

All Master’s Students

1. Application materials and required fees received
2. Application materials reviewed by graduate program
3. Graduate program forwards recommendation regarding applicant's admissibility to the Dean of the Graduate School
4. The Dean of the Graduate School reviews the recommendation and the student is notified of the action taken on the request for admission
5. Outstanding transcripts, if any, showing any or all post-secondary coursework attempted and degree(s) conferred since application should be submitted by student to the Graduate School, prior to matriculation
6. Student arrives, reports to the graduate program, is assigned a graduate advisor and develops a roster of courses and credits with the advisor
7. Student subject to continuous registration policy until graduation
8. Student signs and submits Patent Agreement
9. Program encouraged by Graduate School to require student to develop a Plan of Graduate Work, in consultation with and with the approval of his/her graduate advisor and DGP. If submitted via GARS to the Graduate School, Graduate Records staff will review the Plan of Graduate Work and advise the program of any changes that would need to be made before the Request for a Permit to Schedule the Master's Oral Examination or Request for Option B Graduation Checkout can be approved by the Graduate School
10. Student passes language examination, if required
11. Student passes written examination, if required
12. Student submits Diploma Order Request form by end of third week of the semester or summer session of anticipated graduation
13. A GPA of at least 3.00 for the degree requirements as well as on overall graduate course work at NC State is required for graduation
14. All degree requirements must be completed within six calendar years, beginning with the date the student takes courses carrying graduate credit applicable to the degree program, unless a more restrictive time limit has been established by the program or academic college/school.
Students in Thesis Programs

1. Graduate advisory committee of three or more Graduate Faculty members is appointed by the DGP.
2. A preliminary copy of the thesis is submitted to the chair of the student's advisory committee.
3. When all requirements except completion of the course work in the final semester are satisfied and after the thesis is complete except for such revisions as may be necessary as a result of the exam, the DGP submits to the Graduate School the Request for a Permit to Schedule the Master's Oral Examination.
4. If Graduate School requirements are met, the Request for a Permit to Schedule the Master's Oral Examination is approved by the Graduate School within 10 working days of receipt of the request, and the permit, Admission to the Final Master's Oral Examination, is issued.
5. At least two weeks prior to the final oral examination, the chair of the student's advisory committee submits the thesis, if required, to the other members of the advisory committee for review.
6. Final examination is scheduled and conducted.
7. The Admission to the Final Master's Oral Examination form is completed by the committee members, including date and result, and submitted to the Graduate School by the DGP. The Graduate School should receive the report within five working days of the examination.
8. Student submits three copies of the thesis, signed by each member of his/her advisory committee, to the Graduate School.
9. The deadline for submitting the thesis to the Graduate School in order for the student to graduate in a given semester or summer session appears in the Graduate School Calendar.
10. The thesis is reviewed by the Graduate School to ensure that the format conforms to the specifications prescribed in the Thesis and Dissertation Guide.

Students in Master’s of Discipline Non-Thesis Programs

1. Graduate advisory committee of three or more Graduate Faculty members is appointed by the DGP.
2. When all requirements except completion of the course work in the final semester are satisfied, DGP submits to the Graduate School the Request for a Permit to Schedule the Master's Oral Examination.
3. If Graduate School requirements are met, a Request for a Permit to Schedule the Master's Oral Examination is approved by the Graduate School within 10 working days of receipt of the request and the permit, Admission to the Final Master's Oral Examination, is issued.
4. Final examination is scheduled and conducted.
5. Final examination report, including date and result of the examination, submitted to the Graduate School by the DGP. The Graduate School should receive the report within five working days of the examination.
6. The deadline date for unconditionally passing the final examination in order for the student to graduate in a given semester or summer session appears in the Graduate School Calendar.

Students in Option B Programs

DGP submits requests for graduation checkout to the Graduate Dean no later than six weeks after the first day of the semester (seven working days after the first day of the summer session) in which the student is taking the last course in his or her program and anticipates graduation.

Doctoral Degree Programs

Doctor of Philosophy and Doctor of Education Degrees

The doctorate symbolizes the ability of the recipient to undertake original research and scholarly work at the highest levels without supervision. The degree is therefore not granted simply upon completion of a stated amount of course work but rather upon demonstration by the student of a comprehensive knowledge and high attainment in scholarship in a specialized field of study. The student must demonstrate this ability by writing a dissertation reporting the results of an original investigation and by passing a series of comprehensive preliminary examinations in the field of specialization and related areas of knowledge, and successfully defending the dissertation.
Requirements

1. At least two residence credit points secured in continuous semesters' residence as a graduate student at the University.
2. Doctoral degrees at North Carolina State University require a minimum of 72 graduate credit hours beyond the Bachelor's degree. For a student who has a Master's degree from a university other than NC State, a maximum of 18 hours of relevant graduate credit from the Master's degree may be applied toward this minimum, upon the recommendation of the student's Graduate Advisory Committee. If a student completes a Master's degree at NC State and continues for a doctoral degree without a break in time, up to 36 credit hours taken while in Master's status may be used to meet minimum requirements for the doctoral degree.
3. A preliminary comprehensive examination (written and oral components)
4. A dissertation
5. A final comprehensive oral examination

Residence Credits

A student working toward a doctoral degree is expected to be registered for graduate work at NC State for at least six (6) semesters beyond the Bachelor's degree. The University has basic residence requirements, as defined below, but the academic schools/colleges have the prerogative of establishing more restrictive requirements within the respective schools/colleges. Residence credit is determined by the number of semester hours of graduate work carried during a regular semester.

The POW should include both a list of the course work to be undertaken (in all programs) and the dissertation topic; be developed by the student and his/her advisory committee; be approved by the committee and the DGP or Department Head prior to submission to the Graduate School for final approval; be submitted prior to completion of 12 hours of a doctoral program.

At least two residence credits are necessary in continuous residence (registration in consecutive semesters) as a graduate student at the University, but failure to take courses in the summer does not break continuity.

<table>
<thead>
<tr>
<th>Semester Credits (Hours)</th>
<th>Residence Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>9 or more</td>
<td>1</td>
</tr>
<tr>
<td>6-8</td>
<td>2/3</td>
</tr>
<tr>
<td>less than 6</td>
<td>1/3</td>
</tr>
<tr>
<td>(including registration in 590, 690 series)</td>
<td></td>
</tr>
</tbody>
</table>

Summer Residency

Summer course work, however, can be used in partial fulfillment of this requirement. A single summer session is equal to one-half of the corresponding amount for a regular semester. For example, six semester hours carried during a summer session will earn one-third of a residence credit; less than six credit hours will earn one-sixth of a residence credit.

Doctoral Advisor and Advisory Committee

All students in graduate programs must have a graduate advisor who is a member of the Graduate Faculty in the student's major program and is appointed by the Dean of the Graduate School upon recommendation of the DGP. The graduate advisor serves as chair or co-chair of the committee.

The primary function of the committee is to advise the student in all aspects of the educational program and to monitor and evaluate that student's progress toward the degree. The committee should provide an intellectually stimulating foundation for the student's professional and scholarly development and should be sensitive to any difficulties in the student's progress, research performance or methodology requiring attention. The committee certifies whether the student has met NC State's standards for a graduate degree. Advising and guiding the student on how best to qualify for the requirements of a degree is a key part of this responsibility.
A doctoral student’s committee will consist of at least four NC State Graduate Faculty members, one of whom represents the minor field if a minor has been declared. The committee is indicated on the Plan of Graduate Work. In this way, the committee is officially recommended by the DGP, and must be approved by the Graduate School at the time of the approval of the Plan of Graduate Work.

**Plan of Work**

Doctoral students are required to complete a Plan of Work (POW) in consultation with their advisors. The doctoral POW, including the courses to be undertaken in the student's program and the dissertation topic, should be prepared by the doctoral student and his/her advisory committee and submitted electronically to the Graduate School. The POW as a whole should be rationally unified, with all constituent parts contributing to an organized plan of study and research, and courses must be selected from groups embracing one principal subject of concentration, the major, with the option of designating courses in a cognate field, the minor. When a student elects to designate a minor, he/she should select the minor course work from a discipline or field that, in the judgment of the advisory committee, provides relevant support to the major field.

The POW should include both a list of the course work to be undertaken (in all programs) and the dissertation topic; be developed by the student and his/her advisory committee; be approved by the committee and the DGP or Department Head prior to submission to the Graduate School for final approval; be submitted prior to completion of 12 hours of a doctoral program.

**External Minor**

Minors granted at the doctoral level for work completed at another institution are called "external minors." Typically, in these cases a doctoral student at NC State wishes to have course work from a prior extradisciplinary Master's program at another university approved as the minor for their current doctoral degree. The DGP must recommend a representative at NC State from the discipline of the proposed external minor to both serve on the advisory committee and to review and determine whether the course work is sufficient to constitute the minor at the doctoral level.

**Co-Major**

Students may co-major at the doctoral level with the approval of both programs and with the appointment of a co-chair from each program on the advisory committee. Co-majors are not permitted between Doctor of Philosophy and Doctor of Education degree programs. Co-majors must meet all requirements for majors in both programs. One degree is awarded and the co-major is noted on the transcript.

**Candidacy**

A doctoral student is admitted to candidacy by the Graduate School upon passing the preliminary examinations without conditions or after fulfilling any conditions specified by the advisory committee.

**Comprehensive Examinations**

**Preliminary Examinations**

Each doctoral student is required to take preliminary or comprehensive examinations, consisting of written examinations and an oral examination, not earlier than the end of the second year of graduate study and not later than one semester (four months) before the final oral examination.

Written examination questions may cover any phase of the course work taken by the student during graduate study or any subject logically related to an understanding of the subject matter in the major and minor areas of study. The questions are designed to measure the student's mastery of his/her field and the adequacy of preparation for research. Committee members must notify the DGP when a student has completed the written examination. Failure to pass the written portion terminates the student's work at this institution, subject to departmental and/or school/college policies with respect to reexamination.

Upon satisfactory completion of the written portion of the preliminary examinations and after completion of all course work
relevant to the examination, the student submits a Request to Schedule the Doctoral Oral Examination, indicating that he/she wishes to schedule the preliminary examination.

The preliminary oral examination is conducted by the student's advisory committee and the Graduate School Representative and is open to all Graduate Faculty members. The Graduate School will notify the student and the examining committee. The oral examination is designed to test the student's ability to relate factual knowledge to specific circumstances, to use this knowledge with accuracy and promptness and to demonstrate a comprehensive understanding of the field of specialization and related areas.

A unanimous vote of approval by the members of the advisory committee is required for the student to pass the preliminary oral examination. Approval may be conditioned, however, on the successful completion of additional work in some particular field(s). All committee actions may be appealed by written application to the Graduate Dean (refer to NC State policy on grievance procedures for students).

Failure to pass the preliminary oral examination terminates the student's work at this institution unless the examining committee recommends a reexamination. No reexamination may be given until at least one full semester has elapsed, and only one reexamination is permitted in a given doctoral program.

**Final Oral Examination**

As with the preliminary oral examination, the chair of the student's advisory committee is in charge of conducting the final oral examination. The final oral examination is scheduled after the dissertation is complete except for such revisions as may be necessary as a result of the examination, but not earlier than one semester or its equivalent after admission to candidacy and not before all required course work has been completed or is currently in progress.

The examination consists of the candidate's defense of the methodology used, the data collected, and the conclusions reached in the research, as reported in the dissertation. It is conducted by an examining committee, which consists of the student's advisory committee and a Graduate School Representative. This examination is open to the University community.

While the chair has the option of allowing visitors to ask questions of the candidate, the chair also has the obligation to maintain a scholarly atmosphere and to keep the student's best interest foremost. Graduate Faculty members who are not on the advisory committee will have the opportunity to express their opinions to the committee in the absence of the student. However, the final deliberations and the vote are private to the examining committee.

A unanimous vote of approval of the advisory committee is required for passing the final oral examination. Approval may be conditioned, however, on the student's meeting specific requirements prescribed by the student's advisory committee. Failure of a student to pass the examination terminates his or her work at this institution unless the advisory committee recommends a reexamination. No reexamination may be given until one full semester has elapsed and only one reexamination is permitted.

**Dissertation**

The doctoral dissertation is the document presenting the results of the student's original investigation in the field of primary interest. It must represent a contribution to knowledge, adequately supported by data, and be written in a manner consistent with the highest standards of scholarship. Publication is expected and encouraged.

The dissertation will be reviewed by all members of the advisory committee and must receive their approval prior to submission to the Graduate School. Information on the required form and organization of the dissertation, in addition to other regulations, is presented in the University's Thesis and Dissertation Guide. At the time of the dissertation's submission to the Graduate School, the student is also required to submit one copy each of the Survey of Earned Doctorate form and University Microfilms International Agreement form and to complete a brief, standard questionnaire about his or her experience as a graduate student at NC State. The University also requires that all doctoral dissertations be microfilmed by University Microfilms International, Ann Arbor, MI, including the publication of the abstract in Dissertation Abstracts International. The student pays the cost of this service.
Time Limit

Doctoral students must attain candidacy for the degree within six (6) calendar years. All degree requirements must be completed within ten (10) calendar years. For further information about the time limit for degrees, please see Administrative Handbook Section 3.4.

Summary of Doctoral Procedures

1. Application materials and required fee received
2. Application materials reviewed by graduate program
3. Graduate program forwards recommendation regarding applicant's admissibility to Graduate Dean
4. The graduate program's recommendation is reviewed and the student is notified of the action taken on the request for admission
5. Outstanding transcripts, if any, showing any or all post-secondary coursework attempted and degree(s) conferred since application should be submitted by student to the Graduate School, prior to matriculation
6. If admitted, the student arrives, reports to the graduate program, is assigned an advisor and makes out a roster of courses in consultation with the departmental advisor and DGP
7. Advisory committee of at least four NC State Graduate Faculty members, one of whom is designated as the chair and one of whom represents the minor field (where appropriate), is appointed by the Graduate Dean upon the recommendation of the DGP. The Graduate Dean also selects a Graduate Faculty member to serve as the Graduate School Representative on the student's committee
8. Student signs and submits Patent Agreement
9. A dissertation subject is selected and an outline of the proposed research is submitted to the student's advisory committee and the DGP for review and approval
10. Plan of Graduate Work is prepared by the advisory committee with the student, is approved by the DGP, and is submitted to the Graduate School for approval as soon as feasible after completion of 12 hours of course work
11. Written examinations in the major and minor fields are scheduled no earlier than the end of the second year of graduate study and not later than one semester before the final oral examination. The results of these examinations will be reported to the Graduate School
12. When all written examinations have been completed satisfactorily, the chair submits the Request for Approval to Schedule the Doctoral Oral Examination, designating the preliminary oral examination, at least two weeks prior to the suggested date. Upon approval of the request, the student and examining committee are notified of the time and place. The DGP sends the report of the exam to the Graduate School and if the exam is passed without conditions, the student is admitted to candidacy
13. A copy of the preliminary draft of the dissertation is submitted to the chair of the student's advisory committee for review
14. The Diploma Order Request Form must be filed with the Graduate School by the end of the sixth week of the semester or summer session of anticipated graduation. Failure to submit the form by this date may result in the student's failure to receive the diploma at graduation
15. At least two weeks prior to the final oral examination, the chair of the student's advisory committee submits the dissertation to advisory committee members for review
16. Four calendar months or its equivalent after admission to candidacy or later, and after the dissertation is complete except for such revisions as may be necessary as a result of the final exam, the chair submits to the Graduate School the Request for Approval to Schedule the Doctoral Oral Examination, designating a request for permission for the candidate to take the final oral exam. Requests should be filed at least two weeks before the date of the examination. Upon approval of the request, the student and the examining committee, including a Graduate School representative, are notified of the time and place of the examination. The Graduate School Representative receives a copy of the dissertation at least one week prior to the examination
17. The Graduate School requires that all theses and dissertations be submitted electronically following the requirements in the ETD website (electronic thesis and dissertation). Specific deadlines for each semester, as well as formatting requirements, are posted in the online Thesis and Dissertation Guide, located within the ETD website.
18. The dissertation is reviewed by the Graduate School to ensure that the format conforms to the specifications prescribed in the Thesis and Dissertation Guide.
19. All course work scheduled in a graduate degree classification must be completed prior to graduation
20. A GPA of at least 3.00 is required for graduation
21. All degree requirements must be completed within ten (10) calendar years, beginning with the date the student commences courses carrying graduate credit applicable to the degree program, unless a more restrictive time limit has been established by the program or academic college/school.
Registration

The Department of Registration and Records must have authorization from the Graduate School before a graduate student in any classification will be permitted to register for classes. This authorization will be sent to the Department of Registration and Records at the time the student is notified of acceptance for graduate study. All students attending classes must be registered for credit or audit. Grade records are furnished the students at the end of each scheduled school term.

Course Load

Fall and Spring Semesters

A full-time graduate course load is nine to 15 credits per semester (including audits). Graduate students holding assistantships, however, have additional course load restrictions.

Summer Sessions

Graduate students are not required to be registered in summer sessions. If they are full time in the previous spring semester and are continuing their graduate study in the following fall semester, they are considered to be full time in the summer. If a student needs to be registered, one credit hour is considered full time.

International Students

The U.S. Citizenship and Immigration Services (USCIS) requires international students on F-1 and J-1 visas to carry a full-time course of study to remain in status.

Course loads and assistantships

Graduate students holding assistantship appointments are restricted to 9 hours per semester if they hold an appointment of one-half-time or greater and 12 hours per semester if they hold a one-quarter-time appointment. With advance written permission from the Graduate School, a student may take more than the maximum semester course load during a particular semester if the total credit hours do not exceed the maximum for the term of the appointment.

Full-Time/Part-Time Determination for All Graduate Students

NC State uses a uniform Schedule of Full-Time Status of Graduate Students for Loan Deferment, Financial Aid, Payroll Tax Withholding and Veteran's Benefits Purposes. To maintain consistency throughout the university system, faculty members do not have the authority to submit individual letters verifying the status of a graduate student. This schedule will be the only resource used to determine a student's status for these purposes. Registration and Records in Room 1000, Harris Hall processes all student loan deferments. The Graduate School will not be directly involved in preparing loan deferment letters.

These definitions apply to all graduate students, U.S. and international, participants and non-participants in the Graduate Student Support Plan.

Fall and Spring Semesters

1 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 689 and be considered full time.
2 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 699 and be considered full time.
3 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 688 and be considered half time.
4 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 699 and be considered half time.
5 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 899 and be considered full time.
6 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 899 and be considered half time.

**Summer Sessions**

Graduate students are not required by the University to be registered during the summer. However, students who receive a stipend but who are not enrolled in the University during a period of five weeks or more are subject to Social Security tax withholding. In particular, this means that Social Security taxes will be withheld from the paychecks of Graduate Research Assistants (RAs) who do not register in the summer. Specifically, Social Security taxes will be withheld in June for RAs who are not registered in Summer Session I and in July for RAs who are not registered in Summer Session II. The source of funds that pays the stipend must pay the same amount of Social Security tax as is withheld from the student's paycheck during these months.

Two special registration categories are available for Graduate Research Assistants who would not otherwise take courses in the summer: XYZ 696 (Summer Thesis Research) and XYZ 896 (Summer Dissertation Research), where XYZ represents the course prefix of a specific department or program. Each of these courses is for 1 hour of credit, with registration for 10 weeks, beginning the first day of Summer Session I. Social Security taxes will not be withheld from the June or July paychecks of RAs who register for either 696 or 896.

Please note that student who are not registered during the summer do not have access to financial aid during that period, nor do they have access to the Student Health Service unless they pay the student health fee for each of the two summer sessions.
Accelerated Bachelors/Masters Degree Program

The objective of the Accelerated Bachelors/Master's (ABM) degree program is to provide a means by which exceptional undergraduate students at NC State may complete the requirements for both the Bachelor's and Masters degrees at an accelerated pace. It provides an opportunity for exceptional undergraduate students at NC State to double count up to 12 credits and obtain a non-thesis Master's degree within 12 months of completing the Bachelor's degree or obtain a thesis based Master's degree within 24 months of completing the Bachelor's degree.

Students interested in the ABM Program should contact their department.

Continuous Registration

After a student is admitted to the Graduate School and enrolls for the first time, she/he is required to maintain continuous registration, i.e., be enrolled each semester, excluding summer sessions, until she/he has either graduated or her/his graduate program at NC State has been terminated. All students who graduate during the second summer session must be registered for either the first or second summer session.

Leave of Absence

A student in good academic standing who must interrupt her/his graduate program for good reasons may request a leave of absence from graduate study for a definite period of time not to exceed one year within a given graduate program. The request should be made at least one month prior to the term involved. Upon endorsement of the request by the student's graduate advisory committee and Director of Graduate Programs, and approval by the Graduate School, the student would not be required to be registered during the leave of absence. The time that the student spends on an approved leave of absence will be included in the time allowed to complete the degree, i.e., six (6) years for Master's and ten (10) for doctoral.

Termination

Graduate students whose programs have been terminated because of failure to maintain continuous registration and who have not been granted a leave of absence during a fall or spring semester will be required to reapply for admission, and pay the admission fee ($65.00 for US Citizens and Permanent Residents or $75.00 for Non-Resident Aliens [Internationals]), if they wish to resume their graduate studies at NC State.

Adding Courses

Courses may be added during the first week of a semester, via MyPack alone, or during the second week, via MyPack and with permission of the instructor. In a summer session, courses may be added during the first two days via MyPack alone, and/or during the third and fourth days via MyPack with permission of the instructor. To add a student to a course after the deadline for adding courses, an instructor must submit a Schedule Revision Form to the School/College or Graduate Dean's approval.

Dropping Courses

All 500-800 level courses may be dropped through MyPack without grades during the first eight weeks of a semester and during the first two weeks of a summer session. Students and advisors should consult the specific Registration and Records calendar for drop deadlines. Students should make schedule changes as early as possible in the semester. The number of hours for which a student is officially enrolled and upon which tuition and fees are based is that number in which the student is enrolled at the end of the second week of classes of a semester and at the end of the fifth day of a summer session (the last day to withdraw or drop a course with a refund). A Schedule Revision Form is required to drop a course after the deadline. No dropping of courses shall be allowed except for documented medical reasons or other verified, unforeseen grounds of personal or family hardship. Making such exceptions to policy requires the recommendation of the chair of the student's advisory committee, the DGP or Department Head, and the Dean of the Graduate School. Courses may not be dropped after the final grades have been submitted by the instructor and processed by Registration and Records.

Dropping Minicourses

The drop date for a five-week minicourse is the last day of the third week of the mini-course. The drop date for a seven-week
minicourse is the last day of the fourth week of the minicourse. Instructors teaching minicourses (courses which last only a portion of the semester) should announce at the outset of these courses their appropriate drop deadlines.

**Course Numbering**

Graduate-level courses are numbered at the 500, 600, 700 and 800 levels. Courses at the 500- and 600-level are available to advanced undergraduate students in the Accelerated Bachelor's/Master's (ABM) Degree Program and to students holding Bachelor’s degrees. Courses at the 700 and 800 level are doctoral courses and are open only to students holding Bachelor’s degrees. Exceptions may be made for undergraduate students in honors program and seniors in the ABM Program. Consent of the department is required for enrollment in all 600- and 800-level courses. Refer to the NC State University Courses Catalog for course descriptions and prerequisites.

**Note:** Courses at the 500 and 700 level are letter graded. Students cannot enroll in these courses for "credit only".

**Grading and Academic Standing**

**The Grading System**

NC State University uses the following grading system:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points/Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

**Grade Point Average (GPA)**

The number of credit hours at the 400-level of higher that are attempted in a semester or summer session (for which regular grades are received) is divided into the total number of grade points earned to arrive at the grade point average. The cumulative and semester GPAs will include the effect of any A+ grades awarded (at 4 1/3 grade points) up to a grade point average of 4.000. The GPA will be calculated to three decimal points. Credits earned in PBS classification are also included in the GPA calculations and the determination of academic standing that become part of the Plan of Graduate Work.

**Graduate Credit**

To receive graduate degree credit, a grade of "C-" or higher is required in all courses taken after admission. Grades on courses taken for graduate credit as an undergraduate at NC State, in PBS classification, or transferred from other universities must have a grade of "B" or better to be transferred. All grades on courses numbered 400 and above taken in a graduate classification or for graduate credit as an undergraduate are included in the graduate GPA. Courses at the 300 level and below are not eligible for graduate credit and subsequently do not affect the graduate GPA. To graduate, a student must have a
minimum 3.00 average on all graduate course work as well as all courses on his or her Plan of Graduate Work.

Graduate students who take 400-level courses that are letter graded do not have the option of taking the courses for "credit only" if they intend for the course to be part of their Plan of Graduate Work. It is appropriate for them to take selected 400-level letter-graded courses that are required by the program but will not be included in the Plan of Graduate Work for S-U grade. Examples would be 400-level courses in the student's major and FLE courses.

### Grading of Graduate Courses

<table>
<thead>
<tr>
<th>5XX</th>

<tr>
<td>8XX</td>
<td>S-U Graded Doctoral Courses (ALL 8XX courses with the exception of those specifically listed at the end of this section are restricted to the following classification of students class MR, DR, SR, SP and GR)</td>
</tr>
<tr>
<td>9XX</td>
<td>Professional Courses in the College of Veterinary Medicine (not covered by this document)</td>
</tr>
</tbody>
</table>

**NOTE:** Courses at the 500 and 700 level are letter graded. Students cannot enroll in these courses for "credit only".

#### Incompletes

The grade of "IN" (Incomplete) may be given in any course at the discretion of the instructor for work not completed because of a serious interruption in the student's work not caused by their own negligence. An "IN" must not be used, however, as a substitute for an "F" when the student's performance in the course is not passing. An "IN" is only appropriate when the student's record in the course is such that the successful completion of particular assignments, projects, or tests missed as a result of a documented serious event would enable that student to pass the course. Only work missed may be averaged into the grades already recorded for that student.

A student who receives an "IN" must complete the unfinished work to have the Incomplete converted to a final grade by the end of the next semester in which the student is enrolled, provided that this period is not longer than 12 months from the end of the semester or summer session in which the "IN" was received. Otherwise, the "IN" will be automatically converted to "F" or "U," in accord with the grading approved for the particular course. All grades of "IN" must be cleared prior to graduation. Students must not register again for any courses in which they have "IN" grades. Such registration does not remove "IN" grades, and the completion of the course on the second occasion will automatically result in an "F" for the incomplete course.

Except in the case of Interinstitutional Registration, grades on courses transferred from another institution will not be included in computing the GPA.

#### Grade Changes

When submitted to the Department of Registration and Records, end-of-course grades are final and not subject to change by reason of a revision of the instructor's judgment; nor are submitted grades to be revised on the basis of a second trial (e.g., a new examination or additional work undertaken or completed). Changes may only be made within one calendar year after the date final grades were submitted in order to correct an error of computation or transcribing or where part of the student's work has been unintentionally overlooked.

#### Academic Warning, Probation and Termination

Graduate students are given a notice of academic warning if they have accumulated 18 or fewer hours at the 400 level or above and have less than a 3.00 GPA. Graduate students are placed on academic probation if they have accumulated more than 18 hours at the 400 level or above and have a GPA in the range of 2.67 to 2.99 and will be ineligible for financial aid or appointment or reappointment to an assistantship or fellowship. A student's graduate study is terminated if they have accumulated more than 18 hours at the 400 level or above and have a GPA below 2.67 or if they have accumulated 30 or
more hours and have less than a 3.0 GPA. In the case of program termination, no further registration in a graduate classification will be permitted. Under extenuating circumstances the student will be reinstated upon the written recommendation of the department and approval by the Graduate Dean. Departments have the prerogative of recommending the termination of a student's graduate admission at any time if the student is not making satisfactory progress toward the degree.

Students who are eligible to attend the first summer session are eligible to attend either or both summer sessions. For example, students who receive a notice of "Graduate Admission Terminated" at the end of the first summer session may register for second summer session unless the major department recommends otherwise.

**Eligibility for Assistantship, Fellowship or Traineeship**

A graduate student must be in good academic standing to be eligible for appointment to an assistantship, fellowship or traineeship and must be registered in each semester in which the appointment is in effect.

**Audits**

Graduate students wishing to audit a course must have the approval of their advisor and of the department offering the course. While auditors receive no course credit, they are expected to attend class regularly. The degree to which an auditor must participate in class beyond regular attendance is optional with the instructor. Any auditing requirements should be clearly explained in writing to the student at the beginning of the semester. Should an instructor conclude that an auditor has failed to fulfill the stipulated requirements, the instructor is justified in marking NR (no recognition given for an audit) on the final grade report.

Audits (AU) in subjects in which the graduate student has had no previous experience will be evaluated at full credit value in determining course loads. Audits taken as repetition of work previously accomplished are considered at one-half their credit value in calculating course loads. With the single exception of foreign language audits, all audit registration must fall within the maximum permissible course loads. While audit registrations are evaluated for purposes of determining permissible course loads in terms of the regulations of the Graduate School, the University Cashier's Office considers all audits, except one permitted free of charge, in terms of full credit value in calculating tuition.

**Graduation**

There are three official graduations for graduate students per year, occurring at the end of the fall and spring semesters and at the end of the second summer session. Formal commencement exercises are held at the end of spring and fall semesters, but any student who graduated the preceding second summer session is eligible to participate in the December commencement. All students scheduled to graduate in the fall or spring semesters are strongly encouraged to attend the respective commencement. Any doctoral candidate wishing to have the degree conferred in absentia must notify the Graduate School in writing; Master's candidates should contact their departments or programs.

**Diplomas**

Students graduating in the spring and fall are awarded their diplomas during the commencement exercises. The diplomas for those students graduating at the end of second summer session or those students receiving permission to receive the degree in absentia are mailed by the Department of Registration and Records, which is also responsible for the ordering of diplomas.

Students earning a Master of Arts, Master of Science, Doctor of Education or Doctor of Philosophy degree will receive diplomas designating the degree but not the major or program of study. Students earning Master's degrees in a designated field will receive diplomas indicating the field of specialization, i.e., Master's of Forestry.

Students with co-majors will have those identified on their transcripts, but not on their diplomas.

**Diploma Order Request Cards**

To order a diploma, a student must obtain a Diploma Order Request Card (DOR) from their Department Graduate Secretary. For thesis students, the completed DOR must be submitted to their Department along with the Final Oral Exam Report. Non-thesis students must submit the DOR with their Option B Form. The department will process both forms and forward them to
the Graduate School by the deadline noted in the Graduate School Calendar. Until a Diploma Order Request form is filed, a diploma cannot be ordered.

**Interinstitutional Registration Program**

NC State participates in an Interinstitutional Registration program with the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, the University of North Carolina at Charlotte, North Carolina Central University, and Duke University. The program provides the opportunity for students to enroll at another institution for a course or courses not offered on their home campus. Other activities include a cooperative library arrangement, joint student activities, and faculty cooperation and interchange.

Even though taking a course on another campus, the student is exclusively under the administrative direction of the NC State Graduate School. Enrollment for courses on other campuses will take place on this campus, using an Interinstitutional Approval form from Registration and Records. Such courses are considered by the Graduate School to be a part of the student's normal load and the student will be billed for the courses through the NC State University Cashier's Office. During the summer, the procedure is somewhat different in that a student must be enrolled in a least one course on the NC State campus during the same session as the requested interinstitutional registration.

When the grading system of the other institutions varies from that of NC State, grades received under Interinstitutional Registration will be converted to the NC State system. "H," "P," "L," and "F" grades earned at the University of North Carolina at Chapel Hill and "E," "G," "S" and "F" grades earned at Duke University will be converted to "A," "B," "C" and "F" grades, respectively.

**Cooperating Raleigh Colleges**

The Cooperating Raleigh Colleges (CRC) is a voluntary organization composed of NC State, Meredith College, Peace College, St. Augustine's College, and Shaw University. Graduate programs are currently offered only at NC State and Meredith College, but graduate students can enroll at either institution for a course or courses not offered by their home campus.

Any NC State graduate degree student who is enrolled in 5 least three graduate credit hours on the NC State campus may take a course at Meredith College during fall or spring semester, provided that

1. the course is not taught on the NC State campus, and
2. the advisory committee considers the course educationally desirable.

NC State students may not register for more than a total of two courses in any semester at Meredith, and not more than six of the required academic credits for a Master's degree at NC State may be accepted from that institution. Grades from Meredith are not used in computing a student's NC State grade point average.

Under this agreement, regular tuition and fees are paid to NC State. Special fees may be required for specific courses at Meredith, and the student is responsible for paying these fees.

**Academic Common Market**

The Academic Common Market (ACM) is a cooperative agreement among universities in 16 states in the southeastern United States. The ACM allows a student to enroll in a graduate program at a university in another state without having to pay out-of-state tuition if that program of study is neither

1. offered by the public institutions in the student’s home state, nor
2. commonly available in the other southeastern states.

**Tuition and Fees**

The University Cashier's Office provides billing, financial aid disbursement and account management services to all students. All students paying tuition and fees are entitled to University services, facilities and programs, including the services,
facilities, and programs offered by the Student Center, Health Services, Physical Education Department, and Athletics Department.

**Residence for Tuition Purposes**

**Financial Aid**

Graduate students may receive financial support through fellowships, traineeships and teaching or research assistantships sponsored by federal, state and private agencies. A graduate student must be in good academic standing (3.0 GPA or better) to be eligible for appointment to an assistantship, fellowship, or traineeship and must be registered in each semester in which the appointment is in effect. There are also minimum registration requirements for eligibility for tuition and health insurance benefits.

**Assistantships**
**Fellowships**
**Graduate Student Support Plan**

**Admission to Degree Programs**

The [Office of Scholarships and Financial Aid](#) (OSFA) assists students and parents in applying for and securing financial assistance when family resources are insufficient to meet educational expenses. The OSFA offers assistance with any part of the financial aid process (including scholarships, grants, loans and campus employment), as well as providing financial aid counseling assistance.
Fields Offering Graduate Degrees

The Graduate School offers major programs of study in the following fields. Except where noted by an exception in parentheses, these programs required the Graduate Records Examination (GRE) scores and will not take action on applications unless accompanied by scores for at least the GRE General (Aptitude) Test (verbal, quantitative and analytical).

Accounting - MR (GMAT)
Adult and Community College Education - EdD, MS, MEd (GRE)
Aerospace Engineering - PhD, MS (GRE)
Agricultural and Extension Education - EdD (GRE)
Agricultural and Resource Economics - MS (GRE (required if requesting financial aid))
Agricultural Education - MS, MR (GRE)
Analytics - MS (GRE General Test)
Animal Science - MS, MR (GRE)
Animal Science & Poultry Science - PhD (GRE)
Anthropology - MA (GRE)
Applied Mathematics - PhD, MS (GRE and GRE Subject Test (not required but strongly encouraged))
Architecture - MR (GRE (exceptions apply; contact program))
Art and Design - MR

Biochemistry - PhD, MS, MR (GRE)
Bioinformatics - PhD, MR (GRE)
Biological and Agricultural Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Biomathematics - PhD, MS, MR (GRE)
Biomedical Engineering - PhD, MS (GRE, TOEFL for internationals)
Business Administration - MR (GMAT)

Chemical Engineering - PhD, MS, MR (GRE)
Chemistry - PhD, MS, MR (GRE (not required but strongly encouraged))
Civil Engineering - PhD, MS, MR (GRE)
Communication - MS (GRE)
Communication Rhetoric and Digital Media - PhD (GRE)
Comparative Biomedical Sciences - PhD, MS (GRE)
Computer Engineering - PhD, MS (GRE: TOEFL > 575 Internationals)
Computer Networking - MS (GRE, GRE Subject Test recommended for aid)
Computer Science - PhD, MS, MR (GRE, GRE Subject Test recommended for PhD and aid)
Counselor Education - PhD, MS, MEd (GRE or MAT)
Counselor Education, Agency Counseling - MS, MEd (GRE or MAT)
Counselor Education, Student Personnel in Higher Education - MS, MEd (GRE or MAT)
Creative Writing - MFA (GRE)
Crop Science - PhD, MS, MR (GRE)
Curriculum and Instruction - PhD, MS, MEd (GRE (PhD); GRE or MAT (MEd and MS))
Curriculum and Instruction, English Education - MS, MEd (GRE or MAT)
Curriculum and Instruction, Reading - MS, MEd (GRE or MAT)
Curriculum and Instruction, Social Studies Education - MS, MEd (GRE or MAT)

Design - PhD (GRE)

Economics - PhD, MA, MR (GRE)
Educational Administration and Supervision - EdD (GRE or MAT)
Educational Research and Policy Analysis - PhD (GRE)
Electrical Engineering - PhD, MS (GRE; TOEFL > 575 Internationals)
Elementary Education - MS, MEd (GRE or MAT)
Engineering - MR (entrance exam not required)
English - MA (GRE general test; analytical writing)
Entomology - PhD, MS, MR (GRE)
Extension Education - MS, MR (GRE)
Fiber and Polymer Science - PhD (GRE)
Financial Mathematics - MR (GRE and GRE Math Subject Test)
Fisheries and Wildlife Sciences - PhD, MS, MR (GRE)
Food Science - PhD, MS, MR (GRE)
Forestry - PhD, MS, MR (GRE)
French Language and Literature - MA (Candidates must prove fluency in French.)
Functional Genomics - PhD, MS, MR (GRE)

Genetics - PhD, MS, MR (GRE)
Global Innovation Management - MR (GMAT)
Graphic Design - MR (GRE (exceptions apply; contact program))

Higher Education Administration - MS, MEd, EdD (GRE)
History - MA (GRE)
Horticultural Science - PhD, MS, MR (GRE)
Human Development & Family Studies-Family Life & Parent Educ - MS (GRE)
Human Resource Development - MS (GRE)

Immunology - PhD, MS (GRE)
Industrial Design - MR (GRE (not required but strongly encouraged))
Industrial Engineering - PhD, MS, MR (GRE)
Instructional Technology - Computers - MS, MEd (GRE or MAT (MEd and MS))
Integrated Manufacturing Systems Engineering - MR (GRE (exceptions apply; contact program))
International Studies - MR (GRE)

Landscape Architecture - MR (GRE (not required but strongly encouraged))
Liberal Studies - MA (entrance exam not required)

Marine, Earth, and Atmospheric Sciences - PhD, MS (GRE; GRE and GRE Subject Test for disciplines in Biological Oceanography and Geology)
Materials Science and Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Mathematics - PhD, MS (GRE and GRE Subject Test (not required but strongly encouraged))
Mathematics Education - PhD, MS, MEd (GRE)
Mechanical Engineering - PhD, MS, MR (GRE)
Microbial Biotechnology - MR (GRE)
Microbiology - PhD, MS, MR (GRE)
Middle Grades Education - MS, MEd (GRE or MAT)

Natural Resources - MS, MR (GRE)
Nuclear Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Nutrition - PhD, MS, MR (GRE)

Operations Research - PhD, MS, MR (GRE)

Parks, Recreation, and Tourism Management - PhD, MS, MR (GRE)
Physics - PhD, MS (GRE and GRE Subject Test)
Physiology - PhD, MS, MR (GRE)
Plant Biology - PhD, MS, MR (GRE)
Plant Pathology - PhD, MS, MR (GRE)
Poultry Science - MS, MR (GRE)
Psychology - PhD, MS (GRE. The GRE Subject Test is no longer required, but is strongly encouraged, especially for non-psychology majors. MAT not required but strongly encouraged.)
Public Administration - PhD, MR (GRE)
Public History - MA (GRE)

School Administration - MR (GRE or MAT)
Science Education - PhD, MS, MEd (GRE or MAT (MS, MEd); GRE (PhD))
Social Work - MR (GRE or MAT (required under certain conditions; contact department))
Sociology - PhD, MS, MR (GRE)
Soil Science - PhD, MS, MR (GRE required for US students, recommended for internationals)
Spanish Language and Literature - MA (Candidates must prove fluency in Spanish.)
Special Education - MS, MEd (GRE and MAT)
Special Education, Behavior Disorders - MS, MEd (GRE or MAT)
Special Education, Learning Disabilities - MS, MEd (GRE or MAT)
Special Education, Mental Retardation - MS, MEd (GRE or MAT)
Specialized Veterinary Medicine - MR (GRE)
Statistics - PhD, MS, MR (GRE)

Teaching - MA (GRE)
Technical Communication - MS (GRE)
Technology Education - MS, MEd, EdD (GRE or MAT)
Textile Chemistry - MS (GRE)
Textile Engineering - MS (GRE)
Textile Technology Management - PhD (GRE or GMAT)
Textiles - MS, MR (GRE)
Toxicology - PhD, MS, MR (GRE)
Training and Development - MEd (GRE)

Veterinary Public Health - MR

Wood and Paper Science - PhD, MS, MR (GRE (exceptions apply; contact program))

Zoology - PhD, MS, MR (GRE)

Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.

---

**Fields Offering Minors**

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate minors:

- Artificial Intelligence
- Biotechnology
- Cognitive Science
- Computational Engineering and Science
- Ecology
- Environmental Remote Sensing and Image Analysis
- Food Safety
- Geographic Information Systems
- Interdisciplinary
- Life Science Ethics
- Plant Physiology
- Solid State Sciences
- Water Resources
- Women's & Gender Studies

Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.
Fields Offering Graduate Certificates

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate certificates:

Agricultural Education  
Community College Teaching  
Design and Analysis of Environmental Systems: Watershed Assessment and Restoration  
E-Learning  
Geographic Information Systems  
Horticultural Science  
Medical Devices  
Molecular Biotechnology  
Nonprofit Management  
Nonwovens Science and Technology  
Program Development in Family Life Education  
Public Policy  
Training and Development

Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.

Fields Offering Courses or Other Support to Graduate Programs

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate courses or in some other capacity:

Biological Sciences  
Education  
Foreign Languages and Literatures  
Multidisciplinary Studies  
Philosophy
Accounting

GRADUATE FACULTY

F. A. O. Buckless, Department Head

Director of Graduate Programs:
K. A. Krawczyk, Box 8113, 515.4439, katherine_krawczyk@ncsu.edu, Accounting

The Master of Accounting (MAC) is a professional degree designed to prepare students for careers in public Accounting, in the Accounting and finance divisions of major corporations, and in education, government, and non-profit institutions. Job titles of recent graduates include Staff Accountant, Internal Auditor, Financial Analyst, Budget Analyst, Cost Accountant, Tax Specialist, Assistant Controller, SBI Agent, State Auditor, and Internal Revenue Agent. Graduates will also be prepared to complete the CPA Examination.

Admission Requirements: Admission to the MAC program is competitive. The best-qualified applicants will be accepted up to the number of spaces available for new students. The Admissions Committee evaluates candidates on three criteria:

- undergraduate academic record and grade point average;
- GMAT score*;
- "Leadership" -- such as relevant activities and/or work experience; and presence, leadership, integrity, and other personal characteristics.

[*The Admissions Committee requires all applicants who score below 500 on their first attempt to retake the exam prior to the application deadline.]

Individuals with a Bachelor's degree in any major may apply to the program; however, any applicant without a Bachelor's degree in Accounting must complete a series of undergraduate Accounting prerequisites before qualifying as a MAC degree candidate. More complete information can be found on the MAC website.

Master's Degree Requirements: Students complete a 12-course sequence in one year that includes ten graduate-level Accounting courses and two non-Accounting MBA courses (31 total credit hours). The curriculum is designed to provide a broad-based professional education. Students can choose to obtain a concentration in Information Technology (IT) or Enterprise Risk Management (ERM).

Other Relevant Information: Masters students must begin the degree program in the summer or in the fall semester. The program is primarily designed for full-time students, and most classes meet during the day. A limited part-time option, where students complete the program in two years, is also available.

All application materials are due by one of two application deadlines--February 1 for consideration in both the MAC Fellowship and Scholarship programs; March 1 for all other applicants.

GRADUATE COURSES

ACC 508 Advanced Commercial Law
ACC 510 Accounting for Mergers and Acquisitions
ACC 511 Accounting for Derivatives and Hedging  
ACC 515 Accounting Theory and Current Issues  
ACC 519 Integrated Accounting Practice  
ACC 521 Production Cost Analysis and Control  
ACC 525 Advanced Management Accounting  
ACC 530 Advanced Income Tax  
ACC 533 Accounting and Tax Research Methodology  
ACC 534 Taxation of Corporations and Shareholders  
ACC 535 Taxation of Partnerships and S Corporations  
ACC 536 Taxation of Estates, Trusts and Gifts  
ACC 537 Tax Planning and Business Strategy  
ACC 540 IT Risks and Controls  
ACC 551 Advanced Auditing  
ACC 552 Advanced Accounting Cases  
ACC 588 Special Topics in Accounting  
ACC 600 Managerial and Career Effectiveness  
ACC 630 Independent Study  
ACC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration  
ACC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration

**GRADUATE FACULTY**

C. E. Kasworm, *Department Head*

*Director of Graduate Programs:*
D. Akroyd, Box 7801, 515.1745, duane.akroyd@ncsu.edu, Adult & Higher Education

*W. Dallas Herring Distinguished Professor of Community College Education:* L. G. Sullivan

**ASSOCIATE MEMBERS OF THE PROGRAM**

*Professors Emeriti:* R. D. Mustian, R. W. Shearon; *Associate Professors Emeriti:* R. T. Liles
The department offers degrees in adult and community college education, higher education administration, and training and development to meet the professional needs of leaders, administrators, program specialists, instructors, and consultants in community colleges, four-year colleges and universities, business and industry, and other adult and higher education organizations. Program specializations include adult and continuing education, community college leadership and higher education, health professions education, training and development, community college teaching, and student affairs.

**Admission Requirements:** In addition to Graduate School admission requirements, the department requires the student to submit GRE results (no older than five years). Specific information regarding admission can be obtained at the department's website: [ced.ncsu.edu/ahe/admissions.htm](http://ced.ncsu.edu/ahe/admissions.htm).

**Master's Degree Requirements:** The M.S. and M.Ed. programs require a minimum of 36 semester hours. The Master of Science degree requires a final oral examination and thesis approved by the student's graduate committee.

**Doctoral Degree Requirements:** Students must have completed a Master's degree before being admitted to the doctoral program. The Ed.D. degree requires a minimum of 72 semester hours of which a maximum of 12 are dissertation. Students are expected to be advanced to candidacy no later than their sixth year and to complete all degree requirements no later than the end of the tenth year. For more specific information on departmental admissions: [ced.ncsu.edu/ahe/admissions.htm](http://ced.ncsu.edu/ahe/admissions.htm).

**Student Financial Support:** Information on financial aid at NC State may be found at [www7.acs.ncsu.edu/financial_aid](http://www7.acs.ncsu.edu/financial_aid).

GRADUATE FACULTY

J. L. Flowers, Interim Department Head

Director of Graduate Programs:
G. E. Moore, Box 7607, 515.1756, gary_moore@ncsu.edu, Agricultural & Extension Education

The Agricultural and Extension Education Department provides advanced study for professionals in agricultural education, extension education or related careers. Programs of study are designed to meet the individual needs of the student. Courses may be selected that lead to advanced teacher licensure in agriculture or an emphasis in extension education leading to advancement in careers in the Cooperative Extension Service. Additional specialization in the student's teaching or extension field is provided through a minor or advised elective courses. The following graduate programs are available in the Department:

Graduate Certificate in Agricultural Education (requires 15 hours)
Master of Science in Agricultural Education (requires 36 hours including a thesis)
Master of Science in Extension Education (requires 36 hours including a thesis)
Master of Agricultural Education (requires 36 hours)
Master of Extension Education (requires 36 hours)
Master of Agricultural Education (a 100% internet-based degree program requires 36 hours)
Sixth-Year Certificate in Agricultural Education
Doctor of Education in Agricultural and Extension Education

Admission Requirements: In addition to the Graduate School admission requirements, the department requires the GRE, three positive references, and a statement of career goals and/or research interests. An interview (personal or by telephone) may be required.

Master's Degree Requirements: The Department offers an M.S. degree, which requires a thesis for which the student receives six hours of credit, and a Master of Agricultural Education and a Master of Extension Education as a non-thesis track. All Master's degree programs require a total of 36 credit hours. The Master of Science in Extension Education and the Master of Extension Education require a core of 21 hours (AEE 501, 505, 521, 523, 526, 577, and 578). The Master of Science in Agricultural Education and the Master of Agricultural Education require a core of 18 hours (AEE 501, 505, 526, 528 or 529, 535 or 735, and 578). Minors are optional but, if selected, require a minimum of nine credit hours.

Graduate Certificate Requirements: The Department also offers a graduate certificate in agricultural education. This certificate program involves completion of 15 credit hours. Students are to choose from AEE 500, 503, 521, 522, 528, 529, 535, 641, and 735.

Sixth-Year Certificate: The Department offers an array of courses that are recognized by the Department of Public Instruction as comprising a Sixth-Year Certificate. Students are required to complete 24 hours of advanced graduate work past the Master's degree. Contact the Director of Graduate Programs for details.

Doctoral Degree Requirements: A Doctor of Education degree in Agricultural and Extension Education is offered. A minimum of 72 hours past the Bachelor's degree is required. More hours may be required based upon the past degrees and experiences of the candidate. The student’s graduate committee will determine the specific courses needed. At least six hours of statistics is required. Twelve hours of credit is earned for writing the dissertation.

Student Financial Support: A limited number of research and/or teaching assistantships are available on a competitive basis. Other financial aid is available from the Office of Financial Aid and on a competitive basis from the Graduate School.
Other: The graduate courses listed below are available live, online, or both. Students should refer to the current Registration and Records Course Inventory or to the AEE graduate program website.

GRADUATE COURSES

AEE 500 Agricultural Education, Schools and Society
AEE(ED) 501 Foundations of Agricultural and Extension Education
AEE 503 Youth Program Management
AEE 505 Trends and Issues in Agricultural and Extension Education
AEE 507 Comparative Agricultural and Extension Education
AEE 521 Program Planning in Agricultural and Extension Education
AEE 522 Occupational Experience in Agriculture
AEE 523 Adult Education in Agriculture
AEE 526 Information Technologies in Agricultural and Extension Education
AEE 528 Instructional Design in Agricultural and Extension Education
AEE 529 Curriculum Development in Agricultural and Extension Education
AEE(ED) 530 Priority Management in Agricultural and Extension Education
AEE 534 Mentoring in Agricultural and Extension Education
AEE(ED) 535 Teaching Agriculture in Secondary Schools
AEE 560 Organizational and Administrative Leadership in Agricultural and Extension Education
AEE 577 Evaluation in Agricultural and Extension Education
AEE 578 Scientific Inquiry in Agricultural and Extension Education
AEE 579 Research Design in Agricultural and Extension Education

GRADUATE FACULTY

Director of Graduate Programs: M. A. Rappa, Box 7268, 424.4550, mrappa@ncsu.edu, Institute for Advanced Analytics

Alan T. Dickson Distinguished University Professor: M. A. Rappa

Professors: D. A. Dickey, C. P. Jones; Associate Professors: J. B. Earp, L. A. Williams

The Master of Science in Analytics (MSA) is an intensive 10-month degree with a strong practical orientation designed to give students a thorough understanding of the tools, methods, and applications of advanced analytics. The curriculum is designed entirely for MSA students and classes are taught as a cohort. Students work frequently in teams and receive hands-on training with industry-standard software tools. Its educational objectives include but are not limited to topics, such as data quality and integration, data and text mining, time series forecasting, optimization, survival analysis, and other areas of statistics; data security and privacy; project management and communication skills. Student team projects aim to provide experience with solving complex analytical problems in industry and in other areas of science, medicine and engineering, such as, but not limited to: financial analytics, fraud detection, and risk management; marketing optimization, customer analytics and web analytics; clinical and biological data analysis; and data mining for software engineering.

Admission Requirements: Admission to the MSA program is highly competitive. The best-qualified applicants will be accepted up to the limited number of seats available for students each year. The Admissions Committee evaluates candidates on criteria such as:

- overall academic record and grade point average;
- academic performance in analytical/quantitative subjects;
- GRE General Test score;
- relevant employment experience and potential to succeed in the profession; and
- leadership, integrity, and other personal character traits.

Individuals with a Bachelor's degree in any major may apply to the program; however, an applicant without prior coursework in statistics, mathematics, computer programming, would need to complete a set of prerequisite courses before qualifying as a candidate for admission. More information can be found on the MSA website.

Master's Degree Requirements: Students complete 30 credit hours of defined coursework in a period of ten months beginning in Summer Session II and ending the following Spring semester. The integrated curriculum is designed to provide a focused education in the software tools, methods and applications of data analytics.

Other Relevant Information: Students must begin the degree program in the first semester (Summer Session II) and complete all 30 credit hours of the curriculum. The program is designed for full-time students only. All application materials are due by February 15 (January 15 for international applicants).

GRADUATE FACULTY

R. L. McCraw, **Interim Department Head**

**Director of Graduate Programs:**
C. E. Farin, Box 7621, 515.4022, char_farin@ncsu.edu, Animal Science

**William Neal Reynolds Professor:** J. Odle
**William Neal Reynolds Professor Emeritus:** E. J. Eisen

ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** G. W. Almond, W. J. Croom, Jr., W. M. Hagler, Jr., D. K. Larick, J. Piedrahita; **Professors (USDA):** J. C. Burns; **Associate Professors:** G. A. Benson, M. D. Whitacre

Animal science offers an opportunity for training in a diversity of basic sciences and the integration of such knowledge into the framework of a living system. Students may major or co-major in animal science or one of the following disciplines: biochemistry, genomics, genetics, microbiology, nutrition, physiology or statistics. Students may also concentrate in management and production areas.

**Admission Requirements:** Factors considered for admission include: grade point average, scores on the GRE (for M.S. and Ph.D. applicants), undergraduate courses, letters of recommendation and a member of the Animal Science Department faculty willing to serve as the applicant's advisor.

**Master of Science:** A minimum of 30 credit hours of graduate work in the degree program is required. The minor is optional and external faculty representation is not required on the advisory committee.

**Master of Animal Science:** The non-thesis Master of Animal Science degree requires a minimum of 36 credit hours, of which a minimum of 9 credits are in Animal Science courses at the 500 or above level and 3 to 6 credits are for a research project (ANS 610).

**Doctoral Degree Requirements:** The department offers a Ph.D. program in Animal Science and Poultry Science with a concentration in Animal Science.

**Student Financial Support:** A limited number of research and teaching assistantships are available through the department and are awarded on a competitive basis. Students may also be supported by research grant funds awarded to faculty.
members. Students applying for assistantships are advised to apply by February 15 for fall admission.

**Other Relevant Information:** To provide an opportunity for students to develop their teaching skills, all graduate students are required to assist in the departmental teaching program, regardless of source of financial support.

GRADUATE FACULTY

Directors of Graduate Programs:
C. E. Farin, Box 7621, 515.4022, char_farin@ncsu.edu, Animal Science
J. T. Brake, Box 7608, 515.5060, ibrake@ncsu.edu, Poultry Science

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake
William Neal Reynolds Professor: J. Odle
William Neal Reynolds Professor Emeritus: E. J. Eisen

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: G. W. Almond, D. K. Larick, J. Piedrahita, D. P. Wages; Professors (USDA): J. C. Burns; Associate Professors: G. A. Benson, M. D. Whitacre

Doctoral Degree Requirements: A doctoral degree in Animal Science and Poultry Science with a concentration in either Animal Science or Poultry Science is offered. Specific course requirements are flexible and each student's program of study is developed in consultation with their Ph.D. advisory committee. The minor is optional but external faculty representation is required on the advisory committee.

Note: The Master's program in Animal Science and Poultry Science are administered independently by each department.

Admission Requirements: Factors considered for admission include: grade point average, scores on the GRE, undergraduate courses, and letters of recommendation. A member of either the Animal Science Department or Poultry Science Department faculty can serve as the applicant's advisor.

Student Financial Support: The Departments of Animal Science and Poultry Science offer a limited number of research and teaching assistantships that are awarded on a competitive basis. Students may also be supported by research grant funds awarded to faculty members. Students applying for these assistantships are advised to apply by February 15 for fall admission.

Other Relevant Information: There are two curriculum codes for the Animal Science and Poultry Science doctoral degree program. If a student is interested in a program concentration in Animal Science the appropriate curriculum code for the admissions application is ANA. If the student is interested in a program concentration in Poultry Science the appropriate
curriculum code for the admissions application is ANP. If the appropriate curriculum code is not selected, it will likely delay the department’s receipt of the applicant’s information from the Graduate School.

GRADUATE FACULTY

Director of Graduate Programs:
A. L. Schiller, Box 8107, 515.9015, anne_schiller@ncsu.edu, Anthropology

The graduate degree in Anthropology is a 36-hour, two-year long Master of Arts thesis program which will enable students to gain a deeper understanding of the behavior, beliefs, and evolutionary legacy of the human species. In addition to common core courses, students select one of three concentrations in which to focus their studies: Bioarchaeology, Cultural Anthropology, or Environmental Anthropology.

The program provides excellent preparation for students wishing to pursue a Ph.D. in Anthropology. Graduates of the program may also pursue employment in a variety of areas including development organizations and non-profits, human resource management, cultural resource management, or in physical anthropology or archeology labs.

Admissions Requirements: In addition to general Graduate School requirements, applicants are required to provide a completed application, including transcripts, GRE scores, three letters of recommendation, and a personal statement. A writing sample and CV are optional but encouraged. The deadline for completed applications is January 15. The curriculum is set for fall admission only.

Master's Degree Requirements: The M.A. degree requires a total of 36 credit hours. All students take six hours of common core courses in theory and qualitative research and then select one of the three specializations: cultural anthropology, environmental anthropology, or bioarchaeology. Students in all three concentrations will take six hours of thesis research credit (ANT 695).

Student Financial Support: Teaching assistantships are available on a competitive basis. Students are appointed to assistantships with the expectation of reappointment, assuming normal progress, for a total period of two years.

GRADUATE COURSES

GRADUATE FACULTY

P. Tesar, Director of the School of Architecture

Director of Graduate Programs:
D. B. Hill, Box 7701, 515.8357, david.hill@ncsu.edu, Architecture

Alumni Distinguished Professor of Architecture: J. W. Place
Alumni Distinguished Professor of Architecture and Director of Graduate Program: J. P. Rand
Graduate Alumni Distinguished Professor of Architecture: R. H. Clark

Professors: T. M. Barrie, G. Bizios, M. J. Malecha, P. Tesar; Professors Emeriti: P. Batchelor, F. A. Rifki; Associate Professors: W. H. Redfield, K. Schaffer, J. O. Tector; Visiting Associate Professors: J. S. Lee; Assistant Professors: P. Battaglia, D. B. Hill; Visiting Assistant Professors: R. S. Lanou

The School of Architecture offers three tracks to the Master of Architecture degree: Track 1 is for applicants with a four-year undergraduate pre-professional degree in architecture and may be completed in two years of full-time study. Track 2 is for applicants holding a five-year NAAB-accredited Bachelor of Architecture degree and normally requires three semesters in residence. Track 3 is for students with degrees in fields other than architecture. This track normally requires three semesters of preparatory work before entering the final two-year program of graduate study. Some applicants with design-related academic or professional experience may be able to complete the preparatory work in less time.

A variety of courses are available within the School of Architecture in urban and community design, architectural history and theory, material fabrication, professional practice, building technology and environmental systems.

Admission Requirements: In addition to documents required by the Graduate School, students apply to the Master of Architecture program by submitting the following documents by January 5: (1) Portfolio of work; (2) Completed School Personal Data Form; (3) GRE scores (Track 3 applicants only); (4) TOEFL scores (foreign language students only). Applicants will be considered on an individual basis. Exceptions to Graduate School policy may be made for students indicating other qualifications and professional experience.

Master's Degree Requirements: The school stipulates the minimum course credits based on educational and professional goals to individualize a plan of study.

Student Financial Support: The school awards a number of scholarships, awards, and teaching assistantships competitively. It also supports national and statewide scholarships, fellowships, and awards. All support is merit based, not need based. No special application for such support is necessary at the time of admissions.
National Architectural Accrediting Board (NAAB): "In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a six-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

"Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

"Professional degree programs in the NC State University School of Architecture (i.e. Master of Architecture and Bachelor of Architecture) are fully accredited by the NAAB. The Bachelor of Environmental Design in Architecture (BEDA) degree, being a pre-professional program, does not fall under NAAB accreditation jurisdiction although it serves as the foundation for the two accredited professional degrees."

GRADUATE FACULTY

C. D. Cox, Department Chair

Director of Graduate Programs:
S. D. Brandeis, Box 7701, 515.3876, susan_brandeis@ncsu.edu, Art and Design

Professors: S. D. Brandeis, C. E. Joyner, M. Pause; Associate Professors: C. D. Cox, L. M. Diaz, P. FitzGerald, V. K. Plume, D. G. Raymond, K. Rieder, S. M. Toplikar; Assistant Professors: M. Freeman II, J. Wan

The Art and Design program offers an educational structure that creates a new art and design professional: one for whom artistic and practical talents are developed as different expressions of individual potential. Our objectives are to graduate highly educated art and design professionals with integrated competencies in art, design, aesthetics, hand and digital technologies, skills in the concentration and other disciplines of human knowledge.

Areas of concentration in the Master of Art and Design are (1) Fibers and Surface Design, and (2) Animation and New Media.

Admission Requirements: Students will be required to submit a portfolio of past work in slide or electronic format; three letters of recommendation; a statement of personal goals; and transcripts of undergraduate work (minimum undergraduate GPA of 3.0). An interview will be required, but in cases of international applicants or those quite distant from NC State University, may be conducted by means of a long distance phone conversation or may be waived at the faculty's discretion.

Masters Degree Requirements: The program of study requires a minimum of 48 credit hours of graduate work depending on background preparation of the applicant. A separate track of 60 credit hours accommodates students with insufficient background in the chosen concentration.

Other Information: We will only admit students to the program in the fall semester each year. Deadline for application is January 5.

GRADUATE COURSES

ADN 503 Graduate Seminar in Art and Design
ADN 560 Advanced Animation Studio
ADN 561 Digital Animation and Imaging Seminar

Graduate Faculty

D. T. Brown, Department Head

Director of Graduate Programs:
E. S. Maxwell, Box 7622, 515.5803, stu_maxwell@ncsu.edu, Biochemistry

William Neal Reynolds Professor: J. Cavanagh, L. K. Hanley-Bowdoin, W. L. Miller

Associate Members of the Program

The graduate program in biochemistry is designed to prepare individuals for careers in research and teaching. Emphasis is primarily focused on laboratory research, where graduate students work closely with faculty. The department is well equipped to conduct research in biochemistry, biophysics, molecular biology and molecular genetics.

Admission Requirements: Students entering the graduate program in biochemistry should have a bachelor's degree in biochemistry, chemistry or a related physical or biological science, including undergraduate courses in organic chemistry, calculus, physics and physical chemistry, as well as biochemistry/molecular biology.

Master of Science Degree Requirements: The Master of Science degree requires a minimum of 30 credit hours of courses and thesis research including nine credit hours in biochemistry graduate core courses. On average, completion of the M.S. degree requires two to three years.

Doctoral Degree Requirements: Requirements for the Ph.D. degree include a minimum of 30 credit hours in course work and thesis research, including the three graduate core courses and at least two advanced courses in biochemistry/molecular biology; teaching experience. Formal course work may be completed within three semesters; on average, completion of the Ph.D. degree requires five years.

Student Financial Support: The department endeavors to meet the financial needs of students accepted into its doctoral program. Essentially all admitted students are offered the opportunity to apply for graduate teaching and research assistantships.

Other Relevant Information: The Department of Biochemistry is jointly administered by the Colleges of Agriculture and Life Sciences and Physical and Mathematical Sciences. The department, committed to a strong research environment, interacts with other life science departments on campus as well with the other research universities and institutes of the Research Triangle area.

GRADUATE FACULTY

R. O. Evans Jr., Department Head

Director of Graduate Programs:
D. H. Willits, Box 7625, 515.6755, dan_willits@ncsu.edu, Biological & Agricultural Engineering

Distinguished University, Graduate Alumni Distinguished, and Wm. Neal Reynolds Professor: R. W. Skaggs

ASSOCIATE MEMBERS OF THE PROGRAM

Course offerings or research facilities are available in the following areas: bioinstrumentation, biomechanics, bioprocessing, food and process engineering, biological systems modeling, aquaculture, hydrology, water table management, ground water management, animal waste management, non-point source pollution, power and machinery, soil and water, controlled environment agriculture, electrical and electronic systems, robotics and machine vision.

**Admission Requirements:** A baccalaureate in biological or agricultural engineering or the equivalent is the preferred prerequisite for admission. Those with strong academic background in the physical or biological sciences may also be admissible with a requirement for certain additional background undergraduate work. In the case of applicants with Master's degrees, a Master's GPA of at least 3.2 is required for admission. Exceptions to the overall undergraduate GPA requirements may be made for cases where performance in the major or during the last two years was at or above the 3.00 level.

GRE scores are recommended for those with academic performance records near the minimal level. Applicants without engineering degrees from domestic accredited institutions must submit GRE scores to be considered for admission. Admission decisions are made by a faculty review committee. The best-qualified applicants will be accepted up to the number of spaces available for new students.

**Master's Degree Requirements**

*M.B.A.E.*: This Option B non-thesis degree requires 30 hours of approved graduate course work. This degree is available via Distance Education.

*M.S.*: This is a thesis degree requiring 30 hours of approved graduate coursework. A minor is required.

**Doctoral Degree Requirements:** Course hour requirements are flexible but typically include at least 36 hours beyond a Master's degree. Direct admission without a Master's is possible in exceptional cases. A minor is required.

**Student Financial Support:** Graduate assistantships are available to students in this program on a competitive basis.

GRADUATE FACULTY

Director of Graduate Programs:  
A. L. Lloyd, Box 8203, 515.1910, alun_lloyd@ncsu.edu, Biomathematics

Burroughs Wellcome Distinguished Professor:  J. E. Riviere  
Camille Dreyfus Distinguished University Professor:  C. K. Hall  
Distinguished University Professor and Drexel Professor:  H. T. Banks  
William Neal Reynolds Distinguished Professor:  W. R. Atchley  
William Neal Reynolds Professor:  Z. Zeng

ASSOCIATE MEMBERS OF THE PROGRAM

Adjunct Professors:  R. B. Conolly, L. B. Crowder, P. H. Morgan;  Adjunct Associate Professors:  J. M. Hoenig;  Adjunct Assistant Professors:  G. Bobashev, J. S. Kimbell, M. W. Lutz

Biomathematics is an interdisciplinary graduate program offering courses and research opportunities in basic and applied mathematical biology. Degree programs are flexible to accommodate students with backgrounds in the biological, mathematical or physical sciences. The program also offers Ph.D. and master's-level minors. Additional information on requirements, courses, faculty and current research can be found at the website www.ncsu.edu/biomath.

Admission Requirements:  Applicants should have either a Bachelor's degree in biology with evidence of aptitude and interest in mathematics, or a bachelor's in a mathematical science with evidence of aptitude and interest in biology. Advanced (multivariate) calculus, linear algebra and general biology are prerequisites for all BMA courses, and deficiencies in these should be remedied during the first year of graduate study. The application must include a narrative statement (1-2 pages) of the applicant's goals and reasons for interest in the BMA program.

Master's Degree Requirements:  The M.S. and M.BMA. degrees require BMA 771-772 and one other BMA course; two upper-level biology courses; and three courses from the mathematical sciences or statistical sciences. The M.S. degree requires a thesis, and the M.BMA. requires two additional courses and a written project.

Doctoral Degree Requirements:  Course requirements consist of a "core" and a "concentration" in some area of biology or mathematical sciences. Core requirements are:  BMA 771-772, 773 and 774; three upper-level biology courses from at least two areas (e.g., physiology and evolution); and additional courses from the mathematical or statistical sciences.
Concentration consists of either a Ph.D. co-major in a biological or mathematical science or a coherent series of five graduate courses approved by the student's committee, which must include a two-semester sequence and at least one 700-level course.

**Financial Assistance:** TAs (generally in the Departments of Statistics or Mathematics), RAs and internships are available. Awards are based on GRE scores, transcripts, letters of recommendation, and the personal statement. RAs usually are held by continuing students. To receive **full** consideration for financial aid, the completed application must be received by January 15.

**Other Relevant Information:** All students are required to participate in the BMA Graduate Seminar. Course requirements can be met by examination or by demonstrating that an equivalent course was completed at another university.

**GRADUATE COURSES**

BMA 567 Modeling of Biological Systems

**GRADUATE FACULTY**

H. T. Nagle Jr., *Interim Department Head*

_Director of Graduate Programs:_  
S. B. Knisley, Box 8301, 966.6653, [sknisley@email.unc.edu](mailto:sknisley@email.unc.edu), Biomedical Engineering

ASSOCIATE MEMBERS OF THE PROGRAM

The Joint Biomedical Engineering Graduate Program is administered by the combined biomedical engineering graduate faculty from both NC State University and University of North Carolina at Chapel Hill. The joint program also has close working relations with the Research Triangle Institute and industry within the Research Triangle area. These associations enable students to obtain research training in a wide variety of fields and facilitate the selection and performance of dissertation research. The department, thus, provides students with excellent opportunities to realize the goal of enhancing medical care through the application of modern technology.

Biomedical engineering is a dynamic field stressing the application of engineering techniques and mathematical analysis to biomedical problems. Faculty research programs are key to the program, and they include digital systems and signal processing, instrumentation, telemedicine, microelectronics, medical imaging, biofluids and biomechanics, biomaterials and tissue engineering, biosystems analysis, biomedical informatics. Facilities include a biomedical sensors laboratory, a tissue engineering laboratory, tissue and cell mechanics laboratories, and an array of cell culturing and computing resources.

Admission Requirements: Students must satisfy all entrance requirements for the Graduate Schools of the University of North Carolina at Chapel Hill or North Carolina State University and must demonstrate interest and capability commensurate with the quality of the biomedical engineering program. Prospective students may apply to the graduate school at either UNC-CH or NC State. Generally, applications should be submitted by January 1 for consideration for admission in the coming fall semester. Applicants are expected to present GRE scores; scores for verbal and quantitative should be at or above the 50th percentile to be competitive. The program requires that a one-to-three page personal statement about research interest and background be submitted.

Master's Degree Requirements: For students with a strong engineering background a minimum of 31 semester hours of graduate study is required for the M.S. Degree. Three hours must be in thesis and three hours must be in a course intended for graduate students only (the 700 level at NC State or the 700-800 level at UNC-CH). Further information on the BME Master's program can be found on the department website.

Doctoral Degree Requirements: A minimum of 52 semester hours of graduate work is required (beyond the Bachelor's degree). The student must meet the Graduate School’s residency requirement at UNC-CH or NC State as appropriate. All Ph.D. students are also required to have some teaching experience. Further information on the BME Ph.D. program can be found on the department website.

Required and highly recommended courses: Students are required to take Introduction to Biomedical Engineering Seminar (BMME 400) offered at both UNC-CH and NC State and at least one credit of research experience in the first year of study. Students must also complete nine credits of graduate engineering topics, eight credits of graduate life science topics, six credits of engineering mathematics, and three credits of statistics. Students may choose from a number of courses to meet these requirements. Such choices are made in consultation with the student's academic advisor and the Director of Graduate Programs/Studies.

Comprehensive and Qualifying Examinations: Master's students are required to take a Comprehensive examination, encompassing coursework and thesis research. The Master's Comprehensive exam may be either written or oral, and is administered by the students advisory committee. Doctoral students qualify for the Ph.D. degree by meeting grade
requirements in their core courses, and then advance on to written and oral preliminary exams before admission to candidacy. Details can be found on the department website.

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: P. Arasu

The Master of Business Administration (MBA) program develops leaders for tomorrow's markets and technologies. NC State's MBA provides a solid foundation in the principles of finance, marketing, and other traditional business subjects.

The most distinctive feature of the program is its emphasis on management of technology. We offer concentrations in Biotech/Pharmaceuticals Management, Financial Management, Marketing Management, Product Innovation Management, Services Management, Supply Chain Management, and Technology Entrepreneurship. Most students have a technology background, either from their undergraduate degree or previous work experience.

Admission Requirements: In addition to basic Graduate School admission requirements, applicants must submit recent GMAT scores. Admission decisions are based on academic performance and potential, GMAT scores, essays, and relevant work experience. Students must have a previous coursework in calculus before entering the program. For further information, please visit the MBA website at www.mba.ncsu.edu.

Master's of Business Administration: The MBA curriculum requires that every student complete the core curriculum listed below, along with concentration and elective courses, for a total of 51 credit hours for full-time students and 45 credit hours for part-time students.

MBA 500 Managerial and Career Effectiveness
MBA 503 Survey of Accounting
MBA 504 Data Analysis and Forecasting Methods for Management
MBA 505 Global Economics for Managers
MBA 520 Managerial Finance
MBA 530 Managing the Global High-Tech Workforce
MBA 540 Operations and Supply Chain Management
MBA 550 Management of Technology and Innovation
MBA 560 Marketing Management and Strategy
MBA 580 Global Strategy

Technical Concentration: Minimum of 12 hours of courses in one of the following areas: Biotech/Pharmaceuticals Management, Financial Management, Marketing Management, Product Innovation Management, Services Management, Supply Chain Management, and Technology Entrepreneurship

Electives: Minimum of 15 hours for full-time students; minimum of nine (9) hours for part-time students.

Minor in Management: Students enrolled in Master's and doctoral programs can complete the minor by taking courses that meet requirements for the MBA degree. Master's students must take nine (9) hours; doctoral students must take 15 hours.

GRADUATE COURSES

MBA 500 Managerial and Career Effectiveness
MBA 501 Legal and Regulatory Environment in Management
MBA 503 Survey of Accounting
MBA 504 Data Analysis and Forecasting Methods for Management
MBA 505 Global Economics for Managers
MBA 508 Global Management Simulation
MBA 510 Information Technology Management
MBA 511 Networking Infrastructure for E-commerce
MBA 513 Database Management
MBA 514 Technology, Law and the Internet

GRADUATE FACULTY

P. S. Fedkiw, Department Head
Director of Graduate Programs:
S. A. Khan, Box 7905, 515.4519, khan@eos.ncsu.edu, Chemical Engineering

Hoechst Celanese Professor Emeritus: R. M. Felder
Alcoa Professor of Chemical Engineering: R. M. Kelly
Camille Dreyfus Distinguished University Professor: C. K. Hall
Camille Dreyfus Professor: H. B. Hopfenberg
Distinguished University Professor: D. F. Ollis
Frank Hawkins Kenan Distinguished Professor of Chemical Engineering: R. G. Carbonell
William R. Kenan Jr. Distinguished Professor and Mary Ann Smith Professor: J. M. DeSimone
Worley H. Clark Jr. Distinguished Professor: K. E. Gubbins

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: H. Jameel, B. Pourdeyhimi, C. M. Balik; Associate Professors: C. R. Daubert

Research activities in the department include: biomolecular engineering; catalysis, electrochemical and reaction engineering; electronic materials; green chemistry and engineering; polymers and colloids; nanotechnology and interfacial science; thermodynamics and molecular simulation; and supercritical fluids.

Admissions Requirements: Students admitted to the graduate program normally have a Bachelor’s degree in chemical engineering or its equivalent. Students with undergraduate degrees in chemistry, physics or other engineering disciplines may be admitted but will be required to make up undergraduate course work deficiencies in chemical engineering without graduate credit. The most promising candidates will be accepted up to the number of spaces available.

Master of Science Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. A set of four core courses is required. Two options are provided. In the thesis option, the final thesis must be defended in a final public oral examination. In the non-thesis option, the student must satisfactorily complete a total of 10 graduate courses.

Master of Chemical Engineering Degree Requirements: The M.Ch.E. degree requires a minimum of 30 credit hours. A set of four core courses is required. A three-credit project is also required.

Doctor of Philosophy Degree Requirements: Students normally take a set of five core courses, two advanced courses and at least 6 credits of dissertation research. A thesis is required; this must be defended in a final public oral examination. In addition, the candidate must: (1) submit and defend an original written proposition in any area of chemical engineering, and (2) submit and defend a proposal to perform his/her thesis research.

GRADUATE FACULTY

M. G. Khaledi, Department Chair

Director of Graduate Programs:
C. B. Gorman, Box 8204, 515.4252, chris_gorman@ncsu.edu, Chemistry

Glaxo Distinguished University Professor: J. S. Lindsey
Howard J. Schaeffer Distinguished University Professor: B. M. Novak

**ASSOCIATE MEMBERS OF THE PROGRAM**

**Professors:** D. W. Brenner

The Department of Chemistry offers programs of study leading to the Doctor of Philosophy, Master of Science and Master of Chemistry degrees. The Ph.D. and M.S. degrees are based on original research, while the Master of Chemistry degree is a non-research degree. Many research projects merge disciplines such as biochemistry, computational science, materials science, physics, statistics and toxicology with chemistry. General courses as well as advanced and special topics courses are offered.

**Admission Requirements:** Applicants should have an undergraduate degree in chemistry or in a closely related field with a strong chemistry background. A GPA of at least 3.0 in the sciences is needed for consideration. GRE General Test scores are strongly recommended, and the Subject Test is recommended. Admission decisions are made as completed applications are received. For most favorable consideration for the fall term, all application materials should be received by January 15 (domestic students) and January 1 (international students); for spring admission, by August 15.

**Master's Degree Requirements:** The Master of Science (M.S.) degree in chemistry is a research degree that requires six graduate courses and research leading to a thesis. The Master of Chemistry (M.C.) degree is a non-thesis degree requiring primarily coursework. Contact the Director of Graduate Programs for further details. Both Master's degrees require a minimum of 30 credit hours of graduate work.

**Doctoral Degree Requirements:** In the doctoral program, emphasis is placed on original research and a comprehensive knowledge of one's chosen field.

**Student Financial Support:** Incoming graduate students are supported by departmental teaching assistantships. Outstanding applicants are eligible for supplemental fellowships during their first year of study. Research assistantships are normally available to second-, third-, and fourth-year students. The department also has fellowships for students interested in the area of electronic materials, biotechnology and pharmaceutical and synthetic organic chemistry.

**Other Relevant Information:** The Department of Chemistry is one of five academic departments in the College of Physical and Mathematical Sciences. Fifteen new faculty members have been added in the last ten years, thereby greatly enhancing opportunities for graduate research especially in cutting edge interdisciplinary programs.

**GRADUATE COURSES**

CH 601 Seminar

**GRADUATE FACULTY**

G. F. List, *Department Head*

*Director of Graduate Programs:*
V. C. Matzen, Box 7908, 515.7736, matzen@ncsu.edu, Civil Engineering

*Distinguished Professor:* S. H. Rizkalla

*Distinguished Professors:* D. W. Johnston

Graduate programs are offered in coastal and water resources engineering, computer-aided engineering, construction engineering and management, environmental engineering, geotechnical engineering, public works engineering, structures and
mechanics, transportation engineering and materials.

**Admission Requirements:** Normal minimum requirements include a 3.0 GPA in a related engineering major. Provisional admission may be granted to applicants who do not satisfy normal admission criteria but have other special qualifications. Applicants without academic experience in civil engineering, construction engineering, or environmental engineering may be required to take undergraduate courses to remove deficiencies, without graduate credit. The Graduate Record Examination normally is required of all applicants.

**Master's Degree Requirements:** Two Master's degrees, each requiring a minimum of 30 credit hours, are available. At least two-thirds of a Master's program should be in a well-defined major area of concentration. The M.CE. is a non-thesis (Option B) degree with other requirements, such as independent projects or core courses, specified in some areas of specialization. A formal minor is not permitted. The M.CE. is available both on-campus and through distance education. The M.S. degree requires a thesis and a formal minor is optional.

**Doctoral Degree Requirements:** The Ph.D. typically requires one year of full-time course work beyond the master's degree and research culminating in a dissertation. The program must develop a well-defined major area of concentration and may include supporting courses outside the major or a formal minor in a related field.

**Student Financial Support:** Departmental teaching and research assistantships are available including coverage of tuition and health insurance. Fellowships supplementing the assistantships, which may include coverage of academic fees, are available for exceptional U.S. applicants. All financial aid recipients are selected on merit-based competition with other applicants. Applications requesting financial aid should be submitted early: February 1 for Fall admission and by July 15 (international) or October 1 (U.S.) for Spring admission, although these are not deadlines.

**GRADUATE COURSES**

CE 501 Transportation Systems Engineering  
CE 502 Traffic Operations  
CE 503 Highway Design  
CE 504 Airport Planning and Design  
CE 505 Advanced Airport Systems Design  
CE 506 Transportation Engineering Data Collection and Analysis  
CE 509 Highway Safety  
CE 522 Theory and Design of Prestressed Concrete  
CE 523 Theory and Behavior of Steel Structures  
CE 524 Analysis and Design of Masonry Structures  
CE 525 Structural Analysis II  
CE(WPS) 528 Structural Design in Wood  
CE 537 Computer Methods and Applications  
CE 538 Information Technology and Modeling  
CE 548 Engineering Properties of Soils I  
CE 549 Soil and Site Improvement  
CE 561 Construction Project Management

GRADUATE FACULTY

K. Zagacki, Interim Department Head

Director of Graduate Programs:
M. A. Johnson, Box 8104, 515.9756, melissa_johnson@ncsu.edu, Communication

The Master of Science program in communication is designed to provide graduate-level expertise for solving problems in modern organizations and social systems from a communication perspective and addresses issues concerned with interpersonal, relational and technologically mediated communication systems essential to modern, networked organizations and societies. Its graduates will acquire advanced-level expertise in communication theory, research and applications that will improve processes and enhance outcomes within and across diverse social systems. The degree prepares students for higher-level managerial positions in their professions.
Admission Requirements: Applicants should have a minimum 3.0 GPA in the undergraduate major and a minimum of 3.0 over the last 60 hours of undergraduate work.

Master's Degree Requirements: The degree requires 36 credit hours with a minimum of 27 credit hours taken in communication; up to 9 hours may be taken outside of the department with the approval of the graduate advisor. Students will be required to complete 9 hours in communication theory, 6 hours in communication research methods and 12 hours in applied communication courses. They will also be required to complete 9 hours as electives to be chosen from among the first three groups of courses or up to 9 hours of electives may be taken outside the department with the approval of the graduate advisor.

GRADUATE COURSES

COM(ENG) 514 History of Rhetoric
COM(ENG) 516 Rhetorical Criticism: Theory and Practice
COM 520 Seminar in Crisis Communication
COM 521 Communication and Globalization
COM 522 Critical Approaches to Organizational Communication
COM 523 International and Intercultural Communication
COM 524 Political Communication in Organizations
COM 525 Communication and Decision Making
COM 526 Media Ownership
COM 527 Seminar in Organizational Conflict Management
COM 528 Communication Culture and Technology
COM 529 Communication Campaigns
COM(PA) 539 Fund Development
COM 541 Quantitative Research Methods in Applied Communication
COM 542 Qualitative Research Methods in Applied Communication
COM 546 Nonprofit Marketing and Public Relations
COM 556 Seminar in Organizational Communication
COM 561 Human Communication Theory
COM 562 Communication and Social Change
COM 566 Seminar in Crisis Communication
COM 585 Teaching College Communication
COM 598 Special Topics in Communication

GRADUATE FACULTY

Director of Graduate Programs:
J. Packer, Box 8101, 515.9744, jpacker@ncsu.edu, Communication, Rhetoric and Digital Media
SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media: C. R. Miller

The interdisciplinary Ph.D. program in Communication, Rhetoric, and Digital Media (CRDM) is offered by the College of Humanities and Social Sciences with the cooperation of the Department of Communication and the Department of English. Built on the premise that new developments in communication media and information technologies require a dramatic shift in instruction and research, the program integrates the study of oral, written, and visual modes of communication to focus on the human dimensions of information and communication technologies.

Students can create programs of study in areas such as computer-mediated communication, visual rhetoric, digital culture, electronic communication across the curriculum, media and technology policy, textual mediation, digital literacy, and online information design. Graduates will help meet the increasing national demand for faculty with technology specializations to teach and lead programs in areas such as writing and speaking across the curriculum, organizational and interpersonal communication, composition studies, technical communication, rhetorical studies, and media studies. Industry and government also need professionals to conduct research, manage development, and analyze policy in the uses and applications of new communication technologies.

Admission Requirements: Master’s degree in Communication, English, Rhetoric, or other relevant field with GPA of 3.0 or better. Master’s level work should include one quantitative or qualitative methods course, as well as three courses in an approved disciplinary area and one in a second disciplinary area. Applicants who are otherwise well qualified may make up these courses after admission. GRE scores, a statement of goals and interests, a resume of work experience, and a writing sample are also required for application to the program. See our website for more detail.

The application deadline for Fall semester admission is February 1. The program will notify applicants of admission decisions by March 1 and expects acceptance of admission offers by April 15.

Ph.D. Degree Requirements: A minimum of 56 hours beyond the Master's degree are required to complete the Ph.D. program: 15 credit hours of core courses, 3 hours of research methods, 6 hours of professional preparation, 12 hours in an elective focus area, and 20 hours of research and dissertation. Students entering directly from a Master's program at NC State may be able to count additional Master's work toward some of these requirements.

Student Financial Support: The CRDM program offers a limited number of Teaching Assistantships, with a stipend, health insurance, and tuition (excluding fees). Teaching Assistants will be assigned according to their interests and qualifications to either the Communication or the English Department with the possibility of teaching in both departments during their course of study; those who do not have sufficient qualifications to teach in the first semester will participate in a training program. Some Research Assistantships may also be available.

GRADUATE COURSES

CRD 701 History and Theory of Communication Technology
CRD 702 Rhetoric and Digital Media
CRD 703 Communication in Networked Society
CRD 704 Technologies and Pedagogies in the Communication Arts
CRD 790 Issues in Communication, Rhetoric, and Digital Media
CRD 791 Special Topics in Communication, Rhetoric, and Digital Media
CRD 809 Colloquium in Communication, Rhetoric, and Digital Media
CRD 885 Doctoral Supervised Teaching
CRD 890 Doctoral Preliminary Examination
CRD 893 Doctoral Supervised Research
CRD 895 Doctoral Dissertation Research
CRD 896 Summer Dissertation Research
CRD 899 Doctoral Dissertation Preparation
Comparative Biomedical Sciences

GRADUATE FACULTY

Director of Graduate Programs:
S. L. Jones, Box 8401, 513.7722, sam.jones@ncsu.edu, Comparative Biomedical Sciences

Burroughs Wellcome Distinguished Professor: J. E. Riviere
William Neal Reynolds Professor: R. R. H. Anholt

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: S. M. Laster, W. E. M. Morrow; Associate Professors: J. M. Hinshaw

Course offerings and research topics currently include, but are not limited to: cell biology, genomics, infectious diseases, developmental biology, immunology, cardiology, pharmacokinetics, oncology, toxicology, gastroenterology, neuroscience, reproductive physiology, biotechnology, microbiology, aquatic/wildlife biology, biomedical engineering, endocrinology, molecular biology, pulmonary biology, epidemiology, population medicine, health systems monitoring, transplantation and radiology.

Admission Requirements: All applications are reviewed by the Graduate Studies Committee of the CBS Program, composed of faculty members representing each area of the graduate program and a graduate student representative. Scores from the GRE are required for admission by all applicants. Candidates who do not have a DVM degree must have a baccalaureate degree or advanced degree from a college or university recognized as standard by a regional or general accrediting agency. Students with a 3.0 (on a 4.0 scale) undergraduate or DVM curriculum with appropriate course background will be considered for admission.

Doctoral Degree Requirements: Credit hour requirements for the Ph.D. degree are determined by the graduate student's committee with approval of the Director of Graduate Programs and the Graduate School.

Student Financial Support: Research assistantships are awarded to qualified candidates on the competitive basis by the College. These are for 12-month periods, and stipends are competitive with those of other programs. These positions are funded by the grants of individual faculty members and the state appropriations to the College and departments.

Other Relevant Information: The program is organized as five areas of concentration which include: cell biology, epidemiology/population medicine, infectious diseases, pathology, and pharmacology. These provide extensive interdisciplinary training and maintain a highly effective liaison with graduate programs in other colleges of the university, as well as those of nearby Duke University and the University of North Carolina at Chapel Hill.
GRADUATE COURSES

CBS 565 Fundamentals of Biomedical Sciences
CBS 580 Clinical Veterinary Epidemiology
CBS 595 Special Topics
CBS(ANS,PHY,ZO) 602 Seminar in Biology of Reproduction
CBS 610 Special Topics
CBS 685 Master's Supervised Teaching
CBS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
CBS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
CBS 690 Master's Examination
CBS 693 Master's Supervised Research
CBS 695 Master's Thesis Research
CBS 696 Summer Thesis Research
CBS 699 Master's Thesis Preparation
CBS 730 Veterinary Histology
CBS 731 Applied Veterinary Anatomy I

Distinguished Professor of Electrical and Computer Engineering: J. R. Hauser, N. A. Masnari
Distinguished University Professor: B. J. Baliga
Lampe Professor of Electrical and Computer Engineering: M. B. Steer

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: W. J. Stewart

The Master of Science in computer networking may be earned through the M.S. with thesis option or through the non-thesis option. Either option may be used as preparation for further graduate study or employment in industrial research, development or design environment, although students planning to continue on for a Ph.D. should discuss the option selected with their advisors.

Admission Requirements: Admissions criteria will adhere to those currently listed on the program website:
http://networking.ncsu.edu

Master's Degree Requirements: Computer networking core courses constitute 9 of the 30 minimum credit hours. Students take 12 additional credit hours of computer networking courses from one of three currently defined technical concentration areas: network design, network hardware, or network software. The remaining 9 credit hours may be taken from an approved management concentration sequence, as additional courses in the computer networking technical concentration areas, or as 6 hours of thesis and 3 credit hours from the list of approved computer networking courses. At least 6 of the 30 credits must come from the 700 level, and non-letter graded courses such as individual studies courses may account for a maximum of 3
credit hours.

**CORE COURSES**

CSC(ECE) 570 Computer Networks  
CSC(ECE) 579 Introduction to Computer Performance Modeling

Select one of the following business courses:  
MBA 554 Project Management (Summer, Fall, Spring)  
MBA 590 Special Topics: Management Foundations (Fall)  
MBA 590 Special Topics: Service Management (Spring)

**TECHNICAL CONCENTRATIONS**

CSC 501 Operating System Principles  
CSC/ECE 506 Architecture of Parallel Computers  
CSC/ECE 510 Software Engineering  
CSC 513 E-Commerce technology  
CSC/MBA 516 E-commerce Practicum  
CSC 557 Multimedia Technology  
CSC/ECE 573 Internet Protocols  
CSC 574 Information Systems Security  
CSC/ECE 575 Introduction to Wireless Networking  
CSC/ECE 576 High Speed Networks  
CSC 714 Real-Time Computer Systems  
CSC 715 Concurrent Software System  
CSC 716 Design of Secure and Reliable Systems  
CSC 750 Service-Oriented Computing  
CSC/ECE 773 Advanced Topics in Internet Protocols  
CSC/ECE 774 Network Security  
CSC/ECE 776 Performance Evaluation of Computer Networks  
CSC/ECE 775 Advanced Topics in Wireless Networks  
CSC/ECE 777 Telecommunications Network Design  
CSC/ECE 779 Advanced Computer Performance Modeling  
CSC/ECE 778 Optical Networks  
ECE 520 Digital ASIC Design  
ECE 521 Computer Design and Technology  
ECE 523 Photonics and Optical Communications  
ECE 546 VLSI System Design  
ECE 714 Random Processes  
ECE 733 Digital Electronics  
ECE 761 Design Automation for VLSI

**MANAGEMENT CONCENTRATION**

MBA 503 Survey of Accounting  
MBA 514 Technology, Competition and the Law  
MBA 520 Managerial Finance  
MBA 541 Supply Chain Relationships  
MBA 542 Supply Chain Logistics  
MBA 543 Planning and Control Systems  
MBA 554 Project Management  
MBA 576 Technology Evaluation and Commercialization Concepts  
MBA 577 High Technology Entrepreneurship  
MBA 590 Special Topics: Decision Support Systems  
MBA 590 Special Topics: Business Process Analysis and Design  
MBA 590 Special Topics: Business Relationship Management

GRADUATE FACULTY

M. A. V. Vouk, Department Head

Director of Graduate Programs:
D. J. Thuente, Box 8206, 515.7003, thuente@csc.ncsu.edu, Computer Science

Distinguished University Research Professor: D. L. Bitzer
SAS Institute Distinguished Professor: J. Doyle

ASSOCIATE MEMBERS OF THE PROGRAM

The Department of Computer Science is one of the leading departments in the country and indeed the world. Recent developments include adding over 20 tenure-track faculty, 18 of whom received NSF CAREER development awards. Total research expenditures have quadrupled over the last few years and graduate enrollments have climbed to nearly 500 students. The faculty has broad-ranging research strengths including Theory (Algorithms, Theory of Computation); Systems (Computer Architectures and Operating Systems, Embedded and Real-Time Systems, Parallel and Distributed Systems, Scientific and High Performance Computing); Artificial Intelligence (Intelligent Agents, Data-Mining, Information and Knowledge Discovery, Engineering and Management; eCommerce Technologies; Information Visualization, Graphics and Human-Computer Interaction); Networks (Networking, Performance Evaluation, Sensor Networks, Protocols); Security (Software and Network Systems Security, Information Assurance, Privacy); Software Engineering (Requirements, Formal Methods, Reliability Engineering, Process and Methods, Programming Languages); and Computer-Based Education. Areas of strength in applied research include bioinformatics, scientific computation, e-commerce and data mining.

Admission Requirements: Minimum application requirements include an accredited Bachelor's degree with at least a B average and computer science course work at least equivalent to a strong minor. Applicants must submit scores for the GRE General Tests. It is recommended that financial aid and Ph.D. applicants also take the GRE Computer Science Subject Test.

Master's Degree Requirements: The M.S. requires 30 graduate credits including at least one course from each of the core areas of Theory (CSC 505, 512, 565, 579, 580, and 707) and Systems (CSC 501, 506, 510, 520, 540, 562, and 570) and thesis research (typically six credits). The advisory committee may waive the thesis requirement for students planning to pursue the Ph.D. who pass the Ph.D. written preliminary examination and complete specified additional course work in lieu of thesis research. The Master of Computer Science (M.C.S.) is a professional degree granted upon successful completion of 30 hours of course work, including a total of three courses from the two core areas and CSC 600. The M.C.S. degree is offered as an on-campus program or as a distance education program. The Master of Science in Computer Networking (M.S.C.N.) is a 30
credit-hour degree offered as either a thesis or non-thesis program.

**Doctoral Degree Requirements:** Ph.D. students normally complete 72 semester hours of post-baccalaureate course work. They must also complete at least two courses from each of the two core areas with at least a 3.5 GPA and two 700-level CSC courses, individualized in-depth written and oral preliminary examinations, and a public defense of their dissertation describing substantial, original, and independent scholarly work.

**Student Financial Support:** During 2007-2008 academic year, approximately 200 students held teaching and research assistantships. The Department also has Nortel, IBM, GEM, Alumni, Provost's, and Dean's Fellowships, which are awarded to outstanding candidates. In addition, the Department's Industrial Assistantship and Fellowship Programs and Co-ops provide graduate student RA positions and part-time work at IT firms across the country.

**Other Relevant Information:** Graduates at all levels are highly respected and recruited. They well paid locally and throughout the country and the world. Many Master's degree graduates begin or continue careers in advanced networking or software development in the Research Triangle Park and on the West Coast at companies such as IBM and Cisco. Many recent Ph.D.s have positions of technical leadership in well-known large companies and prominent research laboratories including Google, Microsoft Research, and IBM Research Labs, and some have obtained tenure-track faculty positions at Research I institutions.

**GRADUATE COURSES**

- CSC 501 Operating Systems Principles
- CSC 503 Computational Applied Logic
- CSC 505 Design and Analysis of Algorithms
- CSC(ECE) 506 Architecture of Parallel Computers

GRADUATE FACULTY

E. S. Vasu, **Department Head**, Curriculum and Instruction
S. R. Ting, **Asst. Dept. Head**, Curriculum and Instruction

**Directors of Graduate Programs:**
E. R. Gerler Jr., Box 7801, 515.5975, edwin_gerler@ncsu.edu, Counselor Education
R. J. Pritchard, Box 7801, 515.1784, ruie_pritchard@ncsu.edu, Curriculum and Instruction

ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** C. K. Coe, D. M. Daley; **Associate Professors:** E. O'Sullivan, J. E. Swiss

**Curriculum and Instruction:** The Department offers Master's degrees in curriculum and instruction, curriculum and instruction with a concentration in business and marketing education, English education, instructional technology, middle grades education, reading education, social studies education, and special education and curriculum/supervision. Master's degrees in special education are offered in the areas of behavior disorders, learning disabilities and mental retardation. The Master's degree in middle grades education includes either a concentration in language arts or social studies. The Ph.D. program in curriculum and instruction is primarily designed to prepare students for roles as researchers and educators in higher education, industry, or for instructional leadership at school district and state levels. The program is built on foundations of research and application and is composed of three strands: (1) content area specialization, (2) research, and (3) preparation for professional roles. Doctoral students can focus on the following areas of specialization: business and marketing education, curriculum development and supervision, educational psychology, elementary education, English and language arts education, instructional technology, middle grades education, reading education, social studies education, and special education. The NC Department of Public Instruction has conferred accreditation to the graduate programs in Curriculum and Instruction. The College of Education is approved by the National Council for Accreditation of Teacher Education (NCATE).

**Counselor Education:** The Department also offers Master's degrees in counselor education: school counseling, student personnel in higher education (college counseling), and agency counseling. The Ph.D. degree program is offered in Counselor Education. The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council on Post-Secondary Accreditation (COPA), has conferred accreditation to all graduate programs in Counselor Education.

**Master's of Arts of Teaching:** Beginning in Spring 2009, this new degree program will offer graduate licensure in the following areas that are part of the Department of Curriculum and Instruction: Social Studies Education, English Education, Middle Grades Education, Special Education. Existing graduate courses are part of this degree as well as new courses. The courses with the ED prefix listed below are core courses that MAT students will take across departments.
Admission Requirements: *Curriculum and Instruction:* A 500-800 word statement describing professional goals is required. Some areas of study require that applicants be qualified to hold a baccalaureate-level teaching license or have teaching experience. The Graduate School requires a 3.0 in the undergraduate program. GRE scores not more than five years old are required for the doctoral program. GRE or MAT scores not more than five years old are required for the Master's program. *Counselor Education:* Requirements include a 3.00 average (4.00 scale) of the undergraduate program, and one year of work experience in a human service capacity. The best qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum grade-point average and work experience requirements may be made for students with special backgrounds, abilities and interests.

**Master's Degree Requirements:** *Curriculum and Instruction:* A minimum of 36 course credit hours and a written examination or culminating project are required. For the M. S. degree, a minimum of 39 hours is required. The M. S. degree requires a final oral examination and thesis approved by the graduate committee. *Counselor Education:* A minimum of 48 credits hours is required for the M.Ed degree. The M. S. degree requires completion of a total of 60 credits, including a thesis.

**Doctoral Degree Requirements:** *Curriculum and Instruction:* A minimum of 72 course credit hours is required, which includes 15-18 hours of research, a curriculum specialty, and 12 hours of dissertation credit. *Counselor Education:* A minimum of 62 credits hours beyond the Master's degree is required, including the courses in research, counselor education theory, a cognate area, and professional application.

**Student Financial Support:** No financial aid is available on a regular basis. The Counselor Education program works with the Division of Student Affairs to offer graduate assistantships.

**GRADUATE COURSES**

**CURRICULUM AND INSTRUCTION**
ECI 500 Theory and Practice in Teaching Diverse Populations
ECI 501 Foundations of Curriculum
ECI 502 Teaching through the Arts
ECI 503 Effective Teaching
ECI 504 Principles and Practices of Supervision

GRADUATE FACULTY

W. D. Smith, Interim Department Head

Director of Graduate Programs:
R. Wells, Box 7620, 515.4062, randy_wells@ncsu.edu, Crop Science

Distinguished University Professor: M. M. Goodman
Philip Morris Professor of Crop Science: W. D. Smith
William Neal Reynolds Professor Emeritus: E. A. Wernsman
William Neal Reynolds Professor of Crop Science: A. C. York

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: W. F. Thompson

The Department of Crop Science offers programs of study leading to the Master of Crop Science (M.C.S.), Master of Science (M.S.) and Doctorate of Philosophy (Ph.D.) degrees. The M.S. and Ph.D. programs are based upon original research while
the M.C.S degree is a non-thesis degree program. Areas of study in the department include plant breeding, genetics and molecular biology; crop production, management, chemistry and physiology; sustainable agriculture and agro-ecology; turf grass management and science; integrated pest management, weed science and crop modeling.

Excellent facilities for graduate education are available, including wet and dry labs for preparation and analysis of plant and soil samples, cold storage facilities, greenhouses, controlled environmental chambers, computing facilities and the Southeastern Plant Environment Laboratories (Phytotron) for highly controlled plant environmental research. Agriculturally, North Carolina has a wide array of environments and soils for field research. This includes the sandy coastal plains and black lands of eastern NC, the central Piedmont with its clay soils, and the mountains of NC with their unique environments and soils. University and State research stations are located strategically throughout each of these regions and are widely used for field research.

Crop Science programs also benefit from strong cooperative ties with other departments and institutions. Graduate students in Crop Science work cooperatively with and/or obtain instruction in the Departments of Animal Science, Biochemistry, Chemistry, Computer Science, Entomology, Horticultural Science, Genetics, Mathematics, Microbiology, Plant Biology, Plant Pathology, Soil Science and Statistics. Cooperative efforts link our programs with faculty at a number of land grant and international universities as well as with leaders in agribusiness and environmental protection.

Admissions Requirements: Prospective students should be graduates of an accredited university with a major in agronomy, animal science, biology, crop science, genetics, horticulture, plant science or related field of study. Graduates from other degree programs will be considered but may be asked to make up certain undergraduate deficiencies. Acceptance of applicants is competitive and limited by program space and funding. Applicants should have a minimum of a 3.0 (out of 4.0) GPA and a minimum combined GRE score of 1000 on the verbal and quantitative portions of the exam. Exceptions to these guidelines may be made for students with special backgrounds, abilities or interests

Master's Degree Requirements: Master of Science Degree: Requirements include a minimum of 30 semester hours of course work, including one hour of Seminar (CS 601) and six hours of Statistics (ST 511 and ST 512 or equivalent), completion of a thesis, a comprehensive oral examination and presentation of an exit seminar. Master of Crop Science Degree: M.C.S. requirements include a minimum of 36 semester hours of graduate work with a minimum of four, but no more than six, credit hours of Special Problems (CS 620). One hour of Crop Science Seminar (CS 601), three hours of Statistics (ST 511 or equivalent), a comprehensive oral examination and presentation of an exit seminar are also required.

Doctoral Degree Requirements: Ph.D. Candidates must demonstrate an ability to conduct original research and scholarly work at the highest level and produce an acceptable dissertation. Doctoral students must take a minimum of 72 graduate credit hours beyond the Bachelor's degree. They must also pass a preliminary examination (written and oral components) and a final oral examination. Presentation of an exit seminar is required.

Student Financial Support: Graduate assistantships and fellowships will be awarded to qualified applicants depending on funding availability and program space. Tuition is typically waived for students granted assistantships. Student health insurance is also provided to all students on assistantship.

Other Relevant Information: A thesis (M.S. and Ph.D.) or special problem (Master of Crop Science) outline and Plan of Graduate Work should be submitted to the Director of Graduate Programs by the end of the first regular (spring or fall) semester.

GRADUATE FACULTY

Director of Graduate Programs: M. J. Davis, Box 7701, 515.8335, meredith_davis@ncsu.edu, Graphic Design

Alumni Distinguished Professor of Architecture: J. W. Place

Associate Professors: C. Raub, K. Schaffner, J. O. Tector; Research Associate Professors: P. K. Baran, N. G. Cosco;
Assistant Professors: S. Joines

The mission of the Doctor of Philosophy in Design Program in the College of Design at NC State University is to improve human condition through design research and scholarship. This mission is built in equal parts on the recognition of a fertile common ground among the design disciplines and on the need for specificity and depth within them. The Ph.D. Program therefore values a broad range of research interests that aim to improve the human condition through design.

The aim of the Ph.D. in design is to prepare students holding previous degrees in a design discipline to conduct research in the areas of: design for health and well-being; design for learning; design for sustainability; design and technology; design...
and the urban context; design methods; and design history and criticism.

**Admission Requirements:** Two official academic transcripts; three letters of reference; GRE scores; TOEFL scores (for international students); residency statement (U.S. residents only); College of Design personal data form; statement of research intent; and portfolio.

**Doctoral Degree Requirements:** The program of study requires a minimum of 54 credit hours of graduate work beyond the Master's degree, and of these credit hours, 18 will be independent research and dissertation credit with the remaining 36 hours of course work being completed in the Ph.D. program. In addition, there are three (3) 1-credit colloquia.

**Student Financial Support:** Teaching and research assistantships are available to several doctoral students, and in addition, those students receiving some form of research assistantship will also receive tuition remission. Assistantships are awarded on the recommendation of the admissions committee.

*William Neal Reynolds Professor of Agricultural and Resource Economics:* M. L. Walden

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: R. H. Bernhard, D. A. Dickey; Associate Professors: J. C. Dutton, Jr.; Associate Professors Emeriti: E. A. McDermed

The economics graduate program is a joint program of the Department of Agricultural and Resource Economics and the Department of Economics. Emphasis is placed on economic theory and quantitative economic analysis and their application to economic problems. The major fields of specialization are: agricultural economics, econometrics, environmental/resource economics, industrial organization, international economics, labor economics and macro-monetary economics.

Admission Requirements: Minimum background for admission includes intermediate microeconomics and macroeconomics, at least one semester of calculus (two for Ph.D.) and undergraduate statistics. Some students are admitted conditional on their taking certain prerequisites. The submission of GRE scores is only required for students applying for financial aid.

Master's Degree Requirements: The Master of Science in agricultural and resource economics and the Master of Arts in economics require core courses in micro-economics (ECG 700), macroeconomics (ECG 703), statistics (ST 514) and applied econometrics (ECG 561). Both degrees have thesis and elective requirements. The Master of Economics is a non-thesis degree with two options: (1) Ph.D. Preparatory and (2) Applied Economics and Policy Analysis. Both options require a core of ECG 700 (or ECG 505), ECG 703 (or ECG 506), ST 514 and ECG 561. In addition ECG 765 is highly recommended for Option 1, while Option 2 also requires ECG 562 and ECG 580. Both options have elective requirements. All three Master's degrees require a total of 30 credit hours. Accelerated Bachelor's/Master's degree programs are available for all three Master's degrees.

Doctoral Degree Requirements: The Ph.D. program requires a minimum of 72 hours and at least six semesters of work beyond the Bachelor's degree. Students must pass written comprehensive examinations in micro-economics and macro-economics. Course requirements include two semesters of econometrics and six field courses.

Student Financial Support: Research and teaching assistantships are available and are awarded on a competitive basis. These assistantships go to Ph.D. students only; there is no financial support for Master's students. Prospective doctoral students who wish to be considered for assistantships are advised to apply for fall admission by the third week in January.

Other Relevant Information: Graduate students on financial support are provided office space or study carrels. Other students may be assigned study carrels if available. All students have access to the economics graduate student computer lab.

GRADUATE COURSES

ECG(PRT) 503 Economics of Recreation
ECG 504 Monetary and Financial Macroeconomics
ECG 505 Applied Microeconomic Analysis
ECG 506 Applied Macroeconomic Analysis
ECG 508 Macroeconomics and the Business Environment
ECG 512 Law and Economics
ECG 514 Economics of Information Goods

GRADUATE FACULTY

Director of Graduate Programs:
L. D. Fusarelli, Box 7801, 513.0507, lance_fusarelli@ncsu.edu, Educational Research and Leadership

Admissions Requirements: Application materials will include the following.

- Application for admission
- Nonrefundable application fee
- Residency statement
- One official transcript from each school attended
- Official statement of GRE or MAT scores, taken within the last five (5) years. The MSA and Ed.D. programs accept either the GRE or MAT; the Ph.D. program requires applicants to take the GRE only.
- Three (3) letters of reference
- Letter of Application including statement of purpose and career goals
- Resume
- Autobiographical Statement
- Test of English as a Second Language (if required)

Apply online and check the status of your application at: www2.acs.ncsu.edu/grad/prospect.htm.

Master’s Program Requirements: A minimum of 42 credit hours is required for the Master’s of School Administration. Applicants must have a minimum of three (3) years of successful teaching experience and be currently working in a K-12 environment; meet graduate school and program requirements; rolling admissions for on-campus program.

Ed.D. Program Requirements: A minimum of 54 credit hours is required for the Ed.D. in Educational Administration and Supervision. Applicants are required to have a North Carolina's Principal's license or be eligible to receive one and to meet graduate school and program requirements. Admissions deadlines for the Ed.D. program are March 31 (Fall) and October 1 (Spring).

Ph.D Program Requirements:

- Bachelor's degree received from an accredited institution; however, a Master's degree is preferred.
- A 3.0 overall GPA in the most recent degree program completed.
- Graduate Record Examination scores that are no more than five (5) years old.
- Evidence of strong analytical, conceptual, and communication skills as assessed in a prescribed written narrative and test scores.
• Completion of an application for admission to the Graduate School.
• Three (3) letters of reference from persons who can attest to the applicant’s scholarly aptitude and motivation.
• Official statement of GRE scores.

Deadlines for the receipt of all Ph.D. application materials are November 1 (for Spring admission) and April 1 (for Fall admission).

GRADUATE COURSES

ELP 514 Formative Ideas in American Education
ELP 515 Education and Social Diversity
ELP 518 Introduction to School Law
ELP 520 School Based Budgeting
ELP 532 Introduction to Educational Inquiry
ELP 534 Ethics for School Decision Making
ELP 550 Principles of Educational Administration
ELP 551 Context and Challenges of School Improvement
ELP 580 Program Planning, Management and Evaluation
ELP 589 Personnel Appraisal in Education
ELP 595 Advanced Quantitative Applications in School Leadership and Policy
ELP 620 Special Problems in Education
ELP 651 Internship in Educational Leadership
ELP 720 Cases in Educational Administration
ELP 724 Contemporary Educational Thought
ELP 728 School Law for the Administrator

GRADUATE FACULTY

Director of Graduate Programs: H. J. Trussell, Box 7911, 515.5091, hit@ncsu.edu, Electrical & Computer Engineering

Alcoa Professor of Electrical and Computer Engineering: A. Huang
Alton and Mildred Lancaster Distinguished Professor: R. J. Trew
Distinguished Professor of Electrical and Computer Engineering: J. R. Hauser, N. A. Masnari
Distinguished University Professor: B. J. Baliga
Distinguished University Research Professor: D. L. Bitzer
Lampe Professor of Electrical and Computer Engineering: M. B. Steer
University Professor Emeritus: D. R. Rhodes

ASSOCIATE MEMBERS OF THE PROGRAM

Admissions Requirements: Admission to the M.S. program requires a B.S. in electrical engineering, computer engineering or computer science, and an overall undergraduate GPA of at least 3.25. The minimum acceptable TOEFL score for admission to the M.S. program is 230 (575). Admission is further limited by available room in the elected program of study. Meeting the minimum above requirements alone does not guarantee admission.

Admission to the Ph.D. program requires a B.S. or M.S. in electrical engineering, computer engineering or computer science with an overall GPA of at least 3.60. The minimum acceptable TOEFL score for admission to the Ph.D. program is 230 (575). Admission is further limited by available room in the elected program of study, and meeting the minimum requirements as given above does not guarantee admission.

Master's Degree Requirements: Thirty (30) credit hours; a thesis is optional. Students must have at least 21 hours of ECE courses that cover at least three specialty areas and have at least six credit hours of advanced-level ECE courses. Students electing the Option B non-thesis option must meet core course requirements and have at least six credit hours of 600-level ECE courses.

Doctoral Degree Requirements: Approximately 42 credit hours are required beyond the M.S. degree or 72 credit hours
beyond the B.S. degree. A minimum of 18 of the 42 credit hours or a minimum of 42 of the 72 credit hours must be in scheduled courses. Nine hours of graduate-level courses outside the major area are required.

The department wishes to evaluate a Ph.D. student's research potential as quickly as possible. Consequently, all Ph.D. students are required to pass a qualifying review before the end of their third semester of study. This review is based on the student's academic performance to date and the results of a project with one of their committee members. Results are presented to the committee in both written and oral form. Based on this review, the committee will decide if the student may continue in the Ph.D. program.

**Student Financial Support:** The department offers financial support to qualified students in the form of teaching assistantships, research assistantships, fellowships and tuition remission.

**GRADUATE COURSES**

- ECE(CSC) 506 Architecture of Parallel Computers
- ECE 511 Analog Electronics
- ECE 513 Digital Signal Processing
- ECE 514 Random Processes
- ECE 515 Digital Communications
- ECE 516 System Control Engineering
- ECE(CSC) 517 Object-oriented Languages and Systems
- ECE 520 Digital ASIC Design
- ECE 521 Computer Design and Technology
- ECE(BME) 522 Medical Instrumentation
- ECE 523 Photonics and Optical Communications
- ECE 528 Semiconductor Characterization
- ECE 530 Physical Electronics
- ECE 531 Principles of Transistor Devices
- ECE 532 Principles of Microwave Circuits
- ECE 534 Power Electronics
- ECE 538 Integrated Circuits Technology and Fabrication
- ECE 540 Electromagnetic Fields
- ECE 544 Design of Electronic Packaging and Interconnects

GRADUATE FACULTY

E. McIntyre, Department Head
E. McIntyre, Box 7801, 513.2810, ellen_mcintyre@ncsu.edu, Elementary Education

Professors: E. McIntyre, P. Sztajn; Adjunct Associate Professors: T. Oppewal; Assistant Professors: S. Amendum, S. Carrier, M. Jeffries, J. Minogue, M. Pop, A. Wiseman

The mission of the Department of Elementary Education is to develop teacher leaders who have a deep, general content knowledge with a focus in science and mathematics, expert pedagogy, and a commitment to equity and social justice. The Department offers a Masters in Elementary Education – a program designed to prepare education professionals for the 21st century.

Admission Requirements: A 500-800 word statement describing professional goals is required. This program requires that applicants hold a baccalaureate-level teaching license. GRE or MAT scores not more than five years old are required for the Master's program

Master's Degree Requirements: The M.S. degree requires a total of 39 credit hours -- minimum of 36 course credit hours plus three practicum hours. The M.S. degree also requires (1) a written examination or culminating project, (2) a final oral examination, and (3) thesis approved by the graduate committee.

Student Financial Support: No financial aid is available on a regular basis.

GRADUATE COURSES

ELM 524 Issues in Elementary School Teaching
ELM 530 Social Studies in the Elementary School
ELM 532 Early Childhood Education
ELM 533 Language Arts in the Elementary School
ELM 539 Special Problems in Elementary School
ELM 540 Reading in the Elementary School
ELM 547 Teaching Children's Literature
ELM 644 Practicum in Elementary Education
ELM 654 Internship in Elementary Education
ELM 685 Master's Supervised Teaching
ELM 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
Engineering - (Off-campus program only)

GRADUATE FACULTY

Director of Graduate Programs:
L. D. Krute, Box 7901, 515.5440, linda_krute@ncsu.edu, Engineering

Distinguished Professors:  D. W. Johnston

James T. Ryan Professor and Distinguished University Professor:  T. J. Hodgson

The College of Engineering offers a program leading to the Master of Engineering. This degree is primarily for individuals whose schedule or location does not allow on-campus study. Convenience and flexibility are the key advantages of this program. The students can take a variety of courses in different engineering fields and in computer science. This Option B program requires 30 credit hours and does not require GRE, thesis, final oral exam, or on-campus attendance. The Master of Engineering degree can be earned totally through the Engineering Online program. The Engineering Online program delivers credit courses in Engineering and in Computer Science directly to home or workplace via streaming media on the Internet. The on-line courses are the same as the on-campus courses in terms of content, requirements and academic rigor.

Each student in the Master of Engineering program must complete a minimum of three (3) courses from a single concentration area. The concentration area will appear on the student's transcript if a minimum of five (5) courses is taken in the designated concentration field. At least 18 hours of the minimum 30 hours required to satisfy the Master of Engineering degree requirements must be taken from a department in the College of Engineering. The concentration fields in the Master of Engineering are Chemical Engineering, Civil Engineering, Computer Science, Electrical and Computer Engineering, Industrial Engineering, Materials Science and Engineering, and Mechanical and Aerospace Engineering.

Admission Requirements: Prerequisites for admission to the Master of Engineering include an accredited undergraduate degree in engineering or physical sciences with a minimum overall GPA of 3.0.

GRADUATE COURSES

**GRADUATE FACULTY**

A. H. Harrison, *Department Head*

**Directors of Graduate Programs:**

C. A. Prioli, Box 8105, 515.4107, prioli@ncsu.edu, English, Creative Writing

R. S. Dicks, Box 8105, 513.7354, sdicks@unity.ncsu.edu, English, Technical Communication

**SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media:** C. R. Miller

**William C. Friday Distinguished Professor and Interim Department Head of English:** W. A. Wolfram

**MASTER OF ARTS (MA)**

The Master of Arts program offers instruction in English and American literature, world literature, film studies, rhetoric and composition, and linguistics. It can serve either as a complete course of study or as the first phase of study toward a doctoral degree at another institution.

**Admission Requirements:** Overall GPA of 3.0 or higher. Applicants should submit GRE scores (general aptitude and analytical writing); one official transcript of all undergraduate and graduate work; three letters of recommendation; a personal statement; and a writing sample.

**Requirements for MA in English:** The program requires 32 credit hours. American/British literature and world literature students take a distribution of four courses, one each in English literature before 1660, English literature after 1660, American literature and a fourth category including composition theory, rhetoric, linguistics, or literary theory. Linguistics and rhetoric/composition students take two literature classes of their choice to fulfill the distribution requirement. Film studies students take four literature courses of their choice. In addition, all students must take an introduction to research and bibliography, pass a foreign language reading requirement, and complete a Master's capstone project.

Beyond these basic requirements, the program comprises five concentrations in British and American literature, film studies, composition and rhetoric, world literature, and linguistics. Each concentration requires five additional courses, of which three must pertain to the area of concentration. The capstone project will be in the area of the concentration and directed by a specialist in the field.
**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. Applications for assistantships are due February 1 for those entering in the fall, and November 1 for those entering in the spring. (New assistantships are rarely available for the spring semester.) During their first year those selected to teach composition must take ENG 511 (Theory and Research in Composition), be mentored by a composition instructor, and attend a second workshop (ENG 624) in their third semester.

**TECHNICAL COMMUNICATION (MS)**

The Master of Science in technical communication is designed to prepare professional communicators for advanced positions in industry and research organizations; with appropriate electives, students can prepare for careers in web design and development, software documentation, environmental communication, medical writing, industrial training in writing and editing, publications management and related areas.

**Admission Requirements:** Applicants should submit a resume and a writing sample. Prerequisites for the program are basic editing and technical writing (ENG 214, ENG 314 or 331, 332, or 333) or equivalent courses and/or work experience. The application deadline is June 15 for the fall semester and November 1 for the spring semester. Those who wish to be considered for teaching assistantships should complete the application by February 1 for fall.

**Requirements for MS in Technical Communication:** The program requires 33 semester hours: 15 hours in the fields of technical writing, publication management, rhetoric and a projects course; the remaining hours are taken in applications, theory and methods and cross-disciplinary courses. Students must also satisfy a requirement for one semester of professional work experience.

**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. These students work with an experienced teacher in their first year to assist in 300-level writing courses. They devote half time in subsequent semesters to teaching technical communication.

**CREATIVE WRITING (MFA)**

The Department of English offers a two-year studio/academic program in fiction or poetry leading to the Master of Fine Arts degree. The program provides an opportunity for students of superior and demonstrated ability in imaginative writing to develop their skills and critical judgment through the practice of writing and the study of literature. The aim of the program is to prepare talented students for careers in writing. Degree candidates are expected to produce a book-length work of literary value and publishable quality.

**Admission Requirements:** Overall GPA of 3.0 or higher; applicants should submit GRE scores (general aptitude and analytical writing); one official transcript of all undergraduate and graduate work; three letters of recommendation; and two writing samples, one creative, one critical. Creative sample: for fiction, two short stories, or for a novel, three chapters (or one chapter and a short story) totaling 25-40 pages; for poetry, 12 complete poems. Critical sample: no more than 15 pages of writing demonstrating your ability to succeed in graduate-level literature classes, a required part of the MFA curriculum

**Requirements for the MFA in Creative Writing:** Candidates for the MFA degree must complete a total of 36 credits. Eighteen of these are taken in the area of writing specialization. These include workshop courses (12 credits) and thesis (6 credits). The remaining credits are taken in literature and directed readings (12 credits), elective (3 or 6 credits), and, for those on a composition teaching assistantship, ENG 511, Theory and Research in Composition (3 credits). In their final semester, students must pass a comprehensive written examination on writing craft, based on a book list selected jointly by the student and the faculty. The final thesis must be a book-length manuscript in the student's field of interest. In fiction, an approximate 200 pages are expected; in poetry, 60 pages.

**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. Selected new Teaching Assistants are also eligible for fellowship money awarded as an increase in assistantship stipend. TAs in the MFA train to teach undergraduate creative writing classes or composition classes.

**Other Relevant Information:** Application deadline is April 1 for both U.S. and international students; February 1 for those seeking assistantships. Students are admitted for the fall semester only.
The English department has a long tradition of academic and literary excellence, including its heritage of writers from Guy Owen to Lee Smith, its publishing of the *Southern Poetry Review, The John Donne Journal, Free Verse*, and *Obsidian*. The strength of NCSU in the sciences offers students the opportunity to do creative work that engages with issues of technology and its effect on individuals and institutions that are not typically addressed in fine arts programs.

Through its Owen/Walters Readings Series, the department sponsors readings and residencies by distinguished poets, fiction and non-fiction writers, and has initiated a semester-long Visiting Distinguished North Carolina Writers program.

**GRADUATE COURSES**

ENG 507 Writing for Health and Environmental Sciences  
ENG 508 Usability Studies for Technical Communication  
ENG 509 Old English Literature  
ENG 510 Middle English Literature  
ENG 511 Theory and Research in Composition  
ENG 512 Theory and Research in Professional Writing

GRADUATE FACULTY

J. D. Harper, Department Head

Director of Graduate Programs:
F. P. Hain, Box 7613, 515.3804, fred_hain@ncsu.edu, Entomology

Blanton J. Whitmire Distinguished Professor: C. Schal
Charles G. Wright Professor: J. Silverman
Philip Morris Professor: J. W. Van Duyn
William Neal Reynolds Professor of Entomology and Toxicology: R. M. Roe

**ASSOCIATE MEMBERS OF THE PROGRAM**

**Associate Professors:** W. G. Buhler, N. M. Haddad, W. O. McMillan, D. J. Robison; **Assistant Professors:** D. Buchwalter, R. R. Dunn

Course offerings or research facilities are available in the following areas: agricultural entomology, apiculture, aquatic entomology, behavior, biological control, ecology, forest entomology, functional genomics, host-plant resistance, insect pathology, medical and veterinary entomology, pest management, physiology, molecular biology, population dynamics, urban entomology, systems analysis, systematics and toxicology.

**Admission Requirements:** A minimum score of 1000 (verbal plus quantitative) is necessary for admission to the M.E. or M.S. program while a score of 1100 is required for the Ph.D. program. Students are expected to have a background in biology in addition to appropriate courses in chemistry, biochemistry, mathematics and physics. A "B" average (3.0 GPA) is required in biology courses and an overall 3.0 GPA during the last two years of the undergraduate program.

**Master's Degree Requirements:** A minimum of 30 credits are required for graduation. Two core courses are required (Insect Systematics, and Insect Morphology and Physiology), however students who have had these courses from another institution can be exempted from taking them with the permission of the instructor. The instructor will meet with the student and determine, through oral and/or written questioning, whether they have adequate background. In addition, six credits of letter grade entomology courses and two credits of entomology student seminars are also required.

**Doctoral Degree Requirements:** A minimum of 72 credits (18 may be transferred from a Masters degree) are required for graduation. Two core courses are required (insect Systematics, and Insect Morphology and Physiology), however students who have had these courses from another institution can be exempted from taking them with the permission of the instructor. The instructor will meet with the student and determine, through oral and/or written questioning, whether they have adequate background. In addition, nine credits of letter grade entomology courses and three credits of entomology student seminars are also required.

**Student Financial Support:** Graduate assistantships and other forms of aid are available to students as described in the Fellowships and Graduate Assistantships section of the Graduate Catalog.

**Other Relevant Information:** Admission is permitted only after acceptable applicants have secured an advisor and appropriate financial support. All students are expected to begin their research as soon as possible.

**GRADUATE COURSES**

ENT 501 Advanced Beekeeping  
ENT 502 Insect Systematics

GRADUATE FACULTY

Director of Graduate Programs: W. Oxenham, Box 8301, 515.6573, william_oxenham@ncsu.edu, College of Textiles

Burlington Industries Professor of Textile Technology: R. L. Barker
Camille Dreyfus Professor: H. B. Hopfenberg
Charles A. Cannon Professor of Textiles: S. K. Batra
Ciba-Geigy Distinguished Professor and Associate Dean for Research: H. S. Freeman
Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing: W. Oxenham
Howard J. Schaeffer Distinguished University Professor: B. M. Novak
Klopman Distinguished Professor Emeritus: S. C. Winchester, Jr.
Kosa Professor of Fiber and Polymer Chemistry: A. E. Tonelli
Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management: A. B. Godfrey
William A. Klopman Distinguished Professor: B. Pourdeyhimi

Fiber and Polymer Science is a multidisciplinary program bringing together the disciplines of mathematics, chemistry and physics and the application of engineering principles for the development of independent scholars versed in all aspects of fiber materials science. Thus, fiber and polymer science is concerned with the formation of and the mechanical, physical and chemical properties of polymeric materials, fibers produced from them, fiber assemblies in one-, two- and three-dimensional forms, and fiber reinforced composites, as well as the utilization thereof.

Admission Requirements: Students majoring in the physical sciences, engineering, mathematics, textiles and having a Master's degree will normally qualify for admission. For exceptionally qualified students, the Master's degree requirement may be waived, and the student can be admitted directly into the Ph.D. program.

Doctoral Degree Requirements: Credit-hour requirements for the Doctor of Philosophy degree are 72. (Up to 18 hours from an M.S. may be applied against the 72.) Students are admitted to candidacy for the Ph.D. degree after passing a series of written cumulative examinations, completing a scholarly critique of existing knowledge in the field of specialization, and orally defending a research proposal. A written examination in a minor field may be accepted in place of the scholarly critique. They must also have passed an English technical writing course during their college career.

Student Financial Support: Financial aid in the form of assistantships and fellowships is normally available for all U.S. full-time students. Financial aid in the form of Graduate Research/Teaching Assistantships may be available to a limited number of international students.

COURSE OFFERINGS (Extensive use may be made of graduate course offerings in other colleges on campus when developing the minor field.)

GENERAL COURSES
FPS(TT) 720 Yarn Production/Properties: Advanced Topics
FPS(TTM) 730 Measurement and Evaluation of Textile Properties
FPS(TT) 750 Advances in Woven Fabric Formation and Structure
FPS(TT) 781 Mechanics of Twisted Structures
FPS(TT) 782 Mechanics of Fabric Structures
FPS(TC) 792 Special Topics in Fiber Science
FPS 801 Seminar
FPS 830 Independent Study
FPS 876 Special Projects in Fiber and Polymer Science
FPS 885 Doctoral Supervised Teaching
FPS 890 Doctoral Preliminary Examination
FPS 893 Doctoral Supervised Research
FPS 895 Doctoral Dissertation Research
FPS 896 Summer Dissertation Research
FPS 899 Doctoral Dissertation Preparation
TC 704 Fiber Formation--Theory and Practice
TC(CH,MSE) 762 Physical Chemistry of High Polymers--Bulk Properties
TC 791 Special Topics in Textile Science
TMS 500 Fiber and Polymer Microscopy
TMS 761 Mechanical and Rheological Properties of Fibrous Material
TMS 762 Physical Properties of Fiber Forming Polymers, Fibers and Fibrous Structures
TMS(MSE) 763 Characterization of Structure of Fiber Forming Polymers

COURSES IN AREAS OF SPECIALIZATION

Polymer Chemistry and Synthesis
TC 530 The Chemistry of Textile Auxiliaries
TC(MSE) 561 Organic Chemistry of Polymers
TC 720 Chemistry of Dyes and Color
TC 721 Dye Synthesis Laboratory
Polymer Physics and Physical Chemistry
TC 704 Fiber Formation--Theory and Practice
TC 705 Theory of Dyeing
TC(CH,MSE) 762 Physical Chemistry of High Polymers--Bulk Properties
TC(CHE) 769 Polymers, Surfactants and Colloidal Materials
TC(CH,MSE) 772 Physical Chemistry of High Polymers--Solution Properties
TC(CHE) 779 Diffusion in Polymers
TC 792 Special Topics in Fiber Science
TMS 500 Fiber and Polymer Microscopy

Mechanics of Textile Materials and Processes
FPS(TT) 781 Mechanics of Twisted Structures
FPS(TT) 782 Mechanics of Fabric Structures
TE 565 Textile Composites
TT 500 Understanding the Textile Complex
TT 503 Materials, Polymers, and Fibers used in Nonwovens
TT 504 Introduction to Nonwovens Processes and Products
TT 505 Advanced Nonwovens Processing
TT 506 Bonding Principles in Nonwovens
TT 507 Nonwoven Characterization Methods
TT 508 Nonwoven Product Development
TT 520 Yarn Processing Dynamics
TT(TE,TMS) 521 Filament Yarn Production Processing and Properties
TT 549 Warp Knit Engineering and Structural Design
TT 550 Production Mechanics and Properties of Woven Fabrics
TT 551 Advance Woven Fabric Design & Structure
TT 552 Formation, Structure and Assembly of Medical Textile Products
TT 570 Textile Digital Design and Technology
TT 571 Professional Practices in Textile Design and Technology
TT 581 Technical Textiles
TT 591 Special Studies in Textile Technology
TT(FPS) 720 Yarn Production Properties: Advanced Topics

GRADUATE FACULTY

Director of Graduate Programs:
J. S. Scroggs, Box 8205, 515.7817, scroggs@ncsu.edu, Financial Mathematics

The Departments of Agricultural and Resource Economics, Economics, Industrial and Systems Engineering, Mathematics, and Statistics offer a program leading to the degree of Master of Financial Mathematics. After completing the core requirements, students choose electives to suit their individual needs and interests.
Admissions Requirements: Applicants for admission should have an undergraduate degree that would preferably include courses in advanced calculus, modern algebra, and linear algebra. It is strongly recommended that applicants take the GRE Advanced Test in Mathematics.

Master of Financial Mathematics Requirements: In addition to course requirements (six core courses and four electives), the Master of Financial Mathematics degree requires completion of a three-credit internship or research project.

Student Financial Support: No financial aid is available on a regular basis. Some funding is available through a limited number of scholarships. Consideration for the scholarships is automatic.

REQUIRED CORE COURSES

ECG(MA) 790 Advanced Special Topics
ECG 590 Special Economics Topics (Asset Pricing)
ISE 711 Capital Investment Economic Analysis
MA(ST) 546 Probability and Stochastic Processes I
MA 547 Financial Mathematics
ST 522 Statistical Theory II

GRADUATE COURSES

MBA 522 Portfolio and Capital Market Theory
MBA 526 International Finance
MBA 529 New Firm Financing
MBA 590 Special Topics in Business Management (Advanced Corporate Finance)
ECG 716 Topics in Environmental and Resource Economics
ECG 749 Monetary Aspects Of International Trade
ECG(ST) 751 Econometrics
ECG(ST) 752 Topics in Econometrics
ECG 784 Advanced Macroeconomics
ISE 709 Dynamic Programming
ISE 712 Bayesian Decision Analysis for Engineers and Managers
MA(ST) 747 Probability and Stochastic Processes II
MA(ST) 748 Stochastic Differential Equations
MA 584 Numerical Solution of Partial Differential Equations-Finite Difference Methods
ST 730 Applied Time Series Analysis
ST 782 Time Series Analysis: Time Domain
ST 783 Time Series Analysis: Frequency Domain
ST 810 Advanced Topics in Statistics

GRADUATE FACULTY

Director of Graduate Programs:
C. E. Moorman, Box 7646, 515.5578, chris_moorman@ncsu.edu, Fisheries and Wildlife

The fisheries and wildlife sciences degrees are offered through the Fisheries and Wildlife Sciences program, an intercollegiate program administered by the Department of Forestry and Environmental Resources and shared with the Department of Zoology and the College of Veterinary Medicine. Students are affiliated with the department of their major professor. The degrees emphasize assessment, biology, ecology and management of fish and wildlife species and their habitats.

Admissions Requirements: Application for admission is made directly to the Fisheries and Wildlife Sciences program. Minimum requirements include an undergraduate grade point average of 3.0 in an appropriate biological discipline and a graduate record examination score of 1000, calculated as the sum of verbal and quantitative scores. Admission is competitive and depends on the willingness of a member of the faculty to serve as major professor. Exceptions to minimum requirements may be made for students with special backgrounds.

Master's Degree Requirements: The M.S. degree program requires a minimum of 30 credit hours, including 1-2 hours of seminar and no more than six hours of research. A research-based thesis is required, as is a minor (usually 9-10 hours). The Master of Fisheries and Wildlife Sciences degree requires a minimum of 36 credits, including 4-6 hours of special problems and 1-2 hours of seminars, and a professional paper is required. For either degree, further requirements may be imposed by the advisory committee and/or department.

Doctoral Degree Requirements: The Ph.D. program requires 36 to 54 credits of course work beyond the Master's degree, including two seminars and an ethics course, and a dissertation. Exceptionally well-prepared students may petition to have their degree objective changed to Ph.D. before completing the Master's degree.

Student Financial Support: Graduate research and teaching assistantships are offered for qualified students through participating departments. Commitments for assistantships are normally made at the time of admission to graduate study.

Other Relevant Information: Research near campus is facilitated by excellent field, laboratory and computer resources. Off-campus research is conducted at the Pamlico Aquaculture Field Laboratory, research and extension centers in eastern and western NC, The Center for Marine Sciences and Technology in Morehead City, Bull Neck Swamp, Hill and Hofmann Forests, and at facilities of state and federal agencies and private organizations. For additional information, see the Fisheries and Wildlife Sciences graduate web page: http://cnr.ncsu.edu/fer/grads/gradfw.html

GRADUATE COURSES

FW(ZO) 515 Fish Physiology
FW 516 Advanced Parasitology
FW(ZO) 553 Principles of Wildlife Science
FW(ZO) 554 Wildlife Field Studies
FW 560 International Wildlife Management and Conservation
FW(FOR) 585 Advanced Wildlife Habitat Management
FW(ZO) 586 Aquaculture I

GRADUATE FACULTY

D. R. Ward, Department Head

Director of Graduate Programs:
J. C. Allen, Box 7624, 513.2257, jon_allen@ncsu.edu, Food Science

William Neal Reynolds Professor: K. R. Swartzel
William Neal Reynolds Professor and University Distinguished Professor: T. R. Klaenhammer
William Neal Reynolds Professor Emeritus: H. E. Swaisgood
William Neal Reynolds Professor of Food Science: E. A. Foegeding

ASSOCIATE MEMBERS OF THE PROGRAM

The department's professional activities include teaching, research, and extension functions. The program provides an educational, research, and informational center in food science for North Carolina and the nation. The department also houses two research centers, the Southeast Dairy Foods Research Center and the Center for Advanced Processing and Packaging Studies. Course offerings and research facilities are available in the following areas: chemistry-biochemistry, engineering, microbiology, nutrition and processing technology.

Admissions Requirements: To be admitted, a student should be a graduate of an accredited program in food science or the equivalent. Graduates of other majors can be admitted but will be required to make up certain undergraduate deficiencies without graduate credit. The best qualified applicants will be accepted up to the number of spaces that are available for new students.

Master's Degree Requirements: A Master's program must include courses from at least two of the following categories: chemistry-biochemistry, engineering, microbiology, nutrition and processing technology. The M. S. in Food Science requires 30 credit hours and the Master of Food Science requires 36 credit hours of course work.

Doctoral Degree Requirements: A doctoral program must include courses from at least three of the categories listed above (or equivalent courses at another university). Total course credits will vary depending on the needs of the student and the requirements of the Graduate School. All doctoral students are required to pass a departmentally administered written preliminary exam, designed to evaluate a Ph.D. student's general knowledge and comprehension of food science.

Student Financial Support: Graduate assistantships and other forms of student aid available to students in this program are described elsewhere in the Graduate Catalog. Admission does not guarantee availability of financial support.

Other Relevant Information: Students are encouraged to make personal contact with individual faculty whose research program is of interest to them. Information describing each faculty member's program is available at our website (http://ncsu.edu/foodscience).

GRADUATE COURSES

FS(NTR) 510 Food Lipids: Issues and Controversies
FS(FSA) 520 Pre-harvest Food Safety

GRADUATE FACULTY

Admission Requirements:

- A baccalaureate degree from an accredited college or university
- Undergraduate GPA of 3.0 or above
- Narrative statement of professional and personal objectives (in English, 300 words).
- Language proficiency as determined by writing sample and a speaking sample in the target language (French or Spanish).
- Some applicants may be given provisional admittance on condition of taking specific undergraduate courses conducted in the target language and passing with a B or better.
- Students admitted provisionally must complete at least 9 hours of graduate courses making grades of A or B to be considered for full graduate standing.

Degree Requirements: Both programs require at least 30 hours of course work and a culminating project. Each student’s program is tailored to enhance his or her career objectives. Students who plan to pursue a Ph.D. receive the requisite training and assistance. Students who plan to teach in community colleges or universities may complete the degree without a concentration or with a concentration in another language, English, History, or another discipline. K-12 teachers who already have "A" licensure may earn "M" licensure by taking 36 hours in specified disciplines.
**Student Financial Support:** Graduate assistantships and fellowships are available to students in both programs and are awarded by open competition.

**Other Relevant Information:** Students may be admitted for the fall or spring semesters but not summer sessions. Deadlines for applications for fall semester are February 15 for international students and May 1 for U.S. students. Deadlines for spring semester are May 1 for international students and November 1 for U.S. students.

**GRADUATE COURSES**

FL(ECI) 505 Issues and Trends in Foreign Language Education--Theory and Practice

GRADUATE FACULTY

B. Goldfarb, Department Head

Director of Graduate Programs:
S. T. Warren, Box 8008, 515.7996, sarah_warren@ncsu.edu, Forestry

Carl Alwin Schenck Professor: H. L. Allen
Edwin F. Conger Professor and Distinguished University Professor: R. R. Sederoff
Jordan Family Distinguished Professor for Natural Resources Innovation Professor: V. L. Chiang

ASSOCIATE MEMBERS OF THE PROGRAM

The department offers training in all of the major sub-disciplines of forest, natural resources, and environmental-related science and management. Considerable flexibility is allowed in developing graduate programs tailored to the student's objectives.

Admission Requirements: All parts of the application, including the GRE general test, are considered in making decisions. Admission is competitive and depends on the willingness of at least one member of the faculty to serve as major professor. An undergraduate degree in forestry is not required.

Master's Degree Requirements: Course work requirements range from 30 to 36 credits depending on the specific master's option. Students without an appropriate background will require additional preparatory work.

Doctoral Degree Requirements:
As a rule, students must complete a master's degree before entering the Ph.D. program. However, exceptionally well-prepared students may petition to have their degree objective changed to Ph.D. before completing the master's degree. In addition to the dissertation, Ph.D. programs require 36 to 54 credits of course work beyond the master's degree.

Student Financial Support: Merit-based research assistantships are available every year in most fields of specialization. Stipend levels allow students to graduate without incurring significant debt. Those who begin without an assistantship are considered for funding as projects become available. Additional funding is available through a limited number of teaching assistantships.

Other Relevant Information: Every graduate student must meet the following requirements: (1) take a one-credit research methodology course, FOR 603 or 803, early in his/her program; (2) take a seminar course (typically FOR 601/801), for students starting in their program in Fall 2008 or later; and (3) begin the final oral exam with a seminar to the department.
based on work accomplished during the graduate program. Ph.D. students must meet a one-time teaching requirement by assisting a faculty member teach an undergraduate forestry or natural resources course.

S. E. Curtis, Box 7614, 515.2292, securtis@ncsu.edu, Genetics

*Distinguished University Professor and William Neal Reynolds Professor Emeritus:* C. S. Levings, III  
*Distinguished University Professor Emeritus:* J. G. Scandalios  
*William Neal Reynolds Distinguished Professor:* W. R. Atchley  
*William Neal Reynolds Professor:* Z. Zeng  
*William Neal Reynolds Professor and Distinguished University Professor:* T. F. Mackay

**ASSOCIATE MEMBERS OF THE PROGRAM**

The department provides a well-balanced program of graduate course work and research training. The faculty conducts basic research in the genetics of a variety of model animal, plant, and microbial systems. The student has a choice of research projects in the broad areas of molecular, biochemical, developmental, quantitative and population genetics.

**Admission Requirements:** Applicants may come from a number of undergraduate programs that include biological, agricultural, physical and mathematical science training. All applications are screened by a departmental committee, and the best qualified applicants will be accepted up to the number of spaces that are available for new students.

**Master's Degree Requirements:** The M.S. degree requires a minimum of 30 credit hours; the Master's of Genetics requires a minimum of 36 credit hours. A 12-hour sequence of five core courses is required of all majors; nine of these hours are required for minors. A minimum of two additional graduate genetics courses is required.

**Doctoral Degree Requirements:** A 14-hour sequence of six core courses is required of all majors; nine of these hours are required for minors. A minimum of four additional graduate genetics courses is required.
**Student Financial Support:** Graduate assistantships and fellowships are available to the students from a number of sources. Information will be provided at the time of application.

**Other Relevant Information:** New students supported by fellowships or research assistantships will rotate through three laboratories during their first semester. At the end of the semester, they will choose a laboratory for their research activities consistent with their interests and available research projects. Provisions are available for a co-major and cooperative research in more than one laboratory.

Associate Professors: A. C. Clark

Genomic sciences has two components. Functional genomics, the generation of large bodies of data relating to organism function, encompasses gene discovery, gene expression, protein and nucleic acid structure and function, gene and gene product interactions, and genomic approaches to breeding and comparative studies relevant to ecology and evolutionary biology. Bioinformatics is the analysis of these vast and complex data sets including methods to analyze extremely large sets.
of genomic information such as DNA sequences and expression from DNA microarrays. Students register in either of these two fields but also receive a solid grounding in the other through core courses common to both programs. Unique and exceptional resources include the Bioinformatics Research Center and the Genome Research Laboratory.

**Admission Requirements:** Students should have an undergraduate major in the biological or physical sciences, mathematics, statistics or computer science and have completed calculus and other comparable courses. In addition to the other application requirements, a student should submit a statement of interests and career goals.

**Master's Degree Requirements:** Students take a 15-credit core curriculum of courses common to both programs followed by courses specific to the degree and discipline. The Master's of Bioinformatics requires a minimum of 33 credit hours. The Master's of Functional Genomics requires a minimum of 30 credit hours, and the Master's of Science in Functional Genomics requires a minimum of 36 credit hours.

**Doctoral Degree Requirements:** The Ph.D. program requires a total of 72 credits, and all students participate in a journal club, monthly seminar series and research ethics training. A co-mentoring system exists between bioinformatics and functional genomics through which each student has advisors from both disciplines. Throughout the program they will have the opportunity to gain practical experience in the Genome Research Laboratory, Bioinformatics Research Center and DNA Sequencing Facility.

**Student Financial Support:** A significant number of fellowships are available through the genomics program, and students may also be supported by research grant funds awarded to genomics faculty members.

**GRADUATE COURSES**
Many courses are available and cross-listed through 25 participating departments in the Colleges of Agriculture & Life Sciences, Engineering, Natural Resources, Physical & Mathematical Sciences, and Veterinary Medicine.

**Global Innovation Management**

**ASSOCIATE MEMBERS OF THE PROGRAM**

**Assistant Professors:** S. Schanz

The Jenkins Graduate School of Management, part of the North Carolina State University College of Management, in partnership with the Université Paul Cézanne Graduate School of Management (IAE) in Aix-en-Provence France, offers a Master’s degree in Global Innovation Management. The curriculum is designed to give engineering, science and other technology-oriented students a strong exposure to core business management skills while providing in-depth exposure to a host of global innovation management issues. It was designed specifically for students who are looking to create a personal competitive advantage for today's global job market.
Students in the program will come from around the world and classes will be held in both France and the United States. Students will be taught by international professors who are leaders in their fields. Interactions with global firms will occur both in the classroom and via internships.

**Admission Requirements:** Applicants are required to complete the standard NC State Graduate School application process. Applicant assessments will be done on an individual-by-individual basis. Concurrent acceptance activities will be at both IAE and NC State. GMAT or GRE scores are required of all applicants. International applicants must complete the TOEFL.

U.S. applicants will need a valid U.S. passport and visa for traveling to France. Upon acceptance to the program, students can apply for a visa. Applicants should also be prepared for additional program costs (airfare to and from Europe and travels within Europe, lodging and meals while in France).

**Master’s Degree Requirements:** The MGIM degree requires 30 credit hours and can be completed in one year. It does not require courses in subject areas such as economics and operations management which are required in the MBA. This one-year program awards two master’s degrees: (1) a degree from NC State University and (2) a degree from the Université Paul Cézanne.

**Core Courses:**
MBA 554 Project Management
MBA 590 Special Topics in Business Management (Business Relationship Management)
MBA 590 Special Topics in Business Management (Technology & Innovation Management)

**Elective Courses:**
MBA 504 Technology, Competition, and the Law
MBA 570 Entrepreneurship
MBA 590 Special Topics in Business Management (Services Innovation)

**Other Relevant Information:** After two years of full-time work experience, students who earn the dual master degree in Global Innovation Management can receive their full-time MBA from NC State University's Jenkins Graduate School of Management after completing just one additional year of study.

**GRADUATE FACULTY**

S. Piedrafita, *Department Head*

**Director of Graduate Programs:**
M. J. Davis, Box 7701, 515.8335, [meredith_davis@ncsu.edu](mailto:meredith_davis@ncsu.edu), Graphic Design

**Professors:** M. J. Davis, M. Scotford; **Professors Emeriti:** A. S. Lowrey; **Associate Professors:** K. L. Bailey, D. G. Crisp, S. Piedrafita, S. Townsend; **Assistant Professors:** W. Temple

Recognizing that graphic design is both a social activity and a form of cultural production, faculty and students in the Department of Graphic Design define the study of the discipline as necessarily contextual; graduate research examines the creation, reproduction, distribution, and reception of design from a multidisciplinary perspective. The Master of Graphic Design Program also emphasizes the importance of understanding design as the creation of cognitive and cultural artifacts; study focuses on the construction of messages, the reproduction of such artifacts, the systems for their distribution, and their
reception within various cultures of society.

Graduate students in graphic design learn through their own search for problems within critical content frameworks presented by the faculty. The program places primary importance on the ability of students to be critical agents; to seek problems and to pose questions. Faculty evaluate graduate students on their capacity to define individual investigations and to support their decision-making with an independent program of reading and research; on their ability to critically evaluate and articulate discoveries; and on their skills in synthesizing ideas through the creation of design artifacts.

The Master of Graphic Design Program provides focused study and research in the discipline that reflects concern for how designers will shape and respond to the changing technological and social communications environments of the future. The Program has the broad objective to educate socially responsible, intellectually curious, historically aware, and technologically adept communication design professionals.

In the Track III Program, students whose undergraduate preparation is in fields other than graphic design examine relationships between their previous study and graphic design. While acquiring design skills and knowledge in graphic design, they apply concepts and methods from their previous study to design research and innovation.

**Admissions Requirements:** Students must make application to the Department of Graphic Design by January 5. In addition to Graduate School requirements, the department requires department personal data forms, a slide portfolio of design and two-dimensional visual work, and a statement of intent. The GRE is required for students whose first degree is not in Graphic Design.

**Master's Degree Requirements:** The Master's of Graphic Design degree requires a minimum of 48 credit hours. Studio credits presented for transfer must be accompanied by a portfolio of work from the courses under consideration.

**Student Financial Support:** The department has limited provisions for tuition remission and assistantships. Assistantships are awarded on the basis of student and departmental needs. Assistantship applications are available from the Department of Graphic Design and should be submitted with the application for admission (for incoming students) or by the advertised deadline (for continuing students).

GRADUATE FACULTY

J. K. Ocko, Department Head

Director of Graduate Programs:
K. P. Luria, Box 8108, 513.2224, luria@social.chass.ncsu.edu, History

Admission Requirements: In the required career goals statement, the major country, topic and historical period of interest should be included. Students admitted provisionally must complete at least 9 hours of graduate courses making grades of A or B to be considered for full graduate standing.

Master's Degree Requirements: Master of Arts Degree in History: This program requires a total of 30 semester hours, including six hours for the thesis. Each student's program is tailored to enhance his or her career objectives. Social studies teachers, for example, may earn advanced competency on completion of the M.A. in history with additional course work in education. Similarly, students who plan to pursue a Ph.D. degree receive the requisite training and assistance. Master of Arts Degree in Public History: This non-thesis program requires 36 credit hours of course work. Half the hours fall in historical studies, the rest in applied history classes, including innovative courses in archival and special collections management, paper conservation, documentary editing, museum studies, and historic preservation. Students may select practicums in their own special areas of interest -- including archival management, historic site administration, museology, historic preservation, and historical publications.

Student Financial Support: Graduate assistantships and fellowships are available to students in both programs and are awarded by open competition.

Other Relevant Information: Application deadline is January 1; students are admitted for the fall semester only. The general portion of the GRE is required for those seeking admission to both the history and public history programs. No subject test is required for either program.

GRADUATE FACULTY

J. L. Kornegay, Department Head

Director of Graduate Programs:
J. M. Dole, Box 7609, 515.3537, john_dole@ncsu.edu, Horticultural Science

Graduate Alumni Distinguished Professor Emeritus: D. M. Pharr

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: M. D. Boyette, G. D. Hoyt, F. H. Yelverton

The NCSU Horticultural Science Graduate Program offers one of the most comprehensive programs in the country – providing students with a broad selection of courses and projects ranging from applied industry-oriented studies to molecular biology. Studies may focus on such commodity areas as floriculture, ornamental and landscape horticulture, pomology (fruit
crops) and olericulture (vegetables) or on cross-commodity topics such as plant physiology, breeding and genetics, herbicide physiology and weed control, nutrition, propagation, tissue culture, growth regulators, postharvest physiology, environmental control, landscape horticulture and biochemistry.

**Admission Requirements:** To be admitted, a student should have completed course work in physics, mathematics, chemistry, biochemistry, soils, plant pathology, genetics, plant physiology, entomology and several courses in horticulture. An applicant deficient in course work may be admitted on a provisional basis until the deficiency is made up. Applicants must provide the basic graduate record examination (GRE) scores, three letters of reference, two official transcripts for each prior degree, and a statement of career goals.

**Master's Degree Requirements:** The Master's degree is a research-oriented degree requiring 30 credit hours and a written thesis. Four credits of core courses (HS 701-707 or 717), one credit of HS 601 must be completed. Up to 6 of the 30 credits may be research credits (HS 695), but there is no requirement to enroll for research credit. At least 20 semester hours must be 500, 600 or 700 level courses, and 6 of these credits must be at the 700 level.

For students wishing a more general educational background in horticultural science without the thesis requirement, the Master of Horticultural Science (M.H.S.) degree is offered. The M.H.S. requires 36 credit hours. Twenty credits must be at the 500-700 level. One credit of HS 601 and at least four and no more than six credits of HS 693 are required. Up to 16 hours of 400-level courses can be taken as a part of the M.H.S. program, however, you may only take six hours of HS 400-level courses. Students are encouraged, but not required, to fulfill the four credit Horticultural Science core course requirement (HS 701-707 or 717).

**Doctoral Degree Requirements:** The Ph.D. program is designed for individuals desiring to pursue careers in research and teaching. A minimum of 54 credit hours beyond the Master of Science program is required. Three credits of the core courses (HS 701-707 or 717) and one credit of HS 601 are required; HS 601 is not required if already taken during the MS.

**Student Financial Support:** The department has a limited number of assistantships available on a competitive basis for promising students. Benefits include tuition and health insurance as covered under the Graduate School's Graduate Student Support Plan. Applicants are considered for assistantship support at time of application. Those interested should apply at least seven months prior to their anticipated enrollment date. Also, many faculty programs have research grant-funded assistantships; potential students should contact faculty directly whose programs are of interest.

**Other Relevant Information:** Facilities for graduate studies include 40,500 square feet of greenhouse space at the USTL and the nearby Horticultural Field Lab; the University Phytotron (available for controlled environmental studies on horticultural crops); 19 well-equipped laboratories; 14 controlled temperature storage rooms, an extensive collection of plant materials, both living and preserved; and a variety of climates and soils from coast to mountains in North Carolina on fifteen outlying research stations. North Carolina has a dynamic horticulture industry, ranking among the top ten in many of the commodity areas.

**GRADUATE COURSES**

GRADUATE FACULTY

R. M. Stewart, Department Head

Director of Graduate Programs:
K. B. DeBord, Box 7605, 515.9147, karen_debord@ncsu.edu, Family and Consumer Sciences

Parent Education and Family Life Education are rapidly growing fields of research and practice. Demand for professionals to teach and create support systems for families is arising through government initiatives, community agencies, court systems, prisons, social service organizations, health care, schools, and communities. The Department of Family and Consumer Sciences at North Carolina State University and the Department of Human Development and Family Studies at the
University of North Carolina at Greensboro offer a jointly administered Masters of Science degree in Human Development & Family Studies with a concentration in Family Life & Parent Education.

Admission Requirements: Students may apply to the joint program through either institution via the normal admissions procedures. A joint admissions committee will evaluate all applicants and be responsible for assigning the home institution.

Master’s Degree Requirements: The M.S. in Human Development and Family Studies is a non-thesis degree that requires a total of 34 credit hours that includes six hours of core content, nine hours in the area of specialization, six hours of applied research, and four to seven hours of applied research internship and professional development. In addition, the student and program advisor will jointly select six to nine hours of elective courses.

Other Relevant Information: This program is designed to make most of the coursework accessible to students enrolled at either the University of North Carolina at Greensboro or North Carolina State University. Course delivery methods include: Web-based classes, seminar classes with a live internet feed connecting classrooms at both institutions, and on-campus seminars at both institutions. This is not a 100% online degree, however. A blending of teaching methods are used.

GRADUATE COURSES

FCS 500 Supervised Professional Experience in Family Life Education
FCS 510 Program Development and Evaluation in Family Life Education
FCS 512 Family and Community Partnerships
FCS 522 Family Life Education
FCS 523 Family Relationships Over the Life Course
FCS 524 Applications of Gerontology in Family Life Education
FCS 531 Effective Management of Family Resources
FCS 533 Family Dysfunction and Complex Family Issues
FCS 540 Environmental Influences on the Family
FCS 590 Special Topics in Family Life & Parenting Education
FCS 595 Contemporary Issues in Family Life Education

GRADUATE FACULTY

Director of Graduate Programs:
S. L. Tonkonogy, Box 8401, 513.6252, sue_tonkonogy@ncsu.edu, Immunology

Course offerings or research facilities are available in the following areas: infectious disease immunology, mucosal immunology, immunotoxicology, immunoparasitology, environmental immunology, and immunology of non-vertebrate species.
Students will be accepted into the immunology program based on their academic records (GPA) as undergraduates and/or as veterinary or medical students, results of the GRE, letters of recommendation and expression of interest in immunology. For the Ph.D. program, special consideration will be given to students who have prior experience in a research laboratory setting, especially in immunology, microbiology, biochemistry or genetics, or students who are completing strong clinical residency programs. Completed applications should be received by December 1 for fall admission.

To be admitted, a student should be a graduate of a major accredited biological science or medical science program. Students lacking appropriate courses may be considered for admission but will be required to make up certain undergraduate deficiencies without graduate credit.

Ph.D. and Master's students must take IMM 751 (Immunology) and at least one other 700-level immunology course, and a graduate-level biochemistry course (e.g. BCH 553 Biochemistry of Gene Expression). Also required are CBS 662 (Professional Conduct in Biomedical Research) and ST 511 (Experimental Statistics for Biological Sciences I). IMM 816 (Advanced Topics in Immunology) is required each semester. The remaining credit hours should include seminar (IMM 807) and research and teaching credits.

Students wishing to pursue a minor in Biotechnology should complete the core course in biotechnology (BIT 510) and two additional credit hours in the biotechnology series.

Graduate assistantships are available to students in the immunology program through the affiliated departments and graduate training grants. In addition, there are graduate research assistantships provided by individual faculty of the program.

The immunology program is an interdepartmental graduate program with faculty drawn from the College of Veterinary Medicine and the College of Agriculture and Life Sciences. For administrative purposes, all students accepted into the program will also have to be student members of one of the participating departments.

GRADUATE FACULTY

B. W. Laffitte, Department Head

Director of Graduate Programs:
P. R. Hooper, Box 7701, 515.8324, percy_hooper@ncsu.edu, Industrial Design

Industrial Design is the professional service of creating and developing concepts and specifications that optimize the value, function and appearance of products and product systems to the mutual benefit of both user and manufacturer. This service is often provided in the context of a cooperative working relationship with other members of a development group.

Typical groups include management, marketing, engineering and manufacturing specialists. Industrial designers place special emphasis on human characteristics, needs and interests. These require particular understanding of visual, tactile, safety and convenience criteria. Industrial designers combine these considerations with practical concern for technical processes and requirements for manufacture; marketing opportunities and economic constraints; and distribution, sales and servicing arrangements. Industrial designers are guided by the awareness of their obligations to protect and promote public safety and well being; to respect the environment; and to observe ethical business practices.

Graduates with a Master of Industrial Design have career opportunities in four general areas; corporate design offices in manufacturing companies, independent design consulting firms, governmental agencies and educational institutions.

Admissions Requirements: Applicants will be considered for admission on an individual basis and plans of study will be developed to take into account previous academic and professional experiences. In addition to other forms, applications must include departmental personal data forms and a portfolio.

Master's Requirements: The Master of Industrial Design degree requires a minimum of

- 30 credit hours for applicants with extensive experience in industry;
- 48 credit hours for applications with a Bachelor's degree in Industrial Design, or
- 78 credit hours for applications with Bachelor's degrees in an area other than Industrial Design.

GRADUATE FACULTY

P. H. Cohen, Department Head

Director of Graduate Programs:
R. E. King, Box 7906, 515.5186, king@ncsu.edu, Industrial Engineering

Clifton A. Anderson Distinguished Professor: R. Uzsoy
Edgar S. Woolard Distinguished Professor and Dept. Head: P. H. Cohen
Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing: C. T. Culbreth, Jr.
James T. Ryan Professor and Distinguished University Professor: T. J. Hodgson
University Professor: S. E. Elmaghrabry
Walter Clark Chair Professor of IE and Director of Graduate Programs IE: S. Fang

ASSOCIATE MEMBERS OF THE PROGRAM

Professors Emeriti: T. Johnson; Associate Professors: T. L. Honeycutt

The graduate faculty of the Edward P. Fitts Department of Industrial and Systems Engineering supports academic and research interests in four areas: (1) manufacturing systems (manufacturing processes, medical device manufacturing systems, CAM, CIM, robotics, automation, rapid prototyping and concurrent engineering); (2) production systems (logistics systems, supply chain management, scheduling, inventory control, materials handling, facility design, furniture manufacturing and management, quality control, and engineering economics); (3) systems analysis and optimization (health systems, stochastic processes, simulation, mathematical programming, and soft computing); and (4) ergonomics (human performance, occupational safety, and biomechanics). The department faculty actively supports independent graduate degree programs in operations research, integrated manufacturing systems engineering, and financial mathematics.

Admission Requirements: Applications are accepted from undergraduate majors in engineering and in the behavioral, physical and mathematical sciences who meet prerequisites in calculus and linear algebra, computer science, and statistics.

Master's Degree Requirements: The M.S. degree requires 30 credit hours and involves depth of study in a specified area of concentration, nine hours in a minor, and six hours of research credit. The Master of Industrial Engineering (M.IE.) degree may be obtained by course work only; project work is optional. A minimum of 33 credit hours is required for the M.IE.
**Doctoral Degree Requirements:** This degree requires 72 credit hours of course and research work beyond the Bachelor's degree. Undergraduate students with superior credentials may apply directly to the doctoral program and bypass the master's degree. For students who have completed the Master's degree, typically 30 to 36 hours of additional course work are required. A departmental written qualifying examination is required.

**Student Financial Support:** Research and teaching assistantships are available on a competitive basis to early applicants. Fellowships that supplement assistantship stipends are available to U.S. applicants with superior credentials. Award priority is given to Ph.D. and then to M.S. applicants.

**GRADUATE COURSES**

ISE(MA,OR) 505 Linear Programming
ISE 510 Applied Engineering Economy
ISE 514 Manufacturing Product Engineering
ISE 518 Manufacturing Operations Management
ISE 530 Advanced Furniture Manufacturing System Design
ISE 531 Advanced Furniture Facilities Design
ISE(PSY) 540 Human Factors in Systems Design
ISE 541 Occupational Safety Engineering
ISE 543 Musculoskeletal Mechanics
ISE 544 Occupational Biomechanics
ISE(CSC) 546 Management Decision and Control Systems
ISE(CSC) 556 Voice Input/Output Communication Systems
ISE 589 Special Topics in Industrial Engineering
ISE 601 Seminar
ISE 610 Special Topics in Industrial Engineering
ISE 637 Directed Study in Industrial Engineering
ISE 639 Advanced Directed Study in Industrial Engineering
ISE 646 Research Practicum in Occupational Biomechanics
ISE 677 Industrial Engineering Projects
ISE 685 Master's Supervised Teaching
ISE 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
ISE 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
ISE 690 Master's Examination
ISE 693 Master's Supervised Research
ISE 695 Master's Thesis Research
ISE 696 Summer Thesis Research
ISE 699 Master's Thesis Preparation
ISE 706 Design of Flexible Manufacturing Systems
ISE 707 Real-time Control of Automated Manufacturing
ISE(OR,MA) 708 Integer Programming
ISE(OR) 709 Dynamic Programming
ISE 711 Capital Investment Economic Analysis
ISE 712 Bayesian Decision Analysis for Engineers and Managers
ISE 715 Manufacturing Process Engineering
ISE 716 Automated Systems Engineering
ISE 717 Computerized Process Planning
ISE 719 CIM System Design
ISE 721 Advanced Problems in Management Systems Engineering
ISE 723 Production Planning, Scheduling and Inventory Control
ISE 725 Organizational Planning and Control
ISE(OR) 726 Theory of Activity Networks
ISE 731 Multi-attribute Decision Analysis
ISE 736 Computer Integration of Manufacturing Systems
ISE(PSY) 740 Engineering Psychology of Human-Computer Interaction
ISE 741 Systems Safety Engineering
ISE 742 Environmental Stress, Physiology and Performance
ISE(PSY) 743 Ergonomic Performance Assessment

GRADUATE FACULTY

Director of Graduate Programs: S. D. Jackson, Box 7915, 515.3808, steve_jackson@imsei.ncsu.edu, Integ. Mfg. Sys. Engineering

Alan T. Dickson Distinguished University Professor: M. A. Rappa
Bank of America University Distinguished Professor: R. B. Handfield
Burlington Industries Professor of Textile Technology: R. L. Barker
Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing: C. T. Culbreth, Jr.
James T. Ryan Professor and Distinguished University Professor: T. J. Hodgson

The Integrated Manufacturing Systems Engineering (IMSE) Institute was established in 1984. IMSE provides multidisciplinary graduate-level education and practical training opportunities in the theory and practice of integrated manufacturing systems engineering at the masters level. IMSE focuses on providing a manufacturing presence and a program environment in the College of Engineering where faculty, graduate students and industry can engage cooperatively in multidisciplinary graduate education, basic and applied research, and technology transfer in areas of common interest related to modern manufacturing systems technology. The objective of the IMSE program is to offer students with traditional discipline backgrounds in engineering and the physical sciences an opportunity to broaden their understanding of the multidisciplinary area of manufacturing systems. Core areas of concentration are offered in manufacturing systems, logistics, mechatronics, and biomanufacturing.

Admission Requirements: Admission to the IMSE master's program requires a B.S. degree from an accredited institution in engineering, physics, mathematics, or computer science. Check with the Institute if your degree is in a field other than these listed.

Master's Degree Requirements: The IMSE program requires a minimum of 27 hours of graduate course work and six hours of research project. The graduate course work includes five required core courses that provide a multidisciplinary overview of subject materials basic to manufacturing systems, logistics, mechatronics, and biomanufacturing. Specialization is provided in the student's elective courses. The six hours of research project is performed either individually or in teams in areas that compliment and reinforce the graduate course work.

Student Financial Support: Assistantships, fellowships and internships are available to qualified students. The full financial support package covers tuition and health insurance.

Fellowship/Internship: The IMSE internship program was established to provide a cooperative industrial and academic experience for some IMSE students and our industrial sponsors. Several Fellowship/Internships awards are made available every year for special training in IMSE member companies. Students who are selected to participate in the internship program receive financial support for four semesters and one summer. Typically, the student attends classes for two semesters (fall and spring), works at the sponsor company for the following summer and fall semester, and completes the IMSE course requirements the following spring semester. The student uses the experience at the sponsor company as the basis for their IMSE research project.

Other Relevant Information: The Institute is supported by an industrial affiliates group of member companies. They have included ABB, Applied Materials, AT&T, AIM, Bayer, B/S/H, Bosch Tools, CP&L, Caterpillar, Corning Cable Systems, CSX, Inc., Dupont, Elkay, Ford Motor, GE, IBM, Intel, John Deere Turf Care, Longistics, Magneti Marelli, Morganite, Nekton Technologies, and Nortel. The Institute interacts with member companies through an Industry Advisory Board and internships.

Core areas of concentration are offered in manufacturing systems, logistics, mechatronics, and biomanufacturing.
### I. Manufacturing Core (one from each area)

| Area 1 | CSC 510 - Software Engineering  
|        | CSC 742 - Database Management Systems  
|        | ISE(CSC,OR) 762 - Computer Simulation Techniques  
|        | ISE(CSC) 441 - Introduction to Simulation  
|        | ISE 719 - CIM System Design  
| Area 2 | BUS 520 - Managerial Finance  
|        | ISE 510 - Applied Engineering Economy  
|        | ISE 711 - Capital Investment Economic Analysis  
| Area 3 | ISE 514 - Manufacturing Product Engineering  
|        | ISE 707 - Real-time Control of Automated Manufacturing  
|        | ISE 715 - Manufacturing Process Engineering  
|        | ISE 716 - Automated Systems Engineering  
| Area 4 | ISE 723 - Production Planning, Scheduling and Inventory Control  
| Area 5 | MAE(WPS) 534 - Mechatronic Design  
|        | MAE 742 - Mechanical Design for Automated Assembly  

### II. Logistics Core (one from each area)

| Area 1 | CSC(ECE) 510 - Software Engineering  
|        | CSC 742 - Database Management  
|        | ISE(CSC,OR) 762 - Computer Simulation Techniques  
|        | ISE 441 - Introduction to Simulation  
|        | ISE 719 - CIM Systems Design  
| Area 2 | BUS 520 - Managerial Finance  
|        | ISE 510 - Applied Engineering Economy  
|        | ISE 711 - Capital Investment Economic Analysis  
| Area 3 | ISE 514 - Manufacturing Product Engineering  
|        | ISE 716 - Automated Systems Engineering  
| Area 4 | ISE 723 - Production Planning, Scheduling and Inventory Control  
| Area 5 | ISE 754 - Logistics Engineering  

### III. Mechatronics Core (one from each area)

| Area 1 | MAE (WPS) 534 - Mechatronic Design  
|        | ECE 556 - Agent-Based Mechatronics Systems  
| Area 2 | MAE 513 - Principles of Structural Vibration  
|        | MAE 533 - Finite Element Method I  
|        | MAE 742 – Mechanical Design for Automated Assembly  
| Area 3 | ECE 511 - Analog Electronics  
|        | ECE 555 - Computer Control of Robots  
|        | ECE 561 - Embedded Systems Design  
| Area 4 | CSC(ECE) 517 - Object-oriented Languages and Systems  
|        | ISE 716 - Automated Systems Engineering; I  
|        | ISE 719 - CIM System Design  
| Area 5 | ECE 742 - Artificial Neural Networks  
|        | MAE 524 - Principles of Mechatronic Control  

IV. Biomanufacturing Core (one from each area)

| Area 1                      | CSC 510 - Software Engineering  |
|                            | CSC 742 - Database Management Systems |
|                            | ISE 719 - CIM Systems Design     |
| Area 2                      | BUS 520 - Managerial Finance     |
|                            | ISE 711 - Capital Investment Economic Analysis |
| Area 3                      | ISE 514 - Manufacturing Product Engineering |
|                            | ISE 589 - Special Topics (Engineering Project Management ) |
| Area 4                      | ISE 789 - Special Topics (Quality Engineering in Biomedical Applications) |
| Area 5                      | ISE 723 - Production Planning, Scheduling, and Inventory Control |

GRADUATE FACULTY

Director of Graduate Programs:
H. H. Hobbs, Box 8102, 513.4389, heidi.hobbs@ncsu.edu, International Studies

William Neal Reynolds Professor Emeritus: S. W. Buol
William Neal Reynolds Professor Sociology: M. D. Schulman

The Master of International Studies (MIS) is a 36-hour, non-thesis professional degree program that prepares students for careers in government service, non-profit administration, international businesses, and higher education administration in international student services and study abroad. Located in the School of Public and International Affairs, the MIS degree draws upon faculty and courses from colleges and departments across the university. Approximately half of the course work for the degree is devoted to developing international knowledge and competencies. The remaining coursework is comprised of regional, topical, professional or technical specializations that are designed by students in consultation with their faculty advisors.

Admission Requirements: Applicants must provide GRE scores in addition to other application materials required by the Graduate School.
**Degree Requirements:** The requirements for the MIS degree are as follows:

1. 36 credit hours of course work;
2. One course from each of the following groupings:

**Group A - International Relations**
- PS 530 Seminar in International Relations
- PS 533 Global Problems and Policy
- HI 554 History of U.S. Foreign Relations, 1900-Present

**Group B - Comparative Politics/Societies**
- PS 540 Seminar in Comparative Politics
- PS 542 Western European Politics
- PS 543 Latin America and Caribbean Politics
- PS 545 Comparative Systems of Law and Justice
- SOC 514 Developing Societies
- SOC 727 Comparative Societies

**Group C - International Law and Organization**
- PS 431 The United Nations and Global Order
- PS 531 International Law
- PS 536 Global Environmental Law and Policy

**Group D - International Economy/Development**
- BUS 426 International Financial Management or Ec 449 International Finance
- EC 448 International Trade
- ECG 540 Economic Development
- PS 539 International Political Economy

**Group E - Cross-cultural Communication**
- COM 523 International and Intercultural Communication
- PSY 755 Cross-Cultural Research and Development

3. Individualized specialization of 12-15 hours. The specialization may be in a geographical region (e.g., Latin America, South Asia), an international topic (e.g., security, environment, sustainable development), a professional field (e.g., business, public administration, non-profit management), or a technical specialty (e.g., agriculture, information technology). The specialization may include an appropriate research methodology course, if recommended by the student's faculty advisory;

4. Capstone seminar (three hours) and oral presentation of work to faculty and peers;

5. A significant foreign work or study experience;

6. Reading/listening/speaking competency in a foreign language as determined by the Department of Foreign Languages and Literatures (FLL).

**GRADUATE COURSES**

- MIS 598 Special Topics in International Studies
- MIS 601 Colloquium in International Studies
- MIS 630 Independent Study
- MIS 651 Internship in International Studies
- MIS 685 Master's Supervised Teaching
- MIS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- MIS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- MIS 690 Master's Examination

Course offerings or research facilities are available in the following areas: site planning and design, landscape history, urban public spaces, community design, regional design, resource management, outdoor learning environments, international urban and rural landscapes, and specialized landscapes.

Admission Requirements: The best-qualified applicants are accepted up to the maximum number of spaces that are available for new students. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities and interests.

Master's Degree Requirements.
I. Accredited First Professional Degree in Landscape Architecture: Candidates follow an 82-hour sequence of courses over a six-semester period. Three semesters of the program of study are determined by the required curriculum. The last three semesters of study are outlined by the student's Chair of the Department, Director of Graduate Programs, and/or advisor. Research and case studies lead to the final project and design application. The investigative direction is set in collaboration with the chair of the faculty committee. A formal presentation of findings to the faculty, student body and local professionals is required. The summary research and project report must be submitted to the College of Design faculty to meet the graduation requirements. II. Advanced Studies in Landscape Architecture: Candidates with an accredited undergraduate Landscape Architecture degree follow a 48-hour sequence of courses. Twenty-seven hours of electives are chosen through advising with the Director of Graduate Programs, advisors and faculty committee. Comprehensive research work is required for a final project with a final report is required. A formal presentation of findings to the faculty, student body and local professionals is also required.

Other Relevant Information: Students have the option of including a graduate minor in their course of studies. Minors can be in any other graduate program offered at NC State, UNC-CH and Duke University. Some examples of graduate minors are: natural resources, parks, recreation and tourism management, architecture, education, planning, civil engineering, and art and design. The College of Design includes the Center for Universal Design, the Office of Research, Extension & Engagement, and the Natural Learning Initiative.

GRADUATE COURSES

LAR 500 Landscape Design Studio
LAR 501 Landscape Architecture Introduction Studio
LAR 502 Landscape Description Studio
LAR 503 Landscape Architecture Construction Studio
LAR 505 Landscape Architecture Final Project Studio
LAR 510 Graphics for Landscape Architects
LAR 511 Community Design Policy
LAR 512 Landscape Resource Management
LAR 521 Values, Theory and Methods of Landscape Architecture
LAR 522 Research Methods and Final Project Development
LAR 530 Advanced Site Planning
LAR 533 Plants and Design
LAR 565 International Landscape Architecture Design Studio
LAR 566 Landscape Architecture International Issues

The Master of Arts in Liberal Studies (MALS) program is an interdisciplinary graduate program administered by the College of Humanities and Social Sciences. This is a broad, interdisciplinary program of part-time or full-time graduate study that integrates and expands the student's knowledge and awareness and that is geared to the student's personal interests. Each student, in consultation with an academic advisor, designs an individual program of study around an interdisciplinary theme or topic that is of intrinsic interest to the student or that relates to the student's professional or vocational interests. Students take graduate courses across a range of NC State departments as well as MALS seminars designed specifically for the program.

Admissions Requirements: Students entering the Master's program in liberal studies must have an undergraduate degree. In addition to the material required by the Graduate School, students applying are asked to submit a four to five page statement...
describing their objectives in doing a degree in liberal studies and a resume. GRE scores are not required. All applicants are interviewed.

**Master's Degree Requirements:** Thirty hours of course work made up of (1) three MALS seminars or two MALS seminars and a research methods course, (2) 18 hours representing the student's interdisciplinary theme or concentration, and (3) a three-hour culminating project. Examples of concentrations that are well supported by graduate courses in the NC State curriculum are: science, technology and society, the American experience and leadership.

Graduate disciplines in atmospheric science, geology and marine sciences are offered. Within marine sciences the subdisciplines of biological, chemical, geological and physical oceanography are recognized by the profession.
Admission Requirements: A bachelor's degree with research experience or a master's degree is required for entry into the Ph.D. program. The GRE Subject Test scores are required only for applicants in biological oceanography. A bachelor's degree in a science, mathematics or engineering is required for entry into the M.S. program in atmospheric science, geology, and biological, chemical, geological or physical oceanography. Undergraduate field camp is required of all students in the M.S. program in geology; this requirement may be fulfilled before or after admission. An M.S. degree with a non-thesis option for students on leave for a fixed period from government positions is available and admission to this option must be requested at the time of application.

Master's Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. Specific course requirements are determined by the advisory committee of each student. However, MEA 601 Seminar is required of all M.S. students no later than the third semester in residence. Marine science students are required to take core courses in two of the three subdisciplines other than their own.

Doctoral Degree Requirements: Specific courses are determined by the student's advisory committee. Registration in seminar, MEA 801, is required of all Ph.D. students no later than the fourth semester in residence. Marine science students are required to take core courses in all three subdisciplines other than their own; this requirement may be fulfilled at the M.S. level.

Student Financial Support: Research and teaching assistantships are available.

Other Relevant Information: Students are assigned initial advisors upon admission. It is the student's responsibility to secure the consent of a faculty member to serve as the permanent advisor who will chair or co-chair the advisory committee.

GRADUATE COURSES IN COMMON TO ALL MEA STUDENTS

MEA 601 Seminar
MEA 685 Master's Supervised Teaching
MEA 690 Master's Examination

Kobe Steel Distinguished University Professor Emeritus: R. F. Davis

ASSOCIATE MEMBERS OF THE PROGRAM

Materials and materials limitations pervade all of the engineering and high technology fields that are an integral part of our
society. Graduate programs in this department focus on understanding the structure, structure modification and properties of materials and the development of new or improved materials and advanced processing methods that are critical links between the design and the realization of new systems.

**Admission Requirements:** In addition to the general admission requirements as set by the Graduate School, the department requires submission of GRE scores. Non-native English speakers also require a minimum TOEFL score as established by the Graduate School.

**Master's Degrees Requirements:** The minimum requirements for the Master of Materials Science and Engineering degree are 33 credit hours and 30 credit hours for the Option B. The M.S. degree has the minimum requirement of 30 credit hours including six credit hours for research.

**Doctoral Degree Requirements:** The minimum requirements for the doctoral degree are 72 credit hours including 20 to 30 credit hours for research and 12 credit hours in one or more supporting fields of which no more than three credit hours may be at the 400 level.

**Student Financial Support:** Students in the graduate program normally receive financial support in the form of research or teaching assistantships or fellowships.

**Other Relevant Information:** The department reflects the interdisciplinary nature of the field of Materials Science and Engineering. A substantial number of current graduate students majored in fields other than but related to materials, and the department has a significant number of associated graduate faculty from other departments supervising thesis and dissertation research.

**FOR GRADUATES AND ADVANCED UNDERGRADUATES**

MSE 500 Modern Concepts in Materials Science  
MSE(NE) 509 Nuclear Materials  
MSE 531 Physical Metallurgy I  
MSE(MAE) 539 Advanced Materials  
MSE 540 Processing of Metallic Materials  
MSE 545 Ceramic Processing  
MSE 555 Polymer Technology and Engineering  
MSE 556 Composite Materials  
MSE 560 Microelectronic Materials Science and Technology  
MSE(TC) 561 Organic Chemistry of Polymers  
MSE(MBA) 576 Technology Evaluation and Commercialization Concepts  
MSE(MBA) 577 High Technology Entrepreneurship  
MSE(MBA) 578 Implementing Technology Commercialization Strategies  
MSE 601 Seminar  
MSE 685 Master's Supervised Teaching  
MSE 690 Master's Examination  
MSE 693 Master's Supervised Research  
MSE 695 Master's Thesis Research  
MSE 696 Summer Thesis Research  
MSE 699 Master's Thesis Preparation  
MSE 702 Defects in Solids  
MSE 704 Electrical, Optical and Magnetic Properties of Materials  
MSE 705 Mechanical Behavior of Engineering Materials  
MSE 706 Phase Transformations and Kinetics  
MSE 708 Thermodynamics of Materials  
MSE 710 Elements of Crystallography and Diffraction  
MSE 712 Scanning Electron Microscopy  
MSE 715 Transmission Electron Microscopy  
MSE(MAE) 731 Materials Processing by Deformation  
MSE(MAE) 732 Fundamentals of Metal Machining Theory  
MSE 751 Thin Film and Coating Science and Technology I  
MSE 752 Thin Film and Coating Science and Technology II
MSE(NE) 757 Radiation Effects on Materials
MSE 760 Materials Science Processing for Semiconductor Devices
MSE(CHE) 761 Polymer Blends and Alloys
MSE 770 Defects, Diffusion and Ion Implantation in Semi-conductors
MSE 771 Materials Science of Nanoelectronics
MSE 775 Structure of Semicrystalline Polymers
MSE 791 Advanced Topics in Materials Science and Engineering
MSE 795 Advanced Materials Experiments
MSE 801 Seminar
MSE 885 Doctoral Supervised Teaching
MSE 890 Doctoral Preliminary Examination
MSE 893 Doctoral Supervised Research
MSE 895 Doctoral Dissertation Research
MSE 896 Summer Dissertation Research

GRADUATE FACULTY

A. G. Helminck, Interim Department Head

Director of Graduate Programs:
S. L. Campbell, Box 8205, 515.3300, s_campbell@ncsu.edu, Mathematics

Distinguished University Professor and Drexel Professor: H. T. Banks

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: F. H. M. Semazzi; Associate Professors: J. D. Brown

The Department of Mathematics offers programs leading to the degrees of Master of Science and Doctor of Philosophy in mathematics and in applied mathematics. Students may opt for the concentration in computational mathematics, which is attached to the program in applied mathematics. The Concentration in Interdisciplinary Mathematics (MAI) is available to Ph.D. students in either Mathematics or Applied Mathematics. It is not available to Masters Students. Through the Center for Research in Scientific Computation, which is housed in the Department of Mathematics, students may participate in the
industrial applied mathematics program, a program of joint research endeavors with industrial and governmental partners.

**Admissions Requirements:** Applicants for admission should have an undergraduate or Master's degree in mathematics or the equivalent. This should include courses in advanced calculus, modern algebra and linear algebra. Applicants with degrees in other subjects may be admitted but may be required to take certain undergraduate courses in mathematics without receiving graduate credit. The GRE Advanced Test in Mathematics is not required but a good score can be a positive factor in admission.

**Master of Science Requirements:** The M.S. degree requires a minimum of 30 credit hours. In addition to course requirements (27 credit hours), the M.S. degree requires a written Master's project for 3 hours credit.

**Ph.D. Requirements:** The Ph.D. requires a minimum of 72 credit hours. A student will typically take 50-60 semester hours of course credits for the Ph.D. These courses include one semester of modern algebra and one semester of mathematical analysis. The written preliminary examination consists of examinations in three areas of mathematics. These are chosen by the student from 14 possibilities. The research dissertation should represent a substantial contribution to an area of mathematics or its applications.

**Student Financial Support:** Teaching assistantships and some research assistantships are available. Teaching assistants benefit from a structured program of training in university-level teaching.

**Other Information:** The Department of Mathematics has a large number of workstations devoted exclusively to its graduate students.

**GRADUATE COURSES**

MA 501 Advanced Mathematics for Engineers and Scientists I  
MA 502 Advanced Mathematics for Engineers and Scientists II  
MA(OR) 504 Introduction to Mathematical Programming  
MA(ISE,OR) 505 Linear Programming  
MA 507 Analysis for Secondary Teachers  
MA 508 Geometry for Secondary Teachers  
MA 509 Abstract Algebra for Secondary Teachers  
MA 510 Selected Topics in Mathematics for Secondary Teachers  
MA 511 Advanced Calculus I  
MA 512 Advanced Calculus II  
MA 513 Introduction to Complex Variables  
MA 515 Analysis I  
MA 518 A First Course in Differential Geometry  
MA 520 Linear Algebra  
MA 521 Abstract Algebra I  
MA 522 Computer Algebra

MA(E,OR) 531 Dynamic Systems and Multivariable Control I  
MA 532 Ordinary Differential Equations I  
MA 534 Introduction to Partial Differential Equations  
MA 535 Stability and Time Optimal Control of Hereditary Systems I  
MA 537 Nonlinear Dynamics and Chaos  
MA 544 Computer Experiments in Mathematical Probability  
MA(ST) 546 Probability and Stochastic Processes I  
MA 547 Financial Mathematics  
MA 551 Introduction to Topology  
MA 555 Introduction to Manifold Theory  
MA 561 Set Theory and Foundations of Mathematics  
MA(CSC,OR) 565 Graph Theory  
MA(BMA) 573 Mathematical and Experimental Modeling of Physical Processes I  
MA 574 Mathematical and Experimental Modeling of Physical Processes II  
MA(PY) 575 Mathematical Introduction to Celestial Mechanics  
MA(PY) 576 Orbital Mechanics
MA(CSC) 580 Numerical Analysis I
MA(CSC) 583 Introduction to Parallel Computing
MA 584 Numerical Solution of Partial Differential Equations - Finite Difference Methods
MA 587 Numerical Solution of Partial Differential Equations - Finite Element Method
MA 591 Special Topics
MA 676 Master's Project
MA 685 Master's Supervised Teaching
MA 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
MA 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
MA 690 Master's Examination
MA 693 Master's Supervised Research
MA 695 Master's Thesis Research
MA 696 Summer Thesis Research
MA 699 Master's Thesis Preparation
MA(ST,OR) 706 Nonlinear Programming
MA(ISE,OR) 708 Integer Programming
MA 711 Analytic Function Theory I
MA 712 Analytic Function Theory II
MA 713 Techniques of Complex Analysis
MA 715 Analysis II
MA 716 Advanced Functional Analysis
MA(OR) 719 Vector Space Methods in System Optimization
MA 720 Lie Algebras
MA 721 Abstract Algebra II
MA 722 Computer Algebra II
MA 723 Theory of Matrices and Applications
MA 725 Lie Algebra Representation Theory
MA(E,OR) 731 Dynamic Systems and Multivariable Control II
MA 732 Ordinary Differential Equations II
MA 734 Partial Differential Equations
MA 735 Stability and Time Optimal Control of Hereditary Systems II
MA(ST) 746 Introduction to Stochastic Processes
MA(ST) 747 Probability and Stochastic Processes II
MA(ST) 748 Stochastic Differential Equations
MA 751 Topology
MA 753 Algebraic Topology
MA 755 Introduction to Riemannian Geometry
MA 756 Geometrical Structures on Fiber Bundles
MA(ISE,OR) 766 Network Flows
MA(BMA,ST) 771 Biomathematics I
MA(BMA,ST) 772 Biomathematics II
MA(BMA,OR,ST) 773 Stochastic Modeling
MA 775 Mathematical Methods in the Physical Sciences I
MA 776 Mathematical Methods in the Physical Sciences II
MA(ST) 778, 779 Measure Theory and Advanced Probability
MA(CSC) 780 Numerical Analysis II
MA 782 Advanced Numerical Linear Algebra
MA(CSC) 783 Parallel Algorithms and Scientific Computation
MA 784 Nonlinear Equations and Unconstrained Optimization
MA 785 Numerical Solution of Ordinary Differential Equations
MA 788 Numerical Nonlinear Partial Differential Equations
MAIE,OR) 790 Advanced Special Topics in System Optimization
(The subject matter in the following special topics courses varies from year to year. The topics and instructors are announced well in advance by the department.)
MA 791 Special Topics in Real Analysis
MA 792 Special Topics in Algebra
MA 793 Special Topics in Differential Equations
MA 795 Special Topics in Topology
MA 796 Special Topics in Combinatorial Analysis
MA 797 Special Topics in Applied Mathematics
MA 798 Special Topics in Numerical Analysis
MA(OE,OR) 812 Special Topics in Mathematical Programming
MA(ISE,OR) 816 Advanced Special Topics in Systems Analysis and Optimization
MA 885 Doctoral Supervised Teaching
MA 890 Doctoral Preliminary Examination
MA 893 Doctoral Supervised Research

GRADUATE FACULTY

J. E. Penick, Department Head

Directors of Graduate Programs:

E. N. Wiebe, Box 7801, 515.1753, eric_wiebe@ncsu.edu, Science Education
H. S. Lee, Box 7801, 513.3544, hollylynne@ncsu.edu, Mathematics Education
V. W. DeLuca, Box 7801, 515.1750, william_deluca@ncsu.edu, Technology Education

Moore Distinguished Professor: J. Confrey

The Department of Mathematics, Science and Technology Education offers graduate programs that lead to the degrees of Master of Science, Master of Education, Doctor of Education, and Doctor of Philosophy. We prepare educators for positions as teachers, as leaders, and as university faculty of the highest quality. We are particularly proud of our emphasis on the use of technology to enhance teaching. Students take courses in their educational specialty, in general professional education, and in mathematics, science, or technology cognate areas including: biological sciences, chemistry, computer science, earth science, interdisciplinary science, mathematics, physics, or statistics.

Master's programs are offered leading to North Carolina M-licensure as a teacher of mathematics, science, or technology at grades 6-9 and/or 9-12 for those who have an initial license. Programs are also available for those seeking advanced graduate-level certification as a teacher. Students may choose a program to prepare for teaching careers in post-secondary education.
Doctoral programs enroll students who are knowledge-seekers and are eager to pursue educational problems and develop critical thinking skills in a collaborative environment. The programs prepare individuals to be knowledgeable about and prepared to accept positions related to:

1. scholarly inquiry and discourse in their discipline,
2. preparation of K-12 teachers,
3. instruction and development issues in K-16, and
4. leadership positions.

**Admission Requirements:** Applicants for all of the M.S., M.Ed., Ed.D., and Ph.D. degrees in mathematics, science or technology education must submit a completed application specific to the program. Please see the [Mathematics, Science, and Technology](#) website. The academic and professional background necessary for admission differs by specific program.

**Master's Degree Requirements:** The Master's Degree programs require a minimum of 36 semester hours of graduate work. Students who choose the M.S. degree may be able to substitute up to six semester hours of thesis research for part of the course load.

**Doctoral Degree Requirements:** The Ed.D. program in Technology Education requires a minimum of 90 semester hours of graduate work beyond the Baccalaureate degree including a minimum of 12 semester hours of dissertation research. The Ph.D. program in Mathematics Education requires a minimum of 50 semester hours of course work and 12 semester hours of dissertation research beyond the Master's Degree requirements. The Ph.D. program in Science Education requires a minimum of 48 semester hours of course work and 9 semester hours of dissertation research beyond the Master's Degree requirements. For both degrees, students may be required to supplement their course work with internships and/or other experiential activities to meet competencies.

**Student Financial Support:** A small number of teaching and research assistantships are available, and out-of-state tuition remission may be available for one year for students on assistantships. Please discuss these opportunities directly with program area faculty.

**GRADUATE COURSES**

GRADUATE FACULTY

R. D. Gould, *Interim Department Head*

*Director of Graduate Programs:* R. T. Nagel, Box 7910, 515.5283, nagel@eos.ncsu.edu, Mechanical & Aerospace Engineering

*Graduate Alumni Distinguished Professor:* H. A. Hassan

The *Mechanical Engineering* graduate program prepares students in all aspects of mechanical and thermal systems design and manufacturing. Course offerings and research programs for mechanical engineering students are available in applied mechanics; biomechanics; combustion; design and manufacturing; dynamic systems and control; energy conversion and systems; experimental mechanics; fluid dynamics; heat transfer; mechanics of materials; micro, nano and MEMS; and vibration and acoustics. Sub-areas include adaptive and auto adaptive structures, controls and system identification, CFD, energy conversion and renewable energy, materials processing and tribology, mechatronics, precision engineering, and reactive and multiphase flows.

Graduate students in the *Aerospace Engineering* program focus on aircraft and space systems design, analysis, and manufacturing. Students can select course offerings and research programs in aerodynamics and applied aerodynamics; aerospace propulsion; computational fluid dynamics; dynamics and design of spacecraft and space systems; flight dynamics and control; and multifunctional materials and smart structures. Sub-areas include acoustics, aeroelasticity, atomization, sprays, composite materials, reactive and multiphase flows, stability, and transition to turbulence.
Admission Requirements: An applicant to the master’s program must be a graduate of an accredited undergraduate program with a B.S. degree in either mechanical or aerospace engineering. Graduates of other accredited programs in engineering, physical sciences and mathematics may be considered but will be required to make up undergraduate deficiencies without graduate credit. Provisional admissions, as well as exceptions, are sometimes granted under special circumstances. The most qualified applicants are accepted first. Applicants to the Ph.D. program must have met the M.S. admission requirements, completed the M.S. degree in mechanical engineering or aerospace engineering and additionally must satisfy the Ph.D. admissions requirements.

Master's Degree Requirements: The thesis-option M.S. degree programs in mechanical engineering and aerospace engineering require 24 hours of course credit and six hours of thesis research. The non-thesis M.S. degree programs in mechanical engineering and aerospace engineering require 27 hours of course credit and a three credit-hour project. The non-thesis M.S. degree programs in mechanical engineering and aerospace engineering are offered on campus and off campus through distance education.

Ph.D. Degree Requirements: A minimum of 54 hours of credit beyond the master's program is required. A direct path to the Ph.D. from the B.S. is also available with which the student is granted the M.S. degree “enroute” to the Ph.D.

Student Financial Support: Various types of assistantships and fellowships are available. Awards are made to the most qualified applicants first and generally are not available for all students.

Other Relevant Information: Each new student chooses an area of specialty, selects an advisor and committee, customizes a program of study and begins research in the first semester of residence. The Director of Graduate Programs acts as a temporary advisor initially and should be contacted with questions.

GRADUATE COURSES

MAE 501 Advanced Engineering Thermodynamics
MAE 503 Advanced Power Plants
MAE 504 Fluid Dynamics of Combustion I
MAE 505 Heat Transfer Theory and Applications
MAE 511 Advanced Dynamics with Applications to Aerospace Systems
MAE 513 Principles of Structural Vibration
MAE 514 Noise and Vibration Control
MAE 517 Instrumentation in Sound and Vibration Engineering
MAE 518 Acoustic Radiation I
MAE 521 Linear Control and Design for MIMO Systems
MAE 522 Non Linear System Analysis and Control
MAE 524 Principles of Mechantronic Control
MAE 525 Advanced Flight Vehicle Stability and Control
MAE 526 Inertial Navigation Analysis and Design
MAE 527 Mechanics of Machinery
MAE 528 Experimental Flight Testing
MAE 533 Finite Element Analysis I
MAE(WPS) 534 Mechatronics Design
MAE(ECE) 535 Design of Electromechanical Systems
MAE 537 Mechanics of Composite Structures
MAE 538 Smart Structures and Materials
MAE(MSE) 539 Advanced Materials
MAE 540 Advanced Air Conditioning Design
MAE 541 Advanced Solid Mechanics I
MAE 543 Fracture Mechanics
MAE 544 Real Time Robotics
MAE 545 Metrology for Precision Manufacturing
MAE 546 Photonic Sensor Applications in Structure
MAE 550 Foundations of Fluid Dynamics
MAE 551 Airfoil Theory
MAE 553 Compressible Fluid Flow
MAE 554 Hypersonic Aerodynamics
MAE 555 Aerodynamic Heating
MAE 557 Dynamics of Internal Fluid Flow
MAE 560 Computational Fluid Mechanics and Heat Transfer
MAE 561 Wing Theory
MAE 562 Physical Gas Dynamics
MAE 573 Hydrodynamic Stability and Transition
MAE 575 Advanced Propulsion Systems
MAE 581 Space Flight Orbital Mechanics
MAE 582 Spacecraft Attitude Dynamics and Control I
MAE 586 Project Work in Mechanical Engineering
MAE 589 Special Topics in Mechanical Engineering
MAE 601 Mechanical and Aerospace Engineering Seminar
MAE 685 Master's Supervised Teaching
MAE 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
MAE 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
MAE 690 Master's Examination
MAE 693 Master's Supervised Research
MAE 695 Master's Thesis Research
MAE 696 Summer Thesis Research
MAE 699 Master's Thesis Preparation
MAE 702 Statistical Thermodynamics
MAE 704 Fluid Dynamics of Combustion II
MAE 707 Advanced Conductive Heat Transfer
MAE 708 Advanced Convective Heat Transfer
MAE 709 Advanced Radiative Heat Transfer
MAE 715 Nonlinear Vibrations
MAE 716 Random Vibration
MAE 718 Acoustic Radiation II
MAE 721 Robust Control with Convex Methods
MAE(MEA) 725 Geophysical Fluid Mechanics
MAE(MEA) 726 Advanced Geophysical Fluid Mechanics
MAE 727 Computational Methods in Structural Vibration
MAE 730 Modern Plasticity
MAE(MSE) 731 Materials Processing by Deformation
MAE(MSE) 732 Fundamentals of Metal Machining Theory
MAE 734 Finite Element Analysis II
MAE 741 Advanced Machine Design II
MAE 742 Mechanical Design for Automated Assembly
MAE 766 Computational Fluid Dynamics
MAE 770 Computation of Reacting Flows
MAE 774 Dynamics of Real Fluids I
MAE 775 Dynamics of Real Fluids II
MAE 776 Turbulence
MAE 777 Experimental Methods in Fluid Mechanics
MAE 778 Molecular Gas Dynamics I
MAE 779 Molecular Gas Dynamics II
MAE 782 Spacecraft Attitude Dynamics and Control II
MAE 783 Space Flight Guidance and Navigation
MAE 789 Advanced Topics in Mechanical Engineering
MAE 801 Mechanical and Aerospace Engineering Seminar
MAE 885 Doctoral Supervised Teaching
MAE 890 Doctoral Preliminary Examination
MAE 893 Doctoral Supervised Research
MAE 895 Doctoral Dissertation Research
MAE 896 Summer Dissertation Research
MAE 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

E. S. Miller, Interim Department Head

Director of Graduate Programs:
M. Hyman, Box 7615, 515.7814, michael_hyman@ncsu.edu, Microbiology

ASSOCIATE MEMBERS OF THE PROGRAM

The Department of Microbiology is in the College of Agriculture and Life Sciences and has a unique blend of applied and basic research programs. The department offers courses of study and research leading to the Ph.D., M.S., Master of Microbiology (M.M.) and Master of Microbial Biotechnology (M.M.B.) degrees. The graduate program is designed to prepare individuals for careers in academic, industrial or research institute settings. Research in the department emphasizes study of fundamental biological processes, with several programs having important biotechnological, environmental and medical applications.

Admission Requirements: Applications are invited from individuals holding B.S. or M.S. degrees in the physical and life sciences. Applications should ideally be received in the department before January 15 to be considered for Fall semester admission. The Graduate Record Exam (GRE) should be taken sufficiently early so that scores can be submitted and evaluated along with the application. A written statement should describe the applicant's academic and career goals as well as their area of interest.

Master’s Degree Requirements: The Master of Science (M.S.) is a research-oriented degree requiring 30 credit hours, a written thesis and at least one semester of laboratory instruction. For students wishing a more general educational background in microbiology without the thesis requirement, the Master of Microbiology (M.M.) degree is offered.

The Department also offers a non-thesis Master of Microbial Biotechnology (M.M.B.) degree. This degree program is a Professional Science Masters that combines concentrations in Microbiology, Business and Biotechnology. This program also can be combined with a Master of Business Administration (M.B.A.) offered through the College of Management.

Doctoral Degree Requirements: The Ph.D. program is designed for individuals desiring to pursue careers in research and/or teaching. Students enroll in a core curriculum consisting of courses in metabolic regulation/physiology, virology, immunology, pathogenesis, and molecular genetics. In addition, the student, in consultation with and approval by his/her advisory committee, may select elective courses offered by the Department of Microbiology and by other departments on campus. In conjunction with the advisor, the student establishes a four-member faculty advisory committee to guide the research and academic program. At least one semester of laboratory instructorship is required. The final examination also
includes a seminar presented by the candidate that is open to the university community.

**Student Financial Support:** Financial support for study towards Ph.D. and M.S. degrees is available in the form of teaching/research assistantships and competitive fellowships. All applications to the department are automatically considered for available assistantships. For highly qualified students, supplemental funds are frequently available.

**Other Relevant Information:** During the first semester, participation in the laboratory rotation program is required of all Ph.D. and M.S. students so that they become acquainted with departmental research programs, faculty and other graduate students. A faculty thesis advisor and laboratory research program are usually selected by the end of the first semester.

**GRADUATE COURSES**

MB(PB,PP) 501 Biology of Plant Pathogens  
MB(SSC) 532 Soil Microbiology  
MB(PB,PP) 575 Introduction to Mycology

Directors of Graduate Programs:
F. H. Magallanes, Box 7701, 515.8348, f_magallanes@ncsu.edu, Landscape Architecture
J. C. Peel, Box 8004, 515.3663, judy_peel@ncsu.edu, Parks, Recreation & Tourism Mgmt.
S. T. Warren, Box 8008, 515.7996, sarah_warren@ncsu.edu, Forestry
T. J. Smyth, Box 7619, 515.2838, jot_smyth@ncsu.edu, Soil Science

The natural resources program is an interdepartmental program designed to prepare students for positions in both private and public natural resource organizations. A selection of technical options couple core courses in natural resources issues and management with a series of related courses in a variety of related technical disciplines. The purpose of the natural resources core curriculum is to educate professionals at a Master's level who are well-versed in policy and regulation and who have skills in quantitative assessments. Currently approved technical options include: assessment and analysis, ecological restoration, economics and management, policy and administration, international resources, hydrology, and spatial information systems in the Department of Forestry and Environmental Resources; outdoor recreation management and spatial information systems in the Department of Parks, Recreation and Tourism Management; landscape architecture in the Department of Landscape Architecture; and soil science in the Department of Soil Science. With one exception, each option is available as either the M.S. in NR or as the non-thesis Master of NR. The soil science option is available only as the non-thesis degree.

Admissions Requirements: Students should have an undergraduate degree in natural resources or a related field. Experience in natural resources management and administration will be considered in lieu of an appropriate undergraduate degree. Admission is contingent upon meeting departmental requirements and acceptance by an advisor.

Master's Requirements: The M.S. degree requires a research thesis based on completion of a research project. The Master of NR degree requires a practical project which develops and demonstrates problem-solving skills. Students enrolled in the Department of Forestry and Environmental Resources must take FOR 603 in the first or second semester. The minimum number of credit hours varies by technical option, but is generally 36 credit hours including research or project credits and core courses.

Core Courses (10 credit hours)
NR 500 Natural Resource Management
NR 571 Current Issues in Natural Resource Policy
ST 5** Graduate-level statistics course
Departmental seminar
GRADUATE COURSES

NR 500 Natural Resource Management  
NR(FOR) 520 Watershed and Wetlands Hydrology  
NR 521 Wetland Assessment, Delineation and Regulation  
NR(PRT) 531 Introduction to Geographic Information Science  
NR(PRT) 532 Principles of Geographic Information Science  
NR(PRT) 533 Application Issues in GIS  
NR(PRT) 535 Computer Cartography  
NR(FOR) 536 Introduction to Visual Basic for GIS  
NR 548 Historical Environments  
NR 554 Data Management in Natural Resources  
NR 571 Current Issues in Natural Resource Policy  
NR 595 Special Topics in Natural Resources  
NR 601 Graduate Seminar

GRADUATE FACULTY

Y. R. Azmy, Department Head

Director of Graduate Programs:
K. L. Murty, Box 7909, 515.3657, murty@ncsu.edu, Nuclear Engineering

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: V. C. Matzen; Associate Professors: A. Gupta, T. Hassan

The discipline of nuclear engineering is concerned with the development of nuclear processes for energy production and with the applications of radiation for the benefit of society. Representative topics of investigation include analytic, computational and experimental research in the neutronics, materials, thermal-hydraulics and control aspects of fission reactors; radiation detection and measurement of basic physics parameters; waste management and radiological assessment; applications of radioisotopes and radiation in industry, medicine and science; and plasma, plasma engineering and design aspects of fusion.
Admission Requirements: Bachelor's degree graduates in any of the fields of engineering or physical sciences may be qualified for successful advanced study in nuclear engineering. Prior experience or course work in nuclear physics, partial differential equations and basic reactor analysis is helpful but may be gained during the first semester of graduate study. GRE scores (general test) are needed for financial aid.

Master's Degree Requirements: A total of 30 credit hours which includes a minor (at least nine semester hours) is required for both the M.S. and MNE degrees. An engineering project is required for the MNE degree and research project for the M.S. degree.

Doctoral Degree Requirements: A total of 72 credit hours which includes a minor (typically 12 hours) is required. NE 721 and NE 727 courses are required. Students must pass a departmental qualifying exam that covers basic nuclear engineering material.

Student Financial Support: Teaching assistantships, research assistantships and fellowships are available for qualified applicants. Opportunities are also available for graduate traineeships with utility companies, reactor manufacturers and national laboratories providing a valuable combination of financial support and learning in the classroom, the research laboratory and on the job.

Other Relevant Information: The department has many excellent facilities including the one-megawatt PULSTAR fission reactor, ultra cold neutron source, neutron scattering facility, neutron radiography unit, neutron activation analysis laboratory, nuclear materials laboratory, plasma and plasma laboratories, instrumentation and controls equipment, radiation analyzers and tomography systems, and access to extensive computer facilities ranging from workstations to a supercomputer.

GRADUATE COURSES

NE 500 Nuclear Reactor Energy Conversion
NE 502 Reactor Engineering
NE 504 Radiation, Safety and Shielding
NE 505 Reactor Systems
NE(MSE) 509 Nuclear Materials

Associate Members of the Program

Assistant Professors: M. Koci

The interdepartmental nutrition program consists of faculty from five departments (animal science, family and consumer sciences, food science, poultry science and toxicology). Students reside and conduct research in one of these departments under the direction of an appropriate advisor. Research in the nutrition program may be conducted with a variety of species
and at levels ranging from the molecular to the whole animal. Research programs are primarily in the area of nutritional biochemistry or experimental animal nutrition (e.g. ruminants, swine, poultry, rodents, and other species).

**Admission Requirement:** To be considered for admission, a student should have a B.S. or M.S degree in a science-related area. Students for M.S. or Ph.D. should contact and be recommended by a prospective major faculty advisor in their area of interest prior to final admission.

**Master's Degree Requirements:** A minimum of 24 course credit hours and a thesis is required for M.S., 36 for Master of Nutrition.

**Student Financial Support:** Assistantships and fellowships are available on a competitive basis from the departments in which the advisor resides.

**GRADUATE COURSES**

- NTR 500 Principles of Human Nutrition
- NTR(FS) 510 Food Lipids: Issues and Controversies

William Neal Reynolds Professor: Z. Zeng

Operations research is a graduate program of an interdisciplinary nature, governed by an administrative board and the program committee, and administered through the office of the program co-directors.

Admission Requirements: Applications are accepted from undergraduate majors in engineering and in physical and mathematical sciences who meet prerequisites in calculus and matrix-linear algebra, computer science, and statistics. A score on the GRE that is less than two years old is required if financial assistance is sought or if the student is transferring from another doctoral program.

Master's Degree Requirements: The Master of Operations Research degree is a terminal graduate degree for students who seek careers as OR practitioners in either the private or public sector. The M.S. degree is designed to prepare students for careers in research and development.

Doctoral Degree Requirements: The Ph.D. degree is intended for students to be research scientists in industry or teachers and researchers in academia. This degree requires 72 credit hours of course and research work beyond the Bachelor's degree. Undergraduate students with superior credentials may apply directly to the doctoral program and bypass the Master's degree. For students who have completed the Master's degree, typically 30 to 36 hours of additional course work are required. A departmental written qualifying examination is required. Please consult the OR website for more details of degree requirements.

Student Financial Support: Both teaching and research assistantships are available to qualified applicants. Award priority is given to Ph.D. then M.S. applicants. Outstanding students who are U.S. citizens and who shall be enrolled in the NC State Graduate School for the first time are eligible for the Engineering Dean's Graduate Fellowship Program.

CENTRAL GRADUATE COURSES

SUGGESTED COGNATE COURSES

Cognate courses are courses that are often included in OR programs of study, but which carry other departmental designations. They cover subject matter closely related to OR and provide additional insight into the theory or application of OR methodology. Students may include cognate courses in their programs of study with the consent of their faculty advisor.
BMA(MA,ST) 771, 772 Biomathematics I, II

GRADUATE FACULTY

D. H. Anderson, Department Head

Director of Graduate Programs:
J. C. Peel, Box 8004, 515.3663, judy_peel@ncsu.edu, Parks, Recreation & Tourism Mgmt.

The Master's degree provides students the opportunity to develop and enhance their critical understanding of both the conceptual foundations of parks, recreation and tourism management and the procedures of systematic inquiry and critical problem solving as applied to planning and management issues. The department offers educational opportunities and
resources for the preparation of professionals concerned with planning, organizing, managing and directing parks, recreation, sport, and tourism programs, areas, and facilities. The general emphasis areas at the Master's level include: parks and recreation management, tourism development and management, geographic information systems, recreational sport management, and natural resource recreation management.

The doctoral students' programs of study are tailored to match their particular experiences and aspirations, and all doctoral programs will concentrate on one of four areas. All include a specialty area of park and recreation management, tourism management, spatial information systems, or sports management.

**Master's Degree Requirements:** The M.S. degree requires 30 credit hours, of which six hours is Master's thesis research. The M.P.R.T.M. requires a minimum of 36 hours of course work, of which four hours is a Master's project. A minor is optional with the M.S. degree. The department offers a dual Master's option with Public Administration which includes 48 hours of course work. A Master of Natural Resources degree is also available. Master's application deadline is March 15 for U.S. students; February 15 for international students. This program has fall admission only; there are no spring admissions.

**Doctoral Degree Requirements:** Although each doctoral course of study will be unique to the individual student, the usual course of study will include a minimum of 54 hours beyond the Master's. These credit hours are distributed among the core courses, statistics and research methods, a minor or substantive area consisting of 15 hours of course work approved by the student's faculty advisor, and the dissertation. Students will be expected to have completed a Master's degree, preferably one with a thesis. Students not possessing a Master's will have to demonstrate their ability to do graduate work prior to admission into the Ph.D. program. Students without research experience will have to demonstrate an ability to produce scholarly work in PRTM. Doctoral application deadline is February 15 for U.S. students, January 15 for international students. This program has fall admission only; there are no spring admissions.

**Student Financial Support:** Graduate assistantships and internships are available to students in this program on a competitive basis.

GRADUATE FACULTY

M. A. Paesler, Department Head

Director of Graduate Programs: H. Ade, Box 8202, 515.8706, harald.ade@ncsu.edu, Physics

Distinguished Educator in Residence: B. Sherwood
Distinguished University Professor of Physics: D. E. Aspnes
Graduate Alumni Distinguished Professor: G. E. Mitchell
University Professor: G. Lucovsky

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: R. M. Kolbas, Z. Sitar; Associate Professors: J. C. Park

Theoretical/computational research opportunities are available in the following areas: astrophysics and relativity, nanoscience/materials and biomolecular simulations, and nuclear/particle physics. Experimental research opportunities are available in the following areas: astronomy, biophysics and soft-condensed matter physics, emergent phenomena and nonlinear systems, nuclear physics, optics, physics education, materials physics and nanoscale science and technology, and synchrotron radiation research.
Admission Requirements: Bachelor's degree in physics (or the equivalent), GRE, and the GRE Advanced test in physics.

Master's Degree Requirements: A minimum of 30 credit hours beyond the Bachelor's degree; demonstrated mastery of aspects of the physics curriculum: PY 781, 782. Thesis and non-thesis options.

Doctoral Degree Requirements: Seventy-two (72) credit hours beyond the Bachelor's degree; demonstrated mastery of core physics curriculum: PY 721, 781, 782, 783, 785, 786; passing of written and oral preliminary exam and final oral defense.

Student Financial Support: Graduate teaching assistantships are available for new and continuing students; research assistantships are available to continuing students and occasionally to new students. More than 95% of students are supported by assistantships.

GRADUATE FACULTY

Director of Graduate Programs:
M. C. Roberts, Box 8401, 513.6248, malcolm.roberts@ncsu.edu, Physiology

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake
William Neal Reynolds Professor of Entomology and Toxicology: R. M. Roe

ASSOCIATE MEMBERS OF THE PROGRAM

Assistant Professors: M. Koci

The Physiology Graduate Program is an interdisciplinary and interdepartmental program comprising faculty drawn from the College of Veterinary Medicine and the College of Agriculture and Life Sciences (including departments of animal science, biochemistry, clinical sciences, entomology, molecular and biomedical sciences, population health and pathobiology, poultry science, psychology, and zoology). An advanced degree in physiology is highly valued by the scientific community and can lead to careers in research and teaching in academia, industry and government laboratories, public policy and consulting. Research is carried out using a variety of model organisms, laboratory and companion and agriculturally important species.

Admission Requirements: Students entering the graduate program in physiology should have a Bachelor's degree in a related biological or physical science. Undergraduate courses should include physiology, biochemistry, organic chemistry, calculus, and physics. Each application package will be screened by the Admissions Committee. Factors considered for admission include: grade point average (3.0 is required for regular admission), GRE scores (at least 1000; combined verbal and quantitative), undergraduate courses, letters of recommendation, and the willingness of a member of the Graduate
Physiology faculty to serve as the applicant's advisor. Some prior research experience is highly recommended.

**Master's Degree Requirements:** All Master's students are required to complete PHY 503, PHY 504, BCH 553, and a course in research ethics. *Master of Science Degree:* For a Master of Science degree a minimum of 30 semester hours of graduate work in the degree program is required including a minimum of 20 hours of course work at the 500-800 level. On average, the M.S. degree requires two to three years. *Master of Physiology Degree:* The non-thesis Master's degree (Master of Physiology) requires a total of 36 credits. On average, the MOP degree requires two years to complete.

**Doctoral Degree Requirements:** A doctoral degree requires a minimum of 72 graduate credit hours beyond the Bachelor's degree in accordance with the requirements of the Graduate School. All Ph.D. students are required to complete PHY 503, PHY 504, BCH 553, PHY 801, one additional course in biochemistry or an alternative 800-level course, and a course in research ethics. On average, completion of the Ph.D. degree requires five years.

**Student Financial Support:** Financial assistance for qualified students in the form of research assistantships, fellowships and traineeships is available through participating departments only and not through the physiology program. Stipends will be offered to qualified applicants admitted in the College of Veterinary Medicine. There is no financial support for students in the Master of Physiology program.

**Other Relevant Information:** The physiology program is jointly administered by the College of Agriculture and Life Sciences and the College of Veterinary Medicine. Graduate students enrolled as physiology majors are housed in the department of their major professor and may participate in departmental activities.

**GRADUATE COURSES**

- PHY(ZO) 503 General Physiology I
- PHY(ZO) 504 General Physiology II
- PHY(ZO) 513 Comparative Physiology
- PHY(PO,ZO) 524 Comparative Endocrinology
- PHY 595 Special Topics in Physiology
- PHY 601 Physiology Seminar
- PHY(ZO) 602 Seminar in Biology of Reproduction
- PHY 610 Special Topics in Physiology
- PHY 620 Special Problems in Physiology
- PHY 685 Master's Supervised Teaching
- PHY 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- PHY 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- PHY 690 Master's Examination
- PHY 693 Master's Supervised Research
- PHY 695 Master's Thesis Research
- PHY 696 Summer Thesis Research
- PHY 699 Master's Thesis Preparation
- PHY(ANS) 702 Reproductive Physiology of Mammals
- PHY(CBS,IMM) 756 Immunogenetics
- PHY(ANS,CBS,NTR) 764 Advances in Gastrointestinal Pathophysiology
- PHY(ANS) 780 Mammalian Endocrinology
- PHY 801 Physiology Seminar
- PHY(ANS,CBS,ZO) 802 Seminar in Biology of Reproduction
- PHY 810 Special Topics in Physiology
- PHY 820 Special Problems in Physiology
- PHY 885 Doctoral Supervised Teaching
- PHY 890 Doctoral Preliminary Examination
- PHY 893 Doctoral Supervised Research
- PHY 895 Doctoral Dissertation Research
- PHY 896 Summer Dissertation Research
- PHY 899 Doctoral Dissertation Preparation
Recommended Courses Normally Included in Programs of Study for the M.S. and Ph.D. Degrees and the Non-Thesis MOP Program

Other recommended/supporting courses are available through many departments, e.g. animal science, biochemistry, biomathematics, biotechnology, cell biology, comparative biomedical sciences, entomology, genetics, immunology, microbiology, nutrition, pharmacology, poultry science, psychology, statistics, toxicology, and zoology, and may be included for consideration in the plan of work.

GRADUATE FACULTY

M. E. Daub, Department Head

Director of Graduate Programs: R. S. Boston, Box 7612, 515.3390, rebecca_boston@ncsu.edu, Plant Biology

Distinguished University Professor: W. F. Thompson
Named Professor of Botany: J. M. Burkholder
William Neal Reynolds Distinguished Professor: W. F. Boss
William Neal Reynolds Professor: R. S. Boston
William Neal Reynolds Professor and Head of Botany Department: M. E. Daub

Course offerings or research facilities are available in the following areas: plant cell biology, cellular imaging, membrane biochemistry, seed biology, cellulose biology, cellular signaling, plant development, plant genetic engineering, transgene regulation and silencing, wound responses, stress biology, plant gravitational genomics, phytochemistry, metabolic engineering, plant fungal interactions, aquatic ecology, toxic dinoflagellates, wetlands ecology, endangered species, plant community ecology, physiological ecology, tropical ecology, paleobotany, plant systematics, evolution of flowering plants, chemical genomics.

Admission Requirements: Students entering the graduate program in plant biology should have a bachelor's degree in plant biology or a related undergraduate program that includes biological, physical and mathematical science training including undergraduate courses in organic chemistry, calculus and genetics, as well as biology. All applications are screened by a departmental committee, and the best qualified applicants will be accepted until all available spaces are filled.

Master's and Doctoral Degree Requirements: The M.S. requires a total of 30 credit hours (20 of the 30 credit hours must be from 500-, 600-, 700/800-level courses); the Master of Plant Biology requires a total of 36 credit hours. The Ph.D. requires a total of 72 credit hours. Two core courses (Plant Form and Function and Plant Functional Ecology) are required. Other requirements include: a Plant Biology Colloquium, an additional plant biology course, a graduate statistics course, a graduate ethics course, a thesis (for the Ph.D. and M.S., but not the Master of Plant Biology), a comprehensive examination (Ph.D.), oral thesis defense and a one-semester teaching responsibility per degree. Students must maintain a "B" average in all course work.
Other Relevant Information: Graduate research and teaching assistantships and tuition remission information are available from the department. New students supported by departmental research/teaching assistantships may elect to rotate through three laboratories during their first semester. At the end of the semester, they will choose a laboratory for their research activities consistent with their interests and available research projects. Provisions are available for cooperative research in more than one laboratory. Graduate students are expected to attend and participate in the seminar program every semester they are in residence. The department participates in training grants in biotechnology and genomics.

GRADUATE FACULTY

J. W. Moyer, Department Head

Director of Graduate Programs:
D. F. Ritchie, Box 7616, 515.6809, david_ritchie@ncsu.edu, Plant Pathology

Philip Morris Professor:  T. A. Melton, III
Philip Morris Professor Emeritus:  P. B. Shoemaker
William Neal Reynolds Professor:  R. A. Dean, S. A. Lommel, G. A. Payne
William Neal Reynolds Professor and Head of Botany Department:  M. E. Daub
William Neal Reynolds Professor of Plant Pathology:  E. L. Davis

ASSOCIATE MEMBERS OF THE PROGRAM

Professors:  W. M. Hagler, Jr., C. L. Hemenway;  Professors Emeriti:  E. B. Cowling

Plant pathology is committed to solving plant disease problems with research that focuses on plant-pathogen interactions at the genomic, cellular, organismal, and ecological levels. Approaches include disease management, epidemiology, molecular biology and host-parasite interactions. Focus areas are bacteriology, bioinformatics, functional genomics, mycology, nematology, virology, soil-borne pathogens and mechanisms of pathogenesis, and host resistance.

Admission Requirements:  The general application procedures of the Graduate School noted at the beginning of this section are followed. Applicants are required to submit GRE results. A detailed statement of applicant interests and goals in plant pathology is most useful to the admissions committee.

Master's Degree Requirements:  There is a core curriculum of a minimum of 12 credit hours that includes PP 501, PP 502, PP 506, PP 707, and PP 601. The core should be supplemented with a minimum of 18 credit hours in courses at the 500 or higher level, which support the focus of the study. Students serve as teaching assistants for one course.

Doctoral Degree Requirements:  Students entering the Ph.D. degree program are expected to take the core curriculum outlined for the Master's degree or have had the equivalent at another institution. Additionally, Ph.D. students must include a departmental-approved ethics course, two credits PP 801, and at least two other 700-level Plant Pathology courses. Ph.D. students serve as teaching assistants for two courses.

Student Financial Support:  A limited number of half-time assistantships are available on a competitive basis. Benefits include in-state tuition, out-of-state tuition and health insurance as covered under the Graduate School's Graduate Student Support Plan. Applicants are considered for assistantship support at time of application. Special supplements to assistantships
are available on a competitive basis for outstanding students. Also, many faculty programs have research grant-funded or training grant-funded assistantships.

**Other Relevant Information:** Fully equipped and staffed laboratories for research are available in addition to greenhouse facilities and environmental growth chambers in the phytotron. Special facilities for experimental work on diseases under field conditions are available at 16 University-related locations throughout the state. Genomics facilities, microcomputers, library, mycological herbarium, digital imaging/graphics equipment programs, and an interdepartmental electron microscopy center are additional features available for the department.

GRADUATE FACULTY

S. L. Pardue, Department Head

Director of Graduate Programs:
J. T. Brake, Box 7608, 515.5060, ibrake@ncsu.edu, Poultry Science

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: D. P. Wages

Course offerings and research programs are comprehensive in the areas of physiology, nutrition, microbiology, molecular biology, biotechnology, food science, immunology, genetics, pathology, and toxicology. The demand for men and women with advanced training in poultry science is far greater than the supply. Opportunities exist for graduates in research and teaching in universities, government, and private industry.

Admission Requirements: Factors considered for admission include grade point average, strength of prior academic program, experience, letters of recommendation, and special skills or interests. GRE scores are required.

Master's Degree Requirements: While there are no specific course requirements for the master's degree in poultry science, most programs exceed the minimum 30 credit hours.

Doctoral Degree Requirements: See Animal Science and Poultry Science.

Student Financial Support: Both research and teaching assistantships are available on a competitive basis within the department. General requirements for these assistantships are as described in the Graduate Catalog. Other financial support may be available in the form of graduate stipend supplementation, research grant support, or out-of-state tuition waivers in accordance with the University's Graduate Student Support Plan.

Other Relevant Information: The Department of Poultry Science occupies modern facilities in Scott Hall, a three-story building on the main campus adjacent to the D.H. Hill Library. The department consists of about 22 faculty, approximately 50 support staff, 25-35 graduate students and postdoctoral associates, and 60-80 undergraduate students.

For more information, visit the Department of Poultry Science website.

GRADUATE FACULTY

D. Gillan, Department Head

Director of Graduate Programs:
D. H. Mershon, Box 7650, 515.1724, psych@ncsu.edu, Psychology

ASSOCIATE MEMBERS OF THE PROGRAM

Associate Professors: B. S. Mehlenbacher, E. N. Wiebe
The Department of Psychology offers five courses of study leading to the Ph.D.: developmental psychology, human factors and ergonomics, psychology in the public interest, industrial-organizational psychology, and school psychology.

**Admission Requirements:** Applicants should have satisfactory grades in all undergraduate work and at least a "B" average in undergraduate psychology courses, satisfactory scores on the GRE and three satisfactory letters of recommendation. The GRE subject test is no longer required, but is strongly encouraged, especially for non-psychology majors. Faculty will examine transcripts for evidence of basic psychology competence. Match of applicants' research interests with current faculty research is usually an important consideration.

**Master's Degree Requirements:** Specific course requirements vary by concentration. Typical programs will include from 36 to 55 hours. The M.S. degree is available as part of work toward the doctorate, but students wishing to obtain a terminal M.S. are advised to consider other programs.

**Doctoral Degree Requirements:** The graduate program for each doctoral student is determined in conjunction with the student's graduate advisory committee and tailored to the needs, interests, and accomplishments of the individual. Students can expect to take from 36 to 54 hours of credit beyond the master's degree.

**Student Financial Support:** Many graduate students receive financial support in the form of teaching or research assistantships. Applicants should request such support when they apply to the program.

GRADUATE FACULTY

Director of Graduate Programs:
J. D. Coggburn, Box 8102, 515.1888, jcoggburn@ncsu.edu, Public Administration

Administrative specialties include: association/ non-profit management, information technology, and urban/local government management. Specialized courses are offered in environmental policy, financial management, and human resource management. The only doctoral program in public administration in N.C., the Ph.D. prepares students for teaching and research positions in public management and related fields. The program offers graduate certificates in non-profit management and public policy, both of which may be included as part of the M.P.A., another graduate degree program, or taken independently.

Admission Requirements: Applicants to the M.P.A. should submit all materials by May 15 (for fall admission) and by November 1 (for spring admission). Completed applications received by February 1 will receive consideration for all available university and department scholarships and assistantships. Admission to the doctoral program normally requires the completion of the M.P.A. or other relevant graduate degree. Ph.D. students are admitted only for the Fall semester. The Ph.D. application deadline is March 15. Applicants are encouraged to submit all materials as soon as possible to assure consideration for fellowships and assistantships.

Master's Degree Requirements: The M.P.A. degree is a 40-semester-hour program consisting of: (1) a core curriculum of 18 credit hours; (2) a choice of administrative specialties, or an individualized program, drawing on courses in public administration and other departments; and (3) an internship or field experience requirement for pre-service students. It is an option B with a one-person committee and no final oral examination. Students who do not have at least two political science courses, including at least one American government course, a micro-economics course, and an intermediate-level statistics course must successfully complete equivalent coursework prior to graduation.

Doctoral Degree Requirements: The Ph.D. prerequisites are a graduate course in statistics, a course in methodology (covering research design, internal and external validity, sampling, and measurement), and at least two courses in American government or public policy. Students are required to complete M.P.A. core courses in (a) budgeting or management systems, and (b) policy analysis or micro-economics unless they have equivalent courses from other institutions. Fifty-four hours beyond the Master's degree including research seminars (including PA 761, PA 762, PA 763, PA 803), four courses in methodology/statistics (including PA 715, PA 765), and dissertation research are required.

Student Financial Support: A limited number of fellowships and graduate assistantships are offered by the department. Contact the department for more information. Other forms of student aid are described in the financial aid section of the Graduate Catalog.

GRADUATE COURSES

PA 501 Effective Writing for Public Managers
PA 508 Government and Public Administration
PA 509 Applied Political Economy
PA 510 Ethics and Professional Practice
PA 511 Public Policy Analysis
PA 512 The Budgetary Process
PA 513 Seminar in Organization Theory
PA 514 Management Systems
PA 515 Research Methods and Analysis
PA 520 Seminar in Urban Management

GRADUATE FACULTY

**Director of Graduate Programs:**
T. U. Hancock, Box 7639, 513.7958, tuhancoc@chass.ncsu.edu, Social Work

**Professors:** J. T. Pennell; **Associate Professors:** T. U. Hancock, C. Waites, L. R. Williams; **Assistant Professors:** N. Ames, W. Casstevens, J. Hall, M. T. Leach, K. Osborne, J. D. Taliaferro, J. G. Wells

The mission of the MSW program is to promote a socially responsible society through education, research, and extension/community service. Within a framework emphasizing professional values and ethics, cultural competence, strengths, and partnerships, the MSW program prepares graduate students for advanced practice and leadership roles.

**Admission Requirements:**

1. Bachelor's degree from an accredited liberal arts college or university
2. Cumulative undergraduate GPA of 3.0 or higher for the last 60 hours of academic work or a GPA of 3.0 or above in previous graduate work; students with a GPA less than 3.0 but greater than 2.5 for the last 60 hours of academic course work must also submit a Graduate Record Exam (GRE) score or a Miller Analogies Test (MAT) score
3. Liberal arts course work in the social sciences, humanities, human biology and statistics
4. Experience in human services (post baccalaureate, paid or volunteer)

**Master's Degree Requirements:** MSW Students select from two different courses of study: (1) two-year, full-time course of study with courses during the fall and spring semesters and (2) a three-year, part-time course of study with courses during the fall and spring semesters and two summer sessions. There are two method options: (1) Direct Practice with a focus on work with individuals, families, and groups and (2) Community Partnerships with a focus on administration and community development. Students are required to complete a total of 60 hours/17 courses: 9 courses in the foundational curriculum, 7 courses in the advanced curriculum, and 1 elective.

**Other Relevant Information:** The Council on Social Work Education, Commission of Accreditation has granted candidacy status to our MSW program. Candidacy is the first step toward initial accreditation. Students admitted during the academic year in which the program is granted candidacy will be seen as having graduated from an accredited program when the program is granted initial accreditation. Please check the department website for updates.

**GRADUATE COURSES**

SW 501 Social Welfare History
SW 502 Social Welfare Planning and Analysis
SW 505 Human Behavior and the Social Environment: Social Justice
SW 506 Human Behavior and the Social Environment: Individuals, Families, and Groups
SW 507 Human Behavior and the Social Environment: Organizations and Communities

**GRADUATE FACULTY**

**Director of Graduate Programs:**
T. N. Greenstein, Box 8107, 515.9006, [ted_greensete@ncsu.edu](mailto:ted_greensete@ncsu.edu), Sociology

**Distinguished Professor of Sociology and Anthropology:** V. Aldige

**Glaxo Wellcome Endowed Chair:** C. S. Tittle

**William Neal Reynolds Professor:** R. C. Wimberley

**William Neal Reynolds Professor Emeritus:** L. B. Otto

**William Neal Reynolds Professor Sociology:** M. D. Schulman

**ASSOCIATE MEMBERS OF THE PROGRAM**

**Professors:** W. A. Wolfram; **Professors Emeriti:** R. D. Mustian

The department offers Master's and doctoral programs in sociology designed to prepare students for academic, research, and applied careers. The programs are structured to provide an intellectually stimulating and academically rigorous, yet
supportive, environment that emphasizes developing research skills through course work and close collaboration with faculty.

**Admissions Requirements:** In addition to general Graduate School requirements, applicants are required to provide a writing sample and should be intending to complete the Ph.D. degree in sociology. We routinely accept applications only for the fall semester. The completed application should be received no later than January 1 to ensure full consideration for assistantship support. Applications for spring admission are considered only under special circumstances.

**Master's Degree Requirements:** Applicants should have received/be receiving a Bachelor's degree from an accredited institution with a major in sociology. Other majors are considered, but students may have to make up deficiencies without credit. The M.S. requires a thesis, whereas a Master of Sociology (M.SOC.) requires six semester credit hours of practicum (supervised field placement in an organization or agency) and a research paper. A minor for both degrees is optional. Thirty (30) hours of credit is required to obtain a Master's degree.

**Doctoral Degree Requirements:** The Ph.D. requires a total of 72 credit hours. The degree normally requires a Master's in sociology. Doctoral students take core courses in theory and methods/analysis and select courses in two areas of specialization. Some course work from the Master's may be applied. A minor is optional.

**Student Financial Support:** Teaching and research assistantships are available on a competitive basis.

**GRADUATE COURSES**

GRADUATE FACULTY

M. G. Wagger, Department Head

Director of Graduate Programs:
T. J. Smyth, Box 7619, 515.2838, jot_smyth@ncsu.edu, Soil Science

William Neal Reynolds Professor Emeritus: S. W. Buol, J. W. Gilliam

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: R. W. Skaggs
Graduate students in soil science may specialize in the following subdisciplines: soil physics, soil chemistry; soil microbiology and biochemistry; soil fertility and plant nutrition; soil genesis, morphology and classification; soil and water management and conservation; soil mineralogy.

**Admissions Requirements:** Graduate students accepted in soil science must have a Bachelor's or Master's degree with a major in soil science or a closely related field and with a strong background in the biological and physical sciences.

**Master of Science Degree Requirements:** Requirements include a minimum of 30 semester hours of course work, including at least one credit, but not more than two credit hours, of seminar (SSC 601) and a minimum of two, but not more than six, credit hours of research (SSC 693 or SSC 695), successful completion of a research problem, submittal of a written thesis that documents the research, a comprehensive oral examination and presentation of a non-credit exit seminar.

**Master of Soil Science Degree Requirements (non-thesis distance education program):** Requirements include a minimum of 36 semester credit hours of graduate work with a minimum of six credit hours of a Master's project. One credit hour of seminar (SSC 601) is required.

**Master of Soil Science Degree Requirements (non-thesis program):** Requirements include a minimum of 36 semester credit hours of graduate work with a minimum of four, but not more than six, credit hours of Special Problems (SSC 620). One credit hour of seminar (SSC 601) is required and a maximum of two credit hours is acceptable.

**Master of Natural Resources Requirements (non-thesis program):** Requirements include a minimum of 32 semester credit hours consisting of 15 hours in core courses, 17 hours in Soil Science courses, and the completion of a Master’s project. One credit hour of seminar (SSC 601) is also required. A minor is optional, although one-third of the credits should usually be in courses outside of the department.

**Doctoral Degree Requirements:** Ph.D. candidates must demonstrate the ability to undertake original research with minimal supervision and write a dissertation reporting the results of this research. There are no definite course requirements for the Ph.D. degree; however, a minimum of 72 graduate credit hours is required beyond the Bachelor’s degree. The Plan of Graduate Work must contain at least one credit hour of seminar (SSC 801) and at least two credit hours of research (SSC 893 or SSC 895). The candidate must also pass a preliminary examination (written and oral components) and a final oral examination. A non-credit exit seminar is required. A minor is optional, although one-third of the credits should usually be in courses outside of the department.

**Student Financial Support:** The department has a number of assistantships available to students who have demonstrated a high level of academic aptitude or potential. All of the graduate assistantships are half time.

**GRADUATE COURSES**

- SSC 511 Soil Physics
- SSC 521 Soil Chemistry
- SSC(MB) 532 Soil Microbiology
- SSC 541 Soil Fertility
- SSC 545 Remote Sensing Applications in Soil Science and Agriculture
- SSC 551 Soil Morphology, Genesis and Classification
- SSC 562 Environmental Applications of Soil Science
- SSC 570 Wetlands Soils
- SSC(BAE) 573 Hydrologic and Water Quality Modeling
- SSC 590 Special Problems
- SSC 601 Seminar
- SSC 609 Colloquium
- SSC 620 Special Problems
- SSC 685 Master's Supervised Teaching
- SSC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- SSC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- SSC 690 Master's Examination
- SSC 693 Master's Supervised Research
- SSC 695 Master's Thesis Research
- SSC 696 Summer Thesis Research
SSC 699 Master's Thesis Preparation
SSC 701 Tropical Soils: Characteristics and Management
SSC 720 Soil and Plant Analysis
SSC 722 Advanced Soil Chemistry
SSC(CS,HS,TOX) 725 Herbicide Chemistry
SSC(CS,HS,TOX) 727 Herbicide Behavior in Soil and Water
SSC 753 Soil Mineralogy
SSC(BAE) 771 Theory of Drainage - Saturated Flow
SSC(FOR) 773 Forest Productivity: Edaphic Relationships
SSC(BAE) 774 Theory of Drainage - Unsaturated Flow
SSC(BAE) 780 Transport and Fate of Chemicals in Soils and Natural Waters

GRADUATE FACULTY

Director of Graduate Programs: D. C. Dorman, Box 8401, 513.6213, david_dorman@ncsu.edu, Specialized Veterinary Medicine

Burroughs Wellcome Distinguished Professor: J. E. Riviere

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: S. M. Laster; Associate Professors: J. M. Hinshaw

The creation of the non-thesis Master's degree track (MSpVM) for the Veterinary Medicine Graduate Program was proposed to enhance scholarship and competitiveness of veterinarians completing advanced specialty training at the College. These programs are designed to provide experiences appropriate for certification in the specialty College related to their area of study. Clinical and diagnostic material handled through the Veterinary Teaching Hospital and affiliated units will provide the basis for this training. Courses will incorporate seminars, rounds and journal club activities; individual supervised training; independent study programs; and basic statistics and ethics. Many of the programs will require a project, publication, and oral exam to be completed as part of the requirements.

This optional track features an interdepartmental, multidisciplinary approach to graduate training with participating graduate faculty from all four departments of the College of Veterinary Medicine. These faculty represent 17 discipline areas and will offer advanced training leading to the Master of Specialized Veterinary Medicine.

Each MSpVM student will have a unique graduate training program focused in his/her clinical specialty area and directed by a graduate committee comprising faculty experts from this clinical specialty and other specialty areas. Creation of the track will permit the College to document more clearly the effort that faculty commit to advanced training in 17 different veterinary specialties. The graduate track will help sustain the outstanding success the College has achieved in attracting the top national and international veterinary graduates for post-graduate clinical training.

Admission Requirements: Applicants must have a DVM/VMD degree from an accredited program and have a documented history of academic excellence. All applicants must meet minimum criteria for both the program and the NC State University Graduate School and be selected for participation in the track by the faculty of the specialty area identified by the applicant. Graduate Record Examination (GRE) scores may be required by specific specialty areas. Committee decisions will be based on academic performance while enrolled in a DVM/VMD program, letters of recommendation, professional experience, and perceived ability of the individual to complement the needs of our training program.

Specialty Areas: Each enrolled student will concentrate his/her studies in one of the existing clinical specialty training areas at the College of Veterinary Medicine. Additional training specialties may be created as warranted by demographic, economic and social changes that impact the profession.

Course Requirements: Students will complete 2 or 3 years of training depending on the requirements in the specific specialty area. The first year will predominately be spent participating in specialty training in the Veterinary Teaching Hospital, where students will receive supervised specialty training in the various clinical services offered by the VTH. During the first year, out of state students may enroll for fewer than 9 credits for the fall and spring semesters. Subsequently, students will complete the required 36 credit hours during the second and third year of their studies.

All students are required to complete 25 credit hours of general course requirements as well as additional elective course requirements in his/her specialty area. The general course requirements consist of:

- Seminar/clinical rounds - 4 credit hours
- Research - 4 credit hours
- Supervised teaching (including rounds) - 1 credit hours
- Supervised specialty training - 12 credit hours
- Biostatistics - 3 credit hours
- Professional ethics - 1 credit hour

The courses selected to complete the balance of the required 36 credit hours will be determined by the student and his/her advisory committee. The following courses represent those that could be used by MSpVM students to complete the credit hour requirements for their degree.

GRADUATE FACULTY

S. G. Pantula, Department Head

Director of Graduate Programs:
P. J. Arroway, Box 8203, 515.1955, pam_arroway@ncsu.edu, Statistics

William Neal Reynolds Professor: M. Davidian, Z. Zeng

ASSOCIATE MEMBERS OF THE PROGRAM

Admission Requirements: The well-prepared applicant to the department's Master's programs has good grades in a three-semester calculus sequence, a two-semester advanced calculus sequence, a semester of linear algebra, and a two-semester sequence in probability and statistics. Some of these courses may be taken as part of the program, but this may result in lengthening the stay. Students may apply to either the Master's or PhD program directly from a Bachelor’s degree. GRE General Test scores are required, but Subject Test scores are not.

The written statement should not exceed two pages and should describe the applicant's academic and career goals as well as special interests in the area of statistics. Individuals applying for fall enrollment and who wish to be considered for financial aid should have their completed applications in by no later than December 15 of the preceding year. Applications arriving after that will be considered but may be assigned lower priority. Students are not normally admitted for spring or summer enrollment.
**Master's Degree Requirements:** All Master's programs in statistics require a minimum of 34 credit hours, of which 12 are first-year core (ST 512R, ST 521, ST 522, ST 552 and their labs), one is supervised consulting (ST 641), and at least nine are statistics and/or supporting electives. The remaining 12 hours are program dependent.

**Doctoral Degree Requirements:** The Ph.D. program in statistics requires 22 course credit hours beyond the Master’s, of which 15 are Ph.D. core courses (ST/MA 778, 779, ST 793, ST 794, and a computing course), one is supervised consulting (ST 841), and six are Ph.D.-level statistics electives. Requirements for co-majors are individually tailored.

**Student Financial Support:** Departmental assistantships and fellowships are awarded each year on a competitive basis. Approximately 40 teaching assistantships and 30 research assistantships and traineeships are available along with several graduate industrial traineeships supported by local industries.

**Other Relevant Information:** With a large graduate faculty representing virtually all major statistical specializations, the department is recognized as a world leader in graduate education and research in statistics. Its applied orientation sets it apart from most other departments in the country, offering education to those wishing to pursue careers as consulting statisticians in industry and government, as well as to those seeking careers in research and teaching.

**GRADUATE COURSES**

- ST 505 Applied Nonparametric Statistics
- ST(ZO) 506 Sampling Animal Populations
- ST 507 Statistics for the Behavioral Sciences I
- ST 508 Statistics for the Behavioral Sciences II

The Master of Arts in Teaching (MAT) program is an accelerated teacher licensure program that leads its students to both an initial teaching license and a Master’s degree in just a year and a half of full-time study. The program is distinct in that it has a focus on practice and is held in a public school facility. The content areas being served by the MAT are secondary Math, Science, Social Studies, and English; Middle Grades (Language Arts or Social Studies); Technology Education, Special Education and Elementary Education.

Admission Requirements: Applicants must have (1) a four-year degree from a college or university that holds regional accreditation, such as SACS; (2) a combined score of 1000 on the GRE (500 verbal and 500 quantitative); (3) 3.00 GPA or higher in prior work, as required by the Graduate School; (4) 24 Semester hours/credits in content relevant to the area in which you wish to teach (if you have fewer than 24 hours in a relevant content field, or if your course work does not prepare you adequately to teach the North Carolina curriculum, you may be assigned course work to overcome the deficiency).

Applications require original transcripts, 3 letters of recommendation, one of which should speak to teaching potential, a personal essay stating applicant’s background and goals, GRE scores (and TOEFL if you have international citizenship), and a completed online application.

Master's Degree Requirements: Depending on the content area, the degree requirements will range from 39-42 hours. These hours include student teaching for non-lateral entry student.

Student Financial Support: Financial aid is available. Interested students should complete a Financial Aid Federal Student Aid (FAFSA) form.

Textile Engineering, Chemistry and Science

Degrees Offered:
GRADUATE FACULTY

B. S. Gupta, Interim Department Head

Director of Graduate Programs:
P. J. Hauser, Box 8301, 513.1899, peter.hauser@ncsu.edu, Textile Engr., Chem, & Science

Burlington Industries Professor of Textile Technology: R. L. Barker
Ciba-Geigy Distinguished Professor and Associate Dean for Research: H. S. Freeman
Kosa Professor of Fiber and Polymer Chemistry: A. E. Tonelli
William A. Klopman Distinguished Professor: B. Pourdeyhimi

ASSOCIATE MEMBERS OF THE PROGRAM

Master of Science in Textile Chemistry (MS/TC): The M.S. in textile chemistry program offers unique educational and research opportunities in textile and polymer chemistry. Fundamentals of chemistry, physics, and mathematical sciences are applied to solve polymer science, textile wet processing, and color science problems.

Master of Science in Textile Engineering (MS/TE): The M.S. in textile engineering offers unique educational and research opportunities in machine, process and product design, as well as Six-Sigma quality improvement. Fundamentals of physics, engineering, and mathematical sciences are applied to textile-related problems.

Admission Requirements. (MS/TC): Applicants must have a physical science or engineering background, including physical chemistry and differential equations. Formal education in textile or polymer chemistry is desired but not required. (MS/TE): Applicants must have a physical science or engineering background including differential equations. A background in engineering mechanics, control theory, statistics, and material science is highly recommended. Formal education in textile engineering or materials science is desired but not required.

Degree Requirements. (MS/TC): Normally, this degree requires 15 credit hours in textile chemistry, 9 credit hours in a supporting area (minor), 6 credit hours of thesis research, and two semester credits from the College Seminar (TC 601). Additional course work may be substituted for part of the research credits. For off-campus (TOP) students and students earning the M.S. on the way to the Ph.D. degree in Fiber and Polymer Science (FPS); a thesis is optional and a minimum of 33 credit hours is required. (MS/TE): Normally, this degree requires 15 credit hours in textile engineering/textile materials science, 9 credit hours in a supporting area (minor), 6 credit hours of thesis research, and two semester credits from the College Seminar (TE 601). Additional course work may be substituted for part of the research credits. For off-campus (TOP) students and students earning the M.S. on the way to the Ph.D. degree in Fiber and Polymer Science (FPS); a thesis is optional and a minimum of 33 credit hours is required for MS/TC and 30 credit hours for MS/TE.

Student Financial Support: Financial aid in the form of assistantships and fellowships is normally available for all full-time students.

Other Relevant Information: The department either houses or has access to all major analytical tools necessary to conduct a quality research program covering a wide range of topics. It also houses state-of-the-art facilities for conducting research in fiber science and textile engineering. Close cooperation between College faculty and the fiber/textile and allied industries provides students with opportunities for learning and employment.
GRADUATE COURSES

TC 502 Textile Wet Processing
TC 530 The Chemistry of Textile Auxiliaries
TC(MSE) 561 Organic Chemistry of Polymers
TC 565 Polymer Applications and Technology
TC(TE,TMS) 589 Special Studies in Textile Engineering and Science
TC 601 Seminar
TC 630 Independent Study
TC 685 Master's Supervised Teaching
TC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
TC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
TC 690 Master's Examination
TC 693 Master's Supervised Research
TC 695 Master's Thesis Research
TC 696 Summer Thesis Research
TC 699 Master's Thesis Preparation
TC 704 Fiber Formation--Theory and Practice

Textile Technology Management is a multidisciplinary program designed to educate students for research and management careers in technology management in the fiber, textile, apparel and related industries complex. The program is designed to give the students a breadth of knowledge of the materials and technologies employed in the industries as well as the quantitative and analytical tools of management.

Admission Requirements:  
Students majoring in textiles; industrial, systems and manufacturing engineering; statistics; operations research; computer science; economics; consumer economics; marketing; and business administration, and having an average in their undergraduate studies of 3.5/4.0 and a Master's degree will normally qualify for admission. Exceptionally qualified students (3.75/4.0 undergraduate GPA) may be admitted directly without a Master's degree.

Doctoral Degree Requirements:  
Fixed credit-hour requirements for the Doctor of Philosophy degree are 72. (Up to 18 hours from an M.S. may be applied against the 72.) Students are admitted to candidacy for the Ph.D. degree after passing two preliminary written and oral examinations (the first covering manufacturing technology and the second the management of technology) and orally defending a research proposal. They must also have passed an English technical writing course during their college career and, depending on the nature of their research interests, may also be required to demonstrate a reading knowledge of one foreign language.
**Student Financial Support:** Financial aid in the form of assistantships and fellowships is normally available for all U.S. full-time students. Financial aid in the form of Graduate Research/Teaching Assistantships may be available to a limited number of international students.

**Course Offerings:** Extensive use may be made of graduate course offerings in other colleges on campus when developing the minor field. See departmental listing for descriptions.

**GRADUATE COURSES**

FPS(TT) 781 Mechanics of Twisted Structures  
FPS(TT) 782 Mechanics of Fabric Structures  
TT 500 Understanding the Textile Complex  
TT 503 Materials, Polymers, and Fibers used in Nonwovens  
TT 504 Introduction to Nonwovens Processes and Products  
TT 505 Advanced Nonwovens Processing

GRADUATE FACULTY

N. L. Cassill, *Department Head*

*Director of Graduate Programs:* A. M. Seyam, Box 8301, 515.6583, a_seyam@ncsu.edu, Textile & Apparel Management

*Charles A. Cannon Professor of Textiles:* S. K. Batra
*Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing:* W. Oxenham
*Klopman Distinguished Professor Emeritus:* S. C. Winchester, Jr.

*Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management:* A. B. Godfrey
*William A. Klopman Distinguished Professor:* B. Pourdeyhimi

The Department of Textile and Apparel, Technology and Management offers the Master of Science in Textiles and the Master of Textiles degrees. Textiles includes the design, management, and technology of fiber-based products and processes. Textile design students explore issues in new product development, body scanning, direct digital printing, computer animation, and computer aided design (CAD). Textile management includes such topics as business intelligence, business finance, information systems, international marketing, supply chain management, and total quality management. Medical textiles, industrial fabrics, three-dimensional textile structures, aerospace applications, and smart textiles and nonwovens are examples of new areas for textile technology.

**Master of Science:** The objective of the Master of Science (MS) in Textiles is to develop the student's potential for research and the technical and analytical skills needed for the design of new products and processes and for careers in the textile supply chain, in research laboratories, in government agencies, and in higher education. The MS degree is a thesis-based 36-credit-hour program where students conduct independent investigation. Students may conduct research in the following areas: advanced fibrous structures, medical textiles, nonwovens, textile product design, textile technology, and textile technology management. Students interested in continuing with a Ph.D. are encouraged to pursue the MS degree.

**Master of Textiles:** The objective of the Master of Textiles is to provide on- and off-campus students with an opportunity to strengthen their educational background and prepare them for productive careers in the textile supply chain, in research laboratories, in government agencies, and in higher education. The Master of Textiles is a non-thesis degree. The program is flexible to accommodate a breadth of student needs. The program can be completed in only two semesters of full-time on-campus study. The program is also available entirely via distance education (Textile Off-Campus Programs: TOP) and may be completed on a part-time basis. The university residency requirement is waived for this distance education program. The degree requires 30 credit hours of study with a final oral examination.
Students should have 20 credit hours from mathematics and natural sciences in their undergraduate degree. Students with a Bachelor of Science or a Bachelor of Arts degree may apply to either of the degree programs. Students apply with undergraduate degrees in textiles, engineering, management, or design.

Student Financial Support: Financial aid in the form of assistantships may be available for full-time Master of Science students.

Other Relevant Information: The Department of Textile and Apparel, Technology and Management houses a Digital Design lab which specializes in 3D Body Scanning, Direct Digital Printing, Whole Body Knitted Garments, and Computer Aided Apparel and Fabric Design. Additionally, the department includes the Sara Lee Knit Products Apparel Lab, a Braiding Lab, a Three-Dimensional Weaving Lab, and an Advanced Testing Lab that allows students to experience hands-on advanced textile technology and management.

GRADUATE COURSES

TT 500 Understanding the Textile Complex
TT 503 Materials, Polymers, and Fibers Used in Nonwovens
TT 504 Introduction to Nonwovens Processes and Products
TT 505 Advanced Nonwovens Processing
TT 506 Bonding Principles in Nonwovens
TT 507 Nonwoven Characterization Methods
TT 508 Nonwoven Product Development
TT 520 Yarn Processing Dynamics
TT(TE,TMS) 521 Filament Yarn Production Processing and Properties
TT(TTM) 530 Textile Quality and Process Control
TT 532 Evaluation of Biotextiles
TT(TTM) 535 Research Methods and Management
TT(TE) 541 Theory and Practice of Knitted Fabric Production and Control
TT(TE) 549 Warp Knit Engineering and Structural Design
TT 550 Production Mechanics and Properties of Woven Fabrics
TT 551 Advanced Woven Fabric Design and Structures
TT 552 Formation, Structure and Assembly of Medical Textile Products
TT 570 Textile Digital Design and Technology
TT 571 Professional Practices in Textile Design and Technology

GRADUATE FACULTY

Director of Graduate Programs:
R. C. Smart, Box 7633, 515.7245, robert_smart@ncsu.edu, Toxicology

Distinguished Professor Emeritus: E. Hodgson

ASSOCIATE MEMBERS OF THE PROGRAM

The Department of Environmental and Molecular Toxicology provides a comprehensive program in course work and research training to prepare prospective toxicologists for careers in academia, government, and industry. Research in the department spans an array of topics ranging from the molecular to population level consequences of toxicant exposure. A common research theme in the department involves the elucidation of toxicant induced alterations in cell signaling and resultant changes in gene expression as it relates to toxicity at the cellular, organ and organism level. Linkage of adverse biological endpoints to toxicant exposure is a mechanistic goal. Specific research areas include: endocrine disruption, oxidative stress, cellular signaling pathways, transcriptional regulation, toxicogenomics, regulation and expression of
xenobiotic metabolizing enzymes, molecular carcinogenesis, cell cycle regulation, apoptosis, chemical exposure assessment, analytical toxicology, ecotoxicology and risk assessment. Examples of types of environmental agents that are being investigated include environmental carcinogens, pesticides, particulates metals, endocrine disruptors, nanoparticles and radiation.

Admission Requirements: Prospective students should have a strong background in the biological and physical sciences with a minimum undergraduate grade point average of 3.0 (on a 4.0 scale) and a minimum GRE score of 1100 (combined Verbal and Quantitative scores). GRE subject tests are not required. International students whose primary language is not English must submit TOEFL scores. A written statement should describe the applicants academic and career goals as well as their area of interest. All applications are reviewed by a departmental committee and the best applicants will be accepted until all available spaces are filled. Students are encouraged to submit applications in early January for Fall admission.

Master of Science Degree Requirements: The M.S. is a research-oriented degree requiring a minimum of 30 credit hours and a written thesis. At least 20 credit hours must be graduate-level courses and a core curriculum is required.

Master of Toxicology Degree Requirements: The MTOX degree is a non-research degree designed for those not intending to pursue a career in research, part-time students, and/or working professionals seeking to further their education and advance their careers. A minimum of 30 credit hours is required, with at least 14 credit hours in toxicology courses. While a thesis is not required, at the discretion of the student's advisor, a review paper focusing on the student's interest in some aspect of toxicology might be required. Unlike the M.S. degree, the MTOX degree is an Option B degree program and does not require a thesis, an advisory committee or a final oral comprehensive exam.

Doctoral Degree Requirements: The Ph.D. program is designed to train students to become independent scholars capable of conducting unsupervised and original research. Students enroll in a core curriculum similar to that of the M.S. degree and additional courses as determined by his/her advisory committee. Normally a total of 72 credit hours is required, with the majority of these credits being dissertation research. Students must pass both a written and oral preliminary exam prior to advancing to Ph.D. candidacy. A doctoral dissertation presenting the students original research is written and defended in a final oral examination.

Student Financial Support: Financial assistance is available for qualified applicants through traineeships, fellowships, teaching assistantships and research assistantships.

Other Relevant Information: Students pursuing either the M.S. or Ph.D. degree may elect to specialize in environmental toxicology or molecular and cellular toxicology. More details can be obtained on the Department of Environmental and Molecular Toxicology website.

ASSOCIATE MEMBERS OF THE PROGRAM

Professors:  H. A. Devine;  Professors (USDA):  D. S. Marshall;  Associate Professors:  S. A. C. Nelson

The Master of Veterinary Public Health (MVPH) program is designed to provide graduate training for veterinarians interested in pursuing animal and public health service-oriented careers. The two-year non-thesis MVPH program provides advanced graduate training in: veterinary epidemiology and biostatistics; infection control and biosecurity; outbreak investigation, disease eradication; emergency program management, veterinary public health and the identification and control of zoonotic pathogens; food safety and security; geographic information systems, spatial analysis; and livestock health management and trade policy. The program’s base of activity is focused at the NCSU College of Veterinary Medicine, however, enrolled students benefit from enrollment in classes at UNC-Chapel Hill and the wealth of additional public health expertise in the Research Triangle.

Admission Requirements:  An applicant to the Master's program must have a degree in veterinary medicine or an equivalent degree from a college or school of veterinary medicine. The MVPH program admissions committee sometimes grants exceptions for students with prior public health experience (contact the program directory before applying). Applicants are accepted based on the recommendation of the MVPH program admissions committee and program director after a review of their prior academic performance, work experience, and letters of recommendation. No graduate record examination scores are required for graduates of U.S. accredited colleges of veterinary medicine; graduate record examination scores are required for applicants who are from non-U.S. accredited colleges of veterinary medicine. International applicants must meet the minimum TOEFL examination requirements of the NCSU graduate program and submit GRE examination scores.

Degree Requirements:  Candidates for the Master of Public Health degree must complete 48 credit hours of core and elective courses, and conduct a project (five credits) related to some aspect of epidemiology, public health, biosecurity, food safety, or other relevant topic identified by the student and their faculty mentors.

Other relevant information:  Students can enroll full time or part time.

GRADUATE COURSES

MVPH program students have the opportunity to take a wealth of classes offered by program faculty as well as faculty from numerous other NCSU departments, the UNC Chapel Hill School of Public Health, and other North Carolina University
Systems campuses. Numerous online elective course options complement classroom instruction. Each student is assigned two faculty mentors who assist with course selection and career planning.

**CORE VETERINARY PUBLIC HEALTH PROGRAM CLASSES**

VPH 554 Trade and Agricultural Health  
VPH 650 Population Medicine Forum  
VPH 693 Supervised Public Health Research  
VPH 713 Zoonoses and Public Health  
VPH 760 Molecular Technologies for Epidemiologic Investigation

**ADDITIONAL CORE CLASSES**

CBS 580 Clinical Veterinary Epidemiology  
CBS 581 Clinical Veterinary Epidemiology Laboratory  
CBS 784 Principles of Analytic Epidemiology  
EPI 710 Fundamentals of Epidemiology  
FS 520 Pre-Harvest Food Safety  
FS 540 Food Safety and Public Health  
PRT 562 Principles of Geographic Information Systems  
ST 505 Applied Nonparametric Biostatistics  
ST 511 Experimental Statistics for Biological Sciences  
ST 512 Experimental Statistics for Biological Sciences II

**ELECTIVE EPIDEMIOLOGY CLASSES (UNC)**

EPI 715 Theory and Quantitative Methods In Epidemiology  
EPI 718 Epidemiologic Analysis of Binary Data  
EPI 722 Epidemiologic Analysis of Time-to-Event Data  
EPI 733 Clinical Trials in Epidemiology  
EPI 735 Cardiovascular Disease Epidemiology  
EPI 743 Genetic Epidemiology: Methods and Applications  
EPI 745 Molecular Techniques for Public Health Research  
EPI 751 Emerging and Re-Emerging Infectious Diseases  
EPI 752 Introduction to Methods in Infectious Disease Epidemiology  
EPI 753 Prevention and Control of Infectious Diseases at the Community Level  
EPI 754 Mathematical Modeling of Infectious Diseases  
EPI 756 Control of Infectious Diseases on Developing Countries  
EPI 757 Epidemiology of HIV/AIDS in Developing Countries  
EPI 758 Methods and Principles of Applied Infectious Disease Epidemiology  
EPI 759 Methods in Field Epidemiology  
EPI 780 Occupational Injury and Violence as a Public Health Problem  
EPI 785 Environmental Epidemiology  
EPI 786 Community-Driven Epidemiology and Environmental Justice

**COMMUNITY PREPAREDNESS AND DISASTER MANAGEMENT (UNC ONLINE)**

HPAA 420 Community and Public Health Security  
HPAA 421 Community and Public Health  
HPAA 422 Analytic Methods  
HPAA 423 Disaster Management Issues

Professors: S. A. Khan; Professors Emeriti: E. B. Cowling

Course offerings and research facilities are available in the following areas: wood chemistry, biopolymer chemistry, biomaterials, bio-energy, pulping chemistry, process analysis, polymer chemistry, paper physics, paper recycling, wood physics (especially wood liquid relations), wood anatomy, wood biology, wood mechanics and engineering, wood machining, manufacturing processes, wood-based industry economics and marketing.

Admission Requirements: Requirements listed here are in addition to graduate school requirements stated elsewhere. To be admitted, a student should have earned a B.S. degree with a major in wood and paper science or another suitable science or engineering degree. Students with a 3.0 GPA and with appropriate course backgrounds will be considered for admission. The GRE test scores are required except for the Master's of Wood and Paper Science offered through Distance Education.

Master of Science Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. In addition, there are WPS core course requirements, which vary depending on the field of study. Six hours of research (WPS 695) must be taken. Two hours of Seminar (WPS 591) must be passed. A qualifying exam must be passed.

Master of Wood and Paper Science Degree Requirements: The Master of Wood and Paper Science is a non-thesis, professional degree for students not interested in research. The Master of Wood and Paper Science Degree is offered both on campus and through Distance Education. For the on-campus program a minimum of 36 course credits is required. The regulations regarding credits are the same as for the M.S. degree except that no credit for WPS 695 is required or given and up to six credits of 400-level courses in the major field may be included. A technical report, which demonstrates the student's ability to gather, analyze and report information is required.

In addition to Graduate School requirements, the Distance Education program requires that the student be employed professionally in a wood or paper science or allied field, have one year of professional experience, and take required WPS core courses, which vary depending on the field of study. A minimum of 30 course credits is required of students who have relevant professional experience, including one hour of Seminar (WPS 591) and an independent project (WPS 625). For distance students without relevant professional experience, 36 hours is required.

Doctoral Degree Requirements: In addition to Graduate School requirements, Ph.D. candidates must present two departmental seminars (WPS 791) before their final oral examination which will be arranged. Candidates must also write and defend a research proposal on their intended research (first proposition) and a research proposal on an area outside of their dissertation/thesis research (termed a second proposition) and pass qualifying exams.

Student Financial Support: A number of research assistantships are available. Five Hoffman Fellowships are also available.

Other Relevant Information: Graduate students should select a chairman and other advisory committee members and submit a plan of graduate work by the end of their first semester of residence. They are also required to take the qualifying examination(s) after one semester of residence. These examinations are to ensure that the student has the basic abilities to think independently as a scientist within the context of the forest biomaterials literature. The department believes M.S. and Ph.D. students should select a research topic and begin their dissertation or thesis research as early as possible.

As the field of wood and paper science is a derived science, students are urged to develop a strong secondary area of excellence in one or more of the supporting disciplines such as organic chemistry, polymer chemistry, chemical engineering, mathematics, statistics, biology, engineering mechanics, mechanical engineering, physics, and economics or business administration.
GRADUATE COURSES

WPS 510 Strategic Business Processes for the Forest Products Industry
WPS 522 Chemical Principles for the Papermaking Process Engineer
WPS 527 Wet-end and Colloidal Chemistry
WPS(CE) 528 Structural Design in Wood
WPS(MAE) 534 Mechatronics Design
WPS 565 Paper Physics
WPS 577 Paper Coating and Printing
WPS 591 Master's Seminar
WPS 601 Seminar
WPS 620 Special Problems
WPS 625 Advanced Wood and Paper Science Problems
WPS 685 Master's Supervised Teaching
WPS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
WPS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
WPS 690 Master's Examination
WPS 691 Methods of Research in Wood and Paper Science
WPS 693 Master's Supervised Research
WPS 695 Master's Thesis Research
WPS 696 Summer Thesis Research
WPS 699 Master's Thesis Preparation
WPS 704 Timber Physics
WPS 713 Tropical Woods
WPS 715 Surface and Colloid Chemistry of Papermaking
WPS 721 Chemistry of Wood Polysaccharides
WPS 722 Chemistry of Lignin and Extractives
WPS 725 Pollution Abatement in Forest Products Industries
WPS 733 Advanced Wood Anatomy
WPS 740 Wood Composites
WPS 750 Wastewater Treatment in the Paper Industry
WPS 760 Advanced Pulp and Paper Process Analysis
WPS 791 Doctoral Seminar
WPS 801 Seminar
WPS 820 Special Problems
WPS 825 Advanced Wood and Paper Science Problems
WPS 885 Doctoral Supervised Teaching
WPS 890 Doctoral Preliminary Examination
WPS 691 Methods of Research in Wood and Paper Science
WPS 893 Doctoral Supervised Research
WPS 895 Doctoral Dissertation Research
WPS 896 Summer Dissertation Research
WPS 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

D. Shea, *Interim Department Head*
Director of Graduate Programs:  
H. V. Daniels, Box 7617, 515.4589, harry_daniels@ncsu.edu, Zoology

William Neal Reynolds Professor:  R. R. H. Anholt

ASSOCIATE MEMBERS OF THE PROGRAM

Professors:  D. B. Eggleston, E. J. Jones, R. A. Lancia, T. M. Losordo, T. G. Wolcott; Professors Emeriti:  P. D. Doerr; Associate Professors:  W. G. Cope; Assistant Professors:  K. Gross

Areas of study include: cell biology and physiology, ecology and behavior, and fisheries and wildlife biology. Specializations within these areas include developmental biology, neurobiology, genomics, invertebrate biology, animal reproduction, biorhythms, behavioral ecology, community ecology, population ecology, conservation biology, fisheries ecology, wildlife field studies, aquaculture and others.

Application Deadlines:  To guarantee consideration for funding, applications should be complete by the following dates: for Fall Semester admission both U.S. and international applicants should have their application materials completed by February 15; for Spring Semester the deadline is September 15 for U.S. applicants and July 15 for international applicants. Please note that it typically requires four to six weeks from the date of your request until transcripts, letters of recommendation, and GRE scores reach us. Applications received after the dates listed above will still be considered until the Graduate School deadlines (June 25 and November 25 for U.S. applicants, March 1 and July 15 for international applicants), however, opportunities for funding may be limited (note that the Zoology Department does not accept M.S. and Ph.D. students without support).

Admission Requirements:  GRE scores (general) are required for admission. M.S. students are expected to have a GRE score of at least 1000, calculated as the Verbal score plus the Quantitative score. Ph.D. students are expected to have a GRE score of at least 1200. Regular admission for a Master's degree requires an undergraduate grade point average of 3.0 in an appropriate biological discipline; an undergraduate GPA of at least 3.2 is expected for Ph.D. students. Some research experience is highly recommended.

Master's Degree Requirements:  M.S.:  No more than six hours of temporary courses (ZO 624, ZO 824) or two hours of departmental seminar can be included in the 30-hour requirement for the M.S. Six hours of research credits (ZO 695) resulting in a thesis are required. A minor (usually 9-10 hours) is optional. Master of Zoology:  Of the 36 credit hours required, 20 must be regular courses at the 500-800 level, and four to six must be special problems (ZO 631). Other requirements may be imposed by the advisor.

Doctoral Degree Requirements:  A student's advisory committee recommends appropriate courses which will provide a strong foundation in the student's area of interest. A minimum of 10 hours of research (ZO 895) leading to a dissertation is required. A minor (usually 9-10 hours) is optional.

Student Financial Support:  Graduate teaching and research assistantships are available to well-qualified M.S. and Ph.D. students.

Other Relevant Information:  Students may also pursue degrees in interdepartmental programs in Biomathematics, Physiology, and Fisheries and Wildlife Sciences. Excellent research facilities, equipment and computers are available. Off-campus research is conducted at the Pamlico Aquaculture Field Laboratory, research and extension centers in Eastern and Western North Carolina, the Center for Marine Science and Technology in Morehead City, and at facilities of state and
federal agencies and private organizations. Field work can be conducted at nearby natural areas and laboratory work at various state and federal laboratories associated with the department. For additional information see the Zoology Department web page: www.cals.ncsu.edu/zoology/

GRADUATE COURSES

ZO 501 Ornithology
ZO(PHY) 503 General Physiology I
ZO(PHY) 504 General Physiology II
ZO 508 Brain, Sex and Gender
ZO(ENT) 509 Ecology of Stream Invertebrates
ZO 512 Animal Symbiosis

ZO(GN) 740 Evolutionary Genetics
ZO(MEA) 750 Marine Benthic Ecology
ZO(MEA) 754 Advances in Marine Community Ecology
ZO(MEA) 756 Ecology of Fishes
ZO(PB) 760 Principles of Ecology
ZO(PB) 770 Advanced Topics in Ecology I
ZO 784 Advanced Topics in the Study of Mammals
ZO 789 Advanced Limnology
ZO 790 Special Topics
ZO 791 Topics in Animal Behavior
Artificial Intelligence (Minor Program)

GRADUATE FACULTY

Artificial intelligence is the branch of computer science concerned with designing computer systems that exhibit characteristics normally associated with intelligence in human behavior, such as understanding language, learning, reasoning, and solving problems. At NC State, artificial intelligence is an interdisciplinary field, with faculty from several departments engaged in fundamental research and applications.

The university offers courses of study leading to a minor in artificial intelligence as part of the M.S. and Ph.D. degrees. This option is available to all graduate students except those in computer science, who can choose artificial intelligence as an interest area.

To fulfill the academic requirements for a minor in artificial intelligence, each master's student must successfully complete at least three, and each doctoral student at least six, of the courses in the artificial intelligence curriculum. Two of the courses must be CSC 520, Artificial Intelligence I and CSC 720, Artificial Intelligence II. Other courses offered as part of the artificial intelligence curriculum include: CSC 523 Computational Linguistics; CSC 723 Computational Semantics; ECE 763 Computer Vision; CSC(IE) 556 Voice Input/Output Communication Systems; CSC(IE) 756 Advances in Voice Input/Output Communication Systems. Also, from time to time special topics courses are offered covering subjects such as knowledge engineering, fuzzy reasoning, knowledge representation, neural networks, machine learning, artificial intelligence applications to CAD, and artificial intelligence in manufacturing.

Graduate students in computer science who select artificial intelligence as an interest area are subject to the same academic requirements that define other interest areas within computer science.

Biotechnology (Minor Program)

Professor R. M. Kelly, Director
Box 7512
919.515.4230
919.515.4231 (fax)
Email: biotech@ncsu.edu

Dr. Sue Carson, Academic Coordinator
919.513.0330
Email: sue_carson@ncsu.edu
Home page: http://www.ncsu.edu/biotechnology/

The Biotechnology Program includes faculty from at least twenty departments in the Colleges of Agriculture and Life Sciences, Engineering, Natural Resources, Physical and Mathematical Sciences, and Veterinary Medicine. Graduate study leading to either an M.S. minor or a Ph.D. minor in biotechnology may be taken by students who reside and conduct their
research in one of the participating departments. To obtain a minor in biotechnology, the student must successfully complete at least six credit hours in the laboratory core courses selected from the list below and must conduct graduate thesis research in an area of biotechnology.

Research in biotechnology is focused in three main areas: recombinant DNA technology, bioprocessing/bioanalytical techniques, and in vitro culture techniques. The multidisciplinary nature of biotechnology means that a wide range of research topics and techniques are applicable, such as molecular genetics and associated research in molecular biology, fermentation and protein purification, cell culture techniques, and microarray technology.

See the biotechnology home page for a current listing of faculty.

GRADUATE COURSES

BIT 501 Ethical Issues in Biotechnology
BIT 510 Core Technologies in Molecular and Cellular Biology
BIT 562 Gene Expression: Microarrays
BIT(CHE) 563 Fermentation of Recombinant Microorganisms
BIT 564 Protein Purification
BIT 565 Real-time PCR Techniques
BIT(PO) 566 Animal Cell Culture Techniques
BIT 567 PCR and DNA Fingerprinting
BIT 568 Genome Mapping
BIT 569 RNA Purification and Analysis
BIT 570 Advanced Animal Cell Culture: Bioreactor Culture
BIT(PB) 581 Plant Tissue Culture and Transformation
BIT 595 Special Topics
BIT 815 Advanced Special Topics

Cognitive Science (Minor Program)

Dr. Ronald P. Endicott, Program Director
Department of Philosophy and Religion
NCSU Box 8103
Phone: (919) 515-6195
Email: ron_endicott@ncsu.edu

Cognitive Science is an area of interdisciplinary research that seeks to understand the nature, processes, and evolution of mind. The Cognitive Science Program is administered by the Department of Philosophy and Religion and supported by a strong faculty drawn from the fields of Psychology, Neurobiology, Computer Science, Linguistics, and Philosophy. The program thus fosters development of ideas and theories within the disciplines of Cognitive Science, for example, theories of rational agency, logical reasoning, cognitive processing, computational psychology, artificial intelligence, neurobiology, and the evolution of cognitive systems.

Requirements: Graduate students who minor in Cognitive Science must complete a minimum of nine hours of courses (or more as determined by the student’s committee), with a grade of B or better, distributed as follows.

One core courses (3 hrs):

PHI/PSY 525 Introduction to Cognitive Science

Two additional courses (6 hrs) outside the degree-granting program from the following:

PSY 500 Visual Perception
PSY 502 Physiological Psychology
PSY 508 Cognitive Processes
PHI 540 The Scientific Method
CSC 520 Artificial Intelligence I
CSC 522 Automated Learning and Data Analysis
CSC 523 Computational Linguistics
CSC 707 Automata, Languages and Computability Theory
CSC 720 Artificial Intelligence II
ENG 524 Introduction to Linguistics
ENG 584 Studies in Linguistics
ZO 588 Neurobiology

Any student who has previously completed the equivalent of the above core course for credit toward another degree (e.g., PHI/PSY 425 as an undergraduate) is required to complete an additional course (3 hours) from the above list.

Up to three credits of equivalent graduate course work may be accepted in the place of one course on the list above, subject to the approval of the Director for the Cognitive Science Program.

**Computational Engineering and Sciences (Minor Program)**

**GRADUATE FACULTY**

Professor P. J. Turinsky, Program Coordinator

*Camille Dreyfus Professor:* C. K. Hall
*Graduate Alumni Distinguished Professor:* G. E. Mitchell
*University Professor and Drexel Professor:* H. T. Banks

The Computational Engineering and Sciences Program includes faculty from twelve departments in the College of Engineering and College of Physical and Mathematical Sciences. Graduate students pursuing graduate study toward a master's or Ph.D. degree in one of the participating science or engineering departments may elect this program in place of the traditional minor. [Note that students wishing to earn a graduate degree in mathematics or computer science should reference these departments' sections of the Graduate Catalog for details on options available in computational mathematics and scientific computing.] To complete the program requirements, a student must successfully complete a sequence of graduate-level applied mathematics and computer science courses, and if a research dissertation is required, utilize advanced computational techniques in the course of conducting the research.

The Computational Engineering and Sciences Program is designed to efficiently prepare graduate students to undertake research utilizing scientific computing by combining course work in applied mathematics and computer science in addition to course work in the traditional major. The program recognizes that a new area of scientific pursuit, numerical simulation, has emerged as a new paradigm for scientific inquiry complementing theory and laboratory experiment. Typical areas of research include, but are not limited to, computational fluid dynamics, quantum chemistry and atmospheric modeling. Admission to the program is gained after enrollment in the Graduate School and the graduate program is underway. Program course requirements are selected from applied mathematics and computer science courses listed elsewhere in this Graduate Catalog. Typical courses that may be selected to satisfy this program's requirements include advanced calculus, numerical analysis, numerical linear algebra for parallel architectures, stochastic simulation, computer operating systems, digital systems architecture, computer graphics, compiler construction, software engineering, and design and analysis of algorithms.

**Ecology (Minor Program)**

**GRADUATE FACULTY**

Stephen W. Broome, Coordinator
Box 7619, (919) 513-2555, Fax (919) 515-2167, E-mail: Stephen_Broome@ncsu.edu
Ecology is the science concerned with the interactions of organisms with each other and with their environment. It is an integrative science through which one gains an understanding of biological and physical interrelationships and predicts the consequences of altering one or several components. Students in a number of basic and applied curricula may elect to minor in ecology at the M. S. and Ph.D. levels. The minor provides an opportunity for a broad overview of the science of ecology.

The ecology minor is an interdepartmental program drawing faculty from the Departments of Botany, Crop Science, Entomology, Forestry, Marine, Earth and Atmospheric Sciences, Parks, Recreation and Tourism Management, Plant Pathology, Soil Science, Statistics, and Zoology. The Ecology Advisory Committee administers the program.

Requirements for a Minor in Ecology

A graduate student's advisory committee must include one member of the Ecology Advisory Committee from a department other than that of the chairman of the student's committee.

**M.S. minor:** at least one course must be selected from the list of Ecology Core Courses, at least two additional courses selected from the list of Approved Ecology Courses or the Core Courses, and Ecology seminar (ECO 601), totaling a minimum of 9 semester hours. Courses selected form the list of Approved Ecology Courses must be from outside the student's major discipline.

**Ph.D. minor:** at least one course must be selected from the list of Ecology Core Courses, at least three additional courses selected from the list of Approved Ecology Courses or the Core Courses, and Ecology seminar (ECO 601), totaling a minimum of 12 semester hours. Courses selected form the list of Approved Ecology Courses must be from outside the student's major discipline. No courses used to meet the Ecology minor requirements for the M.S. degree may be used to meet the Ph.D. minor requirements.

**GRADUATE COURSES**

ECO 601 Seminar
ECO 620 Special Problems

**Environmental Remote Sensing and Image Analysis (Minor Program)**

Dr. Siamak Khorram  
Box 7106, (919) 515-2868  
khorram@ncsu.edu

This graduate minor provides graduate students the opportunity to develop a recognized academic credential in remote sensing and image analysis in conjunction with their major program of graduate study. A minimum of 12 credit hours, 6 credit hours of required courses and 6 credit hours of elective courses, is required to complete the minor. Students can select coursework from the following list.

**GRADUATE COURSES**

**REQUIRED COURSES (6 credit hours)**

FOR 753 Environmental Remote Sensing  
ECE 759 Pattern Recognition, **OR**  
ST 733 Applied Spatial Statistics

**ELECTIVES (6 credit hours)**

ECE 751 Detection and Estimation Theory  
ECE 758 Digital Image Processing  
FOR 510 Introduction to GPS  
FOR 554 Principles of Spatial Analysis  
NR 531 Introduction to Geographic Information Science
Food Safety (Minor Program)

Graduate Faculty

Professor Lee-Ann Jaykus, Director

The primary objective of the Food Safety Minor is to prepare science professionals with the depth and breadth of training necessary to understand and to control food safety challenges. The interdisciplinary minor includes departments in the Colleges of Agriculture and Life Sciences and Veterinary Medicine with the occasional participation of other NCSU colleges. Participating graduate students are required to have, or to develop during the early part of their training, appropriate knowledge in the basic scientific disciplines of chemistry, biochemistry and microbiology. Further, it is highly desirable that formal course training in genetics and statistics be part of each student’s academic program. Students in a master's program are required to have 10 credits from the core courses to earn the food safety minor. Students in a doctoral program are required to have, as a minimum, 10 credits from the core courses.

Core Courses

FSA520 Pre-harvest Food Safety
FSA(FS) 530 Post-harvest Food Safety
FSA(FS) 540 Food Safety and Public Health
FSA(FS) 580 Professional Development and Ethics in Food Safety

Geographic Information Systems (Certificate Program/Minor Program)

Dr. Hugh A. Devine, Coordinator
NCSU Box 7106
Phone: (919) 515-3682
Email: hugh_devine@ncsu.edu

Graduate Faculty

Geographic Information Systems (GIS) is the study of spatial distributions and relationships through the analysis and display of spatial data. The objectives of the GIS minor and certificate programs include an internationally recognized graduate GIS instruction program, addressing the high demand for professional GIS analysts and providing a focus for expanding the university’s GIS research program. Currently, approximately 30 NC State graduate departments are active in varying applications of spatial analysis within their respective fields.

GIS Graduate Certificate Program. The certificate program consists of a minimum of 15 credit hours. Students entering
the program will be expected to have a working knowledge of GIS software. The certificate program is open to both degree seeking and non-degree seeking students at the graduate level.

**Prerequisite:** An introductory course in GIS (e.g. PRT 462, PA 541 or equivalent) or demonstrated ability to use GIS software.

**Core (7 credits):**
NR 532 (3) Principles of Geographic Information Science  
NR 533 (3) Application Issues in Geographic Information Systems  
FOR 510 (1) Introduction to GPS

**Electives (8 credits):**
BUS 545 (3) Management Support Systems  
CE 538 (3) Information Technology and Modeling  
ECE 759 (3) Pattern Recognition  
ECE 763 (3) Computer Vision  
ECE 764 (3) Digital Image Processing  
FOR 554 (3) Principles of Spatial Analysis  
FOR 753 (3) Environmental Remote Sensing  
LAR 500 (6) Landscape Design Studio  
LAR 512 (3) Landscape Resource Management  
NR 535 (2) Computer Cartography  
NR 536 (3) Introduction to Visual Basic for GIS  
PA 541 (3) Geographic Information Systems for Public Administration  
SSC 535 (3) Precision Agriculture and Technology  
SSC 545 (3) Remote Sensing Applications in Soil Science and Agriculture  
ST 733 (3) Spatial Statistics

**Other Requirements:**
- Admission to the certificate program requires a grade of B or better in **NR532** and **NR533**. After completing these required courses, contact Linda Babcock (515-3430 or L_Babcock@ncsu.edu) to request admission to the certificate program. You will need to provide a copy of your NCSU transcript.
- Award of a certificate requires a grade of B or better in all of the certificate courses. The GISc Faculty Coordinator will be responsible for certifying the GPA of certificate candidates.

**GIS Graduate Minor Program.** The minor program consists of a minimum of 10 credit hours. Students entering the program will be expected to have a working knowledge of GIS software.

**Prerequisite:** An introductory course in GIS (e.g. PRT 462 or equivalent) or demonstrated ability to use GIS software.

**Course Requirements (10 credits):**
NR 532 (3) Principles of Geographic Information Science  
NR 533 (3) Application Issues in Geographic Information Systems  
FOR510 (1) Introduction to GPS  
Electives (3) - see list of electives for Certificate Program

**Other Requirements:** GISc Faculty as a member of the student’s graduate committee. If no graduate committee is required by the student’s program, the student must obtain approval of his or her minor program from the GISc Faculty Coordinator.

**Interdisciplinary Minor**

The interdisciplinary minor requires two or more areas of coursework to be represented with a faculty member representing one of the areas of coursework.
Life Science Ethics (Minor Program)

Dr. David Auerbach, Director
Philosophy Department: 919.515.6331
Email: auerbach@unity.ncsu.edu

Primary Objectives:

- to guide graduate students in careful discussion of ethical issues in the life sciences, especially those faced by life scientists in research;
- to provide graduate students with the conceptual tools and principles needed to recognize and respond to ethical challenges in the life sciences;
- to provide graduate students in the life sciences and related areas with an opportunity to enrich scientific training with an understanding of the history and theory of ethics.

Academic Requirements: Graduate students participating in the life science ethics minor must earn at least one credit in a Responsible Conduct of Research (RCR) training course. At the present time, several RCR courses are offered on campus by departments with graduate degree programs. These include: Ethics & Professional Practice in Public Administration (PA 510); Professionalism & Ethics (GN 820E); Professional Ethics and Conduct of Science (CBS 662); Special Topics: Graduate Research Ethics (CHE 596D); Ethics and Jurisprudence (VMC 915).

Students in these degree programs may take an RCR course offered by faculty in the department that grants their degree. Students from any graduate degree program may choose instead to fulfill the RCR requirement for the minor with Introduction to Research Ethics (PHI 816).

In addition to the RCR requirement, students must also complete the following nine graduate credits in philosophy with a grade of B- or better: Life-Science Ethics (PHI 515); Philosophical Issues in Environmental Ethics (PHI 522); The Scientific Method (PHI 540).

Application to Minor Program: Prospective students must apply to and meet all admission requirements of a graduate degree program (and be members in good standing of that program), and must declare their intention to minor by completing a form available in the Department of Philosophy and Religion.

Plant Physiology (Minor Program)

GRADUATE FACULTY

Professor T. W. Rufty Jr., Coordinator
NCSU Box 7620
919.515.3660

The plant physiology program is an interdepartmental offering. Although not a formal degree program, students may elect to major or minor in the plant physiology program at both the M.S. and Ph.D. levels. Students entering the program should have appropriate knowledge in plant biology, biochemistry, mathematics and physics. Some formal training in genetics and statistics is normally expected.

When majoring in plant physiology, students will be closely affiliated with the same department as their major professor. As such, they will be required to meet respective departmental requirements for teaching, written and oral examinations, and seminar attendance. Departments currently participating in this program are: Biochemistry, Botany, Crop Science, Forestry, Genetics, Horticultural Science, Plant Pathology, and Soil Science. The chair or co-chair of the student's advisory committee must be a member of the Plant Physiology Faculty.
The purpose of the plant physiology curriculum is to ensure that students obtain substantive understanding of the physiological processes controlling plant behavior. The course requirements for graduate students are set by each graduate committee. Advanced knowledge is expected in biochemistry, plant physiology, plant structure and function, and molecular biology.

The program is administered by the Plant Physiology Executive Committee. Additional information about the program may be obtained by writing to one of the listed faculty members or to the coordinator.

**Solid State Sciences (Minor Program)**

**GRADUATE FACULTY**

University Professor G. Lucovsky, Chair

Solid state sciences is an interdisciplinary area of research that applies and extends concepts from the traditional academic disciplines of chemistry, electrical and computer engineering, materials science and engineering, and physics to basic and applied problems with a primary focus on solid state materials. At NC State, there are a significant number of such research programs that involve faculty and students in more than one of the academic departments listed above. This minor program can be customized to provide a course complement for these ongoing programs, as well as for any additional solid state materials research programs as they are initiated, developed and implemented.

To fulfill the academic requirements for a minor in solid state sciences, each master's student must successfully complete at least three, and each doctoral student, four of the courses in the solid states sciences curriculum. A partial listing of courses in this program includes: CH 701, 703 Advanced Inorganic Chemistry I, II; CH 731 Chemical Thermodynamics; CH 733 Chemical Kinetics; CH 737 Quantum Chemistry; ECE 730 Physical Electronics; ECE 739 Integrated Circuit Technology and Fabrication; ECE 723 Optical Properties of Semiconductors; ECE 724 Electronic Properties of Solid State Devices; ECE (PY) 727 Semiconductor Thin Films Technology; MAT 712 Scanning Electron Microscopy; MAT 715 Fundamentals of Transmission Electron Microscopy; MAT 560 Materials Science and Processing of Semiconductor Devices; MAT 795 Advanced Materials Experiments; MAT 722 Advanced Scanning Electron Microscopy and Surface Analysis; MAT 770 Defects, Diffusion and Ion Implantation in Semiconductors; MAT 792 Advanced Topics in Materials Science and Engineering; PY (ECE) 552 Introduction to the Structure of Solids. In addition, other courses (for example, special topics courses in any one of the participating departments) may also be substituted into an individual student's designated solid state sciences minor program at the discretion of his/her committee.

**Water Resources (Minor Program)**

J. D. Gregory, Chair

NCSU Box 8008

919.515;7567

E-mail: jim_gregory@ncsu.edu

**WATER RESOURCES COMMITTEE**

D. J. Phaneuf (Agricultural and Resource Economics), J. M. Burkhoder (Botany), M. R. Overcash (Chemical Engineering), R. C. Borden (Civil Engineering), J. B. Weber (Crop Science), R. B. Palmquist (Economics), F. P. Hain (Entomology), W. G. Cope (Environmental and Molecular Toxicology), K. M. Keener (Food Science), A. B. Stein (Landscape Architecture), D. Genereux (Marine, Earth and Atmospheric Sciences), J. W. Gilliam (Soil Science), C. B. Smith (Textile Engineering, Chemistry and Science), J. F. Gilliam (Zoology)
The interdisciplinary, interdepartmental graduate minor in water resources is designed for students majoring in the many disciplines of natural resources, science, engineering, technology, and social sciences that are relevant to water resources. The minor exposes students to water resources courses and faculty members outside their major fields of study.

A graduate student may enroll in the water resources minor by including it on the plan of graduate work and sending that plan of work to J. D. Gregory for review. A graduate faculty member from outside the student's major department or program must be appointed to serve as the minor representative on his/her advisory committee. The minor representative may be a member of the Water Resources Committee or another faculty member from a department represented on the Water Resources Committee who is active in teaching/research related to water resources.

**Master's Degree:** Minimum course requirements for the minor are three courses (minimum of eight credit hours) from water resources areas outside the student's major field of study approved by the student's minor representative.

**Doctor of Philosophy Degree:** Minimum course requirements for the minor are three courses (minimum of eight credit hours) from water resources areas outside the student's major field of study approved by the student's minor representative. These courses shall be in addition to those previously taken at the Master's level when that degree included a Water Resources Minor.

A course in the legal, institutional, or economic aspects of water resources is recommended for each minor program. Suggested courses are listed below; other appropriate courses may be included in the minor. Contact J. D. Gregory for additional information.

**WATER RESOURCES COURSES**

**Legal, Institutional and Economic Aspects of Water Resources**
EC(ARE) 436  Environmental Economics
ECG 515  Environmental and Resource Policy
ET 450  Environmental Regulation
FOR 460  Renewable Resource Policy and Management
NR 571  Current Issues in Natural Resource Policy
PA 550  Environmental Policy

**Planning of Water Resources and Related Systems**
ET 460  Practice of Environmental Technology
NR 484  Environmental Impact Assessment.
LAR 430  Site Planning
LAR 512  Landscape Resource Management

**Municipal and Industrial Water Management**
CE 484  Water Supply and Waste Water Systems
CE 571  Physical Principles of Environmental Engineering
CE 574  Chemical Principles of Environmental Engineering
CHE 575  Advances in Pollution Prevention: Environmental Management
TAM(PCC) 401  Environmental Aspects of the Textile Industry
WPS 725  Pollution Abatement in Forest Products Industries
WPS 750  Wastewater Treatment in the Paper Industry

**Agricultural and Forest Water Management**
BAE 471  Land Resources Environmental Engineering
BAE 472/572  Irrigation and Drainage
BAE(CE) 578  Agricultural Waste Management
CS(HS,SSC,TOX) 725  Pesticide Chemistry
CS(HS,SSC,TOX) 727  Pesticide Behavior and Fate in the Environment
SSC 461  Soil Physical Properties and Plant Growth
SSC 511  Soil Physics
SSC 562  Environmental Applications of Soil Science
Biological and Ecological Aspects of Water Resources

BO(ZO) 760 Principles of Ecology
BO(MB) 774 Phycology
FW(ZO) 420 Fishery Science
FW(ZO) 586 Aquaculture I
FW(ZO) 587 Aquaculture I Laboratory
MEA(ZO) 549 Principles of Biological Oceanography
ZO 441 Biology of Fishes
ZO 519 Limnology
ZO 789 Advanced Limnology

Hydrologic, Meteorologic, Oceanographic, and Water Quality Aspects of Water Resources

BAE 473 Introduction to Surface/Water Quality Modeling
BAE 502 Instrumentation for Hydrologic Applications
BAE 570 Soil Water Movement
BAE(SSC) 573 Hydrologic and Water Quality Modeling
BAE 575 Design of Structural Stormwater Best Management Practices
BAE 576 Watershed Monitoring and Assessment
BAE 577 Introduction to the Total Maximum Daily Load Program
BAE 579 Stream Channel Assessment and Restoration
BAE(SSC) 771 Theory of Drainage-Saturated Flow
BAE(SSC) 774 Theory of Drainage-Unsaturated Flow
CE 583 Engineering Aspects of Coastal Processes
CE 584 Hydraulics of Ground Water
CE 586 Engineering Hydrology
CE 607 Water Resource and Environmental Engineering Seminar
FOR(NR) 420/520 Watershed and Wetlands Hydrology
MEA 455 Micrometeorology

NR 521 Wetland Assessment, Delineation, and Regulation
SSC 570 Wetland Soils

Women's and Gender Studies (Minor Program)

GRADUATE FACULTY

Dr. C. M. Pierce, Director

The minor provides graduate students in the humanities, social sciences and sciences with the theories and the methodologies to study women and gender relations. The minor is intended to support and further students' research in their own field. Nine hours of graduate credit are required. No more than three hours of course work may overlap between the major department
coursework requirement and the WGS minor. Students may choose from the courses listed below and/or a list of approved special topics courses.

**GRADUATE COURSES**

ANT 544 Cross-cultural Perspectives on Women  
VPH 555 Public Health, Sustainable Development and Gender in Global Context  
WGS(PSY) 506 Psychology of Gender  
WGS(ECD) 540 Gender Issues in Counseling  
WGS(HI) 547 American Women to 1900  
WGS(HI) 548 American Women in the 20th Century  
WGS 593 Special Topics  
WGS(SOC) 704 Feminist Thought in the Social Sciences  
WGS(SOC) 737 Sociology of Gender  
WGS(SOC) 739 Social Psychology of Inequality  
ZO 508 Brain, Sex, and Gender

**Agricultural Education (Certificate)**

Dr. Gary E. Moore  
Director of Graduate Programs  
Agricultural and Extension Education  
NCSU Box 7607  
Phone: 919.515.1756  
Email: gary_moore@ncsu.edu

The Department of Agricultural and Extension Education offers a Certificate in Agricultural Education.

**Requirements:** The certificate program involves completion of 15 credit hours. Students are to choose from AEE 500, 503, 521, 522, 528, 529, 535, 641, and 735.

**Community College Teaching (Certificate)**

Dr. Pooneh Lari  
Assistant Professor  
Department of Adult and Higher Education  
Email: pooneh_lari@ncsu.edu  
Phone: 919.515.6290

The departments of Adult and Higher Education (AHE) and Mathematics, Science and Technology Education (MSTE) within the College of Education at North Carolina State University offer a graduate certificate program in Community College Teaching. The program focuses on developing the knowledge and skills necessary to design and deliver course-related content through technology-enhanced learning environments for faculty who teach (or wish to teach) in community college settings. The courses developed for the graduate certificate will enhance faculty abilities in both online and traditional classroom environments. The key goal for the online Graduate Certificate Program in Community College Teaching is to provide high quality content and instruction for the systematic development of instructional expertise for regional community college instructors.

**Curriculum.** The Graduate Certificate Program in Community College Teaching consists of 15 semester hours of coursework. The sequence of the program is displayed in the [Curriculum Flowchart](#). The courses are listed below.

**Courses (15 credit hours):**

<table>
<thead>
<tr>
<th>Course Code</th>

The Department of Biological and Agricultural Engineering offers a Graduate Certificate Program in Design and Analysis of Environmental Systems: Watershed Assessment and Restoration.

Objectives

1. Provide a focus and formal program for students from many disciplines to pursue training in the technical and engineering aspects of designing and analyzing environmental systems with an emphasis on the watershed-scale.
2. Provide students the opportunity to develop a solid foundation in engineering systems targeted at environmental issues, particularly related to non-point sources and their impact on water quality at the watershed-scale.
3. Provide practicing engineers and other professionals a source of graduate level engineering education in the environmental field.

Admission Requirements: Applicants must have successfully completed an accredited undergraduate engineering program with a GPA of 3.0 (based on a 4.0 scale), or with an overall undergraduate GPA of at least 2.8 coupled with a 3.0 or higher in the undergraduate major, or be currently enrolled in a graduate engineering program. Applicants with a four-year undergraduate science degree who have successfully completed (with a C or better) calculus, differential equations, physics and chemistry will also be considered. A program that includes fluid mechanics or hydraulics is highly recommended. Environmental professionals who do not meet the above criteria may also qualify if appropriate experience can be demonstrated.

Program Requirements: A minimum of 12 hours of coursework selected from the list below. One course can be selected from outside of BAE (up to 2 credit hours), but at least 9 credit hours must be BAE courses.

At least 9 hours from the following:
BAE 502 Instrumentation for Hydrologic Applications
BAE 535 Precision Agriculture Technology
BAE 573 Hydrologic and Water Quality Modeling
BAE 575 Design of Structural Stormwater Best Management Practices
BAE 576 Watershed Monitoring and Assessment
BAE 577 Introduction to the Total Maximum Daily Load Program
BAE 578 Agricultural Waste Management
BAE 579 Stream Channel Assessment and Restoration
BAE 590Y Special Problems: Ecohydraulics and River Corridor Function
BAE 590I Special Problems: Open Channel Hydraulics for Natural Systems
BAE 771 Theory of Drainage – Saturated Flow
BAE 774 Theory of Drainage – Unsaturated Flow

Up to 3 credit hours can be selected from the following:
CE 580 Flow in Open Channels
CE 584 Hydraulics of Groundwater
CE 586 Engineering Hydrology
CE 775 Modeling and Analysis of Environmental Systems
CE 776 Advanced Water Management Systems
CE 784 Ground Water Contaminant Transport
CE 785 Urban Stormwater Management
SSC 511 Soil Physics
SSC 562 Environmental Applications of Soils
SSC 570 Wetland Soils

Other Information: BAE 570 (Soil Water Movement) is a general prerequisite for the program, however students who complete SSC 511 (Soil Physics) or an equivalent course with a C or better, will be considered to have met the prerequisite.

Graduate Certificate in E-Learning (Certificate)

Adult Education
Pooneh Lari, Teaching Assistant Professor
Department of Adult and Higher Education
NC State University
Campus Box 7801
Raleigh, NC 27695-7801
Phone: 919.515.6290
Fax: 919.515.6200
Email: pooneh_lari@ncsu.edu

K-12 Education
Kevin Oliver, Assistant Professor
Department of Curriculum and Instruction
NC State University
Campus Box 7801
Raleigh, NC 27695-7801
Phone: 919.515.6229
Fax: 919.513.1687
Email: kevin_oliver@ncsu.edu

The Graduate Certificate in E-Learning (online) represents a response to increased interest toward e-learning design and teaching competencies in K-12, post secondary, government and corporate sectors. The program is designed to prepare graduates with the knowledge and skills necessary to assume roles in integrating e-learning into the curriculum or teaching entirely online. All certificate courses are offered online and students are required to select a focus area of either K-12 or adult education.

Admissions: Applicants must meet at least one of the following criteria: (1) graduate of an accredited four year college and have a GPA of at least 3.0 on a four-point scale in their last 60 credit hours of undergraduate study; (2) degree student in good standing in an NC State graduate program; or (3) have a Master’s degree.

Requirements: The Graduate Certificate in E-Learning requires a minimum of 15 hours, including 12 hours of core courses and 3 hours of electives. Students must maintain a minimum overall GPA of B (3.0).

Other Information: The program is offered jointly by the Department of Adult and Higher Education and the Department of Curriculum and Instruction.

For more information, see http://ced.ncsu.edu/ahe/elearning/
The Certificate in Horticultural Science is a non-degree program offered through the Department of Horticultural Science at North Carolina State University. The Certificate program is designed to increase personal knowledge and skills for current or future employment in the Horticultural Industry. Students may concentrate in one of three areas: General Horticulture, Food Horticulture and Ornamental Horticulture.

Requirements: The Certificate program requires a minimum of five courses resulting in at least 15 credits to be completed within 4 years. The courses will constitute a cohesive continuing education in Horticultural Science and will be selected by the candidate and the advisor.

Applicant must have a B.S. or higher degree from an accredited four-year college or university and have a GPA of at least 3.0 on a 4.0-point scale.

It is highly recommended that candidates have a major in horticulture, crop science, plant science, plant biology or agricultural education with a plant science emphasis. Applicants who do not meet the GPA requirement may be admitted provisionally based on past work experience as a professional in horticulture or a related field. Supporting documentation of professional experience in horticulture or a related field must be submitted for provisional admission. Students who are admitted provisionally must earn at least a 3.0 GPA average in the first two courses of the certificate program in order to obtain full admission into the program. Certificate students must maintain an average GPA of 3.0 and a minimum grade of C (2.00) in any of the Horticulture Graduate Certificate courses.

Curriculum: The following courses can be used for credit in the Horticultural Science Certificate Program.

**Horticultural Science**
- HS 542 Advanced Vegetable Crop Management
- HS 551 Hort. Crops Nutrition
- HS 590 Special Problems in Horticultural Science (Greenhouse Food Prod)
- HS 590 Special Problems in Horticultural Science (Small Fruit Management)
- HS 590 Special Problems in Horticultural Science (Nursery Crop Management)
- HS(CS) 717 Weed Management Systems

Any other graduate-level Horticultural Science courses.

**Plant Pathology**
- HS 502 Plant Disease: Methods/Diagnosis

**Entomology**
- ENT 591 Insect Pest Management

**Soil Science**
- SSC 440 Geographic Information
- SSC 470/570 Wetland Soils
- SSC 532 Soil Microbiology
- SSC 551 Soil Morphology, Genesis and Classification
- SSC 562 Environmental Applications of Soil Science

**Food Science**
- FS 495 Special Topics in Food Science (Good Manufacturing Practices)
FS 495 Special Topics in Food Science (Sanitation Standard Opt. Proc.)
FS 495 Special Topics in Food Science (Sanitation)
FS 495 Special Topics in Food Science (Hazard Analysis/ Risk Assess.)
FS 495 Special Topics in Food Science (Microbiology / Microbial Hazards)

**Agriculture & Extension Education**
AEE 501 Foundations of Agriculture & Extension Education
AEE 521 Program Planning in Agriculture & Extension Education
AEE 523 Adult Education in Agriculture

For more information about the Certificate Program and applications materials, please see the Department of Horticultural Science website.

**Medical Devices (Certificate)**

Dr. Troy Nagle, Coordinator
Department of Biomedical Engineering
NCSU Box 7115
Phone: 919.515.3578
Email: nagle@ncsu.edu

The Graduate Certificate in Medical Devices is a joint program that links NC State’s College of Engineering with the University of North Carolina School of Medicine. The program prepares graduates to conceive and design prototypes for new medical devices, write patent applications, as well as training in market assessment, financing options, etc.

**Admissions:** Students apply online through a website hosted by the Joint UNC-NCSU Department of Biomedical Engineering. The Program Committee evaluates applications using the graduate admissions criteria of the department.

**Requirements:** The program requires a total of 12 credit hours from an approved course list, including two BME advanced medical devices courses (BMS 551 and 552) and two entrepreneurial-oriented business courses.

For more information, see [www.bme.ncsu.edu](http://www.bme.ncsu.edu)

**Molecular Biotechnology (Certificate)**

Dr. Susan Carson, Coordinator
NCSU Box 7512
Phone: 919.513.0330
Email: sue_carson@ncsu.edu
Website: [http://www.ncsu.edu/biotechnology/](http://www.ncsu.edu/biotechnology/)

Training in molecular biotechnology is essential for an expanding list of disciplines that have found modern biology-based skills of critical importance in pursuing research goals in areas ranging from microbiology to plant and animal sciences to chemical engineering. The Graduate Certificate Program in Molecular Biotechnology offers an opportunity for individuals educated in the life sciences and related disciplines to gain laboratory-based, hands-on training in many aspects of molecular biotechnology. While this Certificate Program is geared primarily toward non-traditional students who have already entered the workforce, NCSU graduate students with career interests that involve molecular biotechnology are also eligible to apply. Admissions requirements can be viewed at the program website.

The Graduate Certificate Program in Molecular Biotechnology will require a minimum of 12 hours of required and elective courses as listed below:
REQUIRED (5 credits)

BIT 510 and BIT 510L Core Technologies in Molecular and Cellular Biotechnology (4 credits)
BIT 501 Ethical Issues in Biotechnology (1 credit) or an approved research ethics or bioethics course

BIOTECHNOLOGY LABORATORY ELECTIVES (4 credits)
Two of the following courses and their laboratories (2 credits each):

BIT 562 Microarrays
BIT 563 Fermentation
BIT 564 Protein Purification
BIT 565 Real-time PCR Techniques
BIT 566 Animal Cell Culture
BIT 567 PCR and DNA Fingerprinting
BIT 568 Genome Mapping
BIT 569 RNA Purification and Analysis
BIT 581 Plant Transformation and Tissue Culture
Other BIT laboratory courses (2 credits) by permission

OTHER ELECTIVES -- CHOOSE ONE (3 credits)

GN 411 Principles of Genetics
GN 513 Advanced Genetics
MB 714 Microbial Metabolic Regulation
MB(GN) 758 Prokaryotic Molecular Genetics
BO 780 Plant Molecular Biology
BCH 553 Biochemistry of Gene Expression
FS(MB) 725 Fermentation Microbiology
ST(GN) 721 Genetic Data Analysis
GN 701 Molecular Genetics
GN 735 Functional Genomics
CHE 551 Biochemical Engineering
Other courses (400-level or higher) may be considered by special request.

Nonprofit Management (Certificate)

Dr. Richard Clerkin
Assistant Professor, Public Administration
School of Public and International Affairs
Department of Public Administration
NCSU Box 8102
Raleigh, NC 27695-8102
Phone: 919.515.5037
Email: rmclerki@ncsu.edu

A Graduate Certificate in Nonprofit Management is available to students, including NC State degree students, who have a Bachelor’s degree from an accredited university. The Certificate requires 15 credit hours of course work. The courses are designed to provide the basic management knowledge and skills needed in nonprofit organizations. For applications and a description of program requirements go to http://www.chass.ncsu.edu/pa/certificateNonProfit.htm

Nonwovens Science and Technology (Certificate)

Dr. Pamela Banks-Lee
College of Textiles
NCSU Box 8301
The certificate program in Nonwovens Science and Technology provides NC State graduate students the opportunity to develop recognized academic credentials in Nonwovens Science and Technology in addition to their major area of graduate study. Provide non-degree graduate level students the opportunity to develop recognized advanced expertise in Nonwovens Science and Technology.

**Required Coursework:** The Graduate Certificate Program in Nonwovens Science and Technology requires a minimum of 15 hours and includes the following courses:

**Core Courses** (6 hours):
- TT 503 Materials, Polymers and Fibers Used in Nonwovens (3 hours)
- TT 504 Introduction to Nonwovens Products and Processes (3 hours)

**Advanced Courses** (minimum 9 hours)*:
- TT 505 Advanced Nonwovens Processing (3 hours)
- TT 506 Bonding Principles in Nonwovens (3 hours)
- TT 507 Nonwoven Characterization Methods (3 hours)
- TT 508 Nonwoven Product Development (3 hours)

*One NC State course (400-level or higher) may be substituted for one of the advanced courses into the program upon agreement between the Certificate Coordinator and the student. The Certificate Coordinator will maintain a list of appropriate level graduate courses.

**Program Development in Family Life Education (Certificate)**

Dr. Karen DeBord  
Department of Family and Consumer Sciences  
NCSU Box 7605  
Phone: 515.9147  
Email: karen_debord@ncsu.edu  
Website: www.ces.ncsu.edu/depts/4hfcs/academics/cert/

A Graduate Certificate in Program Development in Family Life Education requires a total of 12 credit hours. Nine credit hours are required courses, with the remaining three credit hours of electives.

**Required Courses**
- FCS 510 Program Development and Evaluation of Family Life Education Programs (3)
- FCS 512 Family and Community Partnerships (3)
- FCS 522 Family Life Education (3)

**Electives (minimum of three hours)**
- FCS 523 Family Relationships Across the Lifespan (3)
- FCS 524 Applications of Gerontology to Family Life Education (3)
- FCS 531 Effective Management of Family Resources (3)
- FCS 540 Influence of Environments on the Family (3)
- FCS 595 Contemporary Issues in Family Life Education (1)

**Public Policy (Certificate)**

Dr. Thomas Birkland, Coordinator  
Department of Public Administration  
NCSU Box 8102
Public policy -- the actions of government and its partners in the non-profit and private sectors -- is the keystone of politics and public administration. The creation, adoption, and implementation of public policy is a complex process. It requires skills in analysis, reasoning, and argumentation -- what we call evidence-based policy advocacy. The Graduate Certificate in Public Policy helps you make the most of your skills by providing you with the tools you need to be an effective advocate for realistic, effective, and responsible public policy.

Admissions: Students not attending NC State are required to submit transcripts. Current NC State students need not present transcripts, but they must be in good standing. A minimum GPA of 3.0 is required for admission to the program. Provisional admission may be granted for applicants whose GPA is below 3.0. Contact the program director for details.

Curriculum: The certificate requires a total of 12 credit hours consisting of Applied Political Economy (PA 509), Public Policy Analysis (PA 511), Public Policy Process (PA 598), and an elective policy or managerial course approved by the program coordinator. Electives may be from virtually any program at NC State, such as history, social sciences, natural resources, agriculture, health, business, or engineering.

Other Information: Students who do not have course work in social science statistics will be required to take a statistics course either at the School of Public and International Affairs or a department of the student's choosing, with approval of the program coordinator.

For more information, see www4.ncsu.edu/~tabirkla/documents/ppcert.pdf

Training and Development (Certificate)

Dr. Timothy Hatcher
Associate Professor and Coordinator
Department of Adult and Higher Education
Phone: 919.515.6246
FAX: 919.515.4039
Email: tim_hatcher@ncsu.edu

The Certificate in Training and Development is a non-degree program for lifelong learning students offered through the Department of Adult and Higher Education at North Carolina State University. Lifelong learning students are those students who are classified by the University as PBS (Post-baccalaureate Studies) for purposes of registration.

The Certificate program consists of a selected set of for-credit courses that are offered in an online format. The courses are selected to offer a cohesive continuing education opportunity for people in training roles in business and industry. This program is designed for the person who has recently advanced into a training position and is without the academic preparation needed or for those choosing to increase their knowledge and skills in training for current or future jobs. The program is not intended for career exploration nor is it a prerequisite for or part of a graduate degree program. The program is made up of a minimum of five 3-credit courses. The student will complete the identified Certificate courses through continuous enrollment (excluding summer sessions) until contract requirements are met. Participants must hold a baccalaureate degree to enroll in the Certificate Program.

Curriculum: The program requires completion on the following five courses.

EAC 580 Designing Instructional Systems in Training and Development
EAC 583 Needs Assessment and Task Analysis in Training and Development
EAC 584 Evaluating Training Transfer and Effectiveness
EAC 586 Methods and Techniques of Training and Development
EAC 759 The Adult Learner
Additional NC State courses can be incorporated into the program upon agreement between the program coordinator and the student. For course descriptions, please refer to the NCSU listing of courses.

**Other Information:** All graduate students are expected to either pass the AHE technology competencies through a testing out procedure or to attend a workshop at the beginning of their studies.

For further information, see the Certificate in Training and Development website or the Adult and Higher Education website.

**Biological Sciences**

There is no separate graduate major in the biological sciences, but both M.S. and Ph.D. degrees are offered in several life science departments and programs of the College of Agriculture and Life Sciences. Interdisciplinary courses applicable to several graduate programs are offered by the Biological Sciences Interdepartmental Program.

**GRADUATE COURSE**

BIO 510 Advanced Biology for Secondary Teachers

**Education [General Courses]**

**GRADUATE COURSES**

ED(AEE) 501 Foundations of Agricultural and Extension Education  
ED(AEE) 530 Priority Management in Agricultural and Extension Education  
ED(AEE) 641 Practicum in Agricultural and Extension Education  
ED(AEE) 735 Effective Teaching in Agriculture and Life Sciences  
ED(AEE) 841 Practicum in Agricultural and Extension Education

**Foreign Languages and Literatures**

Dr. Ruth Gross, Department Head  
NCSU Box 8106  
919.515.2475 (phone)  
919.515.6981 (fax)  
http://sa.ncsu.edu/fl

The Department of Foreign Languages and Literatures offers courses to assist graduate students in preparing to use modern foreign languages in research and advanced study. These courses are not open to undergraduates. The following courses can be audited or taken as credit-only; credits do not apply toward advanced degrees.

FLF 401 French for Graduate Students  
FLG 401 German for Graduate Students  
FLS 401 Spanish for Graduate Students

Certification may be obtained in languages not normally taught by the department by contacting Dr. Dudley Marchi. Complete information on graduate student language certification can be found at http://sa.ncsu.edu/fl/gradcert.htm.

**Multidisciplinary Studies**

**GRADUATE COURSES**

MDS 515 Peruvian Amazon Ecology and Ethnology  
MDS 595 Special Topics in Multidisciplinary Studies  
MDS 610 Special Topics  
MDS 685 Master's Supervised Teaching
Philosophy

GRADUATE COURSES

LOG 535 Advanced Logic and Metamathematics
PHI 501 Kant's Critique of Pure Reason
PHI 515 Life Science Ethics
PHI 520 Global Justice
PHI 522 Philosophical Issues in Environmental Ethics
PHI(PSY) 525 Introduction to Cognitive Science

Graduate Faculty

- Abbate, Angelo Rudy, M.L.A., Professor Emeriti, Landscape Architecture
- Abdel-Khalik, Hany S., PhD, Visiting Assistant Professor, Nuclear Engineering
- Abdel-Rahman, Nabil, PhD, Adjunct Associate Professor, Civil Engineering
- Abney, Mark R., PhD, Assistant Professor, Entomology
- Aboelfotoh, Mohamed O., Ph.D., Research Professor, Materials Science and Engineering
- Abrams, Charlie Frank Jr., Ph.D., Professor Emeriti of Biological and Agricultural Engineering, Biological and Agricultural Engineering
- Abt, Karen Lee, PhD, Adjunct Assistant Professor, Forestry
- Abt, Robert C., Ph.D., Professor, Forestry
- Adams, Dewey Allen, Ed.D., Professor Emeritus, Mathematics, Science, & Technology Education
- Aday, David Derek, PhD, Assistant Professor, Zoology
- Ade, Harald, Ph.D., Professor, Physics
- Adler, Kenneth B., Ph.D., Professor, Molecular Biomedical Sciences
- Adler, William, PhD, Professor, Philosophy and Religion
- Affify, Elsayed M., PhD, Professor Emeriti, Mechanical and Aerospace Engineering
- Agris, Paul F., Ph.D., Professor, Biochemistry
- Aiman-Smith, Lynda, Ph.D., Associate Professor, Business Management
- Ajjyner, Ana, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Akroyd, D., Ph.D., Professor, Adult and Higher Education
- Albada-Jelgersma, Kelly, PhD, Associate Professor, Communication
- Alder, Ruth M. Ayend, Ph.D., Associate Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literatures
- Aldige, Virginia, Ph.D., Distinguished Professor of Sociology and Anthropology, Sociology and Anthropology
- Alexander, Samuel Thomas, Ph.D., Associate Professor, Electrical and Computer Engineering
- Alexander, Winser E., Ph.D., Professor, Electrical and Computer Engineering
- Allaire, Jason C., PhD, Assistant Professor, Psychology
- Allen, George C. II, PhD, Research Assistant Professor, Horticultural Science
- Allen, Howard Lee, Ph.D., Carl Alwin Schenck Professor, Forestry
- Allen, Jonathan C., Ph.D., Professor, Food Science
- Allen, Nina Stromgren, Ph.D., Professor Emeritus, Plant Biology
- Allen, Steven G., Ph.D., Professor, Business Management
- Alley, Mark, DVM, Assistant Professor, Population Health & Pathobiology
- Almond, Glen W., Ph.D., Professor, Population Health & Pathobiology
- Alonso, Jose M, PhD, Associate Professor, Genetics
- Alonso, Silvia Gonzalez-Quevedo, Ph.D., Associate Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literatures
- Alsbury, Thomas, EdD, Assistant Professor, Educational Leadership and Policy Studies
- Alston-Mills, Brenda P., Ph.D., Emeritus Professor of Animal Science, Animal Science
- Amatya, Devendra M., Ph.D., Adjunct Assistant Professor, Biological and Agricultural Engineering
- Ambaras, David, Ph.D., Associate Professor, History
- Ambrose, John Thomas, Ph.D., Professor, Entomology
- Amein, Michael, PhD, Professor Emeritus of Civil Engineering, Civil Engineering
- Amendum, Steve, PhD, Assistant Professor, Elementary Education
- Amerson, Henry Van, Ph.D., Associate Professor Emeritus of Botany and Forestry, Forestry
- Ames, Natalie, EDD, Assistant Professor, Social Work
- Amezquita, Alejandro, PhD, Adjunct Assistant Professor, Food Science
- Amoozegar, Aziz, Ph.D., Professor, Soil Science
- Anderson, Dorothy H, PhD, Professor, Parks, Recreation and Tourism Management
- Anderson, Kenneth E., Ph.D., Professor, Poultry Science
- Anderson, Kevin Lindsay, Ph.D., Professor, Population Health & Pathobiology
- Anderson, Norman Dean, Ph.D., Professor Emeritus of Mathematics and Science Education, Mathematics, Science, & Technology Education
- Andrady, Anthony L., PhD, Adjunct Professor, Chemical Engineering
Andrews, Janice M., D.V.M., Research Assistant Professor, Population Health & Pathobiology
Aneja, Viney P., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Anholt, Robert Rene Henri, Ph.D., William Neal Reynolds Professor, Zoology
Anistratov, Dmitriy Y., Ph.D., Associate Professor, Nuclear Engineering
Annetta, Len, Ph.D, Assistant Professor, Mathematics, Science, & Technology Education
Anson, Christopher Martin, Ph.D., Professor, English
Anton, Ana I., Ph.D., Professor, Computer Science
Apperson, Charles Smith, Ph.D., William Neal Reynolds Professor, Entomology
Apple, Jay Lawrence, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Arasu, Prema, Ph.D., Professor, Molecular Biomedical Sciences
Archie, Joseph Patrick, Jr., Ph.D., Adjunct Professor, Mechanical and Aerospace Engineering
Arellano, Consuelo, PhD, Research Professor, Statistics
Arends, James J., PhD, Adjunct Professor, Entomology
Argyropoulos, Dimitris, PhD, Professor, Wood and Paper Science
Armstrong, Frank Bradley, Ph.D., Professor Emeritus, Biochemistry
Arnold, John F., Ph.D., Associate Professor Emeritus of Curriculum and Instruction, Curriculum and Instruction
Arritt, Fletcher M. III, PhD, Assistant Professor, Food Science
Arroway, Pamela J., PhD, Assistant Professor, Statistics
Arunugam, Sankar, PhD, Assistant Professor, Civil Engineering
Arya, Satya Pal Singh, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Ash, Sarah Liberman, Ph.D., Associate Professor, Food Science
Ashwell, Christopher Morgan, PhD, Assistant Professor, Poultry Science
Ashwell, Melissa S., PhD, Assistant Professor, Animal Science
Aspnes, David E., Ph.D., Distinguished University Professor of Physics, Physics
Atchley, William R., Ph.D., William Neal Reynolds Distinguished Professor, Genetics
Atkins, Clarke E., D.V.M., Professor, Department of Clinical Sciences
Atkinson, Maxine P., Ph.D., Professor, Sociology and Anthropology
Attarian, Aram, Ph.D., Associate Professor, Parks, Recreation and Tourism Management
Auerbach, David D., Ph.D., Assistant Professor, Philosophy and Religion
Aurand, Leonard William, Ph.D., Professor Emeritus of Food Science, Food Science
Austin, David F., Ph.D., Associate Professor, Philosophy and Religion
Averre, Charles Wilson III, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Axtell, Richard Charles, Ph.D., Professor Emeritus of Entomology, Entomology
Aycock, Robert, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Ayoub, Mahmoud Amin, Ph.D., Professor, Industrial Engineering
Azmy, Yousry R., Ph.D., Professor, Nuclear Engineering
Bacher, Jack S., Ph.D., Professor, Entomology
Bachmann, Klaus Jurgen, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
Bahler, Dennis R., Ph.D., Associate Professor, Computer Science
Bailey, Donna W., PhD, Adjunct Assistant Professor, Adult and Higher Education
Bailey, John Albert, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
Bailey, Kermit Lavon, M.P.D., Associate Professor, Graphic Design
Baines, Barbara Joan, Ph.D., Professor Emeriti, English
Bakalov, Bojko, Ph.D, Assistant Professor, Mathematics
Baker, Anne, PhD, Assistant Professor, English
Baker, Edward A., PhD, Associate Professor, Business Management
Baker, George A. III, Ed.D., Professor Emeritus, Adult and Higher Education
Baker, James Robert, Ph.D., Professor Emeritus of Entomology, Entomology
Baker, MeeCee, PhD, Adjunct Professor, Agricultural and Extension Education
Baker, Rodney, DVM, Associate Professor, Population Health & Pathobiology
Baker, Stanley B., Ph.D., Professor, Curriculum and Instruction
Baker-Ward, Lynne Elizabeth, Ph.D., Professor, Psychology
Balaban, John, A.M., Professor, English
Baliga, B. Jayant, Ph.D., Distinguished University Professor, Electrical and Computer Engineering
Balik, Charles Maurice, Ph.D., Professor, Materials Science and Engineering
Balint-Kurti, Peter J., PhD, Assistant Professor (USDA), Plant Pathology
Ball, David Stafford, Ph.D., Associate Professor, Economics
Ball, Hershel Ray Jr., Ph.D., Professor Emeritus of Food Science, Food Science
Ballinger, Walter Elmer, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
Ballington, James Ralph Jr., Ph.D., Professor, Horticultural Science
Banes, Albert J., PhD, Adjunct Professor, Biomedical Engineering
Banker, James Roderick, Ph.D., Professor, History
Banks, Alton J., Ph.D., Professor, Chemistry
Banks, Harvey Thomas, Ph.D., Distinguished University Professor and Drexel Professor, Mathematics
Banks-Lee, Pamela, Ph.D., Associate Professor, Textile and Apparel Management
Baran, Mesut Ethem, Ph.D., Associate Professor, Electrical and Computer Engineering
Baran, Perver Korca, Ph.D., Research Associate Professor, Parks, Recreation and Tourism Management
Bardon, Robert E., Ph.D., Associate Professor, Forestry
Barker, James Cathey, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
Barker, Roger Lee, Ph.D., Burlington Industries Professor of Textile Technology, Textile Engineering, Chemistry, and Science
Barlage, Doug, PhD, Assistant Professor, Electrical and Computer Engineering
Barlaz, Morton A., Ph.D., Professor, Civil Engineering
Barletta, Kristin Thoney, Ph.D., Associate Professor, Textile and Apparel Management
Barnes, Harold John, Ph.D., Professor, Population Health & Pathobiology
Barnes, Jill, PhD, Assistant Professor, Molecular Biomedical Sciences
Barnes, Jodi, PhD, Assistant Professor, Business Management
Barnett, Oruts Webb Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Barnhardt, Robert Alexander, Ed.D., Professor Emeritus, Textile and Apparel Management
Barnhardt, William Wilton, MS, Associate Professor, English
Barnhart, Huiman X, PhD, Adjunct Associate Professor, Statistics
Barr, Steve H., Ph.D., Professor, Business Management
Barra, Gerald W., M.A., Professor Emeritus of English, English
Barrick, Reese E., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Barrie, Thomas M., MPH, Professor, Architecture
Barthalmus, George Timothy, Ph.D., Professor Emeritus of Zoology and Interim Head of the Department, Zoology
Bartlett, James, PhD, Associate Professor, Adult and Higher Education
Bartley, Jon W., Ph.D., Professor, Accounting
Bassett, Ross K., Ph.D., Associate Professor, History
Batchelor, Alan, PhD, Research Associate Professor, Materials Science and Engineering
Batchelor, Peter, M.C.P., Professor Emeriti of Architecture, Architecture
Bateman, Durward F., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Batra, Subhash K., Ph.D., Charles A. Cannon Professor of Textiles, Textile and Apparel Management
Battaglia, Paul, MA, Assistant Professor, Architecture
Baugh, John Wesley Jr., Ph.D., Professor, Civil Engineering
Baughman, Gerald Robert, Ph.D., Associate Professor, Biological and Agricultural Engineering
Baumer, David L., Ph.D., Professor, Business Management
Baynes, Ronald E., Ph.D., Associate Professor, Population Health & Pathobiology
Beal, Candy M., Ed.D., Associate Professor, Curriculum and Instruction
Beaton, Lucille B, PhD, Associate Professor, Human Development & Family Studies
Beasley, David Beach, Ph.D., Professor, Biological and Agricultural Engineering
Beasley, Mark S., Ph.D., Professor, Accounting
Beck, Keith R., Ph.D., Professor, Textile Engineering, Chemistry, and Science
Beckmann, Robert L., Ph.D., Associate Professor, Plant Biology
Bedair, Salah Mohamed, Ph.D., Professor, Electrical and Computer Engineering
Beers, Burton Floyd, Ph.D., Professor Emeritus of History, History
Begeny, John C., PhD, Assistant Professor, Psychology
Behnke, Andrew, Ph.D, Assistant Professor, Human Development & Family Studies
Beichner, Robert J., Ph.D., Professor, Physics
Beith, Barry H., Ph.D., Adjunct Associate Professor, Psychology
Bennett, Barbara, PhD, Assistant Professor, English
Bennett, Elizabeth M., D.Ed., Adjunct Assistant Professor, Zoology
Benson, David Michael, Ph.D., Professor, Plant Pathology
Benson, Geoffrey Alan, Ph.D., Associate Professor, Economics
Benson, Ray Braman Jr., Ph.D., Research Professor, Materials Science and Engineering
Beratan, Kathi, PhD, Research Assistant Professor, Forestry
Bereman, Robert Deane, Ph.D., Professor Emeritus of Chemistry and Associate Dean for Academic Affairs, Chemistry
Berenson, Sarah Burke, Ph.D., Professor, Mathematics, Science, & Technology Education
Bergey, Paul K, PhD, Associate Professor, Business Management
Bergmann, Ben A., Ph.D., Adjunct Associate Professor, Forestry
Bernhard, Richard Harold, Ph.D., Professor, Industrial Engineering
Bernholc, Jerzy, Ph.D., Professor, Physics
Berube, David, PhD, Professor, Communication
Beute, Marvin Kenneth, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Bhattacharya, Subhashish, PhD, Assistant Professor, Electrical and Computer Engineering
Bhattacharyya, Bibhuti Bhushan, Ph.D., Professor, Statistics
Bigelow, Anna B, PhD, Assistant Professor, Philosophy and Religion
Bilbro, Griff Luhrs, Ph.D., Professor, Electrical and Computer Engineering
Bilderback, Theodore Eugene, Ph.D., Professor, Horticultural Science
Bilenkin, Vladimir, Ph.D., Associate Professor, Foreign Languages and Literatures
Bingham, Charles S., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
Bingham, William Louis, Ph.D., Associate Professor Emeritus of Civil Engineering, Civil Engineering
Bird, Carolyn, PhD, Assistant Professor, 4H Youth Development
Bird, David M., Ph.D., Professor, Plant Pathology
Birgand, Francois, PhD, Assistant Professor, Biological and Agricultural Engineering
Birkenheuer, Adam, PhD, Assistant Professor, Department of Clinical Sciences
Birkland, Thomas A., PhD, William Kretzer Professor of Public Affairs & Public Policy, School of Public & Intl Affairs, Political Science and Public Administration
Bishir, John William, Ph.D., Professor Emeritus of Mathematics, Mathematics
Bishop, Paul Edward, Ph.D., Professor (USDA), Microbiology
Bissett, Sally, MVS, Assistant Professor, Department of Clinical Sciences
Bitzer, Donald Lester, Ph.D., Distinguished University Research Professor, Computer Science
Bivins, Jason C., PhD, Assistant Professor, Philosophy and Religion
Bizios, Georgia, M.Arch., Professor, Architecture
Black, Betty Lynne, Ph.D., Professor, Zoology
Blackley, Brian Mark, PhD, Assistant Professor, English
Blair, Neal Edward, Ph.D., Adjunct Professor, Marine, Earth, and Atmospheric Sciences
Blanchard, Margaret, PhD, Assistant Professor, Mathematics, Science, & Technology Education
Bland, George F., M.S., Associate Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
Blank, Gary B., Ph.D., Associate Professor, Forestry
Blank, Philip Everett Jr., Ph.D., Professor Emeritus of English, English
Blankenship, Sylvia M., Ph.D., Professor, Horticultural Science
Blanton, Richard Lawrence, PhD, Professor, Plant Biology
Blazich, Frank Arthur, Ph.D., Professor, Horticultural Science
Bliskslager, Anthony T., Ph.D., Associate Professor, Department of Clinical Sciences
Block, William Joseph, Ph.D., Professor Emeritus of Political Science and Public Administration, Political Science and Public Administration
Bloem, Stephanie, PhD, Adjunct Associate Professor, Entomology
• Blondin, John M., Ph.D., Professor, Physics
• Bloomfield, Peter, Ph.D., Professor, Statistics
• Blum, Udo, Ph.D., Professor Emeritus of Botany, Plant Biology
• Bobashev, Georgiy, PhD, Adjunct Assistant Professor, Statistics
• Bobko, Christopher P, PhD, Assistant Professor, Civil Engineering
• Bocarro, Jason, PhD, Assistant Professor, Parks, Recreation and Tourism Management
• Bochinski, Jason, PhD, Research Assistant Professor, Physics
• Boettcher, William Alfred III, Ph.D., Associate Professor, Political Science and Public Administration
• Bogan, Arthur E., Ph.D., Adjunct Assistant Professor, Zoology
• Bogdanovich, Alexander, PhD, Adjunct Professor, Textile Engineering, Chemistry, and Science
• Bohiman, Jonathan, PhD, Associate Professor, Business Management
• Bohnenstiehl, DelWayne R., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Boles, Michael A., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Bolonyai, Agnes, PhD, Assistant Professor, English
• Bond, James Anthony, Ph.D., Adjunct Professor, Toxicology
• Bondell, Howard D., PhD, Assistant Professor, Statistics
• Bonham, Julia C., Ph.D., Visiting Assistant Professor, History
• Bonner, James C., Ph.D., Associate Professor, Molecular Biomedical Sciences
• Booker, Fitzgerald L., PhD, Associate Professor (USDI/USFS), Crop Science
• Booker, Matthew Morse, PhD, Assistant Professor, History
• Boone, Deborah A., PhD, Adjunct Assistant Professor, Agricultural and Extension Education
• Boone, Edgar John, Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
• Boone, Kofi, MR, Assistant Professor, Landscape Architecture
• Boos, Dennis Dale, Ph.D., Professor, Statistics
• Borden, Robert C., Ph.D., Professor, Civil Engineering
• Borden, Roy H., Ph.D., Professor, Civil Engineering
• Borkowski, Kazimierz Jan, Ph.D., Research Associate Professor, Physics
• Borski, Russell J., Ph.D., Professor, Zoology
• Boss, Charles Ben, Ph.D., Associate Professor Emeritus of Chemistry, Chemistry
• Boss, Wendy Farmer, Ph.D., William Neal Reynolds Distinguished Professor, Plant Biology
• Bostick, George W. Jr., Ed.D., Professor, Agricultural and Extension Education
• Boston, Rebecca S., Ph.D., William Neal Reynolds Professor, Plant Biology
• Bosworth, Ryan, PhD, Assistant Professor, Political Science and Public Administration
• Bottomley, Laura J., Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
• Bourham, Mohamed A., Ph.D., Professor, Nuclear Engineering
• Bowden, Edmond Francis, Ph.D., Professor, Chemistry
• Bowen, S. K., PhD, Assistant Professor, Sociology and Anthropology
• Bowers, Crowell Gattis Jr., Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Bowles, Tuere A., PhD, Assistant Professor, Adult and Higher Education
• Bowman, Daniel Clark, Ph.D., Associate Professor, Crop Science
• Boyd, Leon C., Ph.D., Professor, Food Science
• Boyette, Michael Doyle, Ph.D., Professor, Biological and Agricultural Engineering
• Boyles, Ryan Patrick, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Boyter, Henry Jr., PhD, Adjunct Assistant Professor, Textile Engineering, Chemistry, and Science
• Bozarth, Cecil C., Ph.D., Associate Professor, Business Management
• Bracken, Susan, EDD, Assistant Professor, Adult and Higher Education
• Braden, Jeffery P., PhD, Professor, Psychology
• Bradford, Marianne, PhD, Associate Professor, Accounting
• Bradley, Julius Roscoe Jr., Ph.D., Professor Emeritus of Entomology, Entomology
• Bradley, Lucy K., PhD, Assistant Professor, Horticultural Science
• Brady, Kevin P., PhD, Assistant Professor, Educational Leadership and Policy Studies
• Braham, Richard R., Ph.D., Professor, Forestry
• Braham, Roscoe R., Ph.D., Scholar in Residence, Marine, Earth, and Atmospheric Sciences
• Brake, John Thomas, Ph.D., William Neal Reynolds Distinguished Professor and Director of Graduate Programs
  ANP and PSC, Poultry Science
• Branch, Kenneth A., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
• Brandeis, Susan Dowman, M.F.A., Professor, Art and Design
• Brandenburg, Rick Lynn, Ph.D., William Neal Reynolds Professor, Entomology
• Brandt, Jon A., Ph.D., Professor, Economics
• Branoff, Theodore J., Ph.D., Associate Professor, Mathematics, Science, & Technology Education
• Branson, Bruce C., Ph.D., Professor, Accounting
• Braunbeck, Helga Gerlinde, Ph.D., Associate Professor, Foreign Languages and Literatures
• Brazel, Joseph F., PhD, Assistant Professor, Accounting
• Breen, Matthew, PhD, Associate Professor, Molecular Biomedical Sciences
• Breidt, Frederick, Ph.D., Assistant Professor (USDA), Food Science
• Breitschwerdt, Edward Bealmear, D.V.M., Professor, Department of Clinical Sciences
• Brenner, Donald W., Ph.D., Professor, Materials Science and Engineering
• Bressler, Gene, MLA, Professor, Landscape Architecture
• Breuhaus, Babetta Ann, Ph.D., Associate Professor, Department of Clinical Sciences
• Brewer, Holly, Ph.D., Associate Professor, History
• Brickley, James John, Ph.D., Associate Professor, Electrical and Computer Engineering
• Bridgewater, Floyd Emmitt Jr., Ph.D., Professor (USDA), Forestry
• Brill, Earl Downey Jr., Ph.D., Professor, Civil Engineering
• Brim, Charles Aloysius, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Brinson, Kenneth H. Jr., Ph.D., Assistant Professor, Educational Leadership and Policy Studies
• Brisson, Robert Curtis, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
• Bristol, David G., D.V.M., Associate Professor, Department of Clinical Sciences
• Brody, Arnold R., Phd, Research Professor, Veterinary Medicine
• Bromley, Peter T., Ph.D., Professor Emeritus of Zoology, Zoology
• Brookins, Craig C., Ph.D., Associate Professor, Psychology
• Brooks, Wayne Maurice, Ph.D., Professor Emeritus of Entomology, Entomology
• Broome, Stephen White, Ph.D., Professor, Soil Science
• Brothers, Gene LeRoy, Ph.D., Associate Professor, Parks, Recreation and Tourism Management
• Brown, Alvin Blake, Ph.D., Hugh C. Kiger Professor, Economics
• Brown, Betsy, PhD, Adjunct Assistant Professor, Adult and Higher Education
• Brown, Christopher S., Ph.D., Professor, Plant Biology
• Brown, Dennis T., Ph.D., Professor, Biochemistry
• Brown, Henry Seawell, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
• Brown, J. David, Ph.D., Associate Professor, Physics
• Brown, James W., Ph.D., Associate Professor, Microbiology
• Brown, Marvin Luther Jr., Ph.D., Professor Emeritus of History, History
• Brown, Robert D., Phd, Professor, Forestry
• Brown, Talmage T. Jr., Ph.D., Professor, Population Health & Pathobiology
• Brown-Graham, Anita R., J.D., Professor, Landscape Architecture
• Brown-Guedira, Gina, PhD, Associate Professor (USDA), Crop Science
• Brownie, Cavell, Ph.D., Professor, Statistics
• Bruck, Robert Ian, Ph.D., Professor, Plant Pathology
• Brunel, Arthur Henry, Ph.D., Professor, Crop Science
• Brunet, James R., PhD, Assistant Professor, Political Science and Public Administration
• Bruno-Barcena, Jose M., PhD, Research Assistant Professor, Microbiology
• Bryan, Robert Sedgwick, Ph.D., Professor Emeritus of Philosophy and Religion, Philosophy and Religion
• Bryant, Alyssa N., PhD, Assistant Professor, Adult and Higher Education
• Bryant, Charles Douglas, Ed.D., Associate Professor Emeritus, Agricultural and Extension Education
• Bryden, Wayne L., Ph.D., Adjunct Professor, Poultry Science
• Buchanan, David R., Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- Buchwalter, David, PhD, Assistant Professor, Toxicology
- Buckel, Jeffrey A., Ph.D., Associate Professor, Zoology
- Buckless, Frank Alan Orth, Ph.D., Professor, Accounting
- Buckner, Gregory D., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
- Buhler, Wayne G., Ph.D., Associate Professor, Horticultural Science
- Buie, Timothy, Master, Assistant Professor, Industrial Design
- Bull, Leonard Seth, Ph.D., Professor, Animal Science
- Bullock, Bronson P., PhD, Associate Professor, Forestry
- Bumgardner, Carl Lee, Ph.D., Professor Emeritus of Chemistry, Chemistry
- Buol, Stanley Walter, Ph.D., William Neal Reynolds Professor Emeritus, Soil Science
- Buongiorno-Nardelli, Marco, Ph.D., Associate Professor, Physics
- Burchell, Michael III, Ph.D, Assistant Professor, Biological and Agricultural Engineering
- Burke, Matthew D., PhD, Adjunct Assistant Professor, Chemical Engineering
- Burkey, Kent Oliver, Ph.D., Associate Professor (USDA), Crop Science
- Burkholder, JoAnn M., Ph.D., Named Professor of Botany, Plant Biology
- Burleson, Gary R., Ph.D., Adjunct Professor, Population Health & Pathobiology
- Burniston, Ernest Edmund, Ph.D., Professor Emeritus of Mathematics, Mathematics
- Burns, Joseph Charles, Ph.D., Professor (USDA), Crop Science
- Burrell, Hannah J., PhD, Assistant Professor, Entomology
- Burt, Millard Paylor, Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
- Burton, James D., Ph.D., Associate Professor, Horticultural Science
- Burton, Joseph William, Ph.D., Professor (USDA), Crop Science
- Busby, Joe R., PhD, Assistant Professor, Mathematics, Science, & Technology Education
- Butcher, Kenneth Roy, Ph.D., Professor Emeritus of Animal Science, Animal Science
- Bykova, Marina F., Ph.D., Assistant Professor, Philosophy and Religion
- Byrd, Gregory T., Ph.D., Associate Professor, Electrical and Computer Engineering
- Byrd, Medwick V., PhD, Assistant Professor, Wood and Paper Science

- Caddell, Joseph William, Ph.D., Adjunct Assistant Professor, History
- Cakir, Halil I., PhD, Research Assistant Professor, Forestry
- Caldwell, Billy E., Ph.D., Professor Emeritus of Crop Science, Crop Science
- Callanan, Roger E., EdD, Adjunct Assistant Professor, Curriculum and Instruction
- Campbell, Jennifer L., PhD, Assistant Professor, Zoology
- Campbell, Robert George, Ph.D., Adjunct Professor, Forestry
- Campbell, Stephen Lavern, Ph.D., Professor, Mathematics
- Campbell, William Vernon, Ph.D., Professor Emeritus of Entomology, Entomology
- Canada, John Robert, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
- Caner, Mehmet, PhD, Associate Professor, Economics
- Caner, Turanay, PhD, Assistant Professor, Business Management
- Cannedy, Allen L., D.V.M., Assistant Professor, Population Health & Pathobiology
- Cannon, Ronald Eugene, PhD, Adjunct Associate Professor, Genetics
- Carawan, Roy Eugene, Ph.D., Professor Emeritus of Food Science, Food Science
- Carbone, Ignazio, PhD, Assistant Professor, Plant Pathology
- Carbonell, Ruben G., Ph.D., Frank Hawkins Kenan Distinguished Professor of Chemical Engineering, Chemical Engineering
- Cardinal, Andrea J., PhD, Associate Professor, Crop Science
- Cardoza, Yasmin J., PhD, Assistant Professor, Entomology
- Carey, Larry D., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Carlson, Gerald A., Ph.D., Professor Emeriti, Economics
- Carlton, Charles Hope, Ph.D., Professor Emeritus, History
- Carmichael, Halbert Hart, Ph.D., Professor Emeritus of Chemistry, Chemistry
- Carrier, Sarah, PhD, Assistant Professor, Elementary Education
- Carroll, Daniel Edward Jr., Ph.D., Professor Emeritus of Food Science, Food Science
- Carroll, John W., Ph.D., Associate Professor, Philosophy and Religion
• Carroll, Katherine, PhD, Associate Professor, Textile and Apparel Management
• Carson, Susan Biegel, Assistant Professor, Plant Biology
• Cartee, Leanne, PhD, Associate Professor, Biomedical Engineering
• Carter, George L. Jr., Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
• Carter, Glenda Stephens, Ph.D., Associate Professor, Mathematics, Science, & Technology Education
• Carter, Michael P., Ph.D., Professor, English
• Carter, Thomas Ames, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
• Carter, Thomas E. Jr., Ph.D., Professor (USDA), Crop Science
• Caruolo, Edward Vitangelo, Ph.D., Professor Emeritus of Animal Science, Animal Science
• Carver, Donna K., D.V.M., Associate Professor, Poultry Science
• Casas, Ivan A., Ph.D., Adjunct Professor, Microbiology
• Case, D. Troy, Ph.D., Assistant Professor, Sociology and Anthropology
• Casey, David S., PhD, Adjunct Associate Professor, Animal Science
• Casey, Warren Michael, Ph.D., Adjunct Associate Professor, Microbiology
• Casper, Jonathan, PhD, Assistant Professor, Parks, Recreation and Tourism Management
• Cassady, Joseph P., Ph.D., Associate Professor, Animal Science
• Cassel, Donald Keith, Ph.D., Professor, Soil Science
• Cassill, Nancy L., Ph.D., Professor, Textile and Apparel Management
• Casstevens, Willa Jeanne, PhD, Assistant Professor, Social Work
• Catignani, George L., Ph.D., Professor, Food Science
• Catts, Glenn, PhD, Research Assistant Professor, Forestry
• Cavanagh, John, Ph.D., William Neal Reynolds Professor, Biochemistry
• Cavaroc, Victor Viosca Jr., Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
• Caves, Thomas Courtney, Ph.D., Associate Professor Emeritus of Chemistry, Chemistry
• Cavin, Ralph K. III, Ph.D., Adjunct Professor, Electrical and Computer Engineering
• Chabay, Ruth W, PhD, Professor, Physics
• Chalcraft, David R., PhD, Adjunct Assistant Professor, Zoology
• Chalmers, Alison E., Ph.D., Adjunct Associate Professor, Toxicology
• Chamblee, Douglas Scales, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Champion, Larry Stephen, Ph.D., Professor Emeritus of English, English
• Chandler, Richard Edward, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Chang, Hou-min, Ph.D., Reuben B. Robertson Professor, Wood and Paper Science
• Chang, Simon W., Ph.D., Adjunct Professor, Marine, Earth, and Atmospheric Sciences
• Chanoit, Guillaume, DVM, Assistant Professor, Veterinary Medicine
• Chao, Allen C., Ph.D., Associate Professor Emeritus, Civil Engineering
• Chao, Xiuli, Ph.D., Adjunct Professor, Operations Research
• Chapman, Diane D., EdD, Assistant Professor, Adult and Higher Education
• Chapman, Stephen N., Ph.D., Associate Professor, Business Management
• Charles, John, PhD, Assistant Professor, English
• Charlton, Harvey Johnson, Ph.D., Assistant Professor, Mathematics
• Charney, Joseph J., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Charron, Katherine Mellen, PhD, Assistant Professor, History
• Checkley, David Milton Jr., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Chen, Feinian, PHD, Associate Professor, Sociology and Anthropology
• Chen, Yuang-Sung Al, Ph.D., Professor, Accounting
• Cheng, Jiayang, Ph.D., Associate Professor, Biological and Agricultural Engineering
• Chernoff, Neil, Ph.D., Adjunct Professor, Toxicology
• Chertock, Alina, PhD, Associate Professor, Mathematics
• Cherukuri, Drinda Benge, PhD, Assistant Professor, Curriculum and Instruction
• Chescheir, George M., Ph.D., Research Assistant Professor, Biological and Agricultural Engineering
• Cheshire, Heather, PhD, Associate Professor, Forestry
• Chiang, Vincent L, PhD, Jordan Family Distinguished Professor for Natural Resources Innovation Professor, Forestry
- Childress, Michael, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Chilton, M.-D., Ph.D., Adjunct Professor, Genetics
- Chin, Mari Sum, PhD, Assistant Professor, Biological and Agricultural Engineering
- Chirkova, Rada Y., PhD, Associate Professor, Computer Science
- Choct, Mingan, PhD, Adjunct Professor, Poultry Science
- Chou, Wushow, Ph.D., Professor Emeritus, Computer Science
- Chow, Mo-Yuen, Ph.D., Professor, Electrical and Computer Engineering
- Christensen, Vern L., Ph.D., Professor Emeritus of Poultry Science, Poultry Science
- Chromy, James Raymond, Ph.D., Adjunct Professor, Statistics
- Chu, Moody Ten-Chao, Ph.D., Professor, Mathematics
- Chukwu, Ethelbert Nwakuche, Ph.D., Professor, Mathematics
- Chung, Kwong Tuzz, Ph.D., Professor Emeritus of Physics, Physics
- Chung, Lung Ock, Ph.D., Professor, Mathematics
- Clapp, Timothy G., Ph.D., Professor, Textile Engineering, Chemistry, and Science
- Clark, Aaron C., Ed.D., Associate Professor, Mathematics, Science, & Technology Education
- Clark, Allan Clay, Ph.D., Associate Professor, Biochemistry
- Clark, Brett, PhD, Assistant Professor, Sociology and Anthropology
- Clark, James William Jr., Ph.D., Professor Emeritus of English, English
- Clark, Robert Louis, Ph.D., Professor, Business Management
- Clark, Roger H., M.Arch., Graduate Alumni Distinguished Professor of Architecture, Architecture
- Clark, Tony F., Ph.D., Visiting Professor, Marine, Earth, and Atmospheric Sciences
- Clarke, Julia A., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Clarke, Laura L., PhD, Assistant Professor, Physics
- Classen, John Jacob, Ph.D., Associate Professor, Biological and Agricultural Engineering
- Claxton, Larry D., Ph.D., Visiting Professor, Textile Engineering, Chemistry, and Science
- Clayton, Patti H., PhD, Adjunct Assistant Professor, Adult and Higher Education
- Clerkin, Richard M, PhD, Assistant Professor, Political Science and Public Administration
- Clifford, William Bramwell II, Ph.D., Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
- Clouse, Steve Dotson, Ph.D., Professor, Horticultural Science
- Cobb, David T., Ph.D., Adjunct Assistant Professor, Zoology
- Cobb, Grover Cleveland Jr., Ph.D., Associate Professor Emeritus of Physics, Physics
- Cobb, Michael D., PhD, Assistant Professor, Political Science and Public Administration
- Coble, Harold Dean, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Coe, Charles K., D.P.A., Professor, Political Science and Public Administration
- Coggburn, Jerrell Douglas, PhD, Associate Professor, Political Science and Public Administration
- Cohen, Allen C., PhD, Adjunct Professor, Entomology
- Cohen, Joann Deborah, Ph.D., Professor, Mathematics
- Cohen, Paul H., PhD, Edgar S. Woolard Distinguished Professor and Dept. Head, Industrial Engineering
- Colbert, Elizabeth M., Ed.D, Adjunct Assistant Professor, Educational Leadership and Policy Studies
- Cole, James Lawrence, Ph.D., Associate Professor Emeritus of Psychology, Psychology
- Collazo, Jaime A., Ph.D., Professor (USDI/USFS), Zoology
- Collazo, Ramon R., PhD, Research Assistant Professor, Materials Science and Engineering
- Collins, Patricia W., Ph.D., Assistant Professor, Psychology
- Collins, William Kerr, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Comins, D. L., Ph.D., Professor, Chemistry
- Comstock, Gary L., PhD, Professor, Philosophy and Religion
- Confrey, Jere, PhD, Moore Distinguished Professor, Mathematics, Science, & Technology Education
- Conkling, Mark A., Ph.D., Adjunct Assistant Professor, Genetics
- Conner, Mark C., Ph.D., Adjunct Assistant Professor, Forestry
- Conolly, Rory B., D.Sc., Adjunct Professor, Statistics
- Conrad, James M., Ph.D., Interinstitutional Faculty, Electrical and Computer Engineering
Conte, Thomas Martin, Ph.D., Professor, Electrical and Computer Engineering
Cook, James W. Jr., Ph.D., Professor Emeritus of Physics, Physics
Cook, Maurice Gayle, Ph.D., Professor Emeritus of Soil Science, Soil Science
Cooke, James A., Ph.D., Adjunct Assistant Professor, Mechanical and Aerospace Engineering
Cooper, Arthur Wells, Ph.D., Professor Emeritus of Forestry, Forestry
Cooper, Paul A., PhD, Adjunct Assistant Professor, Mechanical and Aerospace Engineering
Cooper, Ralph L., Ph.D., Adjunct Professor, Molecular Biomedical Sciences
Cooper, Richard J., Ph.D., Professor, Crop Science
Cooper, Stuart L., PhD, Adjunct Professor, Biomedical Engineering
Cooper, William J., PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
Cope, W. Gregory, Ph.D., Associate Professor, Toxicology
Cope, Will Allen, Ph.D., Professor Emeritus of Crop Science, Crop Science
Copeland, Billy Joe, Ph.D., Professor Emeritus of Zoology and Marine, Earth & Atmospheric Science, Zoology
Corbett, David Reide, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Corbin, Frederick Thomas, Ph.D., Professor Emeriti of Crop Science, Crop Science
Cormier, Denis R., Ph.D., Associate Professor, Industrial Engineering
Cornwell, John C., Ph.D., Professor Emeritus, Animal Science
Correa, Maria T., Ph.D., Associate Professor, Population Health & Pathobiology
Corson, Peter Burton, PhD, Associate Professor, Mechanical and Aerospace Engineering
Cosco, Nilda Graciela, PhD, Research Associate Professor, Design
Coster, John K., Ph.D., Professor Emeritus, Mathematics, Science, & Technology Education
Cotanch, Stephen Robert, Ph.D., Professor, Physics
Couch, Nelson, PhD, Adjunct Assistant Professor, Industrial Engineering
Coulston, John, PhD, Adjunct Assistant Professor, Forestry
Covington, David H., Ph.D., Associate Professor, English
Cowen, Peter, Ph.D., Associate Professor, Population Health & Pathobiology
Cowger, Christina, PhD, Assistant Professor (USDA), Plant Pathology
Cowling, Ellis Brevier, Ph.D., Professor Emeritus, Forestry
Cox, Chandra Denise, M.F.A., Associate Professor, Art and Design
Cox, Frederick Russell, Ph.D., Professor Emeritus of Soil Science, Soil Science
Craig, Lee A., Ph.D., Professor, Economics
Craig, Stephen Bartholomew, PhD, Assistant Professor, Psychology
Crawford, Elizabeth Manny, Ph.D., Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
Creamer, Nancy G., Ph.D., Professor, Horticultural Science
Cribbins, Paul Day, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
Crickenberger, Roger Gilbert, Ph.D., Professor Emeritus of Animal Science and Associate State Program Lead, Animal Science
Crisp, Denise Gonzales, MFA, Associate Professor, Graphic Design
Crisp, James Ernest, Ph.D., Associate Professor, History
Crofton, Kevin M., Ph.D., Adjunct Associate Professor, Toxicology
Croom, Dan Barry, Ed.D., Associate Professor, Agricultural and Extension Education
Croom, Warren James Jr., Ph.D., Professor, Poultry Science
Crosbie, Christopher J., PhD, Assistant Professor, English
Crossland, Cathy L., Ed.D., Professor, Curriculum and Instruction
Crouse, David Alan, Ph.D., Associate Professor, Soil Science
Crow, Johnny Lee, Ed.D., Assistant Professor Emeritus, Mathematics, Science, & Technology Education
Crowder, Larry B., Ph.D., Adjunct Professor, Zoology
Crowley, Martha, PhD, Assistant Professor, Sociology and Anthropology
Crozier, Carl R., Ph.D., Professor, Soil Science
Crumbley, Deidre H., Ph.D., Associate Professor, Multidisciplinary Studies
Cubbage, Frederick W., Ph.D., Professor, Forestry
Cubeta, Marc, Ph.D., Associate Professor, Plant Pathology
Cuculo, John Anthony, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
• Culbreth, Charles Thomas Jr., Ph.D., Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing, Industrial Engineering
• Cullen, John Michael, Ph.D., Professor, Population Health & Pathobiology
• Cullinan, Douglas A., Ed.D., Professor, Curriculum and Instruction
• Cummings, George August, Ph.D., Professor Emeritus of Soil Science, Soil Science
• Cunningham, Joseph William, Ph.D., Professor Emeritus of Psychology, Psychology
• Cunningham, Mary Kathleen, Ph.D., Associate Professor, Philosophy and Religion
• Cuny, Helen, PhD, Adjunct Professor, Toxicology
• Cuomo, Jerome J., Ph.D., Distinguished Research Professor, Materials Science and Engineering
• Currie, Nancy Jane, PhD, Adjunct Associate Professor, Industrial Engineering
• Curtis, Stephanie Elise, Ph.D., Professor, Genetics
• Czaja, Ronald F., Ph.D., Associate Professor Emeritus of Sociology, Anthropology and Social Work, Sociology and Anthropology

• Dai, Huaiyu, PhD, Assistant Professor, Electrical and Computer Engineering
• Daley, Dennis M., Ph.D., Professor, Political Science and Public Administration
• Danby, John Michael, Ph.D., Professor Emeritus, Mathematics
• Dandridge, Edmund Pendleton Jr., Ph.D., Associate Professor Emeritus of English, English
• Danehower, David Allen, Ph.D., Associate Professor, Crop Science
• Daniel, Louis III, PhD, Adjunct Assistant Professor, Zoology
• Daniels, Harry V., Ph.D., Professor, Zoology
• Daniels, Karen, PhD, Assistant Professor, Physics
• Danielsen, Bartley, PhD, Associate Professor, Business Management
• Danielson, Leon E., Ph.D., Professor Emeritus of Agricultural and Resource Economics, Economics
• Dannels, Deanna P., Ph.D., Associate Professor, Communication
• Darhower, Mark Anthony, PhD, Associate Professor, Foreign Languages and Literatures
• Dasmohapatra, Sudipta, PhD, Assistant Professor, Wood and Paper Science
• Daub, Margaret E., Ph.D., William Neal Reynolds Professor and Head of Botany Department, Plant Biology
• Daubert, Christopher R., Ph.D., Associate Professor, Food Science
• Davey, Charles Bingham, Ph.D., Professor Emeritus of Forestry, Forestry
• Davidian, Marie, Ph.D., William Neal Reynolds Professor, Statistics
• Davidson, Christopher B., Ph.D., Adjunct Assistant Professor, Forestry
• Davidson, Michael Glenn, D.V.M., Professor, Department of Clinical Sciences
• Davies, Eric, Ph.D., Professor Emeritus, Plant Biology
• Davis, Adam Clarke, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
• Davis, Edward W. Jr., Ph.D., Professor, Computer Science
• Davis, Eric L., Ph.D., William Neal Reynolds Professor of Plant Pathology, Plant Pathology
• Davis, Hawthorne A., Ph.D., Associate Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
• Davis, Heather, PhD, Assistant Professor, Curriculum and Instruction
• Davis, Jack P., PhD, Assistant Professor (USDA), Food Science
• Davis, Jeanine Marie, Ph.D., Associate Professor, Horticultural Science
• Davis, Jennifer L., PhD, Assistant Professor, Veterinary Medicine
• Davis, Jerry Mallory, Ph.D., Professor Emeritus, Marine, Earth, and Atmospheric Sciences
• Davis, K. Shannon, Ph.D., Associate Professor, Business Management
• Davis, Lauren Berrings, PhD, Adjunct Assistant Professor, Industrial Engineering
• Davis, Meredith J., M.F.A., Professor, Graphic Design
• Davis, Robert Foster, Ph.D., Kobe Steel Distinguished University Professor Emeritus, Materials Science and Engineering
• Davis, William Rhett, PhD, Assistant Professor, Electrical and Computer Engineering
• Davis, William Robert, Doktor der, Professor Emeritus of Physics, Physics
• Davis-Gardner, Angela, MFA, Professor Emeritus, English
• Dawes, Gregory Alan, Ph.D., Professor, Foreign Languages and Literatures
• Dawes, Keith, PhD, Professor, Materials Science and Engineering
• De Coster, Stacy M., Ph.D., Associate Professor, Sociology and Anthropology
• De Grand, Alexander Joseph, Ph.D., Professor Emeritus, History
• De Hertogh, August A., Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• de los Reyes, Francis L. III, Ph.D., Associate Professor, Civil Engineering
• de Souza e Silva, Adriana, PhD, Assistant Professor, Communication
• Deal, Earl L. Jr., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
• Dean, Alexander G., Ph.D., Associate Professor, Electrical and Computer Engineering
• Dean, Gregg A., Ph.D., Professor, Molecular Biomedical Sciences
• Dean, Lisa Louise, PhD, Assistant Professor (USDA), Food Science
• Dean, Ralph A., Ph.D., William Neal Reynolds Professor, Plant Pathology
• Deans, Andrew R., PhD, Assistant Professor, Entomology
• DeBord, Karen B., Ph.D., Professor, Human Development & Family Studies
• DeCarolis, Joseph F, PhD, Assistant Professor, Civil Engineering
• DeCuir-Gunby, Jessica, PhD, Assistant Professor, Curriculum and Instruction
• Defrancesco, Teresa C., DVM, Assistant Professor, Veterinary Medicine
• Degermes, Laurel A., D.V.M., Associate Professor, Department of Clinical Sciences
• Deighton, Nigel, PhD, Research Associate Professor, Toxicology
• Deiters, Alexander, PhD, Assistant Professor, Chemistry
• Deitz, Lewis Levering, Ph.D., Professor Emeritus, Entomology
• DeJarnette, Fred Roark, Ph.D., Professor, Mechanical and Aerospace Engineering
• DeJoy, Daniel Allen, Ph.D., Associate Professor, Communication
• Delcambre, Carla, MR, Visiting Assistant Professor, Landscape Architecture
• Della Fave, L. Richard, Ph.D., Professor, Sociology and Anthropology
• DeLuca, V. William, Ed.D., Associate Professor, Mathematics, Science, & Technology Education
• DeMaster, David John, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Denig, Joseph, Ph.D., Professor, Wood and Paper Science
• Dennis, Robert G., PhD, Adjunct Associate Professor, Biomedical Engineering
• Denton, Brian T., PhD, Assistant Professor, Industrial Engineering
• DePerno, Christopher S., PHD, Assistant Professor, Forestry
• DeSimone, Joseph M., Ph.D., William R. Kenan Jr. Distinguished Professor and Mary Ann Smith Professor, Chemical Engineering
• Despain, J. Scott, PhD, Associate Professor, Foreign Languages and Literatures
• DeTreville, Debra, PhD, Assistant Professor, History
• Develetsikiotis, Mihail, Ph.D., Professor, Electrical and Computer Engineering
• Devine, Hugh A., Ph.D., Professor, Parks, Recreation and Tourism Management
• Devorshak, Christina, PhD, Adjunct Assistant Professor, Entomology
• Dewey, Ralph Earl, Ph.D., Professor, Crop Science
• Dewhurst, Mark W., Ph.D., Adjunct Professor, Veterinary Medicine
• DeWoskin, Robert S., PhD, Adjunct Associate Professor, Population Health & Pathobiology
• Diaz, Lope Max, M.F.A., Associate Professor, Art and Design
• Dickens, James William, M.S., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Dickey, David Alan, Ph.D., Professor, Statistics
• Dickey, Michael D., PhD, Assistant Professor, Chemical Engineering
• Dicks, Robert Stanley, Ph.D., Associate Professor, English
• Dickson, Gary W., Ph.D., Professor Emeritus, Business Management
• Dillard, Emmett Urcey, Ph.D., Associate Professor Emeritus of Animal Science, Animal Science
• Dimitriades, Basil, PhD, Adjunct Professor, Forestry
• Dix, David J., PhD, Adjunct Assistant Professor, Toxicology
• Dixon, Darlene, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
• Dobrogosz, Walter Jerome, Ph.D., Professor Emeritus of Microbiology, Microbiology
• Dodsworth, Robin M., PhD, Assistant Professor, English
• Doerr, Phillip David, Ph.D., Professor Emeritus of Forestry and Zoology, Forestry
• Doggett, Wesley Osborne, Ph.D., Professor Emeritus of Physics, Physics
• Dole, John M., Ph.D., Professor, Horticultural Science
• Domec, Jean-Christophe, PhD, Research Assistant Professor, Forestry
• Donaldson, Robert Alan, A.Design., Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
• Donaldson, William Emmert, Ph.D., Professor Emeritus, Poultry Science
• Dong, Jinyan, PhD, Assistant Professor, Industrial Engineering
• Donoso, Pablo J., PhD, Adjunct Assistant Professor, Forestry
• Dorgeloh, Werner Gunther, PhD, Adjunct Associate Professor, Forestry
• Dorman, David C., Ph.D., Professor, Molecular Biomedical Sciences
• Doster, Joseph Michael, Ph.D., Associate Professor, Nuclear Engineering
• Dougherty, Phillip M., PhD, Adjunct Professor, Forestry
• Douglas, Robert Alden, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Dow, Thomas Alva, Ph.D., Professor, Mechanical and Aerospace Engineering
• Downs, Murray Scott, Ph.D., Professor Emeritus of History, History
• Downs, Robert Jack, PhD, Professor Emeritus, Plant Biology
• Doyle, Jon, Ph.D., SAS Institute Distinguished Professor, Computer Science
• Drake, MaryAnne, Ph.D., Associate Professor, Food Science
• Dreher, Kevin L., Ph.D., Adjunct Professor, Molecular Biomedical Sciences
• Drewes, Donald William, Ph.D., Professor, Psychology
• Driggers, Louis Bynum, M.S., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Driscoll, Catherine, PhD, Assistant Professor, Philosophy and Religion
• Duckworth, Owen W., PhD, Assistant Professor, Soil Science
• Ducoste, Joel J., Ph.D., Associate Professor, Civil Engineering
• Dudley, Marc Kevin, PhD, Assistant Professor, English
• Dudziak, Donald J., Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
• Duel-Hallen, Alexandra, Ph.D., Professor, Electrical and Computer Engineering
• Dunn, Joseph C., Ph.D., Professor Emeritus of Mathematics, Mathematics
• Dunn, Patricia Carolyn, PhD, Professor, Human Development & Family Studies
• Dunn, Robert R., PhD, Assistant Professor, Zoology
• Dunphy, Edward James, Ph.D., Professor, Crop Science
• Durant, Jack Davis, Ph.D., Professor Emeritus of English, English
• Duscher, Gerd Josef-Manfred, Ph.D., Associate Professor, Materials Science and Engineering
• Dutta, Rudra, Ph.D., Associate Professor, Computer Science
• Dutton, John C. Jr., Ph.D., Associate Professor, Business Management
• Dvorak, William Stephen, Ph.D., Research Professor, Forestry
• Dye, Janice A., PhD, Adjunct Associate Professor, Department of Clinical Sciences
• Dykstra, Michael Jack, Ph.D., Professor, Population Health & Pathobiology

• Eapen, Jacob, PhD, Assistant Professor, Nuclear Engineering
• Early, Peter Joseph, DVM, Assistant Professor, Department of Clinical Sciences
• Earp, Julie Brande, Ph.D., Associate Professor, Business Management
• Easley, James E. Jr., Ph.D., Professor, Economics
• Echekki, Tarek, PhD, Associate Professor, Mechanical and Aerospace Engineering
• Eckerlin, Herbert Martin, Ph.D., Professor, Mechanical and Aerospace Engineering
• Edens, Frank Wesley, Ph.D., Professor, Poultry Science
• Edmisten, Keith Lynn, Ph.D., Professor, Crop Science
• Edmonson, William W., PhD, Associate Professor, Electrical and Computer Engineering
• Edwards, Harriett C., EdD, Assistant Professor, 4H Youth Development
• Edwards, Jack Ray Jr., Ph.D., Professor, Mechanical and Aerospace Engineering
• Edwards, Louis Laird, Ph.D., Adjunct Professor, Wood and Paper Science
• Efimenko, Kirill, PhD, Research Assistant Professor, Chemical Engineering
• Eggleston, David B., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Ehm, Margaret G., Ph.D., Adjunct Assistant Professor, Statistics
• Eischen, Jeffrey Warren, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Eisemann, Joan H., Ph.D., Professor, Animal Science
• Eisen, Eugene J., Ph.D., William Neal Reynolds Professor Emeritus, Animal Science
• El-Masry, Nadia A., Ph.D., Professor, Materials Science and Engineering
• El-Shafei, Ahmed M., Ph.D., Assistant Professor, Textile Engineering, Chemistry, and Science
• El-Shiekh, Aly H. M., Sc.D., Professor Emeritus of Textile Apparel and Management, Textile and Apparel Management
• Eling, Thomas Edward, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
• Elkan, Gerald Hugh, Ph.D., Professor Emeritus of Microbiology, Microbiology
• Elleman, Thomas, Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
• Elliott, Sinikka, Ph.D., Assistant Professor, Sociology and Anthropology
• Ellison, Donald C., Ph.D., Professor, Physics
• Elloivich, Risa S., Ph.D., Assistant Professor, Sociology and Anthropology
• Ellwood, Eric Louis, Ph.D., Dean Emeritus, Wood and Paper Science
• Elmaghraby, Salah E., Ph.D., University Professor, Operations Research
• Ely, John Frederick, Ph.D., Professor Emeritus, Civil Engineering
• Emery, Donald Allen, Ph.D., Professor Emeritus of Crop Science and Genetics, Crop Science
• Emigh, Ted H., Ph.D., Associate Professor, Genetics
• Endicott, Ronald P., Ph.D., Assistant Professor, Philosophy and Religion
• Engell, Miles D., Ph.D., Assistant Professor, Biological Sciences
• Engen, Rodney L., Ph.D., Associate Professor, Sociology and Anthropology
• Erchul, William P., Ph.D., Professor, Psychology
• Erickson, Edward Walter, Ph.D., Professor Emeritus, Economics
• Ernst, Jeremy V., Ph.D., Assistant Professor, Mathematics, Science, & Technology Education
• Esbenshade, Kenneth Lee, Ph.D., Professor, Animal Science
• Escuti, Michael, Ph.D., Assistant Professor, Electrical and Computer Engineering
• Estes, Edmund Anthony, Ph.D., Professor, Economics
• Estes, Patricia A., Ph.D, Research Assistant Professor, Genetics
• Eun, Do Young, Ph.D, Assistant Professor, Electrical and Computer Engineering
• Evans, Robert Joseph, Ph.D, Adjunct Assistant Professor, Electrical and Computer Engineering
• Evans, Robert Oliver Jr., Ph.D., Professor, Biological and Agricultural Engineering
• Evans, T. Matthew, Ph.D., Assistant Professor, Civil Engineering
• Faber, Brenton D., Ph.D, Professor, English
• Fackler, Paul L., Ph.D., Professor, Economics
• Fahmy, Abdel-Aziz, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Fair, Barbara A., Ph.D., Assistant Professor, Horticultural Science
• Fang, Shu-Cherng, Ph.D., Walter Clark Chair Professor of IE and Director of Graduate Programs IE, Industrial Engineering
• Fang, Tiegang, Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
• Fantz, Paul R., Ph.D., Professor, Horticultural Science
• Farin, Charlotte E., Ph.D., Professor, Animal Science
• Farin, Peter W., Ph.D., Associate Professor, Veterinary Medicine
• Farkas, Brian E., Ph.D., Professor, Food Science
• Farr, A. Celeste, Ph.D., Assistant Professor, Communication
• Farrrier, Maurice Hugh, Ph.D., Professor Emeritus of Entomology, Entomology
• Fathi, Yahya, Ph.D., Professor, Industrial Engineering
• Faulkner, Gary D., Ph.D., Associate Professor Emeriti, Mathematics
• Fauntleroy, Amassa C., Ph.D., Professor, Mathematics
• Favorov, Oleg V., Ph.D, Adjunct Associate Professor, Biomedical Engineering
• Fedkiw, Peter S., Ph.D., Professor, Chemical Engineering
• Feeny, Thomas, Ph.D, Professor, Foreign Languages and Literatures
• Felder, Richard Mark, Ph.D., Hoechst Celanese Professor Emeritus, Chemical Engineering
• Fellner, Vivek, Ph.D., Associate Professor, Animal Science
• Felts, James Vernon, Ph.D., Adjunct Assistant Professor, Poultry Science
• Ferguson, Scott, Ph.D, Assistant Professor, Mechanical and Aerospace Engineering
• Ferket, Peter Rudolf, Ph.D., Professor, Poultry Science
• Fernandez, Gina E., Ph.D., Associate Professor, Horticultural Science
• Ferrier, Brad S., PhD, Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
• Ferzli, Miriam G., PhD, Assistant Professor, Biological Sciences
• Figuers, Carol Casper, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
• Fike, William Thomas Jr., Ph.D., Professor Emeritus of Crop Science, Crop Science
• Fine, Howard A., MD, Adjunct Professor, Population Health & Pathobiology
• Finley, Charles C., PhD, Adjunct Associate Professor, Biomedical Engineering
• Fiscus, Edwin Lawson, Ph.D., Professor (USDA), Crop Science
• Fish, Richard E., Ph.D., Associate Professor, Department of Clinical Sciences
• Fisher, Douglas, Ph.D., Professor Emeritus, Economics
• Fisher, John S., Ph.D., Professor Emeriti of Civil Engineering, Civil Engineering
• Fisher, Loren R, Associate Professor, Crop Science
• Fites, Roger Carl, Ph.D., Professor Emeritus of Botany, Plant Biology
• FitzGerald, Patrick, M.F.A., Associate Professor, Art and Design
• Fitzpatrick, Scott Michael, PhD, Assistant Professor, Sociology and Anthropology
• Flammer, Keven, D.V.M., Associate Professor, Department of Clinical Sciences
• Flath, David Joseph, Ph.D., Professor, Economics
• Fleenor, John W., Ph.D., Adjunct Assistant Professor, Psychology
• Fleisher, Lloyd Norman, Ph.D., Professor, Molecular Biomedical Sciences
• Fleming, Henry Pridgen, Ph.D., Professor Emeritus (USDA) of Food Science, Food Science
• Fleming, Walker James, Ph.D., Adjunct Associate Professor, Zoology
• Fletcher, Oscar Jasper Jr., PH.D, Professor, Population Health & Pathobiology
• Flick, Anita P., PhD, Assistant Professor, Biological Sciences
• Flickinger, Michael, PhD, Professor, Microbiology
• Flowers, James L., Ph.D., Professor, Agricultural and Extension Education
• Flowers, James R., PhD, Assistant Professor, Population Health & Pathobiology
• Flowers, William Lucas, Ph.D., Professor, Animal Science
• Floyd, Myron F., PhD, Professor, Parks, Recreation and Tourism Management
• Fodor, Ronald Victor, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Foegeding, Edward Allen, Ph.D., William Neal Reynolds Professor of Food Science, Food Science
• Fonteno, William Carl II, Ph.D., Professor, Horticultural Science
• Foote, Vincent Millard, B.S., Professor, Industrial Design
• Ford, Richard Banbury, D.V.M., Professor, Department of Clinical Sciences
• Fornaro, Robert Joseph, Ph.D., Professor, Computer Science
• Fornes, Raymond Earl, Ph.D., Professor, Physics
• Fortner, Brand, PhD, Research Professor, Physics
• Fountain, John C, PhD, Professor, Marine, Earth, and Atmospheric Sciences
• Fox, Barbara J., Ph.D., Professor, Curriculum and Instruction
• Fox, Thomas R., PhD, Adjunct Associate Professor, Forestry
• Frampton, Lewis John Jr., Ph.D., Professor, Forestry
• Frank, Steven D., PhD, Assistant Professor, Entomology
• Franke, John Erwin, Ph.D., Professor, Mathematics
• Frankel, Adam S., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Franklin, Edward Carlyle, Ph.D., Professor, Forestry
• Franks, Robert G., PhD, Assistant Professor, Genetics
• Franzen, Stefan, Ph.D., Professor, Chemistry
• Franzon, Paul Damian, Ph.D., Professor, Electrical and Computer Engineering
• Frederick, Douglas J., Ph.D., Professor, Forestry
• Freedman, Leon David, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Freeh, Vincent W., PhD, Associate Professor, Computer Science
• Freeman, Harold Stanley, Ph.D., Ciba-Geigy Distinguished Professor and Associate Dean for Research, Textile Engineering, Chemistry, and Science
• Freeman, McArthur II, MA, Assistant Professor, Art and Design
• Frey, H. Christopher, Ph.D., Professor, Civil Engineering
• Friend, Craig Thompson, PhD, Assistant Professor, History
• Frink, Neal T., PhD, Adjunct Professor, Mechanical and Aerospace Engineering
• Fuentes, Montserrat, Ph.D., Associate Professor, Statistics
• Fuller, Frederick Joseph, Ph.D., Professor, Population Health & Pathobiology
• Fulp, Ronald Owen, Ph.D., Professor, Mathematics
• Funderlic, Robert E., Ph.D., Professor Emeritus, Computer Science
• Funkhouser, Edward Truman, Ph.D., Associate Professor, Communication
• Fusarelli, Bonnie C., PhD, Assistant Professor, Educational Leadership and Policy Studies
• Fusarelli, Lance D., PhD, Associate Professor, Educational Leadership and Policy Studies

• Gabr, Mohammed A., Ph.D., Professor, Civil Engineering
• Gadsby, John Evan, Ph.D., Professor, Molecular Biomedical Sciences
• Gallagher, Victoria J., Ph.D., Professor, Communication
• Gallippi, Caterina M., PhD Adjunct Assistant Professor, Biomedical Engineering
• Gard, Kevin, PhD, Assistant Professor, Electrical and Computer Engineering
• Gardner, Randolph Gilbert, Ph.D., Professor, Horticultural Science
• Gardner, Robin Pierce, Ph.D., Professor, Nuclear Engineering
• Gardner, Sarah Y., Ph.D., Assistant Professor, Department of Clinical Sciences
• Garlich, Jimmy Dale, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
• Garrotte, Dennis Evo, Ph.D., Associate Professor Emeritus of Mathematics, Mathematics
• Garrett, Paul E., PhD, Adjunct Associate Professor, Physics
• Garrigan, Shelley, PHD, Assistant Professor, Foreign Languages and Literatures
• Garson, George David, Ph.D., Professor, Political Science and Public Administration
• Garval, Michael David, Ph.D., Associate Professor, Foreign Languages and Literatures
• Gaston-Gayles, Joy, PhD, Associate Professor, Adult and Higher Education
• Gebreyes, Wondwossen A., PhD, Adjunct Associate Professor, Population Health & Pathobiology
• Gehl, Ronald J, PhD, Assistant Professor, Soil Science
• Gehring, Edward F., PhD, Professor, Computer Science
• Gelley, Ora, PhD, Assistant Professor, English
• Genereux, David P., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Genzer, Jan, Ph.D., Professor, Chemical Engineering
• Gerard, Mathew Peter, PhD, Assistant Professor, Veterinary Medicine
• Gerig, Thomas Michael, Ph.D., Professor, Statistics
• Gerler, Edwin Roland Jr., Ed.D., Professor, Curriculum and Instruction
• Gernat, Abel, PhD, Adjunct Assistant Professor, Poultry Science
• Gervais, Jean-Philippe, PhD, Associate Professor, Economics
• Getzen, Forrest William, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Ghashghaei, Troy, PhD, Assistant Professor, Veterinary Medicine
• Ghiladi, Reza A., PhD, Assistant Professor, Chemistry
• Ghosal, Subhashis, PhD, Associate Professor, Statistics
• Ghosh, Sujit K., Ph.D., Professor, Statistics
• Ghosh, Tushar Kanti, Ph.D., Professor, Textile and Apparel Management
• Ghovanloo, Maysam, PhD, Adjunct Assistant Professor, Electrical and Computer Engineering
• Gibson, Gregory C., Ph.D., Adjunct Professor, Genetics
• Gibson, James E., PhD, Adjunct Professor, Toxicology
• Giesbrecht, Francis Gerhard, Ph.D., Professor Emeritus of Statistics, Statistics
• Gilbert, John Henderson, Ph.D., Associate Professor Emeritus of Political Science, Political Science and Public Administration
• Gilger, Brian, D.V.M., Associate Professor, Department of Clinical Sciences
• Gillan, Doug, PhD, Professor, Psychology
• Gilleskie, Gary, PhD, Associate Professor, No Dept. Abbr
• Gilliam, James F., Ph.D., Professor, Zoology
• Gilliam, James Wendell, Ph.D., William Neal Reynolds Professor Emeritus, Soil Science
• Gilligan, John G., Ph.D., Professor, Nuclear Engineering
• Gilmartin, David Paul, Ph.D., Professor, History
Gilmour, Matthew Ian, PhD, Adjunct Assistant Professor, Population Health & Pathobiology
Gimeno, Isabel, Phd, Assistant Professor, Population Health & Pathobiology
Glass, Joseph Conrad Jr., Ed.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
Glazener, Edward Walker, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
Glisson, Tildon H. Jr., Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
Godfrey, Albert Blanton, PhD, Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management, Textile and Apparel Management
Godwin, John, Ph.D., Associate Professor, Zoology
Goetze, Alfred John, Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
Gold, Harvey Joseph, Ph.D., Professor Emeritus of Statistics, Statistics
Goldberg, Richard L., PhD, Adjunct Assistant Professor, Biomedical Engineering
Goldfarb, Barry, Ph.D., Professor, Forestry
Goldstein, Irving S., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
Goldstein, Joyce Allene, Adjunct Professor, Toxicology
Golub, Robert, PhD, Research Professor, Physics
Gomez, Joseph A., Ph.D., Professor, English
Gomez, Shawn M., PhD, Adjunct Assistant Professor, Biomedical Engineering
Gonzalez, Gabriel F., Ph.D., Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literatures
Goode, Candace, Re.D., Associate Professor, Parks, Recreation and Tourism Management
Goode, Larry Richard, PhD, Adjunct Associate Professor, Civil Engineering
Goodell, Lora Suzanne, PhD, Assistant Professor, Food Science
Gooding, Guy Vernon Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Goodman, Major M., Ph.D., Distinguished University Professor, Crop Science
Goodnight, James Howard, Ph.D., Adjunct Professor, Statistics
Goodwin, Barry Kent, Ph.D., William Neal Reynolds Professor, Economics
Gookin, Jody, PhD, Assistant Professor, Molecular Biomedical Sciences
Gopalarathnam, Ashok, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
Gordh, Gordon, PhD, Adjunct Professor, Entomology
Gorga, Russell E., PhD, Assistant Professor, Textile Engineering, Chemistry, and Science
Gorham, Bertha, PhD, Adjunct Associate Professor, Curriculum and Instruction
Gorman, Christopher B., Ph.D., Professor, Chemistry
Goshe, Michael B., PhD, Assistant Professor, Biochemistry
Gould, Christopher Robert, Ph.D., Professor, Physics
Gould, Fred L., Ph.D., William Neal Reynolds Professor, Entomology
Gould, Richard David, Ph.D., Professor, Mechanical and Aerospace Engineering
Govoni, John Jeffrey, PhD, Adjunct Professor, Zoology
Grable, Lisa, PhD, Adjunct Assistant Professor, Curriculum and Instruction
Grabow, Garry L., Ph.D., Assistant Professor, Biological and Agricultural Engineering
Grady, Perry Linwood, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
Grainger, John Joseph, Ph.D., Professor, Electrical and Computer Engineering
Grand, Larry Frank, Ph.D., Professor, Plant Pathology
Grandage, Arnold Herbert, Ph.D., Professor Emeritus of Statistics, Statistics
Grant, Christine Sharon, Ph.D., Professor, Chemical Engineering
Grant, Edward, Ph.D., Professor, Electrical and Computer Engineering
Grant, William Cullen, Ph.D., Professor, Zoology
Grappendorf, Heidi, PhD, Assistant Professor, Parks, Recreation and Tourism Management
Graves, Alexandria K., PhD, Assistant Professor, Soil Science
Gray, Denis Owen, Ph.D., Professor, Psychology
Gray, Leon Earl, PhD, Adjunct Professor, Toxicology
Green, David Patrick, Ph.D., Professor, Food Science
• Green, James T. Jr., Ph.D., Professor Emeritus, Crop Science
• Greenberg, Cathryn, PhD, Adjunct Professor, Forestry
• Greene, Steven H., PhD, Assistant Professor, Political Science and Public Administration
• Greenlaw, Ralph Weller, Ph.D., Professor Emeritus of History, History
• Greenlee, William F., PhD, Adjunct Professor, Toxicology
• Greenstein, Theodore N., Ph.D., Professor, Sociology and Anthropology
• Gregory, James Douglas, Ph.D., Professor, Forestry
• Gregory, Max E., Ph.D., Professor Emeritus of Food Science, Food Science
• Gremaud, Pierre A., Ph.D., Professor, Mathematics
• Grennes, Thomas James, M.A., Professor, Economics
• Griffin, Clifford E., Ph.D., Associate Professor, Political Science and Public Administration
• Griffis, Dieter P., PhD, Visiting Associate Professor, Materials Science and Engineering
• Grimes, Jesse Lee, Ph.D., Professor, Poultry Science
• Grimmett, Marc Anderson, PhD, Assistant Professor, Curriculum and Instruction
• Grimwood, James Michael, Ph.D., Professor, English
• Grindem, Carol, Ph.D., Professor, Population Health & Pathobiology
• Gross, Charlotte, Ph.D., Professor, English
• Gross, Harry Douglas, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Gross, Kevin, PhD, Assistant Professor, Statistics
• Gross, Ruth V., PhD, Professor, Foreign Languages and Literatures
• Grossfeld, Robert Michael, Ph.D., Professor, Zoology
• Grossman, Julie M., PhD, Assistant Professor, Soil Science
• Grouverman, Alexei, PhD, Research Associate Professor, Materials Science and Engineering
• Grove, Thurman Lee, Ph.D., Professor, Zoology
• Grozinger, Christina M., Ph.D, Assistant Professor, Entomology
• Grubb, Brenda Judge, Ph.D., Assistant Professor, Zoology
• Grunden, Amy M., Ph.D., Associate Professor, Microbiology
• Gu, Xiaohui, PhD, Assistant Professor, Computer Science
• Guarnieri, Charles Richard, PhD, Research Professor, Materials Science and Engineering
• Gubbins, Keith E., Ph.D., Worley H. Clark Jr. Distinguished Professor, Chemical Engineering
• Guddati, Murthy N., Ph.D., Associate Professor, Civil Engineering
• Gueron, Pablo, Ph.D, Assistant Professor, Economics
• Guion, Lisa, PhD, Associate Professor, Agricultural and Extension Education
• Gumertz, Marcia Lynn, Ph.D., Professor, Statistics
• Gunnane, Thomas, PhD, Adjunct Professor, Chemistry
• Gunter, Christopher C., PhD, Assistant Professor, Horticultural Science
• Gupta, Abhinav, Ph.D., Associate Professor, Civil Engineering
• Gupta, Ajaya K., Ph.D., Professor Emeriti of Civil Engineering, Civil Engineering
• Gupta, Bhupender S., Ph.D., Professor, Textile Engineering, Chemistry, and Science
• Gurley, Edward Dewitt, Ph.D., Associate Professor Emeritus of Civil Engineering, Civil Engineering
• Gustke, Larry D., Ph.D., Associate Professor, Parks, Recreation and Tourism Management
• Guthrie-Nichols, Elizabeth, PhD, Professor, Forestry
• Guy, James Stanley, Ph.D., Professor, Population Health & Pathobiology
• Gwynn, George Richard, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Haaland, Perry D., Ph.D., Adjunct Professor, Statistics
• Haase, David Glen, Ph.D., Professor, Physics
• Haddad, Nicholas M., Ph.D., Associate Professor, Zoology
• Haenn, Nora, PhD, Associate Professor, Sociology and Anthropology
• Hafner, Johannes, PhD, Assistant Professor, Philosophy and Religion
• Hagler, Winston Murry Jr., Ph.D., Professor, Poultry Science
• Haider, Mansoor A., Ph.D., Associate Professor, Mathematics
• Hagler, Candace Hope, PhD, Professor, Crop Science
• Hain, Fred Paul, Ph.D., Professor, Entomology
• Halberstadt, Amy G., Ph.D., Professor, Psychology
Hale, Francis Joseph, Sc.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
Hale, Scott Andrew, Ph.D., Professor, Biological and Agricultural Engineering
Haley, Richard L., Ed.D, Assistant Professor, Educational Leadership and Policy Studies
Hall, Alastair Robert, Ph.D., Professor, Economics
Hall, Anthony Douglas, Ph.D., Adjunct Professor, Psychology
Hall, Carol K., Ph.D., Camille Dreyfus Distinguished University Professor, Chemical Engineering
Hall, Charles E. Jr., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
Hall, George Lincoln, Ph.D., Professor Emeritus of Physics, Physics
Hall, Janice S., Ed.D., Visiting Assistant Professor, Curriculum and Instruction
Hall, Jodi, N/A, Assistant Professor, Social Work
Hallen, Hans, Ph.D., Professor, Physics
Halperen, Max, Ph.D., Professor Emeritus of English, English
Halpern, Nicholas, Ph.D., Associate Professor, English
Hambourger, Robert M., Ph.D., Associate Professor, Philosophy and Religion
Hammerberg, Bruce, Ph.D., Professor, Population Health & Pathobiology
Hammond, Robert, Ph.D., Assistant Professor, Economics
Hamon, Nicholas M., PhD, Adjunct Professor, Entomology
Hamouda, Hechmi, Ph.D., Professor, Textile Engineering, Chemistry, and Science
Hanck, Kenneth William, Ph.D., Professor, Chemistry
Hancock, Tina U., DSW, Associate Professor, Social Work
Handfield, Robert B., Ph.D., Bank of America University Distinguished Professor, Business Management
Handley, rita, PhD, Assistant Professor, Department of Clinical Sciences
Hanley-Bowdoin, Linda K., Ph.D., William Neal Reynolds Professor, Biochemistry
Hanna, Adel F., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Hannrup, Bjorn, PhD, Adjunct Assistant Professor, Forestry
Hansen, Arthur Paul, Ph.D., Professor Emeriti, Food Science
Hansen, Bernard D., D.V.M., Visiting Assistant Professor, Department of Clinical Sciences
Hansen, Donald Joseph, Ph.D., Assistant Professor Emeritus of Mathematics, Mathematics
Hanson, Dana J, PhD, Assistant Professor, Food Science
Hanson, Durwin Melford, Ph.D., Professor Emeritus, Mathematics, Science, & Technology Education
Hanson, John Melvin, Ph.D., Professor Emeritus, Civil Engineering
Hanson, Warren Durward, Ph.D., Professor Emeritus of Genetics, Genetics
Hardie, Elizabeth Mills, Ph.D., Associate Professor, Department of Clinical Sciences
Hardin, Charles C., Ph.D., Associate Professor, Biochemistry
Hardin, James Walker, Ph.D., Professor Emeritus of Botany, Plant Biology
Hardy, David H., PhD, Adjunct Assistant Professor, Soil Science
Hare, Jonathan A., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Harrfoush, Khaled A., PhD, Associate Professor, Computer Science
Harms, Craig Alan, Ph.D., Associate Professor, Department of Clinical Sciences
Harper, James Douglas, Ph.D., Professor, Entomology
Harrell, Cleon Wallace Jr., M.A., Associate Professor Emeritus of Economics and Business, Business Management
Harrell, Robert J., Ph.D., Adjunct Associate Professor, Animal Science
Harris, Gabriel Keith, Ph.D, Assistant Professor, Food Science
Harris, James Ray, D.V.M., Professor Emeritus of Poultry Science, Poultry Science
Harris, William Charles, Ph.D., Professor Emeritus of History, History
Harrison, Antony Howard, Ph.D., Professor, English
Harrison, William C., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
Harrolle, Michelle Gacio, PhD, Assistant Professor, Parks, Recreation and Tourism Management
Harrysson, Ola, PhD, Associate Professor, Industrial Engineering
• Hart, Clarence Arthur, Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
• Hart, Franklin Delano, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Hart, Peter W., PhD, Adjunct Associate Professor, Wood and Paper Science
• Hartwig, Robert Eduard, Ph.D., Professor, Mathematics
• Harvey, Raymond W., Ph.D., Professor Emeritus of Animal Science, Animal Science
• Harwood, Karey A., PhD, Assistant Professor, Philosophy and Religion
• Haskett, Mary Elizabeth, Ph.D., Associate Professor, Psychology
• Hassan, Awatif El-Domiaty, Ph.D., Professor, Forestry
• Hassan, Hassan Ahmad, Ph.D., Graduate Alumni Distinguished Professor, Mechanical and Aerospace Engineering
• Hassan, Hosni Moustafa, Ph.D., Professor, Microbiology
• Hassan, Tasnim, Ph.D., Associate Professor, Civil Engineering
• Hatch, L. Upton, PhD, Research Professor, Economics
• Hatchell, Susan, MR, Visiting Assistant Professor, Landscape Architecture
• Hatcher, Timothy G., EDD, Associate Professor, Adult and Higher Education
• Hauck, Marlene L., Ph.D., Assistant Professor, Department of Clinical Sciences
• Haugh, Jason M., Ph.D., Associate Professor, Chemical Engineering
• Hauser, Elizabeth R., PhD, Adjunct Associate Professor, Statistics
• Hauser, John Reid, Ph.D., Distinguished Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
• Hauser, Peter J., Ph.D., Professor, Textile Engineering, Chemistry, and Science
• Havell, Edward A., Ph.D., Research Professor, Population Health & Pathobiology
• Havenstein, Gerald B., Ph.D., Professor Emeritus of Poultry Science, Poultry Science
• Havlin, John L., Ph.D., Professor, Soil Science
• Havner, Kerry Shuford, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Hawai, Ayman I., PhD, Associate Professor, Nuclear Engineering
• Hawkins, Eleanor C., D.V.M., Professor, Department of Clinical Sciences
• Hawkins, Mary Beth, PhD, Assistant Professor, Zoology
• Haynie, William J. III, Ph.D., Professor, Mathematics, Science, & Technology Education
• Hazel, Dennis, PhD, Associate Professor, Forestry
• He, Lin, PhD, Assistant Professor, Chemistry
• He, Ruoying, PhD, Associate Professor, Marine, Earth, and Atmospheric Sciences
• Heade, Alvin E. Jr., Ph.D., Associate Professor, Economics
• Healey, Christopher G., Ph.D., Associate Professor, Computer Science
• Heatwole, Harold Franklin, Ph.D., Professor, Zoology
• Heber, Steffen, PhD, Assistant Professor, Computer Science
• Hebrank, John H., Ph.D., Adjunct Associate Professor, Mechanical and Aerospace Engineering
• Heck, Walter Webb, Ph.D., Professor Emeritus of Botany, Plant Biology
• Hedlund, Kye S., PhD, Adjunct Associate Professor, Entomology
• Heggen-Peay, Cherilyn Louise, PhD, Adjunct Assistant Professor, Poultry Science
• Heimbach, Clinton Louis, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Heiniger, Ronnie W., Ph.D., Professor, Crop Science
• Heise, Ryan W, PhD, Adjunct Assistant Professor, Zoology
• Heitman, Joshua L., PhD, Assistant Professor, Soil Science
• Heitmann, John A. Jr., Ph.D., Professor, Wood and Paper Science
• Helminck, Aloysius Gerardus, Ph.D., Professor, Mathematics
• Hemenway, Cynthia L., Ph.D., Professor, Biochemistry
• Henard, David H, PhD, Associate Professor, Business Management
• Henderson, Karla A., PhD, Professor, Parks, Recreation and Tourism Management
• Henderson, Warren Robert, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Henderson, Wesley, PhD, Assistant Professor, Chemical Engineering
• Hentz, Forrest Clyde Jr., Ph.D., Professor Emeritus of Chemistry, Chemistry
• Herbert, David Ames Jr., Ph.D., Adjunct Associate Professor, Entomology
• Hergeth, Helmut H. A., Ph.D., Associate Professor, Textile and Apparel Management
• Hersh, Patricia, PhD, Assistant Professor, Mathematics
Hersh, Solomon Philip, Ph.D., Professor Emeritus of Textile Engineering, Chemistry, Textile Engineering, Chemistry, and Science
Hess, George R., Ph.D., Associate Professor, Forestry
Hess, Paul R., DVM, Assistant Professor, Veterinary Medicine
Hess, Thomas M., Ph.D., Professor, Psychology
Hessling, Peter A., PhD, Assistant Professor, Educational Leadership and Policy Studies
Hester, Marvin Thomas, Ph.D., Professor, English
Hesterberg, Dean L. R., Ph.D., Professor, Soil Science
Hibbard, James P., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Hightower, Joseph E., Ph.D., Professor (USDI/USFS), Zoology
Hill, Charles Horace, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
Hill, David Brian, MAR, Assistant Professor, Architecture
Hillmann, Ruediger Carl, Ph.D., Associate Professor Emeritus of Entomology, Entomology
Hinesley, Lewis Eric, Ph.D., Professor, Horticultural Science
Hinestroza, Juan Paulo, PhD, Adjunct Assistant Professor, Chemical Engineering
Hinks, David, Ph.D., Associate Professor, Textile Engineering, Chemistry, and Science
Hinshaw, Jeffrey M., Ph.D., Associate Professor, Zoology
Hoban, Thomas J., Ph.D., Professor, Sociology and Anthropology
Hobbs, Alexander O, PhD, Visiting Assistant Professor, Mechanical and Aerospace Engineering
Hobbs, Heidi H., Ph.D., Associate Professor, Political Science and Public Administration
Hobbs, Joseph Patrick, Ph.D., Professor Emeritus of History, History
Hobgood, Thomas N. Jr., Ph.D., Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
Hockett, Mitchell E., PhD, Assistant Professor, Animal Science
Hodge, Gary R., Ph.D., Research Associate Professor, Forestry
Hodge, George L., Ph.D., Associate Professor, Textile and Apparel Management
Hodges, Charles S. Jr., Ph.D., Visiting Professor, Plant Pathology
Hodgson, Ernest, Ph.D., Distinguished Professor Emeritus, Toxicology
Hodgson, Thom Joel, Ph.D., James T. Ryan Professor and Distinguished University Professor, Industrial Engineering
Hodgson, Thomas H., Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
Hoening, John M., Ph.D., Adjunct Associate Professor, Statistics
Hofelt, Christopher S., PhD, Assistant Professor, Toxicology
Hoffman, Jacquelyn B, PhD, Assistant Professor, Poultry Science
Hoffmann, William A., PhD, Assistant Professor, Plant Biology
Holcomb, Lori B., PhD, Assistant Professor, Curriculum and Instruction
Holden, Debra J., Ph.D., Adjunct Assistant Professor, Psychology
Holland, James Brendan, Ph.D., Professor (USDA), Crop Science
Hollebrands, Karen, Ph.D., Associate Professor, Mathematics, Science, & Technology Education
Holley, Daniel Lester Jr., Ph.D., Professor Emeritus, Forestry
Holley, Grant, PhD, Visiting Assistant Professor, Mathematics, Science, & Technology Education
Holley, Linda Tarte, Ph.D., Professor Emeritus of English, English
Hollmann, Thomas, PhD, Assistant Professor, Business Management
Holmes, Gerald J., Ph.D., Associate Professor, Plant Pathology
Holmes, Thomas P., Ph.D., Adjunct Assistant Professor, Forestry
Holt, Teddy, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Holthausen, Duncan McClave Jr., Ph.D., Professor Emeritus of Economics and Business, Economics
Holton, William C., Ph.D., Research Professor, Electrical and Computer Engineering
Holtzman, Abraham, Ph.D., Professor Emeritus of Political Science and Public Administration, Political Science and Public Administration
Honeycutt, Ronald, PhD, Adjunct Assistant Professor, Curriculum and Instruction
Honeycutt, Thomas Lynn, Ph.D., Associate Professor, Computer Science
Hong, Hoon, Ph.D., Professor, Mathematics
Hooker, Deborah Anne, PhD, Assistant Professor, English
Hooker, Willard E., M.L.A.R., Professor, Horticultural Science
- Hooper, Percy R., M.P.D., Associate Professor, Industrial Design
- Hoover, Maurice William, Ph.D., Professor Emeritus of Food Science, Food Science
- Hoover, Michael T., Ph.D., Professor, Soil Science
- Hopfenberg, Harold Bruce, Ph.D., Camille Dreyfus Professor, Chemical Engineering
- Hopkins, Brinton A., Ph.D., Professor, Animal Science
- Hopkins, Thomas Sawyer, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
- Horie, Yasuyuki, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
- Horowitz, Jonathan M., Ph.D., Associate Professor, Molecular Biomedical Sciences
- Horton, Horace Robert, Ph.D., Professor Emeritus of Biochemistry, Biochemistry
- Hoss, Donald Earl, Ph.D., Adjunct Professor, Zoology
- Howard, Kristina E., PhD, Research Assistant Professor, Veterinary Medicine
- Hoyt, Greg D., Ph.D., Professor, Soil Science
- Hsiang, Simong M., PhD, Associate Professor, Industrial Engineering
- Hsiao, Henry, Ph.D, Adjunct Professor, Biomedical Engineering
- Hu, Shuijin, Ph.D., Associate Professor, Plant Pathology
- Huang, Alex, PhD, Alcoa Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
- Huang, Jeng-Sheng, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
- Hubbe, Martin A., Ph.D., Professor, Wood and Paper Science
- Hubbell, Bryan, PhD, Adjunct Assistant Professor, Economics
- Hubisz, John L., Ph.D., Visiting Professor, Physics
- Hudson, Lola C., Ph.D., Associate Professor, Molecular Biomedical Sciences
- Hudson, Peyton Blanche, Ph.D., Associate Professor Emeritus, Textile and Apparel Management
- Hudson, Samuel Mack, Ph.D., Professor, Textile Engineering, Chemistry, and Science
- Huff, Lois, PhD, Adjunct Assistant Professor, Curriculum and Instruction
- Huffman, Paul, PhD, Professor, Physics
- Huffman, Rodney L., Ph.D., Associate Professor, Biological and Agricultural Engineering
- Hughes, Brian L., Ph.D., Professor, Electrical and Computer Engineering
- Hughes-Oliver, Jacqueline M., Ph.D., Professor, Statistics
- Hummer, Joseph Edmund, Ph.D., Professor, Civil Engineering
- Humphrey, David Gene, PhD, Adjunct Assistant Professor, Industrial Engineering
- Humphries, Ervin Grigg, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
- Hunt, Louis D. Jr., Ph.D., Adjunct Assistant Professor, Adult and Higher Education
- Hunt, William Fredrick III, PhD, Assistant Professor, Biological and Agricultural Engineering
- Huntington, Gerald B., Ph.D., Associate Professor, Animal Science
- Hurban, Patrick, PhD, Adjunct Assistant Professor, Genetics
- Hyman, David Neil, Ph.D., Professor, Economics
- Hyman, Michael R., Ph.D., Associate Professor, Microbiology
- Iafrate, Gerald J., PhD, Professor, Electrical and Computer Engineering
- Iafrate, John, PhD, Adjunct Associate Professor, Forestry
- Ingram, Jason, PhD, Assistant Professor, Communication
- Inoue, Atsushi, Ph.D., Associate Professor, Economics
- Ipsi, Ilse, Ph.D., Professor, Mathematics
- Irving, Doug, Ph.D, Assistant Professor, Materials Science and Engineering
- Isik, Fikret, PhD, Research Assistant Professor, Forestry
- Isele, Thomas G., Ph.D., Professor, Crop Science
- Ison, Elon A., PhD, Assistant Professor, Chemistry
- Israel, Daniel Wesley, Ph.D., Professor (USDA), Soil Science
- Istook, Cynthia L., Ph.D., Associate Professor, Textile and Apparel Management
- Ito, Kazufumi, D.Sc., Professor, Mathematics
- Ives, Robert Lawrence, PhD, Adjunct Professor, Mathematics
- Ivors, Kelly L., PhD, Assistant Professor, Plant Pathology
- Ivy, Julie Simmons, PhD, Assistant Professor, Industrial Engineering

• Levin, Harold D., Ph.D., Associate Professor, Philosophy and Religion
• Levine, Jay F., D.V.M., Professor, Population Health & Pathobiology
• Levings, Charles Sanford III, Ph.D., Distinguished University Professor and William Neal Reynold Professor Emeritus, Genetics
• Levy, Michael G., Ph.D., Professor, Population Health & Pathobiology
• Lewbart, Gregory A., V.M.D., Associate Professor, Department of Clinical Sciences
• Lewis, Ramsey, PhD, Assistant Professor, Crop Science
• Lewis, William Mason, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Lewitus, Alan J., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Ley, David Henry, Ph.D., Professor, Population Health & Pathobiology
• Li, Bailian, Ph.D., Research Professor, Forestry
• Li, Lexin, PhD, Assistant Professor, Statistics
• Li, Yi-Ju, PhD, Adjunct Assistant Professor, Statistics
• Li, Zhilin, Ph.D., Professor, Mathematics
• Lichtenwalner, Dan J., PhD, Research Assistant Professor, Materials Science and Engineering
• Ligon, James M., Ph.D., Adjunct Associate Professor, Microbiology
• Liles, Richard Terry, Ed.D., Associate Professor Emeriti, Agricultural and Extension Education
• Lilley, Stephen Charles, Ph.D., Associate Professor, Sociology and Anthropology
• Lilly, John Paul, M.S., Associate Professor Emeritus of Soil Science, Soil Science
• Lim, Phooi K., Ph.D., Professor, Chemical Engineering
• Lin, Weili, PhD, Adjunct Professor, Biomedical Engineering
• Lin, Xiao-Biao, Ph.D., Professor, Mathematics
• Linak, William Patrick, PhD, Adjunct Professor, Mechanical and Aerospace Engineering
• Lindbo, David L., Ph.D., Associate Professor, Soil Science
• Linder, Keith E, PhD, Assistant Professor, Population Health & Pathobiology
• Lindsay, Edwin, EdD, Assistant Professor, Parks, Recreation and Tourism Management
• Lindsey, Jonathan Sidney, Ph.D., Glaxo Distinguished University Professor, Chemistry
• Lindsey, Patricia Ann, Ph.D., Assistant Professor, Horticultural Science
• Lindstrom, Richard M., Ph.D., Adjunct Professor, Nuclear Engineering
• Linker, Harry Michael, Ph.D., Professor Emeritus of Crop Science and Entomology, Crop Science
• Linnehan, Richard, D.V.M., Visiting Assistant Professor, Department of Clinical Sciences
• Linnerud, Ardell Chester, Ph.D., Associate Professor Emeritus of Statistics, Statistics
• Lipscomb, Hester, PhD, Adjunct Assistant Professor, Industrial Engineering
• Lisk, Thomas David, Ph.D., Professor, English
• List, George F., PhD, Professor, Civil Engineering
• Litaker, R. Wayne, PhD, Adjunct Associate Professor, Department of Clinical Sciences
• Little, Trevor John, Ph.D., Professor, Textile and Apparel Management
• Littlejohn, Michael Anthony, Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Liu, Hsiao-Ching, PhD, Assistant Professor, Animal Science
• Liu, Jingpu, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Liu, Min, PhD, Assistant Professor, Civil Engineering
• Liu, Rong, PhD, Visiting Assistant Professor, Textile and Apparel Management
• Liu, Xun, PhD, Assistant Professor, Electrical and Computer Engineering
• Livengood, Charles Dwaine, Ed.D., Professor Emeritus, Textile Engineering, Chemistry, and Science
• Livingston, David P. III, Ph.D., Associate Professor (USDA), Crop Science
• Lloyd, Alun L., PhD, Associate Professor, Mathematics
• Loba, Elizabeth G, PhD, Assistant Professor, Biomedical Engineering
• Locke, Don D., EdD, Professor Emeritus, Curriculum and Instruction
• Locklear, Eddie L., EdD, Associate Professor, 4H Youth Development
• Loepert, Richard Henry, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Loftis, David L., Ph.D., Adjunct Associate Professor, Forestry
• Lomax, Terri L., PhD, Professor, Plant Biology
• Lommel, Steven A., Ph.D., William Neal Reynolds Professor, Plant Pathology
• Long, Raymond Carl, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Longmuir, Ian Stewart, M.B.B., Professor Emeritus of Biochemistry, Biochemistry
• Loomis, Michael R., D.V.M., Adjunct Associate Professor, Department of Clinical Sciences
• Losordo, Thomas M., Ph.D., Professor, Biological and Agricultural Engineering
• Louws, Frank J., Ph.D., Associate Professor, Plant Pathology
• Lowrey, Austin Sheridan, M.A.A., Professor Emeritus of Graphic Design, Graphic Design
• Lu, Wenbin, PhD, Assistant Professor, Statistics
• Lu, Wenchang, PhD, Research Assistant Professor, Physics
• Lubischer, Jane L., Ph.D., Assistant Professor, Zoology
• Lubkin, Sharon R., Ph.D., Professor, Mathematics
• Lucas, Carol N., PhD, Adjunct Professor, Biomedical Engineering
• Lucas, Debra Jan Willis, PhD, Assistant Professor, Curriculum and Instruction
• Lucas, Leon Thomas, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Lucia, Lucian, PhD, Associate Professor, Wood and Paper Science
• Luckadoo, Timothy R., Ph.D., Adjunct Assistant Professor, Adult and Higher Education
• Lucovsky, Gerald, Ph.D., University Professor, Physics
• Luginbuhl, Geraldine H., Ph.D., Professor, Microbiology
• Luginbuhl, James Emory Robinson, Ph.D., Professor Emeritus of Psychology, Psychology
• Luginbuhl, Jean-Marie, Ph.D., Professor, Crop Science
• Luh, Jiang, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Lukic, Srdjan, PhD, Assistant Professor, Electrical and Computer Engineering
• Lunardi, Leda, PhD, Professor, Electrical and Computer Engineering
• Luo, Hong, PhD, Associate Professor, Mechanical and Aerospace Engineering
• Luo, Ren-Chyuan, Ph.D., Adjunct Professor, Electrical and Computer Engineering
• Luo, Tzy-Jiun Mark, PhD, Assistant Professor, Materials Science and Engineering
• Luphton-Smith, Helen, Ph.D., Visiting Assistant Professor, Educational Leadership and Policy Studies
• Luria, Keith Phillip, Ph.D., Professor, History
• Lutz, Michael W., PhD, Adjunct Assistant Professor, Statistics
• Lyons, Kevin M., Ph.D., Professor, Mechanical and Aerospace Engineering
• Lytle, Charles F., Ph.D., Professor, Zoology

• Ma, Xiaosong, PhD, Assistant Professor, Computer Science
• Mabrito, Robert A., PhD, Assistant Professor, Philosophy and Religion
• MacDonald, Jeffrey M, PhD, Adjunct Assistant Professor, Biomedical Engineering
• Mackay, Trudy Frances, Ph.D., William Neal Reynolds Professor and Distinguished University Professor, Genetics
• Mackenzie, John M. Jr., Ph.D., Professor, Microbiology
• MacKethan, Lucinda Hardwick, Ph.D., Professor, English
• MacNair, Douglas, PhD, Adjunct Assistant Professor, Economics
• Magallanes, Fernando Hernandez, M.L.A., Associate Professor, Landscape Architecture
• Maggard, Paul, PhD, Assistant Professor, Chemistry
• Maggi, Ricardo G, PhD, Research Assistant Professor, Department of Clinical Sciences
• Magill, Michele M., Ph.D., Associate Professor, Foreign Languages and Literatures
• Maguire, Rory O., PhD, Adjunct Assistant Professor, Poultry Science
• Mahaffey, James W., Ph.D., Professor, Genetics
• Mahinthakumar, Gnanamanikam, Ph.D., Associate Professor, Civil Engineering
• Maier, Chris, PhD, Adjunct Assistant Professor, Forestry
• Main, Charles Edward, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Mainland, Charles Michael, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Malarkey, David E., Ph.D., Adjunct Assistant Professor, Population Health & Pathobiology
• Malecha, Marvin J., M.ARC., Professor, Architecture
• Mallette, Bruce Ingram, Ed.D, Adjunct Associate Professor, Adult and Higher Education
• Maltecca, Christian, PhD, Assistant Professor, Animal Science
• Manfra, Meghan M, Phd, Assistant Professor, Curriculum and Instruction
• Marcellin-Little, Denis J., D.V.M., Assistant Professor, Department of Clinical Sciences
• Marchi, Dudley Michael, Ph.D., Associate Professor, Foreign Languages and Literatures
• Margolis, Stephen E., Ph.D., Professor, Economics
• Mari, Jorge, Ph.D., Associate Professor, Foreign Languages and Literatures
• Maria, Jon-Paul, Ph.D., Associate Professor, Materials Science and Engineering
• Mariani, Christopher L., PhD, Assistant Professor, Department of Clinical Sciences
• Markham, Stephen Keith, M.B.A., Associate Professor, Business Management
• Marks, Dianne, DVM, Associate Professor, Veterinary Medicine
• Marks, Steven L., BVSc, Associate Professor, Veterinary Medicine
• Marlin, Joe Alton, Ph.D., Professor of Mathematics, Mathematics
• Marra, Michele C., Ph.D., Professor, Economics
• Marshall, David S., PhD, Professor (USDA), Plant Pathology
• Marshall, Patricia L., Ed.D., Professor, Curriculum and Instruction
• Martin, David W., Ph.D., Professor, Psychology
• Martin, Donald, PhD, Associate Professor, Statistics
• Martin, Eden R., PhD, Adjunct Assistant Professor, Statistics
• Martin, James D., Ph.D., Professor, Chemistry
• Martin, Leroy Brown Jr., Ph.D., Professor Emeritus, Mathematics
• Martin, Michael, MPVM, Assistant Professor, Population Health & Pathobiology
• Martin, Pamela P., PhD, Assistant Professor, Psychology
• Martin, Robert H. Jr., Ph.D., Professor, Mathematics
• Masnari, Nino A., Ph.D., Distinguished Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
• Mathews, Kyle G., D.V.M., Assistant Professor, Department of Clinical Sciences
• Mathies, Laura D, PhD, Assistant Professor, Genetics
• Matthews, Brian, EdD, Assistant Professor, Mathematics, Science, & Technology Education
• Matthews, Daniel Wayne, PhD, Associate Professor, Human Development & Family Studies
• Mattos, Carla, Ph.D., Associate Professor, Biochemistry
• Matzen, Vernon Charles, Ph.D., Professor, Civil Engineering
• Matzinger, Dale Frederick, Ph.D., Professor Emeritus of Genetics, Genetics
• Maxa, Edward L., PhD, Associate Professor, 4H Youth Development
• Maxwell, Earl Stuart, Ph.D., Professor, Biochemistry
• May, Leila Silvana, Ph.D., Associate Professor, English
• Mayhew, Christopher B., PhD, Assistant Professor, Psychology
• Mazzoleni, Andre P., PhD, Associate Professor, Mechanical and Aerospace Engineering
• McAllister, David Franklin, Ph.D., Professor, Computer Science
• McArtney, Steven J., PhD, Associate Professor, Horticultural Science
• McCan, Patricia Lou, Ph.D., Professor, Sociology and Anthropology
• McCants, Charles Bernard, Ph.D., Professor Emeritus of Soil Science, No Dept. Abbr
• McCarty, Gregory S., Ph.D, Assistant Professor, Biomedical Engineering
• McCaw, Monte Bruce, Ph.D., Associate Professor, Population Health & Pathobiology
• McClelland, Roger O., DVM, Adjunct Professor, Toxicology
• McCleland-Green, Patricia D., PhD, Research Assistant Professor, Toxicology
• McClelland, Jacquelyn W., Ph.D., Professor, Human Development & Family Studies
• McClen, William Fred, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• McConnell, Davis, PhD, Professor, Marine, Earth, and Atmospheric Sciences
• McCord, Marian Gayle, Ph.D., Associate Professor, Textile Engineering, Chemistry, and Science
• McCorkle, Jill, MA, Professor, English
• McCraw, Roger L., Ph.D., Professor, Animal Science
• McCreery, John K., Ph.D., Associate Professor, Business Management
• Mc Culloch, Allison, PhD, Assistant Professor, Mathematics, Science, & Technology Education
• McCulloch, Scott D., PhD, Assistant Professor, Toxicology
• McDaniel, Ellen, PhD, Visiting Associate Professor, Industrial Engineering
• McDermed, Elizabeth Ann, Ph.D., Associate Professor Emeritus of Business Management, Business Management
• McDonald, Steve, PhD, Assistant Professor, Sociology and Anthropology
• McElroy, Michael Bancroft, Ph.D., Associate Professor, Economics
• McFeeters, Roger Floyd, Ph.D., Professor (USDA), Food Science
• McGahan, Mary Christine, Ph.D., Research Professor, Molecular Biomedical Sciences
• McGraw, Darryl, Ph.D., Adjunct Assistant Professor, Adult and Higher Education
• McIntyre, Ellen, EdD, Professor, Curriculum and Instruction
• McKeand, Steven Edward, Ph.D., Professor, Forestry
• McKenzie, Wendell Herbert, Ph.D., Professor, Genetics
• McKinney, Thearon Thomas, Ph.D., Professor, 4H Youth Development
• McLaughlin, Anne C., PhD, Assistant Professor, Psychology
• McLaughlin, Gail, Ph.D., Associate Professor, Physics
• McLaughlin, Richard Allen, Ph.D., Associate Professor, Soil Science
• McMillan, W. Owen, PhD, Associate Professor, Genetics
• McMurry, Linda O., Ph.D., Professor Emeritus of History, History
• McNeilis, David N, PhD, Interinstitutional Faculty, Nuclear Engineering
• McNeill, John Joseph, Ph.D., Associate Professor Emeritus of Animal Science, Animal Science
• McNinch, Jesse E., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• McNulty, Steven G., Ph.D., Associate Professor (USDA), Forestry
• McRae, David Scott, Ph.D., Professor, Mechanical and Aerospace Engineering
• McTague, John Paul, Ph.D., Adjunct Professor, Forestry
• Meade, Adam Wesley, PhD, Assistant Professor, Psychology
• Medhin, Negash G, PhD, Professor, Mathematics
• Meeker, Rick, PhD, Adjunct Professor, Molecular Biomedical Sciences
• Megalos, Mark A., PhD, Assistant Professor, Forestry
• Meahlenbacher, Bradley S., Ph.D., Associate Professor, Adult and Higher Education
• Meilleur, Flora, PhD, Assistant Professor, Biochemistry
• Melander, Christian C., PhD, Assistant Professor, Chemistry
• Mell, Julie L., PhD, Assistant Professor, History
• Melton, Thomas A. III, Ph.D., Philip Morris Professor, Plant Pathology
• Memory, Jasper Durham, Ph.D., Professor Emeritus of Physics, Physics
• Mente, Peter Lawrence, Ph.D., Associate Professor, Biomedical Engineering
• Mercer, D. Evan, Ph.D., Adjunct Assistant Professor, Forestry
• Merrick, Bruce Alexander, PhD, Adjunct Associate Professor, Toxicology
• Mershon, Donald Hartland, Ph.D., Professor, Psychology
• Mertz, John Pierre, Ph.D., Associate Professor, Foreign Languages and Literatures
• Meskhidze, Nicholas, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Messura, Mark A., MA, Adjunct Associate Professor, Textile and Apparel Management
• Meuten, Donald J., Ph.D., Professor, Population Health & Pathobiology
• Meyer, Carl Dean Jr., Ph.D., Professor, Mathematics
• Meyer, John Richard, Ph.D., Professor, Entomology
• Meyers, Walter Earl, Ph.D., Professor Emeritus of English, English
• Michael, Joan J., Ph.D., Professor, Psychology
• Michielsen, Stephen, PhD, Associate Professor, Textile and Apparel Management
• Michnowicz, James, PhD, Assistant Professor, Foreign Languages and Literatures
• Mickael, Medhat W., PhD, Adjunct Professor, Nuclear Engineering
• Mickle, James Earl, Ph.D., Associate Professor, Plant Biology
• Middleton, Teena F., Ph.D., Adjunct Assistant Professor, Poultry Science
• Mila, Asimina, PhD, Assistant Professor, Plant Pathology
• Milburn, Lee Anne A, MLA, Assistant Professor, Landscape Architecture
• Milholland, Robert Donald, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Militello, Matt, PhD, Assistant Professor, Educational Leadership and Policy Studies
• Milla-Lewis, Susana, PhD, Research Assistant Professor, Crop Science
• Miller, Brent V., PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
• Miller, Carolyn Rae, Ph.D., SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media, English
• Miller, Eric S., Ph.D., Professor, Microbiology
• Miller, Grady, PhD, Professor, Crop Science
• Miller, Grover Cleveland, Ph.D., Professor Emeritus of Zoology, Zoology
• Miller, Howard George, Ph.D., Professor Emeritus of Psychology, Psychology
• Miller, Jason, PhD, Assistant Professor, English
• Miller, John Maurice, Ph.D., Professor, Zoology
• Miller, Richard T., Ph.D., Adjunct Associate Professor, Toxicology

Ojiambo, Peter, PhD, Assistant Professor, Plant Pathology
Olby, Natasha, PhD, Associate Professor, Veterinary Medicine
Oleksiak, Marjorie F., PhD, Adjunct Assistant Professor, Toxicology
Olf, Heinz G., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
Oliver, Kevin M., PhD, Assistant Professor, Curriculum and Instruction
Oliver-Hoyo, Maria Teresa, Ph.D., Associate Professor, Chemistry
Olivry, Thierry, D.Vet., Professor, Department of Clinical Sciences
Ollis, David F., Ph.D., Distinguished University Professor, Chemical Engineering
Olsen, Donna J., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
Olson, Jonathan W., PhD, Assistant Professor, Microbiology
Olson, Neil C., Ph.D., Professor, Molecular Biomedical Sciences
Olsson, Mats, PhD, Adjunct Professor, Forestry
Oltmans, Arnold W., Ph.D., Associate Professor, Economics
Olufsen, Mette, PhD, Associate Professor, Mathematics
Opperman, Charles H., Ph.D., Professor, Plant Pathology
Oppeval, Tom, EdD, Adjunct Associate Professor, Mathematics, Science, & Technology Education
Orgeron, Devin, Ph.D, Assistant Professor, English
Orgeron, Marsha, PhD, Assistant Professor, English
Orndorff, Paul E., Ph.D., Professor, Population Health & Pathobiology
• Pattanayak, Subhrendu, Ph.D., Visiting Assistant Professor, Forestry
• Patterson, Robert Preston, Ph.D., Professor, Crop Science
• Patty, Richard Roland, Ph.D., Professor Emeritus of Physics, Physics
• Paur, Sandra Orley, Ph.D., Associate Professor, Mathematics
• Pause, Michael, Ph.D., Professor, Art and Design
• Pawlak, Joel J., PhD, Associate Professor, Wood and Paper Science
• Payne, Gary Alfred, Ph.D., William Neal Reynolds Professor, Plant Pathology
• Payton, Fay Cobb, Ph.D., Associate Professor, Business Management
• Peace, Robert L., J.D., Professor, Accounting
• Peacock, Charles H., Ph.D., Professor, Crop Science
• Pearce, Douglas K., Ph.D., Professor, Economics
• Pearl, Thomas P., PhD, Assistant Professor, Physics
• Pearson, Richard Gustave, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Pearson, Ronald Gray, M.Eng., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
• Peasley, Donald D., PhD, Adjunct Assistant Professor, Agricultural and Extension Education
• Peck, Emily Mann, PhD, Adjunct Professor, Mathematics
• Peedin, Gerald Franklin, Ph.D., Professor Emeritus, Crop Science
• Peel, Judy C., Ph.D., Professor, Parks, Recreation and Tourism Management
• Peet, Mary M., Ph.D., Professor, Horticultural Science
• Pelletier, Denis, PhD, Assistant Professor, Economics
• Pendlebury, Michael J., PhD, Professor, Philosophy and Religion
• Penick, John E., Ph.D., Professor, Mathematics, Science, & Technology Education
• Pennell, Joan T., Ph.D., Professor, Social Work
• Pennington, Robin, PhD, Assistant Professor, Accounting
• Penrose, Ann M., Ph.D., Professor, English
• Peralta, Perry N., Ph.D., Associate Professor, Wood and Paper Science
• Perera, Imara Y., PhD, Research Assistant Professor, Plant Biology
• Peretti, Steven William, Ph.D., Associate Professor, Chemical Engineering
• Perez de Leon, Adalberto A., PhD, Adjunct Associate Professor, Entomology
• Perez-Diaz, Ilenys Muniz, PhD, Assistant Professor (USDA), Food Science
• Perkins, John Noble, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Perros, Harry G., Ph.D., Professor, Computer Science
• Perros, Helen C., PhD, Assistant Professor, History
• Perry, Jerome John, Ph.D., Professor Emeritus of Microbiology, Microbiology
• Peszlen, Ilona, PhD, Associate Professor, Wood and Paper Science
• Peters, Kara Jo, Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
• Peterson, M. Nils, PhD, Assistant Professor, Forestry
• Peterson, Richard Eric, Ed.D., Associate Professor Emeritus, Mathematics, Science, & Technology Education
• Peterson, Wilbur Carroll, Ph.D., Associate Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Petitte, James N., Ph.D., Professor, Poultry Science
• Petters, Robert M., Ph.D., Professor, Animal Science
• Pettitt, John Mark, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
• Petty, Ian Timothy Donald, Ph.D., Professor, Microbiology
• Phaneuf, Daniel J., Ph.D., Associate Professor, Economics
• Pharr, David Mason, Ph.D., Graduate Alumni Distinguished Professor Emeritus, Horticultural Science
• Phelan, Jennifer, PhD, Adjunct Assistant Professor, Forestry
• Philbrick, C. Russell, PhD, Adjunct Professor, Physics
• Phillips, Richard B., Ph.D., Adjunct Professor, Wood and Paper Science
• Phillips, Sharon Baker, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Phister, Trevor G., Phd, Assistant Professor, Food Science
• Picart, Jose A., PhD, Professor, Curriculum and Instruction
• Piedrafita, Santiago, MS, Associate Professor, Graphic Design
• Piedrahita, Jorge, PhD, Professor, Molecular Biomedical Sciences
• Pierce, Christine M., Ph.D., Professor, Philosophy and Religion
• Pietrafesa, Leonard Joseph, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Piggott, Nicholas E., Ph.D., Associate Professor, Economics
• Pilkington, Dwain H., Ph.D., Professor Emeritus of Food Science, Food Science
• Pisano, Etta D., PhD, Adjunct Professor, Biomedical Engineering
• Place, Jeffrey Wayne, Ph.D., Alumni Distinguished Professor of Architecture, Architecture
• Plume, Vita K., MR, Associate Professor, Art and Design
• Poindexter, Julius Carl Jr., Ph.D., Associate Professor, Business Management
• Poling, Edward Barclay, Ph.D., Professor, Horticultural Science
• Pollock, Kenneth Hugh, Ph.D., Professor, Statistics
• Pond, Samuel Barber III, Ph.D., Associate Professor, Psychology
• Ponder, Gerald, PhD, Professor, Curriculum and Instruction
• Poore, Matthew H., Ph.D., Professor, Animal Science
• Popdeyhimi, Behnam, Ph.D., William A. Klopman Distinguished Professor, Textile and Apparel Management
• Powell, Merle Autrey Jr., M.L.A., Professor Emeritus of Horticultural Science, Horticultural Science
• Powell, Nancy B., MFA, Associate Professor, Textile and Apparel Management
• Powell, Nathaniel T., Ph.D., Professor Emeritus, Plant Pathology
• Powell, Roger Allen, Ph.D., Professor, Zoology
• Prak, Anco Luning, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Pramaggiore, Maria, Ph.D., Associate Professor, English
• Prater, John Thomas, Ph.D., Adjunct Professor, Materials Science and Engineering
• Pratt, Shannon Elizabeth, PhD, Assistant Professor, Animal Science
• Prestemon, Jeffrey P., Ph.D., Adjunct Assistant Professor, Forestry
• Preston, Robert Julian, Ph.D., Adjunct Professor, Toxicology
• Prioli, Carmine Andrew, Ph.D., Professor, English
• Pritchard, Donald E., Ph.D., Visiting Professor, Animal Science
• Pritchard, Ruie Jane, Ph.D., Professor, Curriculum and Instruction
• Proctor, Charles Harry, Ph.D., Professor Emeritus of Statistics, Statistics
• Proctor, Dalton Ray, Ed.D., Professor Emeritus of Adult and Community College Education, 4H Youth Development
• Purrington, Suzanne Townsend, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Purugganan, Michael D., Ph.D., Adjunct Professor, Genetics
• Putcha, Mohan S., Ph.D., Professor, Mathematics

• Qu, Rongda, Ph.D., Professor, Crop Science
• Quay, Thomas Lavelle, Ph.D., Professor Emeritus of Zoology, Zoology
• Quesenberry, Charles Price, Ph.D., Professor Emeritus of Statistics, Statistics
• Quint, Stephen R., PhD, Adjunct Associate Professor, Biomedical Engineering

• Rabiei, Afsaneh, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Rahman, M. Shamimur, Ph.D., Professor, Civil Engineering
• Rajala, Sarah Ann, Ph.D., Professor, Electrical and Computer Engineering
• Raleigh, James Arthur, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
• Raman, Sethu, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Ramasubramanian, Melur K., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Ramsay, Robert Todd, Ph.D., Associate Professor Emeritus of Mathematics, Mathematics
• Rand, James Patrick, M.Arch., Alumni Distinguished Professor of Architecture and Director of Graduate Program, Architecture
• Ranjithan, S. Ranji, Ph.D., Professor, Civil Engineering
• Ranney, Thomas G., Ph.D., Professor, Horticultural Science
• Rao, Balaji, PhD, Assistant Professor, Chemical Engineering

247
• Ristaino, Jean Beagle, Ph.D., Professor, Plant Pathology
• Ritchie, David Frey, Ph.D., Professor, Plant Pathology
• Riviere, Jim Edmond, Ph.D., Burroughs Wellcome Distinguished Professor, Population Health & Pathobiology
• Rizkalla, Sami H., Ph.D., Distinguished Professor, Civil Engineering
• Ro, Paul II Hwan, Ph.D., Professor, Mechanical and Aerospace Engineering
• Robarge, Wayne Philip, Ph.D., Professor, Soil Science
• Roberson, Gary T., Ph.D., Associate Professor, Biological and Agricultural Engineering
• Roberts, George W., Sc.D., Professor Emeritus of Chemical Engineering, Chemical Engineering
• Roberts, John Frederick, Ph.D., Professor Emeritus of Zoology, Zoology
• Roberts, Malcolm Clive, Ph.D., Professor, Population Health & Pathobiology
• Roberts, Michael, PhD, Assistant Professor, Economics
• Roberts, Stephen D., Ph.D., Professor, Industrial Engineering
• Roberts, William L. IV, Ph.D., Professor, Mechanical and Aerospace Engineering
• Robertson, Dominique, Ph.D., Professor, Plant Biology
• Robertson, Ian Douglas, DVM, Assistant Professor, Molecular Biomedical Sciences
• Robertson, Robert LaFon, M.S., Professor Emeritus of Entomology, Entomology
• Robinson, Mendel Leno Jr., Ed.D, Associate Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
• Robison, Daniel J., Ph.D., Associate Professor, Forestry
• Robison, Odis Wayne, Ph.D., Professor, Animal Science
• Rodas, Daniel J., Ph.D., Adjunct Assistant Professor, Adult and Higher Education
• Rodman, Robert D., Ph.D., Professor, Computer Science
• Rodriguez, Jesus, Ph.D., Associate Professor, Mathematics
• Rodriguez-Puebla, Marcelo, PhD, Assistant Professor, Molecular Biomedical Sciences
• Roe, Richard Michael, Ph.D., William Neal Reynolds Professor of Entomology and Toxicology, Entomology
• Roe, Simon Charles, Ph.D., Associate Professor, Department of Clinical Sciences
• Roelle, Paul A., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Rohrbach, Roger Phillip, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Roise, Joseph P., Ph.D., Professor, Forestry
• Rojas, Orlando J., PhD, Associate Professor, Wood and Paper Science
• Roland, Christopher M., Ph.D., Professor, Physics
• Rollins, Yvonne Bargues, Ph.D., Professor, Foreign Languages and Literatures
• Rose, Robert B, PhD, Associate Professor, Biochemistry
• Ross, Ann H., PhD, Associate Professor, Sociology and Anthropology
• Ross, John Paul, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Rossetti, Christian, PhD, Assistant Professor, Business Management
• Rotenberg, Eric, Ph.D., Associate Professor, Electrical and Computer Engineering
• Rotunno, Richard, PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
• Rouphail, Nagui M., Ph.D., Professor, Civil Engineering
• Roush, Bill, PhD, Adjunct Professor, Poultry Science
• Rouskas, George N., Ph.D., Professor, Computer Science
• Rowe, John E., Ph.D., Research Professor, Physics
• Royster, Larry Herbert, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Rozgonyi, George A., Ph.D., Professor, Materials Science and Engineering
• Rozier, Samantha, PhD, Assistant Professor, Parks, Recreation and Tourism Management
• Rubilar, Rafael, PhD, Adjunct Assistant Professor, Forestry
• Rubin, Albert Robert, Ed.D, Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Rubin, Eva Redfield, Ph.D., Professor Emeritus of Political Science and Public Administration, Political Science and Public Administration
• Rufty, Rebeca C., Ph.D., Professor, Crop Science
• Rufty, Thomas W. Jr., Ph.D., Professor, Crop Science
• Rushing, John E., Ph.D., Professor, Food Science
• Russell, Burton L., Ph.D., Associate Professor Emeritus of Communication, Communication
• Russell, Dale A., Ph.D., Research Professor Emeritus, Marine, Earth, and Atmospheric Sciences
• Russell, Phillip E., Ph.D., Professor, Materials Science and Engineering
• Rust, Jon Paul, Ph.D., Professor, Textile Engineering, Chemistry, and Science

• Sabornie, Edward J., Ph.D., Professor, Curriculum and Instruction
• Sack, Ronald Herbert, Ph.D., Professor, History
• Safley, Charles D., Ph.D., Professor, Economics
• Safley, Lawson McKinney, Ph.D., Adjunct Professor, Biological and Agricultural Engineering
• Safrit, R. Dale, Ed.D, Professor, Curriculum and Instruction
• Sagui, Maria Celeste, Ph.D., Associate Professor, Physics
• Sair, Suleyman, PhD, Assistant Professor, Electrical and Computer Engineering
• Saker, Korinn, PhD, Associate Professor, Molecular Biomedical Sciences
• Saloni, Daniel, PhD, Visiting Professor, Wood and Paper Science
• Salstad, Mary Louise, Ph.D., Associate Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literatures
• Samatova, Nagiza, PhD, Associate Professor, Computer Science
• Sanchez, Felipe Garza, Ph.D., Adjunct Assistant Professor, Forestry
• Sanchez, Pedro A., Ph.D., Professor Emeritus of Soil Science and Forestry, Soil Science
• Sandeen, Kandyian P., Ph.D., Associate Professor, Food Science
• Sanders, Michael Gary, Ph.D., Adjunct Associate Professor, Psychology
• Sanders, Timothy H., Ph.D., Professor (USDA), Food Science
• Sanii, Ezat T., Ph.D., Associate Professor, Industrial Engineering
• Sannes, Phillip L., Ph.D., Professor, Molecular Biomedical Sciences
• Santiso, Erik Emilio, PhD, Adjunct Assistant Professor, Chemical Engineering
• Sargent, Frank Dorrance, Ph.D., Professor Emeritus, Animal Science
• Saucier, Walter Joseph, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
• Savage, Carla D., Ph.D., Professor, Computer Science
• Saveliev, Alexei, PhD, Associate Professor, Mechanical and Aerospace Engineering
• Sawhney, Man Mohan, Ph.D., Professor Emeritus, Sociology and Anthropology
• Sawyers, Roby Blake, Ph.D., Professor, Accounting
• Scales, Alice Y., EdD, Visiting Assistant Professor, Mathematics, Science, & Technology Education
• Scandalios, John G., Ph.D., Distinguished University Professor Emeritus, Genetics
• Scattergood, Ronald Otto, Sc.D., Professor, Materials Science and Engineering
• Scearce, J. Mark, PhD, Associate Professor, No Dept. Abbr
• Schaefer, Thomas, PhD, Professor, Physics
• Schaffer, Henry Elkin, Ph.D., Professor Emeriti, Genetics
• Schaffer, Kristen, PhD, Associate Professor, Architecture
• Schal, Coby, Ph.D., Blanton J. Whitmire Distinguished Professor, Entomology
• Schanz, Stephen, PhD, Assistant Professor, Business Management
• Scharton, Terry D., DS, Adjunct Professor, Mechanical and Aerospace Engineering
• Schecter, Stephen, Ph.D., Professor, Mathematics
• Schetzina, Jan Frederick, Ph.D., Professor Emeritus of Electrical and Computer Engineering and Physics, Electrical and Computer Engineering
• Schiller, Anne L., Ph.D., Professor, Sociology and Anthropology
• Schleger, William E., Ph.D., Adjunct Professor, Psychology
• Schlosser, Paul M., Ph.D., Adjunct Professor, Mathematics
• Schmid, D. Neil, PhD, Assistant Professor, Philosophy and Religion
• Schoen, LaTefy, PhD, Assistant Professor, Educational Leadership and Policy Studies
• Scholle, Frank, PhD, Assistant Professor, Microbiology
• Schrag, Robert L., Ph.D., Professor, Communication
• Schramme, Michael, PhD, Associate Professor, Veterinary Medicine
• Schreiner, Anton Franz, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Schrimper, Ronald Arthur, Ph.D., Professor Emeritus of Agricultural and Resource Economics, Economics
• Schroeder-Moreno, Michelle, PhD, Assistant Professor, Crop Science
• Schuler, Jamie L., Ph.D, Adjunct Assistant Professor, Forestry
• Schulman, Michael D., Ph.D., William Neal Reynolds Professor Sociology, Sociology and Anthropology
• Schulte, Ann C., Ph.D., Associate Professor, Psychology
• Schultheis, Jonathan Richard, Ph.D., Professor, Horticultural Science
• Schurig, David, PhD, Assistant Professor, Electrical and Computer Engineering
• Schwalbe, Michael L., Ph.D., Professor, Sociology and Anthropology
• Schwartz, Steven J., Ph.D., Professor Emeritus of Food Science, Food Science
• Schweitzer, Mary H., PhD, Associate Professor, Marine, Earth, and Atmospheric Sciences
• Scofield, Martha, M.F.A., Professor, Graphic Design
• Scroggs, Jeffrey S., Ph.D., Associate Professor, Mathematics
• Seagondollar, Lewis Worth, Ph.D., Professor Emeritus of Physics, Physics
• Seater, John Joseph, Ph.D., Professor, Economics
• Sederoff, Heike Inge Ada, PhD, Assistant Professor, Plant Biology
• Sederoff, Ronald R., Ph.D., Edwin F. Conger Professor and Distinguished University Professor, Forestry
• Sedransk, Nell, PhD, Research Professor, Statistics
• See, Miles Todd, Ph.D., Professor, Animal Science
• Seelecke, Stefan, PhD, Associate Professor, Mechanical and Aerospace Engineering
• Selgrade, James Francis, Ph.D., Professor, Mathematics
• Selgrade, Mary Jane, Ph.D., Adjunct Professor, Population Health & Pathobiology
• Seltmann, Heinz, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Semazzi, Fredrick H. M., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Seneca, Ernest Davis, Ph.D., Professor Emeritus of Botany, Plant Biology
• Sequeira, Ron, PhD, Adjunct Associate Professor, Entomology
• Seracino, Rudolf, PhD, Associate Professor, Civil Engineering
• Serow, Robert C., Ph.D., Professor, Educational Leadership and Policy Studies
• Setzer, Sharon M., Ph.D., Associate Professor, English
• Severin, Laura R., Ph.D., Professor, English
• Seyam, Abdelfattah M., Ph.D., Professor, Textile and Apparel Management
• Shah, Sanjay, PhD, Assistant Professor, Biological and Agricultural Engineering
• Shamey, Renzo, PhD, Associate Professor, Textile Engineering, Chemistry, and Science
• Shane, Simon M., PhD, Adjunct Professor, Poultry Science
• Shannon, Steven, PhD, Associate Professor, Nuclear Engineering
• Sharma, Ratna, PhD, Assistant Professor, Biological and Agricultural Engineering
• Shaw, Ping-Tung, Ph.D., Associate Professor, Marine, Earth, and Atmospheric Sciences
• Shea, Damian, Ph.D., Professor, Toxicology
• Shear, Theodore Henry, Ph.D., Associate Professor, Forestry
• Shearer, Michael, Ph.D., Professor, Mathematics
• Shearon, Ronald Wilson, Ed.D., Professor Emeriti, Agricultural and Extension Education
• Sheets, Thomas J., Ph.D., Professor Emeritus, Toxicology
• Sheldon, Brian W., Ph.D., Professor Emeritus of Food Science and Poultry Science, Poultry Science
• Shelley, Rowland M., Ph.D., Adjunct Associate Professor, Zoology
• Sheppard, John D., PhD, Professor, Food Science
• Sherk, Julie, MLA, Adjunct Assistant Professor, Landscape Architecture
• Sherry, Barbara, Ph.D., Professor, Molecular Biomedical Sciences
• Shertzer, Kyle W., PhD, Adjunct Assistant Professor, Zoology
• Sherwood, Bruce, PhD, Distinguished Educator in Residence, Physics
• Shew, Barbara B, PhD, Research Assistant Professor, Plant Pathology
• Shew, Howard David, Ph.D., Professor, Plant Pathology
• Shi, Wei, PhD, Associate Professor, Soil Science
• Shiffler, Donald, Ph.D., Adjunct Associate Professor, Textile and Apparel Management
• Shih, Jason C. H., Ph.D., Professor, Poultry Science
• Shim, Eunkyoung, PHD, Visiting Assistant Professor, Textile and Apparel Management
• Shimura, Fumio, Ph.D., Adjunct Professor, Materials Science and Engineering
• Shoemaker, Paul Beck, Ph.D., Philip Morris Professor Emeritus, Plant Pathology
• Smith, Ralph C., Ph.D., Professor, Mathematics
• Smith, V. Kerry, Ph.D., University Distinguished Professor, Economics
• Smith, William Adams Jr., Eng.Sc.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Smith, William David, Ph.D., Philip Morris Professor of Crop Science, Crop Science
• Smith, William R., Ph.D., Associate Professor, Sociology and Anthropology
• Smoot, Jean Johannessen, Ph.D., Professor Emeritus of English, English
• Smyth, Thomas Jot, Ph.D., Professor, Soil Science
• Sneed, Ronald Ernest, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Snyder, Samuel S., Ph.D., Associate Professor, Psychology
• Snyder, Wesley Edwin, Ph.D., Professor, Electrical and Computer Engineering
• Solihin, Yan, PhD, Assistant Professor, Electrical and Computer Engineering
• Solomon, Daniel L., Ph.D., Professor, Statistics
• Sombers, Leslie A, PhD, Assistant Professor, Chemistry
• Sommerich, Carolyn M., Ph.D., Adjunct Associate Professor, Industrial Engineering
• Sonenshine, Daniel E., Ph.D., Adjunct Professor, Entomology
• Sood, Avneet, PhD, Adjunct Assistant Professor, Nuclear Engineering
• Sorensen, Kenneth Alan, Ph.D., Professor Emeriti, Entomology
• Sorenson, Clyde E., Ph.D., Professor, Entomology
• Soros, Marvin Stanley, Ph.D., Professor Emeritus of Political Science and Multidisciplinary Studies, Political Science and Public Administration
• Sorrell, Furman Yates Jr., Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Sosinski, Bryon R., Ph.D., Associate Professor, Horticultural Science
• Sosower, Mark L., Ph.D., Professor, Foreign Languages and Literatures
• Southern, Phillip Sterling, Ph.D., Professor Emeriti, Entomology
• Sowell, Robert Seago, Ph.D., Professor, Biological and Agricultural Engineering
• Spafford, Anne M., MLA, Assistant Professor, Horticultural Science
• Spayd, Sara E., Ph.D. Professor, Horticultural Science
• Spears, Janet Ferguson, Ph.D., Professor, Crop Science
• Spears, Jerry W., Ph.D., Professor, Animal Science
• Spencer, Stephanie Laine, Ph.D., Associate Professor, History
• Spiker, Steven L., Ph.D., Professor, Genetics
• Spires, Hiller Abernathy, Ph.D., Professor, Curriculum and Instruction
• Spivey, James J., Ph.D., Adjunct Professor, Chemical Engineering
• Spontak, Richard J., Ph.D., Professor, Chemical Engineering
• Spooner, Jean, PhD, Professor, Biological and Agricultural Engineering
• Sprinthall, Norman A., Ed.D., Professor Emeritus of Counselor Education, Curriculum and Instruction
• Spurr, Harvey Wesley Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• St. Amant, Robert A., Ph.D., Associate Professor, Computer Science
• Stadelmaier, Hans Heinrich, Dr.rer.nat, Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Stafford, Thomas H. Jr., Ph.D., Visiting Associate Professor, Educational Leadership and Policy Studies
• Stahl, Chad H., PhD, Associate Professor, Animal Science
• Stalker, Harold Thomas Jr., Ph.D., Professor, Crop Science
• Stallmann, Matthias Friedemann Martin, Ph.D., Professor, Computer Science
• Stam, Ephraim, Ph.D., Professor Emeritus of Nuclear Engineering, No Dept. Abbr
• Stanko, Michael A, PhD, Assistant Professor, Business Management
• Stape, Jose Luis, PhD, Associate Professor, Forestry
• Stark, Charles R., PhD, Assistant Professor, Poultry Science
• Starnes, Wayne C., Ph.D., Adjunct Assistant Professor, Zoology
• Steel, Robert George, Ph.D., Professor Emeritus of Statistics, Statistics
• Steele, Brooke N., PhD, Assistant Professor, Biomedical Engineering
• Steelman, Toddi A., Ph.D., Associate Professor, Forestry
- Steer, Michael B., Ph.D., Lampe Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
- Stefanski, Leonard A., Ph.D., Professor, Statistics
- Stein, Allen Frederick, Ph.D., Professor, English
- Stein, Sarah R., Ph.D., Associate Professor, Communication
- Stejskal, Edward O., Ph.D., Professor Emeritus of Chemistry, Chemistry
- Stephen, Roland F., Ph.D., Associate Professor, Political Science and Public Administration
- Stephenson, James L. Jr., PhD, Adjunct Associate Professor, Microbiology

• Tracy, Joseph B., PhD, Assistant Professor, Materials Science and Engineering
• Tran, Hien T., Ph.D., Professor, Mathematics
• Tredway, Lane, PhD, Assistant Professor, Plant Pathology
• Trew, Robert J., PhD, Alton and Mildred Lancaster Distinguished Professor, Electrical and Computer Engineering
• Triantaphyllou, Anastasios Christos, Ph.D., Professor Emeritus of Genetics, Genetics
• Triantaphyllou, Hedwig Hirschmann, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Troyer, James Richard, Ph.D., Professor Emeritus of Botany, Plant Biology
• Truong, Van-Den, PhD, Associate Professor, Food Science
• Truskey, George A., Ph.D., Adjunct Associate Professor, Mechanical and Aerospace Engineering
• Trussell, Henry Joel, Ph.D., Professor, Electrical and Computer Engineering
• Tsiatis, Anastasios A., Ph.D., Professor, Statistics
• Tsoulouhas, Theofanis C., Ph.D., Associate Professor, Economics
• Tsuji, Jun, PhD, Associate Professor, Toxicology
• Tsuji, Yoshiaki, PhD, Associate Professor, Toxicology
• Tsynkov, Semyon Victor, Ph.D., Associate Professor, Mathematics
• Tu, Juei Feng, PhD, Professor, Mechanical and Aerospace Engineering
• Tuck, James M. III, PhD, Assistant Professor, Electrical and Computer Engineering
• Tucker, Paul Arthur Jr., Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
• Tucker, William Preston, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Tung, Chi Chao, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Turinsky, Paul J., Ph.D., Professor, Nuclear Engineering
• Turner, James Edward, PhD, Assistant Professor, Animal Science
• Turner, Lynn Gilbert, Ph.D., Professor, Food Science
• Tyler, Beverly B., Ph.D., Associate Professor, Business Management
• Tyler, Richard E., PhD, Adjunct Assistant Professor, Curriculum and Instruction
• Tzeng, Jung-Ying, PhD, Assistant Professor, Statistics
• Uknes, Scott, PhD, Adjunct Assistant Professor, Genetics
• Ullrich, David Frederick, Ph.D., Associate Professor Emeritus, Mathematics
• Umbach, Paul, PhD, Associate Professor, Adult and Higher Education
• Underwood, Herbert A. Jr., Ph.D., Professor, Zoology
• Uni, Zehava, PhD, Adjunct Professor, Poultry Science
• Unrath, Claude Richard, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Upchurch, Robert Gregory, Ph.D., Associate Professor (USDA), Plant Pathology
• Uzsoy, Reha, PhD, Clifton A. Anderson Distinguished Professor, Industrial Engineering

• Vaden, Shelly L., Ph.D., Associate Professor, Department of Clinical Sciences
• Vahedi Tafreshi, Hooman, PhD, Visiting Assistant Professor, Textile and Apparel Management
• van der Vaart, Donald Robert, Ph.D., Adjunct Associate Professor, Civil Engineering
• van der Veer, Hendrick Willem, Ph.D., Adjunct Associate Professor, Zoology
• Van Der Wiele, Cynthia F., PhD, Adjunct Assistant Professor, Landscape Architecture
• Van Duyn, John Wey, Ph.D., Philip Morris Professor, Entomology
• Van Dyke, Cecil Gerald, Ph.D., Professor Emeritus of Botany and Plant Pathology, Plant Biology
• van Heugten, Eric, Ph.D., Associate Professor, Animal Science
• van Kempen, Theo A., Ph.D., Adjunct Professor, Animal Science
• van Zanten, John H., Ph.D., Visiting Assistant Professor, Chemical Engineering
• Van Zyl, Leonel, PhD, Adjunct Assistant Professor, Forestry
• Vandenberghe, John Garry, Ph.D., Professor Emeritus of Zoology, Zoology
• Vander Wall, William John, Ed.D., Assistant Professor Emeritus, Mathematics, Science, & Technology Education
• Vargo, Edward L., Ph.D., Associate Professor, Entomology
• Varnado, Terri E., PhD, Assistant Professor, Mathematics, Science, & Technology Education
• Vasu, Ellen Storey, Ph.D., Professor, Curriculum and Instruction
• Vasu, Michael Lee, Ph.D., Associate Professor, Political Science and Public Administration
• Vaughan, George B., Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
• Veal, Matthew W., PhD, Assistant Professor, Biological and Agricultural Engineering
• Velev, Orlin D., Ph.D, Professor, Chemical Engineering
• Venditti, Richard A., Ph.D., Associate Professor, Wood and Paper Science
• Vepraskas, Michael John, Ph.D., Professor, Soil Science
• Verghese, Kuruvilla, Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
• Veronesi, Paola, PhD, Assistant Professor, Plant Pathology
• Veronesi, Bellina, PhD, Adjunct Associate Professor, Toxicology
• Vickery, Kenneth Powers, Ph.D., Associate Professor, History
• Vilches, Elvira, PhD, Assistant Professor, Foreign Languages and Literatures
• Vincent, Kenneth Steven, Ph.D., Professor, History
• Viniotis, Ioannis, Ph.D., Professor, Electrical and Computer Engineering
• Volk, Richard James, Ph.D., Professor Emeritus of Soil Science, Soil Science
• von Haufen, Roger H., PhD, Assistant Professor, Economics
• Vouk, Mladen Alan Velimir, Ph.D., Professor, Computer Science
• Vukina, Tomislav, Ph.D., Professor, Economics

• Wade, Robert W, PhD, Assistant Professor, Parks, Recreation and Tourism Management
• Wages, Dennis P., D.V.M., Professor, Population Health & Pathobiology
• Wagger, Michael Gary, Ph.D., Professor, Soil Science
• Wahl, George Henry Jr., Ph.D., Professor, Chemistry
• Wahls, Harvey Edward, Ph.D., Professor Emeritus, Civil Engineering
• Waites, Cheryl, Ed.D., Associate Professor, Social Work
• Walden, Michael Leonard, Ph.D., William Neal Reynolds Professor of Agricultural and Resource Economics, Economics
• Waldvogel, Michael G., Ph.D., Assistant Professor, Entomology
• Walek, Mary Louise, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
• Walgenbach, James F., Ph.D., Professor, Entomology
• Walker, Glenn M., PhD, Assistant Professor, Biomedical Engineering
• Walker, John T., PhD, Adjunct Assistant Professor, Soil Science
• Walker, Mark D, PhD, Associate Professor, Business Management
• Wall, John Nelson Jr., Ph.D., Professor, English
• Wallace, Andrew, PhD, Assistant Professor, Toxicology
• Wallace, James Macauley III, Ph.D., Associate Professor, Sociology and Anthropology
• Walsh, Rebecca Anne, PhD, Assistant Professor, English
• Walter, William M. Jr., Ph.D., Professor Emeritus of Food Science, Food Science
• Wan, Jan-Ru, MFA, Assistant Professor, Art and Design
• Wang, Huixia (Judy), PhD, Assistant Professor, Statistics
• Wang, Lingjuan, PhD, Assistant Professor, Biological and Agricultural Engineering
• Wang, Wenyi, PhD, Associate Professor, Electrical and Computer Engineering
• Wang, Xiaogang, PhD, Adjunct Assistant Professor, Computer Science
• Ward, Donn R., Ph.D., Professor, Food Science
• Ware, Thomas, PhD, Assistant Professor, Mechanical and Aerospace Engineering
• Warr, Richard S, PhD, Associate Professor, Business Management
• Warren, Catherine A., Ph.D., Associate Professor, English
• Warren, Sarah Timberlake, D.F., Associate Professor, Multidisciplinary Studies
• Warsing, Donald, PhD, Assistant Professor, Business Management
• Waschka, Rodney A. II, D.M.A., Professor, Multidisciplinary Studies
• Washburn, Brian, PhD, Adjunct Assistant Professor, Forestry
• Washburn, Steven P., Ph.D., Professor, Animal Science
• Wasik, John Louis, Ed.D., Professor Emeritus of Statistics, Statistics
• Waters, Richard D, PhD, Assistant Professor, Communication
• Waters, William Meade Jr., Ph.D., Associate Professor Emeritus, Mathematics, Science, & Technology Education
• Watson, Benjamin Allen, PhD, Associate Professor, Computer Science
• Watson, David Wesley, Ph.D., Associate Professor, Entomology
• Watson, Gerald Francis, Ph.D., Associate Professor Emeritus of Marine, Earth and Atmospheric Science, Marine, Earth, and Atmospheric Sciences
• Watson, Larry Wayne, Ed.D., Associate Professor Emeritus of Mathematics, Science and Technology Education, Mathematics, Science, & Technology Education
• Wear, David N., Ph.D., Adjunct Professor, Forestry
• Weber, Jerome Bernard, Ph.D., Professor of Crop Science, Crop Science
• Wechsberg, Wendee M., PhD, Adjunct Associate Professor, Psychology
• Wechsler, Monroe S., Ph.D., Adjunct Professor, Nuclear Engineering
• Weed, Sterling Barg, Ph.D., Professor Emeritus of Soil Science, Soil Science
• Weeks, Willard Wesley, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Weems, Kimberly S., PhD, Assistant Professor, Statistics
• Wegmann, Karl, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Wehner, Todd Craig, Ph.D., Professor, Horticultural Science
• Wehring, Bernard W., PhD, Research Professor, Nuclear Engineering
• Weinhold, Paul S., PhD, Adjunct Associate Professor, Biomedical Engineering
• Weis, Ira R., PhD, Professor, Business Management
• Weissinger, Arthur K., Ph.D., Professor, Crop Science
• Weiss, P. Randall, Ph.D., Professor, Crop Science
• Welby, Charles William, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
• Welch, Milton Lamont, PhD, Assistant Professor, English
• Wellman, J. Douglas, Ph.D., Professor, Parks, Recreation and Tourism Management
• Wells, J. C., M.S., Professor Emeritus of Plant Pathology, Plant Pathology
• Wells, Janice Gross, PhD, Assistant Professor, Social Work
• Wells, Randy, Ph.D., Professor, Crop Science
• Welsch, Frank, Dr.Med.Vet, Adjunct Professor, Molecular Biomedical Sciences
Wenig, Robert Emery, Ph.D., Associate Professor Emeritus, Mathematics, Science, & Technology Education
Weninger, Keith R., PhD, Assistant Professor, Physics
Wentworth, Thomas Ralph, Ph.D., Professor, Plant Biology
Werner, Dennis James, Ph.D., Professor, Horticultural Science
Wernsman, Earl Allen, Ph.D., William Neal Reynolds Professor Emeritus, Crop Science
Wertz, Dennis William, Ph.D., Associate Professor Emeritus of Chemistry, Chemistry
Wesler, Oscar, Ph.D., Professor Emeritus of Statistics, Statistics
Wessels, Walter John, Ph.D., Professor, Economics
West, Harry Carter, Ph.D., Associate Professor Emeritus of English, English
West, Harvey A. II, PhD, Research Assistant Professor, Industrial Engineering
Westerman, Philip Wayne, Ph.D., Professor, Biological and Agricultural Engineering
Whang, Hyun Suk, PhD, Adjunct Assistant Professor, Textile Engineering, Chemistry, and Science
Whangbo, Myung Hwan, Ph.D., Professor, Chemistry
Wheatley, John H., Ph.D., Associate Professor, Mathematics, Science, & Technology Education
Wheeler, Elisabeth Anne, Ph.D., Professor Emeritus of Wood and Paper Science and Forestry, Wood and Paper Science
Wheeler, Mary Elizabeth, Ph.D., Professor Emeritus of History, History
Whetten, Ross W., Ph.D., Associate Professor, Forestry
Whipker, Brian E., Ph.D., Professor, Horticultural Science
Whisnant, Charles Scott, Ph.D., Associate Professor, Animal Science
Whitacre, Michael D., D.V.M., Associate Professor, Department of Clinical Sciences
Whitaker, Thomas Burton, Ph.D., Professor (USDA), Biological and Agricultural Engineering
White, Jeffery L., Ph.D., Associate Professor, Chemistry
White, Jeffrey G., Ph.D., Associate Professor, Soil Science
White, Mark W., Ph.D., Associate Professor, Electrical and Computer Engineering
White, Raymond Cyrus, Ph.D., Professor Emeritus of Chemistry, Chemistry
White, Robert Ernest, Ph.D., Professor, Mathematics
Whitfill, Craig E., PhD, Adjunct Associate Professor, Poultry Science
Whitlow, Lon Weidner, Ph.D., Professor, Animal Science
Whitten, Jerry Lynn, Ph.D., Professor, Chemistry
Wiebe, Eric N., Ph.D., Associate Professor, Mathematics, Science, & Technology Education
Wiegmann, Brian Michael, Ph.D., Professor, Entomology
Wieland, Bruce W., Ph.D., Adjunct Associate Professor, Nuclear Engineering
Wiener, Russell W., Ph.D., Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
Wiessner, Colleen Aalsburg, EdD, Assistant Professor, Adult and Higher Education
Wiley, Stephen B., Ph.D., Associate Professor, Communication
Wilk, John Clark, Ph.D., Professor Emeritus of Animal Science, Animal Science
Williams, Billy M. Jr., PhD, Associate Professor, Civil Engineering
Williams, C. Michael, Ph.D., Professor, Poultry Science
Williams, Christopher J., PhD, Adjunct Associate Professor, Poultry Science
Williams, Cranos M, PhD, Assistant Professor, Electrical and Computer Engineering
Williams, James Oliver, Ph.D., Professor, Political Science and Public Administration
Williams, Laurel E., DVM, Assistant Professor, Veterinary Medicine
Williams, Laurie Ann, Ph.D., Associate Professor, Computer Science
Williams, Linda R., MSW, Associate Professor, Social Work
Williams, Mary Cameron, Ph.D., Professor Emeritus of English, English
Williams, Paul F., Ph.D., Professor, Accounting
Williams, Porter Jr., M.A., Professor Emeritus of English, English
Williams, Saundra Wall, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
Williamson, John D., PhD, Associate Professor, Horticultural Science
Willits, Daniel Hoover, Ph.D., Professor, Biological and Agricultural Engineering
Wilson, Elizabeth Bundy, Ed.D., Associate Professor, Agricultural and Extension Education
Wilson, James Reed, Ph.D., Professor, Industrial Engineering
• Wilson, John M., PhD, Research Assistant Professor, Electrical and Computer Engineering
• Wilson, Lorenzo George, Ph.D., Professor, Horticultural Science
• Wilson, Mark Alan, Ph.D., Associate Professor, Psychology
• Wilson, Richard Ferrol, Ph.D., Professor (USDA), Crop Science
• Wimberley, Ronald Coleman, Ph.D., William Neal Reynolds Professor, Sociology and Anthropology
• Winchester, Samuel C. Jr., Ph.D., Klopman Distinguished Professor Emeritus, Textile and Apparel Management
• Wineland, Michael J., Ph.D., Professor, Poultry Science
• Winner, William E., PhD, Professor, Forestry
• Winstead, Nash Nicks, Ph.D., Professor Emeritus of Plant Pathology and Provost and Vice Chancellor Emeritus, Plant Pathology
• Winston, Hubert, Ph.D., Associate Professor Emeritus of Chemical Engineering, Chemical Engineering
• Wise, Farrell C., Ph.D., Adjunct Assistant Professor, Horticultural Science
• Wise, George Herman, Ph.D., Professor Emeritus of Animal Science, Animal Science
• Wiseman, Angela, PhD, Assistant Professor, Elementary Education
• Wiser, Edward Hempstead, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Wisby, Bernard W., Ph.D., Professor Emeritus of History, History
• Witt Frese, Mary Ann, Ph.D., Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literatures
• Wogalter, Michael S., Ph.D., Associate Professor, Psychology
• Wohlgemant, Michael K., Ph.D., William Neal Reynolds Professor, Economics
• Wolcott, Donna Lee Riley, Ph.D., Associate Professor Emeritus, Marine, Earth, and Atmospheric Sciences
• Wolcott, Thomas G., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Wolfe, Barbara, PhD, Adjunct Assistant Professor, Veterinary Medicine
• Wolfinger, Russell D., PhD, Adjunct Professor, Statistics
• Woldford, Tonya, PhD, Assistant Professor, Foreign Languages and Literatures
• Wolfram, Walter Andrew, Ph.D., William C. Friday Distinguished Professor and Interim Department Head of English, English
• Wollenzien, Paul L., Ph.D., Professor, Biochemistry
• Wollum, Arthur George II, Ph.D., Professor Emeritus of Soil Science, Soil Science
• Woodard, Roger, PhD, Research Assistant Professor, Statistics
• Woodrum, Eric M., Ph.D., Professor, Sociology and Anthropology
• Woolard, Dwight L., PhD, Adjunct Professor, Electrical and Computer Engineering
• Wormsley, William, PhD, Associate Professor, Sociology and Anthropology
• Worsham, Arch Douglas, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Wortman, Jimmie Jack, Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Wossink, Grada A., Ph.D., Professor, Economics
• Wright, Charles Gerald, Ph.D., Professor Emeritus of Entomology, Entomology
• Wright, R. Lorraine, Ph.D., Associate Professor, Accounting
• Wu, Fen, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Wu, Justin Y.-T., PhD, Adjunct Professor, Mechanical and Aerospace Engineering
• Wu, Yichao, PhD, Assistant Professor, Statistics
• Wurman, Peter R., Ph.D., Adjunct Professor, Computer Science
• Wust, Valerie, PhD, Assistant Professor, Foreign Languages and Literatures
• Wyer, Mary Beth, Ph.D., Associate Professor, Psychology
• Wynne, Johnny Calvin, Ph.D., Professor, Crop Science
• Wynne, Randolph H., PhD, Adjunct Associate Professor, Forestry
• Wyrick, Deborah Baker, Ph.D., Associate Professor, English
• Xi, Lin, PhD, Research Assistant Professor, Animal Science
• Xia, Xin-Rui, PhD, Research Assistant Professor, Veterinary Medicine
• Xiang, Qiu-Yun (Jenny), Ph.D., Associate Professor, Plant Biology
• Xie, Deyu, PhD, Assistant Professor, Plant Biology
• Xie, Lian, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Xie, Tao, PhD, Assistant Professor, Computer Science

• Yamamoto, Yuri Takeshima, Ph.D., Research Assistant Professor, Forestry
• Yelverton, Fred Hinnant, Ph.D., Professor, Crop Science
• Yencho, George Craig, Ph.D., Associate Professor, Horticultural Science
• Yim, Man-Sung S., Ph.D., Associate Professor, Nuclear Engineering
• Yingling, Yaroslava G., PhD, Assistant Professor, Materials Science and Engineering
• Yoder, Jeffrey, PHD, Assistant Professor, Molecular Biomedical Sciences
• York, Alan Clarence, Ph.D., William Neal Reynolds Professor of Crop Science, Crop Science
• Young, Albert R., Ph.D., Professor, Physics
• Young, Carl A., PhD, Assistant Professor, Curriculum and Instruction
• Young, Eric, Ph.D., Professor, Horticultural Science
• Young, Gregory S., Ph.D., Associate Professor, Business Management
• Young, James Herbert, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Young, Robert E., Ph.D., Professor, Industrial Engineering
• Young, Robert Michael, Ph.D., Associate Professor, Computer Science
• Young, Robert Vaughan Jr., Ph.D., Professor, English
• Young, Sidney Stanley, Ph.D., Adjunct Professor, Statistics
• Young, Tamara V., PhD, Assistant Professor, Educational Leadership and Policy Studies
• Youssef, Mohamed, PhD, Assistant Professor, Biological and Agricultural Engineering
• Yu, Donna Ginger, Ph.D., Assistant Professor, Electrical and Computer Engineering
• Yu, Jie, PhD, Assistant Professor, Civil Engineering
• Yu, Ting, PhD, Assistant Professor, Computer Science
• Yuan, Fuh-Gwo, Ph.D., Professor, Mechanical and Aerospace Engineering
• Yuter, Sandra, PhD, Associate Professor, Marine, Earth, and Atmospheric Sciences
• Zagacki, Ken, PhD, Professor, Communication
• Zahn, Margaret A., Ph.D., Professor, Sociology and Anthropology
• Zavada, John, PhD, Adjunct Assistant Professor, Electrical and Computer Engineering
• Zeldin, Darryl C., MD, Adjunct Professor, Toxicology
• Zeng, Zhaobang, Ph.D., William Neal Reynolds Professor, Statistics
• Zenkov, Dmitry, PhD, Associate Professor, Mathematics
• Zering, Kelly Douglas, Ph.D., Associate Professor, Economics
• Zhang, Daowen, Ph.D., Associate Professor, Statistics
• Zhang, Hao, PhD, Assistant Professor, Statistics
• Zhang, Xiangwu, PhD, Assistant Professor, Textile Engineering, Chemistry, and Science
• Zhang, Yang, PhD, Associate Professor, Marine, Earth, and Atmospheric Sciences
• Zhang, Zhe, PhD, Research Associate Professor, Mechanical and Aerospace Engineering
• Zhao, Jing, PhD, Assistant Professor, Business Management
• Zheng, Xiaoyong, PhD, Assistant Professor, Economics
• Zhimov, Victor V., PhD, Adjunct Associate Professor, Materials Science and Engineering
• Zhu, Yong, PhD, Assistant Professor, Mechanical and Aerospace Engineering
• Zhu, Yuntian T., PhD, Associate Professor, Materials Science and Engineering
• Zia, Paul Zung-Teh, Ph.D., Professor Emeritus, Civil Engineering
• Zikry, Mohammed A., Ph.D., Professor, Mechanical and Aerospace Engineering
• Zimmer, Catherine Roberts, Ph.D., Adjunct Associate Professor, Sociology and Anthropology
• Zobel, Bruce John, Ph.D., Professor Emeritus of Forestry, Forestry
• Zonderman, David A., Ph.D., Associate Professor, History
• Zorner, Paul Steffen, Ph.D., Adjunct Professor, Horticultural Science
• Zorowski, Carl Frank, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Zublena, Joseph P., Ph.D., Professor, No Dept. Abbr
• Zuckerman, Gilroy Joel, Ph.D., Associate Professor, Accounting
• Zuiches, James J., PhD, Professor, Sociology and Anthropology

NC State Policies

North Carolina State University is committed to academic integrity, and all students are required to adhere to the NC State Code of Student Conduct. Individual policies on conduct, including those listed below, are posted on University Policies, Regulations, and Rules (PRRs).

University Patent Procedures
Grievance Procedures for Graduate Students
Code of Student Conduct
Academic Integrity
Policy on Illegal Drugs
Sexual Harassment Policy
Racial Harassment Policy
University Copyright Procedures

Equal Opportunity and Non-Discrimination

It is the policy of the State of North Carolina to provide equality of opportunity in education and employment for all students and employees. Accordingly, the university does not practice or condone unlawful discrimination in any form against students, employees or applicants on the basis of race, color, religion, creed, sex, national origin, age, disability or veteran status. Nor does the university allow discrimination on the basis of sexual orientation with respect to internal university matters that do not contravene federal or state law and that do not interfere with the University’s relationships with outside organizations, including the federal government, the military, ROTC, and private employers. [NOTE: The NC State University equal opportunity and nondiscrimination policy includes transsexual individuals within the policy’s prohibitions against discrimination on the basis of sex. This includes actual or perceived gender identity and gender expression. See Price Waterhouse v. Hopkins, 490 U.S. 228 (1989); Smith v. City of Salem, 378 F.3d 566 (6th Circ. 2004).] Retaliation against any person complaining of discrimination is in violation of federal and state law and North Carolina State University policy, and will not be tolerated.

Unlawful Harassment

Harassment based upon race, color, religion, creed, sex, national origin, veteran status, age, or disability is a form of discrimination in violation of federal and state law and North Carolina State University policy and will not be tolerated. It is the internal policy of North Carolina State University to prohibit harassment on the basis of sexual orientation. Retaliation against any person complaining of harassment is in violation of federal and state law and North Carolina State University policy, and will not be tolerated. North Carolina State University will respond promptly to all complaints of harassment and retaliation. Violation of this policy can result in serious disciplinary action up to and including expulsion for students or discharge for employees.

Every individual is encouraged, and should feel free, to seek assistance, information and guidance from his/her supervisor, the Office for Equal Opportunity, the Office of Student Conduct or the Employees Relations section of Human Resources. For additional information, contact: Office for Equal Opportunity, 1 Holladay Hall, Box 7530, North Carolina State University, Raleigh, NC 27695-7530, Phone: (919) 513-1234 or 515-3148.

Disability Services Office

Individuals desiring reasonable accommodations for their documented disabilities should contact the Disability Services Office (DSO), Suite 1900, Student Health Center, 2815 Cates Avenue, (919) 515-7653 (Voice), (919) 515-8830 (TTY). Services and accommodations are provided based on an individual's documented needs and are determined in consultation with the individual and a DSO representative. For students, such requests should be made far in advance of registration deadlines to ensure timely services and accommodations. DSO will maintain appropriate confidentiality of records and communication regarding disability.
Other Resources

The following resources are not only essential components of graduate education at NC State, but can also enhance the graduate experience. Each college has a wealth of material about their specific facilities. Additional information is also available in the New Student Survival Guide.
