

Accelerate to Industry™

FOUNDED BY THE NC STATE UNIVERSITY GRADUATE SCHOOL

Industry Company Site Visit

The Accelerate to Industry™ Company Site Visit module

This module offers industry companies a unique opportunity to work with the NC State Graduate School to recruit from the NC State graduate and postdoc population.

What makes this opportunity unique?

- We selectively recruit graduate and postdoctoral researchers in response to each company's specific recruitment needs. Our recruitment methods ensure that the participating students and postdocs are individuals who desire to build a career with the respective company.
 - We work with each company to tailor an agenda for the visit to the company's needs and resources.
 - We prepare biographical sketches and resumes for each graduate student and postdoctoral participant for the company's review prior to the site visit.
 - We work with company staff to coordinate on-campus or on-site interviewing, if desired.
- 
- Site visits can be held at NC State University or at an off-campus company site.
 - If the visit is held at an off-campus company site, we coordinate transportation of the graduate and postdoctoral attendees to the company's location.
 - If the visit is held at NC State, then we will facilitate and manage all features that support the visit agenda, including locations and communications with NC State students and postdocs, faculty, and
