

3.4 Time Limits

- A. [Master's Degrees](#)
- B. [Doctoral Degrees](#)
- C. [Exceptions to Time Limits](#)

A. Master's Degrees

Students must complete all requirements for the master's degree within six calendar years, from the date the student commences courses carrying graduate credit applicable to the degree program either at NC State or another institution. The time limit remains at six years even if a student was on approved leave of absence during the six-year period. The student's degree clock for time to completion starts with the first course approved for inclusion in the plan of work or the date of admission to the program, whichever comes first.

B. Doctoral Degrees

All doctoral students must attain candidacy for the degree within six calendar years from the date of admission and complete all degree requirements within ten calendar years. The time limit remains at ten years even if a student was on approved leave of absence during the ten-year period. The student's degree clock for time-to-completion starts with the first course approved for inclusion in the Plan of Work or the date of admission to the program, whichever occurred earlier. Academic colleges/schools or programs may have more restrictive requirements than the above stated University policy.

C. Time-Limit Extensions

The Graduate School may grant exception to the above time limits for a period of up to two years. The Dean will consider and evaluate the specific nature of the extenuating circumstances, the compelling reasons that prompted the advisor and DGP to make the request, the impact the proposed extension would have on the validity of coursework and research, as well as a detailed timeline outlining how and when various degree requirements completed, (ADD LINK TO FORM).

Following an initial review by the Graduate School to determine if a request beyond two years should go forward, such appeals must be presented to the Administrative Board of the Graduate School by the student and his/her advisor. That body will render decision as to whether or not the request should be granted.
