## Admissions

GRE Changes: ETS sent notification that they will be shortening the length of the GRE exam from four hours to two hours for test takers. This means that there will be some differences to the design of the exam. These changes are not yet published, but you may reach out to [Lindsay Gentile](#) if you would like a copy of the email from ETS.

Application Deadlines and Faculty Reviewers:

Please review your application deadline(s) listed on the Graduate School's [programs page](#), and on your department websites. If you are changing your deadlines, please notify Lindsay Gentile to update Slate.

This summer, please review your list of faculty who have access to review admissions applications in Slate. You should remove any who no longer need access and add those who are missing. Login to the MyPack Portal, navigate to the Student Information System, click on the Admissions tile, then click Admissions Program Security. Hit the search button to see all programs in your security access, choose one if there are multiple. You should see your list of faculty reviewers; use the +/- buttons to add/remove reviewers. An overnight process will update Slate.
