- Schedule for fall 2024 term published

March 11-15

- Spring break - no classes

March 20

- Registration required ETD review deadline
- Apply to graduate deadline for spring 2024

Slate Sharing: A Bi-Monthly Meeting for Graduate Programs

This is an opportunity for DGPs, GSCs, and graduate program staff to meet and hear from others on how they support and enhance the prospect, applicant, and admissions experience through Slate. The Graduate School will host our next Slate Sharing meeting on Thursday, February 22nd at 11:00 AM via zoom. This session was previously presented in November and will be an encore presentation of that same session. Valerie Schwartz, Head of Admissions for the Advanced Analytics graduate program will show us how the Analytics program is reviewing applications and using reader rubrics in Slate. [Register](#) to attend Slate Sharing.

Degree Audit update - Please review your catalog copy!

Our goal is to switch all remaining programs from the Plan of Work to the degree audit this calendar year, with as many as possible after graduation this spring. To help us in this effort, please review your [catalog copy](#) as soon as possible and request any necessary changes in [CIM](#). The degree audits are built based on the curriculum in the catalog, so it is important to review your catalog copy now if your program is not yet on the degree audit. As we confirm curriculum with departments, we are conducting degree audit demo sessions via Zoom; there are also instructional pages for [students](#) and [DGPs/GSCs](#) on our website. Thank you in advance for your assistance!

SIS Refresher Training

If you're a newer DGP or GSC and would like a refresher on SIS functions, join us for a Zoom session on Wednesday, March 6 at 1 pm! This session will cover timely topics and actions related to enrollment and graduation.

To keep the session concise (30-60 minutes), we won't be delving deep into SIS functions. Instead, it will serve as a reminder of the essential actions you'll need to take and where to find them in SIS.

Please register for the session using [this form](#). A Zoom link will be sent to all registered participants before the session.

Query Library

The [Query Library page](#) on the Graduate School Website provides a list of popular queries used by DGPs and GSCs. Please search this page for appropriate queries prior to making a data request. If you need specific data you can complete the [data request form](#).
